Mars Hill University reserves the right to add or drop programs and courses, to institute new requirements, and to change its calendar. Inclusion in this catalog, therefore, does not constitute a guarantee that a particular course or program will be offered or that a requirement or policy may not be modified. The University will attempt to minimize the inconvenience to students, should changes be necessary.
Nondiscrimination Policy

Mars Hill University seeks to have a diverse student body as well as a diverse faculty and staff. To this end, Mars Hill University admits students of any race, color, national, and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, national, and ethnic origin in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.

In addition, Mars Hill University hires faculty and staff of any race, color, national, and ethnic origin as to expand diversity in teaching and administration of the University.

About the University

The physical campus of Mars Hill University is an eclectic blend of the old and the new, the traditional and the modern. That diverse mixture, so obvious at first glance, provides insight into the institution itself. The programs described in this catalog also reflect the merging of the traditional and the contemporary. At Mars Hill University, we are conscious of both the enduring core values of our heritage and the demands of the twenty-first century.

The old symbolically represents the rich 157-year heritage of Mars Hill University and its tradition of serving thousands of young people from throughout North Carolina, the United States, and the world. The traditional also points to the strong emphasis, throughout our existence, on providing students a broad liberal arts education which includes academic skills and knowledge that have been valued for centuries; and we celebrate our Baptist roots as part of our long commitment to education in a Christian context.

The new, the modern, symbolically represents the commitment of Mars Hill to offering the kind of education that will make our students aware of the practical benefits of the knowledge and skills provided by a liberal arts education. It also speaks of our continuing efforts to consider the needs of the community and of society in our programs, our facilities, and our technology.

In the fusing of the traditional and the modern, Mars Hill University asserts that we value, cultivate, and build on a rich heritage of liberal arts education; and we strive to give our students the skills and knowledge they will need to adapt to and function well in the rapidly changing world which they will enter. We intend to empower our graduates for service and leadership within their chosen vocations.

Our Mountain Home

Mars Hill University is located in one of the most beautiful and healthful regions of the eastern United States, the mountains of western North Carolina. The town of Mars Hill, which derives its name from the University, has a population of about 1,700. It is 18 miles north of Asheville (via Interstate 26), which is the largest city in the western third of the state with a population of approximately 70,400. Asheville has the sophisticated attractions of a major urban center, and is known for its quality arts, crafts, and music offerings. Its annual Bele Chere festival each summer draws about 300,000 people. The campus is 10 miles east of Marshall, the county seat of Madison County.

From the 194-acre campus, which has an elevation of 2,330 feet, an inspiring panorama of lofty peaks is visible, including the Craggy Mountains, the Black Mountains and the iconic Bailey Mountain, which plays a role in historic lore of the university. Such scenic attractions as Mount Mitchell, Clingman’s Dome, Great Smoky Mountains National Park, Craggy Gardens, Linville Falls and Cavern, Biltmore House and Gardens, Big Bald Mountain, and the Blue Ridge Parkway are within easy driving distance.

Located in a small town surrounded by mountains, rivers, woods and all the outdoor activities they offer, the University’s environment offers ample opportunity for study and reflection. In this place a student can find guidance and develop skills and inspiration for a successful life.
Mission & Religious Identity Statements

Mission Statement
Mars Hill University, an academic community rooted in the Christian faith, challenges and equips students to pursue intellectual, spiritual, and personal growth that is:

- grounded in a rigorous study of the Liberal Arts,
- connected with the world of work, and
- committed to character development, to service, and to responsible citizenship in the community, the region, and the world

Religious Identity Statement

Mars Hill University, an academic community rooted in the Christian faith...

“Paul stood up in the midst of Mars Hill and said: ‘People of Athens, I see that you are very religious.’” Acts 17:22

Mars Hill University is a place where faith and reason meet, where students, faculty and staff explore questions of faith reasonably in the spirit of Christ-like compassion and respect. While Mars Hill is not a church, our roots are Christian and our heritage is Baptist. We encourage students, faculty, staff, administrators, trustees and alumni in their practice and expression of faith. We honor the variety of denominations, faith traditions, worship practices, theological persuasions and spiritual disciplines represented among our constituencies.

...challenges and equips students to pursue intellectual, spiritual, and personal growth...

“The most important commandment,” answered Jesus, “is this...Love the Lord your God with all your heart and with all your soul and with all your mind and with all your strength.” Mark 12:28–30

At Mars Hill, we see that developing knowledge, values, and skills are integral ways of loving God and following what Jesus called the greatest commandment. Pursuing intellectual growth—developing knowledge—is critical to loving God with all your mind. Pursuing spiritual growth—deepening values—is critical to loving God with all your heart and soul. And pursuing personal growth—strengthening skills for life and work—is critical to loving God with all your strength.

...through an education that is grounded in a rigorous study of the liberal arts...

“You shall know the truth, and the truth shall make you free.” John 8:32

“Liberal arts” comes from a Latin phrase meaning the arts suitable and necessary for free people to govern themselves. The liberal arts at Mars Hill are rooted in freedom—freedom to explore critical questions of life from different perspectives in the pursuit of truth. Our Baptist heritage strongly emphasizes religious liberty, expressed as the freedom and autonomy of persons and churches in a free state. This heritage nurtures our practice of academic freedom. We recognize that any form of coercive dogmatism claiming to have the only correct version of truth, imposing that view on others, and restricting freedom of inquiry is incompatible with the way we experience the liberal arts and Christian higher education at Mars Hill.

...connected to the world of work...

“I urge you to live a life worthy of the calling you have received.” Ephesians 4:1

The idea of vocation, or calling, is central to Mars Hill’s mission, God gifts people with a wide variety of abilities and interests and calls them to employ their gifts across the spectrum of professions: ministry, law, medicine, education, business, social work, etc. We want our graduates to find worthwhile work and distinguish themselves in every field by doing good (ethical work—making a life) and doing well (successful work—making a living).
...and committed to character development, to service, and to responsible citizenship in the community, the region, and the world.

“There are different kinds of service...[and] varieties of working, but it is the same God who inspires them all in every one. To each is given the manifestation of the Spirit for the common good.” I Corinthians 12:5–7

At Mars Hill, we balance the freedom inherent in a liberal arts education with responsibility. We challenge our students to become “response-able,” prepared to respond to the difficult challenges of the 21st century with core commitments and activities that serve the common good. We want our graduates to value civic engagement, to be the kind of people who live out their faith commitments in every arena and spend their lives making a positive difference in their homes, in their workplaces, in their communities, and in their world.

Mars Hill’s religious identity will never be fully answered through a simple written statement, but will continually emerge through an ongoing dialogue among members of the Mars Hill family. It represents our best understanding of who we are, relative to our Christian roots, and it is an invitation to all members of the Mars Hill community—alumni, trustees, faculty, staff, students and prospective students—to join us as we seek to fulfill our mission.
History of the University

Mars Hill University is the oldest educational institution on its original site in western North Carolina. It was founded by a small group of pioneer citizens, descendents of the original settlers of the area, who wanted to provide an education for their children based on Baptist principles of the Christian faith. They erected a modest building on a tract of land given by Edward Carter. Most of the work was done by voluntary labor; some was performed by an Asheville contractor.

The school opened in the fall of 1856 as the French Broad Baptist Academy, taking its name from the association of churches in which it was located. The first president was W. A. G. Brown. He was succeeded in 1858 by the Rev. J. B. Marsh of Binghamton, NY, who served until the outbreak of the Civil War in 1861.

On February 16, 1859, the school was chartered by the North Carolina General Assembly as Mars Hill University, a name suggested by trustee Lewis Palmer (1791–1874) based on scripture from the Bible’s Acts 17:22, “Then Paul stood in the midst of Mars Hill . . .” The charter gave the college power to confer “all such degrees and marks of literary distinction as are usually conferred in colleges or seminaries of learning.”

During the first two years of the Civil War, the school remained in operation, but it was closed from 1863 until 1865. After the war the institution was kept alive by the heroic efforts of local men and women. Fourteen men filled the presidency during the next 32 years.

The election of Dr. R. L. Moore as president in 1897 was, in a sense, a second founding. Under his leadership the college grew continuously, its assets multiplied, and its character as an institution of higher education was firmly established.

During most of its early history the college was operated as an academy or boarding high school, but it did offer some college-level courses. In 1921 it was reorganized as a junior college and became a successful pioneer in that field.

In 1938, after 41 years of distinctive service, Dr. Moore retired from the presidency. A scholarly member of the faculty, Dr. Hoyt Blackwell, was unanimously selected as his successor. Under Dr. Blackwell’s leadership the progress of the school continued. High standards were maintained, facilities were expanded and improved, and the curriculum was revised.

In 1960 the Baptist State Convention approved plans for converting Mars Hill into a senior college. The junior year was added in 1962–63, and the first baccalaureate degrees were awarded in May 1964.

After 28 years of distinguished service as president Dr. Blackwell retired; and on July 1, 1966, he was succeeded by Dr. Fred Blake Bentley, at that time the youngest college president in the nation. Taking “Emphasis on Excellence” as the creed of his administration, he guided Mars Hill to accreditation as a senior college, led faculty development and curriculum innovation, and fostered numerous other educational and physical advances. After almost 30 years in the presidency, he retired in February 1996. In March, 1996, Dr. A. Max Lennon (Class of 1960) returned to Mars Hill University as President, and served until January, 2002.

The Mars Hill University Board of Trustees named Dan G. Lunsford (Class of 1969) as Interim President in January 2002. Then Dean of the School of Education and Leadership, Dr. Lunsford had earned his B.A. in Elementary Education from Mars Hill, and a M. A. and Ed.D. in Education Administration from the University of North Carolina-Chapel Hill. After a long career in public education Lunsford had returned to Mars Hill in 1998.

In May 2003, the trustees affirmed Dr. Lunsford’s leadership by naming him President of the college. Under President Lunsford’s leadership, the college has completed its first ever comprehensive capital fundraising campaign; new buildings have been built (including the Bailey Mountain Residential Apartments and Ferguson Math and Science Center), programs have been enhanced; student activities have been expanded.

The last two years have seen historic developments. In 2011, the institution’s first graduate level program, the Master of Education, was added. In January 2013, Mars Hill opened its South Asheville location on Airport Road, which is coordinated through the Adult and Graduate Studies Program. On August 15, 2013, Mars Hill University officially became Mars Hill University. More graduate programs are currently under consideration.

From this rich history, Mars Hill University looks forward to a bright future, as the premier private liberal arts university in the region.

Admissions

Mars Hill University offers admission to all qualified applicants. However, early submission of all required documents is encouraged to ensure timely processing and financial aid counseling. Admission decisions are made on a rolling basis, usually within one week of the receipt of a complete application. Further, all rights generally accorded to students are made without regard to race, color, religion, national or ethnic origin, sex or impairment of the student. The university affirms its intent to comply with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, Title IX, and other relevant civil rights laws.

Campus Visits

All students interested in attending Mars Hill University are strongly encouraged to attend a campus visit. The visit will allow the student to meet faculty, admissions and financial aid staff, and take a campus tour. Contact the admissions office at admissions@mhu.edu or call 1-828-689-1201.

Freshmen

Candidates must submit:

- Application for Admission
- $25 application fee (unless using a fee waiver code or fee waived application)
- Official high school transcript
- SAT or ACT scores
- Recommendation letters and personal essays are optional.

Applicants are strongly encouraged to complete a minimum of 18 units with C average or better on college preparatory units. Such units should include:

- 4 English
- 2 History
- 2 Natural Science
- 3 Mathematics
- It is recommended that the balance include 2 Foreign Language and/or 1 Computer Science unit

An official final transcript certifying high school graduation must be submitted prior to the first day of class. Failure to submit final official transcripts will result in the suspension of financial aid.

The General Equivalency Diploma (GED) is acceptable certification of diploma. However, the official incomplete high school transcript must be submitted in addition to the GED.

Early College/Dual Enrollment/AP Courses

High School students that are enrolled in college courses through early college, middle college, or dual enrollment programs must submit official college transcripts to be evaluated for transfer credit. Students who take AP tests must submit official College Board test scores to be evaluated for transfer credit.

Transfer Students

Candidates must submit:

- Application for Admission
- $25 application fee (unless using a fee waiver code or fee waived application)
- Official Final High School Transcript
- SAT or ACT scores (these may be waived if 24 or more transferable semester hours have been earned, or on a case by case basis if the student is 21 years old or older, or has been in active military duty.)
- Official College transcripts from all previous institutions
All official final college transcripts must be submitted prior to the first day of class. Failure to submit final official transcripts will impact financial aid.

Transcript evaluations are completed by the Registrar. Credit is granted on a course-to-course basis and all transferable credits, including grades and quality points, will be entered on the student’s transcript.

Transcripts from institutions not accredited by a regional accrediting agency will be evaluated on a course-to-course basis when the student submits the course descriptions, course syllabi, and faculty credentials. The Registrar, in cooperation with the department chairpersons, will determine credit to be granted.

Although a student may transfer more than 68 hours of credit from a community college, he/she must complete 60 semester hours at the senior college (4-year) level. In order to receive a degree from Mars Hill University a student must earn the last 25% of the required semester hours at Mars Hill (12 hours in the major) with at least a cumulative 2.0 grade point average.

**Transfer Credits under the North Carolina Comprehensive Articulation Agreement**

Mars Hill University participates in the North Carolina Comprehensive Articulation Agreement which provides for transfer of credits from the North Carolina Community Colleges. Students who have completed the 44 hour core curriculum in a college transfer program, as outlined in the CAA, and apply to study any major at Mars Hill University will receive general education core credit for their credits from a North Carolina Community College. Students completing the associate degree (AA, AS, and AFA) will enter Mars Hill with junior classification, and most majors can be completed within two years. Some professional programs may require additional semesters of study. The Associate of Applied Science programs are not part of the CAA and those courses will be evaluated on a course to course transfer basis.

**International Students**

Any student who has not established legal residency in the Unites States is considered an international student for admission purposes. Such candidates must submit the following information to the Admissions Office for consideration:

- Application for Admission
- $25 application fee (unless using a fee waiver code or fee waived application)
- Two letters of recommendation from individuals who can attest to academic ability and personal character
- Official transcripts from previous or current institutions (translated into English)
- SAT, ACT, or TOEFL scores (all three are not required, but SAT/ACT scores must be submitted to be considered for academic grants and scholarships unless a student is transferring in at least 24 college credits.)
- National examination results, such as A levels (United Kingdom), Baccalaureate (France), if applicable
- A financial statement certifying the student’s ability to meet University and personal expenses
- Official documentation from banks and/or corporate sponsors or government ministry verifying financial ability to meet the costs of education for one year

Admission decisions are made on a rolling basis. However, it is strongly recommended that international students have their completed applications submitted early to allow for 1-20 processing.

A comprehensive orientation to the university as well as academic and personal counseling is specially prepared for international students. Mars Hill University has limited financial aid for international students. Further inquiry concerning international students may be directed to the Admissions Office.

**Readmission**

Students seeking readmission must apply for readmission through the Admissions Office. Students may be reviewed in these areas: Medical, Academic, Student Life, and Business Office.
Readmission After Medical Withdrawal

Students who withdraw from Mars Hill University for any reason must apply for readmission through the Admissions Office. Students who receive a medical withdrawal from Mars Hill University may be eligible for readmission after a full semester or summer term away, and with the recommendation from the attending treatment provider. Medical documentation must include the recommendation that the student’s condition has improved to the point that he/she is able to effectively resume enrollment at the university. Medical clearance by the University Medical Director or Director of Counseling is required before readmission is approved. Please see Student Handbook for specific documentation requirements for readmission and for questions and appeals procedures. All final official transcripts from other institutions attended during this absence must be submitted to the Admissions Office. Further, students who discontinue their enrollment for one year or more will be under the requirements of the catalog in effect at the time of readmission.

Generally a student’s catalog of entry is considered his/her catalog for general education, major, and minor requirements as long as he/she is continuously enrolled full-time. However, when significant general education, major, or minor requirements change, the student may be required (or may choose) to complete the requirements, with appropriate substitutions, in a subsequent catalog. Full-time or part-time students not completing a degree within six years may be required to complete current catalog requirements.

Readmission After Academic Probation or Suspension

Students who leave Mars Hill University while on academic probation, or who have been suspended for academic reasons may be accepted for probationary readmission if they have attended another accredited institution and raised their cumulative grade point average to that required for academic good standing for their classification upon readmission.

In exceptional cases, the Admissions, Academic Standards and Financial Aid Committee may vote to readmit a student who does not qualify under the previous conditions, if, and only if:

1. It is possible for the student to attain good standing within one semester of readmission without taking an overload and
2. The student’s previous academic record at Mars Hill University gives strong indication that the requisite grades to attain good standing will be attained.

Students who have been granted probational readmission will be evaluated at the end of the semester by the committee to verify satisfactory academic progress as outlined in the Financial Aid Information section of the course catalog.

A student may not be readmitted to Mars Hill University if he/she has been suspended for academic reasons more than three times, unless approved to do so by the Admissions, Academic Standards and Financial Aid Committee.

Dual Enrollment

High school juniors or seniors, or equivalent status, who wish to take classes at Mars Hill University under dual enrollment may do so if they submit the following:

• An application for admission to Mars Hill University
• A letter of recommendation from both a guidance counselor and a high school principal, (homeschooled students may omit this section)
• A copy of high school transcripts that show they are in good academic standing

Any student who chooses to take a physical education class and/or 4 semester hours or more at Mars Hill University must also submit a medical examination form and immunization records as required by state law.

1. A fee for each course can be found on the Financial Aid webpage (http://www.mhu.edu/admissions/financial-aid/tuition-fees). Students are responsible for purchasing their books and other necessary materials.
2. Mars Hill University facilities are available for students at no extra cost (excluding course-specific fees). Examples include Renfro Library and computer labs.
3. Students are limited to three courses per semester. It is strongly recommended that students register for high school classes as a contingency plan. Only freshman and sophomore classes will be offered to dual enrollment.
students, unless otherwise approved. Mars Hill University students have priority over classes that a dual or home school student may desire.

**Conditional Acceptance**

The Admissions Office reserves the right to grant conditional admission for students who may not meet all of the institutional admissions standards, but who are currently enrolled in courses to meet our academic standards.

**Medical Examination Forms**

North Carolina law provides that “no person shall attend a college or university unless a certificate of immunization indicating that the person has received immunizations required by North Carolina General Statute is presented to the college or university on or before the first day of enrollment.”

Immunization records must be submitted to the Admissions Office and approved by the Director of Health Services before the student is permitted to move on-campus.

The Mars Hill University policy is that a Certificate of Medical Examination form, which includes space for the listing of the required immunizations, must be submitted before moving onto campus (the first day of classes for commuter students).

**Policy on Persons with Disabilities**

Mars Hill University affirms its intent to comply with federal regulations regarding persons with disabilities, specifically with Section 504 of the Rehabilitation Act of 1973 and with the Americans with Disabilities Act of 1990. The university does not discriminate on the basis of disability in employment or admissions, and the university makes reasonable accommodations as needed for persons with documented disabilities. Questions and grievances should be directed to the Committee on Disabilities at PO Box 6714, or to disabilityinfo@mhu.edu.

**Adult and Graduate Studies (AGS)**

Mars Hill University offers accelerated degree and licensure programs for adult students in the evenings and on weekends through the Adult and Graduate Studies (AGS) program. Non-traditional times and multiple locations are features of the AGS program which make the university experience easier for working adults, many of whom may have full-time jobs and family responsibilities. Students may begin or continue their education toward a Bachelor's degree, licensure in education, or Master of Education degree.

**Undergraduate Adult Studies**

Adult Studies classes are offered on campus, online, and in Asheville, Burnsville, and Marion. Enrollment may be for one course or for several each semester. Some classes may be offered in a short term format, while others meet the full university semester. Majors offered in Adult Studies include Education (Elementary & Middle Grades,) Special Education, Integrated Education, Business Management, Criminal Justice, and Social Work. Licensure programs are offered in Education, English as a Second Language, Reading Specialist, AIG (Academically Intellectually Gifted), and Special Education. A limited amount of credit may be earned through credit by examinations, and internships. These options are the same as for traditional day students.

Adult Studies students should be at least 23 years of age or working during the day. Students should submit an Adult Studies application and all high school and college official transcripts to the Adult and Graduate Studies office and pay the $25 application fee. The SAT and ACT scores are not required for Adult Studies undergraduate applicants. Admissions decisions are made on a rolling basis, usually within two weeks of receipt of the completed applications. Refer to the Adult and Graduate Studies Student Handbook for additional information.
Graduate Studies

Classes for the Master of Education (elementary education focus) are offered in the evening currently on the Mars Hill University campus and at the MHU Asheville Center for Adult and Graduate Studies. Students should submit a Graduate Studies application and official college transcripts to the Adult and Graduate Studies office and pay the $50 application fee. Each applicant is evaluated by an admissions committee on the basis of baccalaureate-level preparation, undergraduate grade point average, standardized test scores (GRE, PRAXIS II, or MAT), work experience, professional recommendations, and other criteria established by the Teacher Education Department. Applicants must have successfully completed a bachelor's degree program from a regionally accredited four-year institution. Applicants must be licensed teachers. Refer to the Mars Hill University Graduate Catalog for additional information.

Contact the Adult and Graduate Studies office by calling 828-689-1166 or 800-582-3047, or by visiting the mhu.edu/ags website. You are also invited to visit our offices in the lower level of Renfro Library room 110, or at the Asheville Center for Adult and Graduate Studies, 303B Airport Road, Arden, NC.
Financial Information

Expenses

Current charges for tuition, fees, housing, and campus dining can be found on the university website (www.mhu.edu) under Admissions > Financial Aid > Tuition & Fees. Bills are sent to students prior to each semester and they must be paid in full.

**Dining fees:** All students living on campus must have a meal plan, selected from those listed in the Food Services section, page 21.

**Part-time fees:** All part-time students (those taking fewer than 12 credit hours) pay per credit hour instead of the full-time tuition charge.

**Auditing a course:** A fee of $225 is charged for non-MHU students auditing a course. A full-time student may audit one course free of charge, but will be charged a fee if the course requires the use of special supplies.

**Single room:** The cost of a private room, when available, will be the regular charge for one person plus 50 percent of that charge.

**Textbooks:** Estimated at $500 for each semester, textbooks are available in the University Bookstore along with other school supplies. All purchases are on a cash or credit card (Visa/Discover/Master Card) basis. A limited supply of secondhand books may be purchased at considerable savings. Some textbooks are available on a rental basis or as e-books.

Summer School Costs

Charges for summer school are also found on the university website (www.mhu.edu/ags). Along with a registration fee, tuition is charged on a per credit hour basis. Housing and meal plans are also available.

Other Charges 2013–2014

Listed below are other charges that apply in particular situations.

- Application fee (non refundable): $25–$50 (varies depending on whether student is categorized as “traditional” or “Adult and Graduate Studies”)
- Applied Music (charged per credit hour): $625
- Accompanist Fee (Voice students): $320
- Auditing a Course: $225
- Credit by Exam (charged per credit hour): $200
- Dual Enrollment (charged per course): $300
- Overload (charged per credit hour): $740
- Housing Cancellation Fee: $325

1 Charged to students carrying more than 20 hours during regular semester (exclusive of applied music and PE 115 - Varsity Athletics courses).

2 If students are allowed to break their MHU housing and food service contract during the academic year, there will be a housing cancellation fee.

Schedule Of Payments

Each semester’s expenses must be paid in full by the due date. The Business Office mails statements in June for the fall semester payment that is due in July and in December for the spring semester payment that is due in January. A mid-semester billing may be necessary for any miscellaneous fees not known at the time of registration.

All charges are due and payable in accordance with this schedule. Students who do not make the required payments promptly may be suspended from school.
Final official high school and college transcripts are required before financial aid will be disbursed. Failure to submit these transcripts will result in loss of financial aid.

**For Fall Semester**

Advanced tuition payment: (a) $250 for incoming residential students payable within three weeks of the date of acceptance for admission, (b) $150 for incoming non-residential students, and (c) $150 for continuing students. The advanced tuition payment is fully refundable to incoming students until May 1.

**For Spring Semester**

Advanced tuition payment: (a) $250 for incoming residential students payable within three weeks of the date of acceptance and (b) $150 for incoming non-residential students. The deposit is fully refundable to incoming students until December 1.

**Veterans**

Special payment arrangements will be made for students receiving educational benefits. Please contact the Business Office by July 1.

**Monthly Payment Plan**

Some students and their parents may be unable to meet the preceding schedules of payments or prefer to make monthly installments through most of the year. All arrangements for monthly payments must be through Academic Management Services and payments should begin in the summer prior to enrollment. Information concerning these programs is sent to parents of all students each year.

**Financial Obligations and Refund Policy for Withdrawing from University**

The university contracts for various services it provides to students. Most such obligations are made in the spring for the following academic year. These include (but are not limited to) faculty and staff salaries, food service management, and commitments to new students. Registration is considered a contract binding the students and their parents for charges for the entire semester. The university will, however, allow a reduction in charges through the first four weeks of the semester in certain cases.

A student who drops below 12 credit hours after the end of four weeks from the date of registration will be charged the full semester's charges.

A student who withdraws from school because of personal illness must obtain a statement from a physician chosen by the university who recommends discontinuance. Refunds for certified medical withdrawals will be computed using the reduction schedule below.

A student suspended for disciplinary purposes does not receive reductions and is liable for the cost of the entire semester.

The Refund Policy as it pertains to federal aid recipients is subject to change as necessary to remain in compliance with federal regulations.

The financial balance percentage due will be computed on total charges for tuition, room and campus dining. In addition total fees and fines are due.

- Withdrawals during the first week of classes for each semester result in a financial obligation of 20%.
- Withdrawals during the second week of the semester result in a financial obligation of 40%.
- Withdrawals during the third week of the semester result in a financial obligation of 60%.
- Withdrawals during the fourth week of the semester result in a financial obligation of 80%.

If a student withdraws from school, university scholarships will be prorated according to the appropriate schedule. Federal aid is determined by the Return of Title IV Funds guidelines. (See Academic Section for the academic record consequences of withdrawal and the process for official withdrawal from the university.)
If the financial aid package exceeds direct costs (tuition, room, board, and course related fees), a student may receive a refund from the Business Office. Financial aid packages generally can exceed direct costs only if the students secures a loan. Refunds resulting from excess financial aid will not be issued until ALL financial aid funding has been received by the university.

A student officially withdrawing from school should follow a specific withdrawal procedure initiated in the Registrar's Office.

**Return of Title IV Funds**

Students who withdraw from school must notify Mars Hill University of their intent in writing. The withdrawal process will begin in the Registrar's Office. Students must complete a withdrawal form to start the official withdrawal process. A date of withdrawal will be determined in order to return any Title IV funds. If the student does not notify the school, the midpoint of the semester will be used as the official withdrawal date. If the student did not notify the school because of circumstances beyond the student’s control, then the date related to that circumstance will be used as the official withdrawal date. Other dates such as the last date of attendance or attendance at an academically-related activity may be used in certain circumstances.

Students may rescind their official notification with written notification to the Student Development and Registrar’s offices. If the student stops attending class subsequent to the rescission, the withdrawal date is the original date of notice of intent to withdraw.

The Return of Title IV calculations for all Federal aid are based on current Department of Education regulations and are subject to change. These regulations can be found in the Financial Aid Office.

Any funds other than Title IV funds will be refunded in the following order: state funds, outside donors, institutional funds and cash to the student. The amount of the refund cannot exceed the amount of the original award/disbursement.

Mars Hill University will then determine the institutional charges for the payment period. Typical institutional charges are tuition, fees, room, board or books and supplies that students must purchase from the school. A student may authorize the school to include any non-institutional charges such as group health insurance, if it is required of all students and stays in effect.

A student who misses two consecutive weeks of class is reported to the Retention Office. If the student cannot be contacted and does not return to class, an administrative withdrawal is effected.

**Miscellaneous**

**Infirmary:** Infirmary patients who require personally prescribed drugs, other supplies, and/or emergency transportation will be responsible for such charges.

**Insurance:** All full-time students are automatically included in the $5,000 Blanket Accident Program. In addition, sickness coverage is added on a waiver basis. The plan is required for all full-time students unless waived by completing the university waiver form indicating other health insurance is in effect. The additional cost of the health insurance is on the university Web site (www.mhu.edu). The waiver must be completed and returned to the Business Office no later than September 1 for fall semester and February 1 for new spring enrollees.

**Returned checks:** A fine of $50 is charged by the Business Office for each “non-sufficient funds check” received from any student. Check cashing privileges will be revoked after the first offense.

**Transcripts of academic record:** A transcript is an exact copy of a student’s permanent academic record at the time it is issued. Official or unofficial transcripts are provided upon written request by the student to the Registrar's Office for $8 per transcript. No official transcript may be issued to or for a student who is indebted to the university until such indebtedness (tuition, fees, various fines, and all loans) has been paid or satisfactory arrangements have been made with the Business Office. Official transcripts are released only upon the written request of the student to the Registrar's Office. University personnel have access to student academic information as needed for the execution of their duties.
On-Campus Residence Requirement

The university recognizes the educational benefits to be derived from living on campus; therefore, all freshman and sophomore students must live and eat on campus unless they are living at home with parents or legal guardians, are 21 years of age, are veterans of 180 or more consecutive days of military service, or are married.

Students who reserve a room on campus must sign a Mars Hill Housing Contract and Food Service Contract. The term of the contract is for the full academic year. The provisions of the contract and the information included in the Mars Hill University Student Handbook and Residential Living Policies and Regulations pamphlet apply to any student living in campus housing.

A student to whom the Housing and Food Service Contract applies is liable for the academic year's charges unless conditions of the Refund Policy are met.

Food Services

Good food and good service are essential to students’ happiness in their collegiate adventure at Mars Hill University, and Chartwells is pleased to have the opportunity of helping students be happy and healthy!

As the food service management for the university, Chartwells is firmly committed to student needs. Everything we do is directed toward this goal.

Food Service Facilities

- Pittman Dining Hall
- The Lion’s Den, located in the Wren Student Union
- The College Street Ice Cream and Soda Shop, located on the Quad in Spilman Hall

Resident Student Meal Plans

Two plans are offered to students. All students who live in campus housing must purchase a meal plan. The plans are:

- Standard Plan: Provides unlimited access to Pittman Dining Hall during dining hours, five meal equivalencies per week including late night and $100 bonus bucks.
- Apartment Plan (available ONLY for students living in Dickson Palmer Apartments units B & C): Provides 150 meals per semester, with five per week available for meal equivalencies in the Lion’s Den and Soda shop, plus $100 bonus bucks.

Balances on meal plans are non-refundable and non-transferable between semesters.

Check out “My Meals” at Dineoncampus.com/MarsHill and “Like us” on Facebook at Mars Hill Dining Services.
The University Bookstore

The university bookstore is owned and operated by Mars Hill University and welcomes you to the “Hill.” The bookstore is located on Main Street in Mars Hill. Fall/Spring business hours are Monday through Friday, 9:00am -5:00pm with extended hours until 8:00pm on Tuesdays. The store is open on Saturdays, 11:00am -2:00pm. The bookstore is closed on Sundays and official school holidays. Shopping is also available online at www.mhubookstore.com.

Returns Policies

**Cash Register Receipts Must Accompany all Returns**

**GENERAL MERCHANDISE:** General merchandise may be returned within a 24-hour period. Defective merchandise may be returned within five working days and will be replaced at no charge.

**CLOTHING AND INSIGNIA ITEMS:** There are no refunds on clothing or insignia purchases. Clothing may be exchanged, size for size within a 48-hour period. Defective merchandise due to manufacturer errors will be replaced at no charge.

Textbook Information

The University Bookstore offers new, used and e-books for purchasing. Used books retail for approximately 25% less than new books. E-books require some sort of electronic device for downloading from the internet and cost savings are up to 50%. The bookstore also offers a textbook rental program to save students money as well. Students save up to 50% off the regular purchase price by choosing the rental option. Rental fees for available texts are posted on the bookstore website along with the purchase price. Besides the rental fee, a valid credit card number is required to be given as rental security on the textbook(s) rented. There are no charges other than the rental fee as long as rented textbook(s) are returned by the end of the rental term. Rental books not returned by the specified deadline date will be assessed charges for replacement against the credit card number given for rental security. All information concerning textbook rental deadlines and replacement fees is printed on the cash register receipt.

Semester booklists are available online at www.mhubookstore.com. Textbooks do not appear online until we receive requisitions from the faculty. If a text is not listed for a course, please keep checking for updates. The bookstore updates the website as soon as requisitions are received. Some courses do not require textbooks, therefore no listings will appear for the course.

Book Returns Policy

If you drop or change a course, the texts may be returned under the conditions stated below:

1. Returns are allowed for a specified length of time at the beginning of each term. Dates are posted in the bookstore.
2. You must have the cash register receipt as proof of purchase for a refund.
3. Do not write in your new books until you are certain you have the right ones. New books that are written in can only be refunded at 25% off the list price.
4. Textbooks purchased after book rush can be returned within 24 hours of purchase. A 15% restock fee will be assessed on the return.
5. Defective (new) books will be replaced at no charge. Used books are purchased as is, therefore no replacement on defects.
6. There are no returns on Trade Books.

**NEW EDITIONS:** The bookstore orders the edition requested by the teaching staff. Once the book has been updated and published in a new edition, the old one has no cash value.

Book Buyback

We buy books back at the end of each fall and spring semester. If the books are being used the next semester and are needed for stock, up to 50% of the current list price will be paid. If books aren’t needed, the national wholesale company conducting the buyback will offer to purchase them at a price they determine.
Students who sell back books that rightfully do not belong to them will be subject to the judicial process and sanctioned accordingly. (Code of Student Conduct, Section I, Paragraph E).

**Campus Vending**

Vending services are provided on campus by the Auxiliary Services Department and machines are located in many of the campus buildings. Any problems, including request for refunds, should be reported to the Office of Auxiliary services at 828-689-1167 during regular hours.

Students who are charged with vandalizing vending machines will undergo the judicial process and will be sanctioned accordingly. (See Section I, Paragraph E, under the Code of Student Conduct).
Financial Aid Information

The primary responsibility of meeting the costs of college belongs to the student and the student’s family. Mars Hill University understands circumstances may exist that make it difficult for a student and his/her family to meet the entire cost of a university education. Therefore, the Financial Aid Office at Mars Hill University participates in various need-based, merit-based, and other aid programs to help cover the difference between what a student can afford to pay for college and the cost of college itself.

The first step of the financial aid process begins when a student completes the Free Application for Federal Student Aid (FAFSA). The FAFSA may be accessed at www.fafsa.gov. The FAFSA provides the Financial Aid Office with a vast amount of information including the Expected Family Contribution (EFC). The EFC is the result of an elaborate formula that includes the parents’ income and assets (for dependent students) and the student’s income and assets (for all students). By taking the Cost of Attendance (Direct Costs plus Indirect Costs) and subtracting the EFC, the Financial Aid Office determines the student’s Federal financial need. The cost of attendance for each individual student can be obtained from the Financial Aid office.

A student’s financial aid package, excluding loans and/or outside scholarships but including federal grants and work study, cannot exceed direct costs as charged by the university. Institutional awards, including merit awards, will be adjusted to meet this policy. (See Adult & Graduate Studies website for financial information for these programs.)

Need-Based Aid

Need-based aid is used to assist a student with a portion of his/her need up to but not exceeding the direct cost of school.

Examples of Need-Based Aid

Federal

1. Pell Grant—The Pell Grant is the base grant in the Federal financial aid programs. For 2012–2013, full-time students with an EFC of $4,995 or less are able to receive a grant that will range from $577 to $5,550. The grant is lower for less than full-time status.

2. Supplemental Education Opportunity Grant (SEOG)—This grant is a supplement to the Pell Grant. Awards are up to $2,000 and are limited to those students with the greatest need.

3. Work-Study—Students are given awards to work on campus. Students must apply and interview for a job. A check will be issued each month as the student works the required hours. Awards are up to $3,000 and are limited to those students with the greatest need.

4. Perkins Loan—This is a subsidized loan for high need students. The pool of money for this aid is limited. The student must complete a Promissory Note and have entrance counseling. Repayment begins nine months after the student drops below half-time, withdraws or graduates. At that time, the student must complete exit counseling as a reminder of his/her rights and responsibilities as a borrower of the Perkins Loan Program.

5. Subsidized Stafford Loan—This loan is subsidized (the federal government pays the interest while the student is enrolled in at least six hours). Freshmen, transfers and first time borrowers must complete a Master Promissory note and entrance counseling. The loan will be credited to a student’s account approximately 30 days into the semester if the student is a first time borrower at Mars Hill University. Repayment begins six months after the student drops below half-time, leaves school or graduates. At that time, the student must complete exit counseling as a reminder of his/her rights and responsibilities as a borrower of the Stafford Loan Program.

State

- North Carolina now only offers the North Carolina Need Based Scholarship. Students must complete a FAFSA in order to receive this fund and is limited to students with EFC’s ranging from 0-15,000.
Institutional

1. Mars Hill University Opportunity Grant—This grant assists students with need. Award amounts vary.

Merit Based Aid

Merit based aid is earned through special talent or academic achievement, and is awarded on an individual basis. Merit based aid is awarded with the expectation that a student maintains certain standards or performance goals. Residence affects all merit based awards, i.e. if a student moves off campus.

Examples of Merit Based Aid:

Mars Hill University Grant and Scholarships: awarded on or before the student’s acceptance to the university. Award amounts vary according to academic qualifications. Students must maintain satisfactory academic progress (SAP) as defined by the institution to maintain award eligibility.

Scholarships awarded in prior years to upperclassmen include:

- Presidential Scholarship—Students must maintain a 3.2 GPA.
- Alumni Award—Students must maintain a 2.5 GPA.
- Mars Hill University Award—Students must maintain a 2.0 GPA.

A student who does not meet the minimum grade point average for merit awards will be placed on scholarship probation for the following semester. If, during the following semester, the student’s cumulative grade point average drops below the standard, yet the semester grade point average meets the standard, the student will continue on probation. If the student’s cumulative grade point average and semester grade point average continue below the standard, the scholarship will be suspended until such time as the student brings his/her grade point average back to the standard.

Athletic Grants—These grants are determined by the coaches of the individual sports and by the leaders of the various performance areas.

If a student is readmitted to the university after a period of non-enrollment, all institutionally controlled awards will be reevaluated based on their current academic profile including any transfer credits.

Non-Need-Based Aid

Federal

1. Unsubsidized Stafford Loan—This loan has the same criteria as the Subsidized Stafford Loan except the student is responsible for the interest that accrues while the student is in school.

2. PLUS (Parent) Loan—This is a loan that a parent may be eligible for to pay for a student’s educational expenses. Eligibility is determined by the Department of Education and is based on the credit standing of the parent. Repayment begins within 60 days after the final loan disbursement for the period of enrollment for which the parent borrowed.

Endowed scholarships: the university utilizes endowed/annual scholarships to supplement student financial aid for both need and non-need based financial aid. Endowed scholarships may replace current university funded financial aid. Scholarships are awarded through the financial aid office following criteria set forth by the scholarship donor.

Verification: A student’s FAFSA may be selected for verification. In the verification process, the student completes a verification worksheet and provides a signed copy of his/her tax forms as well as his/her parents’ tax forms if the student is dependent. Approximately 40–45% of all financial aid applicants are selected for verification. You will not receive any Federal financial aid or participate in work-study until you complete the verification process.

Books: Books are part of the indirect cost of school. The Financial Aid Office will assist students with direct costs only. Students must make their own arrangements to pay for books.

Enrollment Status: Students who are enrolled full time and then drop to less than full time will have their financial aid award revised or reduced.
Residency: If your residency status changes (you move from on-campus to off-campus or vice versa), you must notify the Financial Aid Office since your financial aid award as residency affects financial aid.

Payment of Awards: Financial aid awards for each semester will be credited to your student account for each specific term once all required paperwork is received by the Financial Aid Office.

Reapplication: Financial aid awards for the next academic year are not automatic. All recipients must reapply for aid each spring prior to the academic year of attendance by filling out the renewal FAFSA application.

Cancellation: The Financial Aid Office reserves the right to revise or cancel the award because of changes in your financial aid or academic status. The submission of false or misleading information will also be considered reason for immediate cancellation of your aid.

Condition of Award: Federal, State and Institutional grants committed in this award are conditional upon receipt of actual funds.

Balance Due: The Business Office notifies students on a semester basis of their charges and balances due. Parents and students may also utilize the PLUS loan program or a university approved payment plan program to satisfy outstanding balances after financial aid is applied. Contact the Business Office for payment plan servicer options.

Satisfactory Academic Progress: To be eligible for financial aid, a student must make satisfactory academic progress. Satisfactory academic progress includes both a qualitative measure (the use of a cumulative grade point average) and a quantitative measure (the maximum time frame for completion). Students who do not meet the requirements and are ultimately placed on financial aid suspension will no longer be eligible to receive any federal, state or institutional financial aid.

Satisfactory progress standards for financial aid eligibility are the same as the standards for academic standing. Mars Hill University students must demonstrate their ability to perform satisfactorily both by grade point average and by hours earned. To remain enrolled in good academic standing, a student must have maintained at the end of any semester the following cumulative grade point average and earn the minimum hours listed:

**Qualitative Standards:**

- Freshmen (1-27 hours earned) 1.50
- Sophomores (28-59 hours earned) 1.80
- Juniors and above (60 or more hours earned) 2.00

**Quantitative Standards:**

<table>
<thead>
<tr>
<th>Semester Attempted Hours</th>
<th>Minimum Required Earned Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 hours or more (full time)</td>
<td>12 hours</td>
</tr>
<tr>
<td>9-11 hours (3/4/ time)</td>
<td>9 hours</td>
</tr>
<tr>
<td>6-8 hours (1/2 time)</td>
<td>6 hours</td>
</tr>
</tbody>
</table>

A student who does not meet the minimum requirement will be placed on academic probation for the following semester. A student who fails to meet the requirements during the probationary semester will be placed on academic suspension for one regular semester. However, a student who earns 12 hours and a 2.0 grade point average for the probationary semester (full-time enrollment) will automatically be granted one more semester to achieve the required cumulative standard.

Students placed on academic suspension at the end of the spring semester may use the summer session to meet the minimum standards to be reinstated for the fall semester; those placed on academic probation may use the summer session to return to good standing for the fall semester.

Any student may appeal to the Admissions, Academic Standards and Financial Aid Committee by completing an official appeal form. Students who have been academically suspended may apply for readmission through the Admissions Office after one semester.
**Full-Time Students**

Full-time students will be allowed six academic years (one academic year begins with a summer session followed by two semesters) in which to complete the baccalaureate degree.

**Part-Time Students**

Part-time students will be allowed twelve academic years (one academic year begins with a summer session followed by two semesters) in which to complete the baccalaureate degree.
Student Development

LifeWorks Civic Engagement & Service-Learning Office

Director Deb Myers
Bonner Scholars Coordinator Cindy Frost
Field Coordinator Caroline Twiggs

LifeWorks Civic Engagement and Service-Learning is designed to make connections and encourage student participation in meaningful service to the community. Through LifeWorks individuals can explore their roles in the community in many ways. Some examples are:

- Tutoring and mentoring a child in local school systems or afterschool programs
- Partnering with agencies such as Habitat for Humanity and Community Housing Coalition for housing construction and rehabilitation
- Participating in a community-based research project
- Attending a lecture or discussion on community and societal issues

Through one-time volunteer opportunities, regular service with a community partner, citizenship lecture series, course-based service-learning, and alternative breaks any student can get involved in LifeWorks programs. Additionally, students may apply for the Bonner Scholars Program, a service-based scholarship available to a limited number of select students.

Career Development & Internships

Director Gill Bosonetto

The Career Development Center assists students in their career decision-making process, as well as with seeking employment and other graduate opportunities during and after college. We aim to provide students with the resources to help make informed choices, develop experience and skills in their fields of interest, and to apply their personal values, preferences and abilities towards a rewarding career path. We also help increase our students’ understanding of, and ability to articulate, the value and marketability of a liberal arts education in the world of work. Building meaningful networks related to job opportunities, internships and a wide variety of for-profit, non-profit, and public organizations is part of this program. Mars Hill alumni play an important role in the network.

The Career Development Center is located in Spilman Hall. Students are invited to stop by and talk with Gill Bosonetto about their career concerns, or to log onto the career development Web site at www.mhu.edu/career-development. At this site students can access career interest surveys such as FOCUS, information about career development services and events, as well as explore current job opportunities by clicking on the Service Learning and Internships database and national job hunting vehicles such as NACElink.

Campus Action for Student Success

Director of Retention Lisa Wachtman
Director of First Year Experience Murphie Culpepper

Campus Action for Student Success (CASS) is an office specifically designed to assist our students in making the most of their academic experience at Mars Hill University.

CASS offers a variety of services to support students and their success:

- Personalized Action Plans for academic success
- Connections to other campus resources and services
- Workshops and trainings related to study skills and student success
- Regular feedback from professors through the Early Alerts program if you are experiencing difficulty in a course
Someone to talk to about all things Mars Hill
The CASS office is located in Marshbanks 303 and includes Retention and First-Year Experience.

**Early Alerts Program**

Surveys are sent out to all instructors roughly every 2-3 weeks during the semester; this gives instructors a chance to report problems in a way that gives students the opportunity to take some action to increase their chances of success. This is a tool that CASS uses to communicate with students so they are fully aware of issues that may be affecting their success.

For students who have an alert, an email is automatically generated to let them know what the general issue is in the course for which they receive an alert. They are urged to speak with their instructor and academic advisor. Of course, students are always welcome to visit the CASS office if they have questions or concerns about the Early Alerts they receive.

- Academic Alert—poor academic progress at the time of the report
- Attendance Alert—missing too many classes
- Behavioral Alert—exhibiting classroom behavior that is getting in the way of success such as sleeping in class, texting, etc.

Advisors are given a list of their advisees with alerts and are yet another means of support to students who are having difficulty.

**Student Support Services Program**

Director of Student Support Services  
Weston Burgess
Program Coordinator  
Lee Cope
Academic Coordinator  
Paula Kennedy

The Student Support Services TRIO Program can provide tutoring for a difficult course, help reduce test anxiety, suggest wise time management strategies, offer academic advising, and provide career and personal counseling, among other services. This program provides trained staff members and carefully selected peers to work with students who qualify for services. Interested students who are not certain of their eligibility for the program or who wish to learn more about the services and activities should call 689-1380 or come by the Student Support Services office, located on the main floor of Marshbanks Hall. The office is open Monday through Friday from 8:00 a.m. to 4:30 p.m. Services are tailored to individual needs and are free to eligible students. The program is 100% funded through a grant from the U.S. Department of Education.
Chaplaincy/Campus Ministry

Mars Hill University is a liberal arts institution with Christian commitments and roots in the Baptist tradition. Whether it is in the classroom, with a faith-based organization, or on a service project, you will find that Mars Hill is a place where students are encouraged to integrate faith into their exploration of the world. The Chaplain’s Office serves as a resource that sponsors weekly Crossroads services; facilitates the workings of the Christian Student Movement; provides pastoral counseling and guidance to students, faculty and staff; and relates externally to congregations and agencies who support our mission. In general, we seek to encourage religious dialogue on campus and meet the spiritual needs of the Mars Hill family.

crossroads: \\kros- rods\

- n usu pl but sing or pl in constr;
- a: the place of intersection of two or more roads
- b: a community located at such a crossroads
- c: a central meeting place

The Chaplain’s Office and the Religious Life Committee at Mars Hill define Crossroads as:
- the place where spiritual, intellectual, and personal growth intersect; where the faith journey meets the liberal arts; where mind, heart, soul, and strength connect
- the community of people -- students, faculty, staff, administrators and other friends of the university who gather to discover and celebrate these connections
- the central meeting place for experiencing these connections — Broyhill Chapel

Crossroads gatherings are held at 11:00 a.m. in Broyhill Chapel each Tuesday that classes are in session during the semester. These services, sponsored by the Chaplain’s Office and the Religious Life Committee, are an integral element of the religious life program on the Mars Hill University campus. Crossroads seeks to promote the spiritual and personal growth of members of the university community by raising awareness of how faith informs our living; making us aware of the radical relevance of the life and teachings of Christ to our everyday lives; and fostering the development of compassion, responsibility and respect. The programs involve students, staff, faculty and invited guests from off campus as active participants and leaders.

Crossroads encompasses a diversity of gatherings you will experience in Broyhill Chapel

Tuesday mornings at 11:00 a.m.:
- Prayer and Meditation, a time that an individual can sit quietly and reflect on the journey
- Traditional Worship, which includes the traditional elements: prayers, music, scripture, preaching
- Spiritual Enrichment, which emphasizes one or more of the following elements of worship: prayer, praise, testimony, music, drama, dance
- Convocation, which includes official university events: Founders Day, Community Service Convocation, Senior Convocation

The styles of music and preaching in the various gatherings will be diverse, representing the richness of our own community, giving us all an opportunity to develop an appreciative understanding of many different forms of worship and celebration.

Other opportunities for religious life include faith-based organizations, spiritual and personal growth groups, musical ensembles, the Christian Student Movement (CSM, which offers a weekly program for fellowship and spiritual nurture), weekly praise and worship, FCA, Journey Teams (providing weekend youth ministry opportunities in local churches), residence hall Bible studies, blueprint (Bible study and coffee house), and mission opportunities -- local, national, and international.
Academic Resources

Renfro Library

The Mars Hill University academic community promotes intellectual, spiritual, and personal growth by providing an education grounded in the liberal arts, connected with the world of work, and committed to character development. The Renfro Library facilitates the mission of the university by providing resources and services that support and enhance academic, professional and personal growth.

The Library maintains a highly qualified professional and support staff that is responsive to individual needs and enables the students, faculty and staff of Mars Hill University to fully utilize all available resources necessary to support the mission of the university.

Library Services and Policies

Renfro Library contains approximately 93,000 books and periodical volumes, and maintains current subscriptions to over 170 magazines and journals. Over 90 web-based subscriptions, including over 110,000 electronic books and 21,000 electronic journals are available to the MHU community through the library network. Interlibrary loan services are available through network agreements with regional and national consortia. Research assistance for individual students or faculty members is available during posted hours or by appointment.

The MHU computer network provides access to the Renfro Library catalog and direct access to approximately 90 electronic reference resources and databases. These subscriptions are password-protected and available 24/7 to all Mars Hill faculty, staff, and students, on and off campus.

As part of Mars Hill University’s membership in the Appalachian College Association (ACA) and the Bowen Central Library of Appalachia (BCLA), a variety of resources are available to faculty, staff, and students. The BCLA has a core collection of more than 100,000 eBook titles representing eleven collections which continue to grow annually through new purchases. In addition, the BCLA also purchases or annually subscribes to eight database collections; including journals, reference materials, digital images, and language learning tools, at an annual consortia cost of slightly more than $400,000. For each institution to purchase or subscribe to the same content individually would be close to $25,000 per institution or a total cost of $900,000.

Visit the Renfro Library website for hours, staff contact information, and current information of services and policies: library.mhu.edu.

Liston B. Ramsey Center for Regional Studies

The Liston B. Ramsey Center for Regional Studies, centrally located in Renfro Library, was named in honor of the former Speaker of the North Carolina House of Representatives who passed away in 2001. An alumnus of the university, Mr. Ramsey made Mars Hill the depository for the records of his long and distinguished legislative career. In keeping with the Speaker’s commitment to Western North Carolina and to education, the Center encourages study of the university’s extensive collections of photographs, sound recordings, documents, and artifacts. These materials are housed in the Southern Appalachian Archives, the Appalachian Room, the Rural Life Museum, and the Heritage Cabin. The Ramsey Center provides support for the Regional Studies Program of the university, offers assistance with individual research, and provides a venue in which faculty, students, and community members come together for regionally oriented programs and events.

Appalachian Room

The Appalachian Room, housing non-circulating books and other resources related to the southern mountain region, represents Renfro Library’s major special collection. The room provides materials for student and faculty use and maintains sources for local history research. Additional books on Appalachia can be found in the library’s circulating collection.

The Southern Appalachian Archives is home to a wealth of photograph and manuscript collections. Notable among these is the Bascom Lamar Lunsford Collection that includes scrapbooks, instruments, photographs, sound
recordings, and over 2,300 handwritten folksongs and ballads. Other Southern Appalachian Archives collections are the James G.K. McClure Farmers Federation Collection; the Gertrude M. Ruskin Collection of Cherokee artifacts and materials; regional Baptist records, including associational minutes and church histories; and the university archives, consisting of papers relating to the history of Mars Hill University.

The Appalachian Room and the Southern Appalachian Archives are located in Renfro Library.

**Rural Life Museum**

Located in the Montague Building, the museum collects, preserves, exhibits, and interprets rural life artifacts relevant to the history and culture of the Southern Appalachian region. Through its exhibits and educational program, the museum assists students, faculty members, and other patrons in understanding rural heritage. The Rural Life Museum is currently closed for renovation. Please contact the Liston B. Ramsey Center for Regional Studies at (828) 689-1262 for more information.

**Visiting Artists and Lecturers**

Through its Visiting Artist and Lecturers Committee the university brings to the campus a variety of cultural programs to support the academic programs. In past years these have included the Vienna Choir Boys, the Chinese Golden Dragon Acrobats, the Peking Acrobats, the Atlanta Symphony, the Bulgarian Symphony, the Acting Company, the Amazing Kreskin, Broadway Shows like Big River and Buddy, the National Opera Company and the National Players, the Duke Ellington Orchestra, the Lionel Hampton Orchestra, and dance companies such as the North Carolina Dance Theater, the Ballet Folklorico de Mexico, and the Atlanta Ballet.

**International Education**

The university recognizes the importance of global awareness and supports academic programs that emphasize international/intercultural education. Through the Liberal Arts in Action sequence of courses, global learning and understanding will be central to the Mars Hill student’s academic experience. In addition, all Bachelor of Arts, Bachelor of Music, and Bachelor of Fine Arts majors are required to take two semesters of a foreign language.

The Center for International Education was established to provide leadership and coherence to the international programs on campus. The university has an active International Club, hosts lectures and other cultural events dealing with global issues, and celebrates international diversity with an annual International Festival. Foreign students are valued highly at the university and international student orientation and advising are important responsibilities of the Director of International Education.

The university also offers the International Studies major. Through an interdisciplinary approach, students take courses in a wide range of fields. Moreover, the university offers over 60 courses of an international nature in many different disciplines.

**Study Abroad**

Mars Hill University values study abroad as an important element of a student’s international education. Through a variety of programs, students can find ample options to study, work or participate in service learning/volunteer projects in virtually all areas of the world. Mars Hill sponsors several international study opportunities for credit, including Mars Hill in Mexico, a study tour of Chiapas, Mexico; and Mars Hill in Italia, a summer program in Pirugia, Italy. Faculty have also led trips to Europe, Asia, and Latin America.

In addition to these programs, Mars Hill maintains several affiliations with other institutions and consortia that provide semester, year-long, and short term study abroad opportunities. Through the International Student Exchange Program (ISEP), students can study at more than 100 universities on 5 continents. Mars Hill is the only private NC member school of ISEP, the largest student exchange program of its kind. Students also can participate in the Semester in London program, managed by a consortium of Appalachian colleges. Scholarships are available for this program through the Appalachian College Association. Mars Hill maintains active affiliations with Regents College in London and other providers. It is also possible for students to register directly with other U.S. or foreign programs and transfer both elective and required credits back to the university. Director of International Education is Gordon Hinners.
Asheville Area Educational Consortium

The Asheville Area Educational Consortium is a consortium of Mars Hill University, University of North Carolina at Asheville, and Warren Wilson College for the purpose of enriching the educational experience of students at the participating institutions. This affords students access to broader educational experiences through inter-institutional cross-registration, which enables a student at any member institution to enroll in courses at any of the member institutions without separate admission procedures or incurring registration fees at the other institution. Registration is on a space-available basis and is handled through the registrar’s offices of the institutions.
Academic Policies

Academic Orientation and Advising

New students matriculating in August are strongly encouraged to attend a one-day SOAR (Spring Orientation, Advising, and Registration) session in April, May, or June. Students who attend one of these SOARs learn about academic programs and student life at Mars Hill; meet faculty members, staff members, and fellow students; and get answers to questions about financial aid, housing, and all manner of student activities. Most importantly, students who attend SOAR get to work with faculty and staff advisors as well as student “challengers” (specially trained upperclassmen) who assist them in planning their academic programs and selecting appropriate courses for their first semester at Mars Hill. All new students who do not already have transfer or AP/IB credit for courses in English, Mathematics, and Spanish and/or French are placed into courses that are developmentally appropriate for them, based on their high school records and standardized test scores. Depending on their placement evaluations, students may be required to enroll in one or more developmental courses (ED 101, ENG 100 or 101, MTH 101). Students who do not attend a SOAR session are registered administratively.

All new students participate in the multi-day Gateway Orientation program, which takes place over several days before the first day of class in both August and January. Gateway, which is jointly administered by the Offices of Academic Affairs, Enrollment Services, and Student Development, introduces new students to the university programs and procedures they will need to succeed. During Gateway, new students meet in FYS 111: First-Year Seminar I, a course developed to help students understand Mars Hill’s undergraduate curriculum and become familiar with related services and resources. Through FYS 111, each incoming first-year student becomes part of a small group of freshmen and an advising team composed of an instructor and a challenger. The team continues to work together during Gateway and throughout the semester.

During their first year, students declare a major field of study and are assigned an advisor who is a full-time faculty member in that field. Together, students and advisors discuss academic and professional goals, work out a program of study, and choose courses for upcoming semesters. Students are strongly encouraged to follow the advice of their academic advisors, who are trained in university and program requirements and are well versed in the curriculum, but students are ultimately responsible for choosing their courses of study and fulfilling the requirements, as set forth in their catalog of record. For essential information about educational requirements and options, students should carefully read the sections of this catalog on the general studies program and on major disciplines.

University Policy for Communicating with Students

The official means of communicating with students at Mars Hill University is through the university e-mail address, university intranet (my.mhu.edu), and campus post office box.

The university must have a permanent “home” address and phone number for each student, and an emergency contact person and number if different.

Commuters must provide a local residence address and phone number if different from permanent address.

Verification of permanent home address and phone number and if student is a commuter, the local address and phone number, are to be made at the beginning of the academic year when the student receives a vehicle parking sticker. Changes to permanent address and phone during the academic year, and initial verification for those students who do not register a vehicle, may be made in the Registrar’s Office.

The Academic Major/Minor

Majors recorded in the student records system are considered only as an area of interest until a student’s fifth semester of enrollment. At a student’s fifth semester, the area of interest becomes the student’s official major and degree. Transfer students should declare a major upon matriculation if transferring 60 or more semester hours of credit. Because the requirements for a major vary according to each department, the specific requirements are outlined in the descriptions of the academic departments and majors later in this catalog. To provide students the opportunity to specialize within a field of study, many majors offer a number of concentration areas. To complete
degree requirements for those majors, a student will be required to complete requirements for one or more concentrations. Minors are also offered by many departments. To receive a degree from Mars Hill University, a transfer student must complete a minimum of 12 hours in a major, 60 hours at a senior college, and the last 25% of the required hours for the degree at Mars Hill. A student must also complete a minimum of 6 of the required hours to receive a minor at MHU.

Credit-hour guidelines for majors and minors are as follows:

- Minimum, all majors: 30 hours
- Maximum, liberal arts majors: 48 hours
- Maximum, all professional majors: 64 hours
- Minimum, all minors: 18 hours
- Maximum, all minors: 24 hours

Note:

“Hours” in the major/minor are defined as all credits earned within the major or minor department, plus credits from courses outside the department that are required in the major or minor and cannot be counted as part of General Education (excludes Professional Education requirements).

Change of Faculty Advisor or Major

To ensure timely progress toward completing degree requirements, students should officially declare a major in their fourth semester of enrollment. Freshmen will be advised for second semester classes by their FYS 111 instructors. During the fall semester, academic departments host a Majors Fair to provide freshmen (or other students with no declared interest area) with major and career information. Following the fair, a major or area of interest declaration day is held in the FYS 111 classes. The students are assigned an academic advisor from among faculty in their declared interest area. At the fifth semester of enrollment the area of interest becomes the student’s official major and degree. Majors, minors, and concentrations on a graduate’s transcript reflect those for which requirements have been completed.

Transfer students transferring 60 or more semester hours credit (and enter with junior standing) should declare a major and are assigned an academic advisor upon matriculation. A student who wishes to change his/her major may do so by completing the appropriate form in the Registrar’s Office.

Students are expected to meet the degree requirements in effect for the year/term of initial enrollment at MHU unless he/she discontinues enrollment for two consecutive semesters, in which case the catalog at the time of reenrollment will be his/her catalog of record. Students may choose to complete the requirements in a subsequent catalog.

Academic Calendar and Credit

The university operates on a semester basis with most traditional courses offered during two 15-week terms in the fall (August-December) and the spring (January-May). Most courses delivered through the Office of Adult and Graduate Studies are offered during four nine-week short terms, two in the fall (August-October, October-December) and two in the spring (January-March, March-May). The university also offers two five-week summer terms (May-June, July-August).

The quantity of work performed by a student is measured in semester hours of credit, also known as “credit hours” or simply “credits.” Each credit hour consists of at least 37.5 clock hours of work. All courses consist of one or more of the following categories of credit:

- **Lecture:** One hour of lecture credit is equivalent to at least 50 minutes of direct faculty instruction and at least 100 minutes of out-of-class student study per week for 15 weeks (12.5 instruction hours + 25 study hours = 37.5 total hours).

- **Internship:** One hour of internship credit is equivalent to at least 150 minutes of on-site work and at least 25 minutes of direct student-faculty discussion per week for 15 weeks (37.5 on-site hours + 6.25 discussion hours = 43.75 total hours.)
Lab: One hour of lab credit is equivalent to at least 100 minutes of direct faculty instruction and at least 50 minutes of out-of-class student study per week for 15 weeks (25 instruction hours + 12.5 study hours = 37.5 total hours). (Lab courses do not carry separate lab credit but lecture and lab are combined for course credit.)

Applied Music Lesson: One hour of lesson credit is equivalent to at least 50 minutes of instructor-led lessons and at least 100 minutes of practice per week for 15 weeks (12.5 lesson hours + 25 practice hours = 37.5 total hours).

Ensemble: One hour of ensemble credit is equivalent to at least 150 minutes of instructor-led practice and/or performance per week for 15 weeks (37.5 total hours).

Online courses conducted via the university’s course management system or another technology-mediated communication system must have the same learning outcomes as their conventional counterparts, and students in such sections are expected to demonstrate comparable levels of achievement. Online courses are for lecture or internship credit only, with instruction or discussion conducted synchronously or asynchronously.

The maximum credit which may be earned for internships and practica, directed reading programs, and independent study is 24 semester hours with separate maximums as follows: internships and practica, 21; directed reading programs, 6; independent study, 6. Departments may set lower maximums. Approved exceptions may be found in the departmental sections of this catalog.

Acceptance of Credit

Mars Hill University will accept for credit those courses completed at regionally accredited undergraduate two- and four-year institutions or from other institutions when appropriate documentation is provided. Students transferring 68 or more credits from two-year institutions must earn a minimum of 60 additional semester hours at four-year institutions. The last 25 percent of the credit hours and a minimum of 12 hours in the major must be earned at Mars Hill.

Courses submitted for transfer credit are evaluated by the Registrar’s Office in consultation with the appropriate department chairpersons. Courses to satisfy general education and major requirements are evaluated individually. Students transferring with the core general education requirements in a college transfer program from a North Carolina community college will receive credit for most general education requirements. (See Admissions section for more information on transfer credit).

Special Kinds of Academic Credit

Mars Hill University provides for College Level Examination Program (CLEP) credit, Credit by Examination, and Advanced Placement credit in accordance with the following policies:

1. Three semester hours of CLEP credit will be awarded for a score of at least 500 on each of the general examinations. Students who earn the score recommended by the Council on College-Level Examinations on one of the subject examinations will be awarded three semester hours of credit.

2. Credit by Examination is awarded to students who test out of certain courses or competencies. This includes both CLEP and other tests designed by the university. The maximum credit awarded is 15 semester hours. The department chairperson will make final determination of the exact amount of credit. Application is made through the appropriate academic department. Tuition is charged for academic credit obtained by in-house examinations. The current rate may be ascertained in the Business Office or in the Financial Information section of this catalog.

3. The university participates in the Advanced Placement Program of the university Entrance Examination Board. Freshmen who have demonstrated their achievement of specific placement tests may submit their scores to the Registrar’s Office. Those achieving a score of three (3) or better will be granted course credit and advanced placement in the area of their proficiency.

4. Mars Hill University accepts the International Baccalaureate Degree for secondary certification and awards advanced placement credit.

5. Three semester hours of Physical Education Credits (PE 101- Foundation of Physical Education-3 semester hours) will be given for basic military training upon the submission of the student’s DD 214. Additional credits for military training are awarded on the basis of the American Council of Education recommendations.
Academic Load and Overload Policy

No student living in a university residence hall may take fewer than 12 semester hours except with special permission from the dean of students and the registrar. A normal full-time academic course load is 12 to 20 semester hours. The maximum number of hours a student may carry in a regular semester without paying an overload fee is 20 (exclusive of applied music and varsity athletics courses).

Any student who wishes to take more than 20 hours in a regular semester must have a GPA of 3.0, based on at least 12 credit hours in the previous semester, regardless of classification.

An overload fee of $740 will be charged for each semester hour over 20. (Exception: AMU Applied Music courses and PE 115 Varsity Athletics are excluded from overload fees, but not the GPA requirement.)

No student is permitted to take more than 23 hours in a single semester or 18 hours in the summer terms. In a five-week summer term the maximum load is 9 hours per term (overload fees do not apply in summer terms).

Appeals of the GPA requirement must be approved by the student’s advisor. Students having approval to take work at another institution while enrolled at Mars Hill University must keep their total course load within these stated limits.

Requirements for Enrollment in Online Courses

Online instruction is appropriate for some, but not all, students. Students who enroll in online courses shall:

be in good academic standing (not on academic probation), have completed 28 credit hours of college credit with at least 12 credit hours at Mars Hill University, and have successfully completed ENG 112;

be technologically competent by having the appropriate hardware, speed of internet connection, and skill with software employed; and

have the appropriate attitude toward learning as demonstrated by discipline, self-motivation, and time management.

The Registrar’s office may drop students who are not in good academic standing from class rolls.

Registration and Schedule Changes

Registration: Courses are offered on a semester basis with schedules published in PowerCampus Self-Service in October and March for the following semesters. Early registration with advisors is held for continuing students during the fall and spring semesters. Continuing students not registered during early registration, may register at the beginning of the semester with new students. No student may attend class unless cleared by the Business Office and officially registered.

Class Add: During the first 5 days (2 days in summer terms) of class a student may make schedule changes with advisor authorization. Normally, no course may be added after these 5 days (2 in summer); however, exceptions may be made with the approval of the instructor and the registrar. Any instructor may refuse to accept a student after the initial registration period if too much subject matter has already been covered. If a student fails to attend a class during the first four days of regular classes, the faculty member may request that the student be dropped from the class roll.

Class Drop: A student is allowed to drop a course, with advisor authorization, during the first 20 days of classes (two weeks for short-term classes; five days for summer session classes) with no grade entry on the transcript. All courses on the student’s schedule after that deadline are considered courses attempted and will appear on the student’s transcript.

Class Withdrawal: After the last drop date and before the stated deadline in the academic calendar (day following fall or spring breaks in regular terms; after 4-weeks in the AGS 9-week terms), a student is allowed to withdraw from a class with a grade of “W” as long as the student remains full-time (12 semester hours) after the withdrawal. After this stated deadline, a student may not withdraw from class/classes, but must withdraw from the university (see section below). Courses for which a grade of “W” is posted will remain on the transcript but the grade will not be calculated in the grade point average.
Withdrawal from the University

To officially withdraw from the university, a student must obtain the appropriate withdrawal form from the Registrar’s Office and follow the specific withdrawal procedures. Withdrawal from the university after the 20th day of class will result in grades of “F” for all classes, unless the withdrawal is for medical or psychiatric reasons, or for extraordinary extenuating circumstances which are approved by the chief academic officer for grades of “W.” No withdrawals, including medical or psychiatric, are allowed in the last two weeks of regular classes. (See Financial Aid and Refund Policy for Withdrawals for information about the financial obligations when withdrawing from the university.)

Medical and Psychiatric Withdrawals

These withdrawals are reserved for the student with a serious, chronic health or mental health problem that requires him/her to leave school for treatment, or that prevents the student from performing necessary activities of daily living on a university campus. For a medical or psychiatric withdrawal to be approved, a letter from a medical doctor must be received within ten working days of the initiation of the withdrawal. All these withdrawals will be reviewed for approval by the Director of Medical Services and/or the Director of Counseling. Please see Student Handbook for detailed requirements for medical/psychiatric withdrawals.

Readmission after Medical or Psychiatric Withdrawal

Students who receive a medical/psychiatric withdrawal from Mars Hill University may be eligible for readmission after a full semester or summer term away, with documentation from the student’s treatment provider. Please see Student Handbook for documentation requirements for readmission.

Administrative Withdrawals

A student may be administratively withdrawn from all classes when he/she fails to attend classes for two weeks. Grades will be entered on the transcript according to withdrawal guidelines.

Other Withdrawals

Withdrawals for extenuating circumstances must be approved by the Chief Academic Officer. (AGS students’ withdrawals must also be approved by the Dean of Adult & Graduate Studies.)

Further information on the withdrawal process is listed in the Student Handbook. Please refer to the financial section of the catalog for financial responsibilities when withdrawing.

Appeals Procedure

If a student is denied withdrawal, return to campus, or readmission, he/she may write a letter of appeal. This letter must be submitted within 5 working days of the time the student is informed of the denial to:

Disabilities Committee, P. O. Box 6744, Mars Hill University, Mars Hill. N.C.,

Or, the student may bring the letter to:

The Disabilities Office, 2nd floor, Robinson Infirmary, Mars Hill University.

The letter will be reviewed by the Disabilities Committee, and the student (and parents if within HIPAA and FERPA guidelines) will be informed of the decision.

In emergency situations, the university reserves the right to act immediately to protect the health and safety of the student and the University community. This action may include immediate separation from the university, pending appeal.

Auditing a Course

Individuals not enrolled at Mars Hill University who wish to audit a course must: 1) complete an application for audit, 2) obtain approval from the Registrar, 3) obtain approval from the instructor when so advised, and 4) pay the audit fee.
Traditional students enrolled full-time may audit one course per term without additional charge providing approval is obtained from the academic advisor and instructor concerned. Audited courses are not reflected on the academic transcript.

**Evaluation, Grading, and Transcripts**

A student’s academic transcript is considered the permanent academic record and consists of directory information—name, address, identification number, graduation date, degree, major(s), minor(s); and the complete academic record including transfer credits.

Records of progress are kept on veteran and non veteran students alike. Semester grade reports are available on-line through PowerCampus Self-Service. Mid-semester, unsatisfactory grades are available on-line through Self-Service. The basic unit of credit is the semester hour. See “Academic Calendar and Credit” for specific credit definitions.

A two-part grading system is employed to indicate levels of student performance in courses. One is the traditional A-F system, as follows:

- A - excellent; B - good; C - acceptable; D - marginal; and F - failure.

The second grading system is as follows: S - satisfactory; U - unsatisfactory. (Further details follow in this section.)

The meanings of other final grades are as follows: CE - credit by examination; CR – Advanced Placement Credit; I - incomplete; W - withdrawal.

**Grade Point Calculation**

The university seeks to encourage its students in the quality – as well as the quantity – of their work through a grade point system. The following grade points will be assigned for each letter grade: A = 4; A minus = 3.7; B plus = 3.3; B = 3; B minus = 2.7; C plus = 2.3; C = 2; C minus = 1.7; D = 1; F = 0. For example, if a student receives a final grade of B in a course that carries three semester hours credit, he/she is awarded 9 quality points. The grade point average is computed by dividing the total quality points on hours earned by the number of hours attempted, except for courses with grades of CE, CR, W, S, and U; and those excluded under the Repeat Course Policy.

To be eligible for graduation, students must (1) complete a minimum of 128 hours (with at least 25% taken at Mars Hill), (2) complete all requirements for a degree program, and (3) have a cumulative GPA of 2.0. The cumulative GPA will be used for financial aid standards of progress and for computation of academic standing for probation and suspension.

Any student who withdraws from a course after the initial registration and adjustment period and the specified period for withdrawing from a course will receive the grade of “F” unless approved for other grade by the chief academic officer.

**Incomplete Grades**

A grade of “I” is a temporary grade and will automatically be changed to an “F” by the Registrar at the end of the drop period in the semester following the semester in which the “Incomplete” grade was given, unless the instructor replaces it with a grade. The instructor may shorten or lengthen the time permitted for making up an Incomplete.

The instructor may grant an extension for an Incomplete for one semester by completing an Extension Card in the registrar's office.

**Satisfactory/Unsatisfactory Grading**

Each student is permitted to identify four elective courses (outside general education, major, or minor requirements) during the junior and senior years, to be taken on an S/U basis. These are limited to one per semester. In addition, certain courses designated by the departments are graded on an S/U basis rather than on the traditional ABCDF scale. An S indicates that the student has demonstrated a level of mastery in course skills and knowledge that has been established by the instructor as meeting the criteria for competence (i.e. a level of A, B, or C). In some cases the student
must demonstrate a higher level of proficiency in order to earn a grade of S. A grade of U indicates that the student has failed to meet the criteria for competency. No quality points are awarded for grades of S/U, nor are the hours included in the calculation of the grade point average.

Grade Report/Transcripts

Semester grade reports and unofficial transcripts are available to currently enrolled students online through PowerCampus Self-Service. Official transcripts must be requested from the Registrar’s Office and must include the student’s signature and the transcript fee. Request forms are available online at www.mhu.edu/about-mhu/administration/registrar or in the Registrar’s Office, Blackwell Hall. Transcripts are issued only to those students who have met their financial obligations to the university. Graduates are issued one unofficial and one official transcript (without charge) upon graduation and have 30 days to appeal any entry on the transcript.

Academic Honors

Full-time students who earn a grade point average of 3.50 and no grade below C are included on the Dean’s list at the end of the semester.

Membership in the campus chapter of Alpha Chi National Honor Scholarship Society is based primarily on grades. The chapter, designated as the North Carolina Epsilon Chapter, is open to juniors and seniors in the top five percent of their class who have a grade point average of not less than 3.50.

Adult and Graduate Studies honor students are eligible for membership in Mu Kappa Lambda, a chapter of Alpha Sigma Lambda. Alpha Sigma Lambda National Honor Society recognizes adult students in continuing higher education who achieve academic excellence, while managing responsibilities to family, work and the community.

Honors printed in graduation programs will be based on Mars Hill University credits only, and will be calculated on a student’s academic record at the end of the semester prior to the graduation semester. To be eligible for graduation with honors, a student must have completed at least 60 semester hours (with no repeat courses) at Mars Hill University by the end of the semester prior to the graduation semester. The student’s final transcript will indicate the actual honors earned based on the final MHU grade point average.

The diploma of a student who has a cumulative MHU grade point average of 3.50 is inscribed “cum laude”; the diploma of a student who has a grade point average of 3.70 is inscribed “magna cum laude”; and the diploma of a student who has a grade point average of 3.90 is inscribed “summa cum laude.”

Repeat Course Policy

Students who repeat a course are not eligible for graduation honors. Courses in which a student has earned a grade of F, U, or W may be repeated. The grade and hours for each attempt will be recorded but the grade and hours for the last attempt will be used to calculate earned hours and the grade point average (gpa). A student may not repeat a course for which he/she has received a grade of D beginning summer 2011.

Academic Probation/Suspension

Mars Hill University students must demonstrate their ability to perform satisfactorily both by grade point average and by hours earned. To remain enrolled in good academic standing, a student must have maintained at the end of any semester the following cumulative grade point average and earn the minimum hours listed:

Qualitative Standards:

- Freshmen (1-27 hours earned) 1.50
- Sophomores (28-59 hours earned) 1.80
- Juniors and above (60 or more hours earned) 2.00

Quantitative Standards:
<table>
<thead>
<tr>
<th>Semester Attempted Hours</th>
<th>Minimum Required Earned Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 hours or more (full time)</td>
<td>12 hours</td>
</tr>
<tr>
<td>9-11 hours (3/4/ time)</td>
<td>9 hours</td>
</tr>
<tr>
<td>6-8 hours (1/2 time)</td>
<td>6 hours</td>
</tr>
</tbody>
</table>

A student who does not meet the minimum requirement will be placed on academic probation for the following semester. A student who fails to meet the requirements during the probationary semester will be placed on academic suspension for one regular semester. However, a student who earns a 2.0 grade point average for the probationary semester (full-time enrollment) will automatically be granted one more semester to achieve the required cumulative standard.

Students placed on academic suspension at the end of the spring semester may use the summer session to meet the minimum standards to be reinstated for the fall semester; those placed on academic probation may use the summer session to return to good standing for the fall semester.

Any student may appeal to the Admissions, Academic Standards and Financial Aid Committee for continued enrollment.

Students who have been academically suspended may apply for readmission through the Admissions Office after one semester.

**Readmission After Academic Suspension**

Students who leave Mars Hill University while on academic probation or who have been suspended for academic reasons, may be accepted for readmission if they have attended another accredited institution and raised their cumulative grade point average to that required for academic good standing for their classification upon readmission.

In exceptional cases, the Admissions, Academic Standards and Financial Aid Committee may vote to readmit a student who does not qualify under the previous conditions, if, and only if, 1) it is possible for the student to attain good standing within one semester of readmission without taking an overload and 2) the student’s previous academic record at Mars Hill University gives strong indication that the requisite grades to attain good standing will be attained.

A student may not register for classes at Mars Hill University if he/she has received academic suspension status three times, unless approved to do so by the Admissions, Academic Standards and Financial Aid Committee.

**Class Attendance**

A student should recognize that one of the most vital aspects of a residential university experience is attendance and punctuality in the classroom and that the value of this academic experience cannot be fully measured by testing procedures alone. The effect of absences upon grades is determined by the instructor. Arranging to make up work missed because of legitimate class absence is the responsibility of the student, who takes full responsibility for attending classes and is accountable to his/her instructor for all work. The consequence of failure to assume this responsibility must be accepted by the student.

The number of absences permitted in each class is determined by the academic department concerned in accordance with the following principles:

- That the number of absences permitted be set realistically to provide students an opportunity to participate in extracurricular activities;
- That each instructor distribute a course syllabus including the absence policy within the first week of class.

That faculty maintain attendance rosters and report excessive absences to the retention office. For relation to financial aid see “Refund Policy for Federal Aid Recipients.”

**Change of Grade**

Once reported to the registrar, all grades become part of the permanent record. A faculty member may not change a grade except for a clerical or calculation error. After the grades have been recorded and grade processing is complete, a posted grade (other than Incomplete) may not be changed without approval from the chief academic officer.
A student appeal for a grade change or a challenge to the academic record must be made before the end of the semester following the term in which the challenged grade was received.

**Classification of Students**

Requirements for classification of students are as follows:

- 28 hours earned to be classified as a sophomore
- 60 hours: junior
- 90 hours: senior

Persons who meet entrance requirements and are taking university courses for credit but with no intent to earn a degree are designated as “Unclassified Students.”

**Graduation and Residence Requirements**

To participate in the Commencement ceremony, a student must have completed all requirements for a degree. Students completing requirements in May will be allowed to participate in May commencement. Those completing requirements in August or December will be allowed to participate in the December commencement.

To receive a degree from Mars Hill University, a student must complete the general education and major requirements specified in the student’s catalog of entry and electives necessary to earn a minimum of 128 semester hours of credit. Sixty credit hours must be earned at a senior level institution. A minimum of 12 hours in the major and at least 25% of total required credit hours must be earned at Mars Hill.

The student must earn a cumulative grade point average of 2.00 for all courses attempted excluding those taken on an S/U basis and those for which the repeat course policy was applied.

The academic program which leads to a degree is composed of related parts: general education, the major, and electives. Courses taken as electives may be in the student’s major, in related disciplines, or in other areas of special interest. A maximum of nine semester hours of credit for developmental courses (ED 101, ENG 100, ENG 101, MTH 101) may be applied toward graduation as electives.

Generally a student’s catalog of entry is considered his/her catalog for general education, major, and minor requirements as long as he/she is continuously enrolled full-time. However, when significant general education, major, or minor requirements change, the student may be required (or may choose) to complete the requirements, with appropriate substitutions, in a subsequent catalog. Full-time or part-time students not completing a degree within six years may be required to complete current requirements. When Mars Hill University students have earned 90 semester hours of credit, they are classified as seniors and must apply for graduation with the Registrar’s Office. They will then receive an academic audit, which will outline remaining course requirements for degree completion. It is required that the student then have a meeting with the Assistant Registrar to determine graduation eligibility. After the meeting, it is the student’s responsibility to notify the Assistant Registrar of any changes in his/her academic plan.

**Substitution of Requirements**

Substitutions of required courses, other degree requirements, and academic regulations may be made only with adequate cause. Substitutions in major requirements established by an academic department must be approved by the department chairperson. Substitutions in university-wide regulations and requirements must be approved by the chief academic officer. All requests must be submitted in writing to the appropriate person for approval and forwarded to the Registrar. Course substitution requests related to disabilities accommodation should be submitted in writing to the Committee on Disabilities. Approved requests become part of the student’s academic file in the Registrar’s Office.

**Independent Study/Directed Readings**

There are opportunities in most academic departments for students to engage in independent study, research, seminars, and directed readings. Such opportunities are open to all students in accordance with policies established by the Curriculum Committee. Students who wish to receive credit for work in independent study must submit a
proposal to the Curriculum Committee before registration for the class. The proposal must be signed by the faculty member directing the study and by the department chairperson. The Curriculum Committee will promptly notify the student and supervising faculty member if credit for the study is approved. Independent study is defined as a program of study designed by a student and faculty member to achieve mutually agreed objectives. An independent study program may not be substituted for a regular course requirement. At times, a faculty member may offer a regular course by working individually with a student; in which case Curriculum Committee approval is not required.

Directed reading programs of study are approved at the department level and should not be referred to the Curriculum Committee. Students wishing to pursue directed reading programs should contact a faculty member, department chairperson, or program coordinator.

Independent study and directed reading projects are designed to allow students to engage in research or study not available in regularly scheduled courses or to pursue in greater depth a subject of interest to which the student was introduced during a regular course. Students approved for independent study and directed readings are deemed capable of showing the creativity and independence that such subjects are intended to encourage; however, all independent study and directed reading projects are supervised by faculty, always involve regular periodic meetings between the student and the faculty supervisor, result in a product of some kind, and are graded by the faculty supervisor according to evaluative criteria stated at the beginning of the project.

The maximum credit which may be earned for internships and practica, directed reading programs, and independent study is 24 semester hours with separate maximums as follows: internships and practica, 21; directed reading programs, 6; independent study, 6. Departments may set lower maximums. Approved exceptions may be found in the departmental sections of this catalog.

**Summer School**

Mars Hill University offers a comprehensive Summer School program allowing students to spend summer in the refreshing mountains, just outside of Asheville, North Carolina. The summer session, coordinated through Adult and Graduate Studies, constitutes an important segment of the total university program. All Mars Hill University students are invited to participate in Summer School. Admission requirements are generally the same as those for the regular terms. The same academic standards are maintained, and the credits earned are of equal value. The full-time faculty and staff of the university serve during the summer, supplemented by visiting instructors and specialists. All of the facilities of the university are available during the summer.

Come to campus and stay as a residential student, or take online classes from the comfort of your home (or wherever you may be on vacation). Classes are also available in the evenings on the Mars Hill campus and at the Asheville Center for Adult and Graduate Studies. Summer classes allow you to stay on track academically or take classes you may have missed out on during the traditional academic year.

A student who registers for 12 semester hours in summer school is considered full time (half time is 6 semester hours). A maximum of 18 semester hours credit may be earned in summer school without special overload approval by advisor and the registrar.

The list of courses to be offered during the summer session is determined primarily by the needs and requests of the students. It is published sufficiently early in the spring semester to allow students to register for summer classes when they early register for fall semester. In addition to the wide choice of regular courses the summer session is enriched by numerous workshops, institutes, and special conferences held on campus. Summer is a good time for freshmen to begin the university. Classes are small, and tuition is less than during the regular school year.

Students from other colleges and universities are welcome in the summer program. Simply fill out a visiting student application found on the Mars Hill University website, www.mhu.edu/ags. Summer School is divided into two five-week terms, with some classes spanning both terms. Evening on- and off-campus classes are available as well as day classes on campus and online classes.

Contact the Adult and Graduate Studies and Summer School office by calling 828-689-1166 or 800-582-3047, or by visiting the www.mhu.edu/ags website. You are also invited to visit our offices in the lower level of Renfro Library, room 110, or at the Asheville Center, at 303B Airport Road, Arden, NC.
Permission to Take a Course at Another Institution

After enrolling at Mars Hill, any student wishing to take a course from another institution and transfer the credit to Mars Hill must secure permission from the registrar prior to taking the course.

The student must submit the following to the office of the registrar:

- The name of the institution which will be attended and the year and term of the enrollment.
- The courses, course numbers, and descriptions of the courses to be taken.
- If a course is to be used to satisfy a major requirement, the signature from the major department chairperson.

The registrar shall grant approval if, in her judgment, the proposed action is justifiable, the student has obtained the necessary approvals, and the student is not a senior. If the student is classified as a senior, the registrar will make a decision in consultation with the chief academic officer. The student must obtain a waiver of the residency requirement from the chief academic officer if he/she is within the last 25% of the remaining degree requirements.

Confidentiality of Student Records

Access to most student records is limited by federal regulations, which are incorporated into the university's official statement on the confidentiality of student records. This policy is included in the Student Handbook and on the Mars Hill University Web page.

University Honor Code and Policy on Plagiarism

Honor Code

We, the students of Mars Hill University,
pledge ourselves to uphold
integrity, honesty, and academic responsibility
in and out of the classroom.

Honor Pledge

On my honor, I have neither given nor received
any academic aid or information
that would violate the Honor Code
of Mars Hill University.

Mars Hill students are expected to know how to recognize and avoid plagiarism. Plagiarism is presenting other people’s work as your own. Using another person’s idea, words, or work is theft, just as surely as is the theft of a car, CD player, or other tangible property. As members of the academic community, students must be mindful of other people’s property. Failure to respect such property rights is considered a serious and punishable violation of the Mars Hill University Honor Code.

Plagiarism is:
- Presenting someone else's idea but not giving credit for it (implying the idea is yours).
- Presenting someone else’s words without giving credit.
- Submitting any work which was done by someone else (including another student) and claiming it is your own work. Examples: lab reports and computer assignments.

A student who plagiarizes an assignment is violating the Honor Code. Penalties for violations are determined by the Honor Council or by the instructor of the course in which the incident occurred and range from a zero on the assignment up to and including suspension from the university.

The Honor Council consists of ten members (six students and four faculty representatives, with the Director of Judicial and Leadership Programs as a non-voting member) and is responsible for enforcement of the Honor Code. Refer to the Student Handbook for a full description of the Honor Council and the procedure governing hearings.
Types of Honor Code Violations

Cheating - plagiarism, cheat sheets, handing in someone else’s work as one’s own—for example: material from the Internet, helping someone in class in a manner that is considered cheating, giving or receiving any information that is prohibited.

Lying - lying about any offense under the Honor Code and Honor Pledge.

Stealing - only in those violations that are not covered by the Student Code of Conduct.

Academic Appeals Procedure

Only academic matters come under these guidelines. Personnel matters are handled by administrators; social issues in Student Development go through Student Government Association judicial procedures. The rights and responsibilities of the faculty and students in the academic areas of campus life are included in the Student Handbook. The statement of a grievance and the appeal of a decision should follow procedures that encourage fairness, civility, and responsible citizenship and should not infringe upon the rights of either students or instructors. For details, consult the Mars Hill University Student Handbook, Section 4.6 Academic Appeals Procedure.

The Honors Program is a unique curricular program, designed in 2009 by faculty members from all three of Mars Hill University’s academic divisions and based on research into best practices in university honors education across the country. The program features a multi-disciplinary approach that complements the university’s general education core.

Mission

The Mars Hill University Honors Program enhances the university’s rigorous liberal arts education, graduating exceptional students who emerge as intellectually curious scholars and effective, principled leaders—at their institution, in their communities, and in the world.

A graduate of the Honors Program at MHU will:

- Demonstrate advanced skills in critical, creative, and independent thinking through multi-disciplinary study,
- Display exceptional written, oral, visual, and technological literacy to a variety of pertinent audiences,
- Exhibit a love of learning, risk-taking, and intellectual curiosity,
- Demonstrate effective research and information literacy skills in academic and civic environments,
- Demonstrate exemplary leadership abilities in the promotion of community and global awareness through active civil engagement, and
- Be an active member of a community that fosters friendship, scholarship, creative expression, and personal growth.

Eligibility:

To be eligible for the program, a student must have a high school GPA of at least 3.7 (waived for homeschooled students and those whose schools do not track GPA), or an SAT combined score (verbal + math) of 1150, or ACT composite score of 25, and those qualities that are the hallmarks of successful college students: intellectual curiosity, critical thinking, strong communication skills, cultural awareness, leadership potential, and creativity. No more than 15 students are admitted to the program per year.

Second semester freshmen with a minimum 3.5 GPA may apply for the program as well.

Students in the program must maintain a 3.2 grade point average, must demonstrate regular progress toward completion of the program, and must live on campus all four years (with exceptions for study-abroad opportunities).

Probation and Suspension from the Program:

An honors student who does not meet the minimum GPA requirement will be placed on academic probation for the following semester. An honors student who fails to meet the GPA requirement during the probation semester will be suspended from the program.
The Curriculum

18 Hours

FYS 111 Honors  3
Honors Seminars  4
  HON 100 (freshman year, fall)
  HON 200 (sophomore year, spring)
  HON 300 (junior year, spring)
  HON 400 (senior year, fall)
Mini-Courses  8-9
  HON 201-220
Honors Contracts  2-3
  HON 456, 457, 458 (jnr.-snr. years)

Students who participate in study abroad or domestic study away programs may be allowed to count some coursework at other institutions toward Honors Program requirements.

First-Year Seminar

All new first-year honors students at Mars Hill University register for the honors section of the First-Year Seminar. The course introduces students to the university experience at Mars Hill, to concepts fundamental to a liberal arts education, to the skills necessary for success in college, and to disciplinary perspectives. It is taught by a faculty member who serves on the Honors Council, with assistance from an upper-level honors student.

Honors Seminars

Every year, students in the Honors Program participate in an annual seminar. The seminars are paired, such that the freshman HON 100 course and the senior HON 400 course are taught concurrently in the fall, while the sophomore HON 200 course and the junior HON 300 course are taught concurrently in the spring. All Honors Seminars are offered for S/U credit only.

Students in the fall HON 100/400 seminar identify a problem in the community, conduct applied research through a variety of discipline-based approaches, and implement an action plan.

Students in the spring HON 200/300 seminar develop and direct campus-based experiential opportunities, such as academic lectures, short-term field experiences, and cultural events.

Honors Mini-Courses

Mini-courses are the hallmark component of the MHU Honors Program. During every fifteen-week semester, three five-week, one-credit courses are offered consecutively in three different disciplines. Students who have completed their first semester in the program may register for as many or as few of the mini-courses in a term as they wish, but they must satisfactorily complete a minimum of eight mini-courses to meet the Honors Program requirements (nine if the student chooses to develop only two honors contracts).

Honors students are encouraged to register for mini-courses that are “outside their comfort zones.” Students may opt for the S/U option in up to three mini-courses.

Honors Contracts

During their junior and senior years, students in the Honors Program work with faculty in their major or minor fields of study to develop honors contracts (HON 456, 457, 458), consisting of additional responsibilities or research projects associated with regularly offered courses. To complete the Honors Program, students must satisfactorily complete at least two contracts (three if the student chooses to take only eight mini-courses). Each student’s honors contracts must complement separate courses.
The MHU Writing in the Disciplines Program

The Mars Hill University Writing in the Disciplines (WID) Program provides participating faculty and students opportunities for deepening teaching and learning through an emphasis on integrating writing into classes across campus. With the added emphasis on writing, courses in the writing program allow students to deepen their level of engagement with course materials while strengthening critical thinking skills. Faculty, in turn, have opportunities to revitalize their teaching as they use writing to help reach course goals while strengthening assignments, assessment, and student learning.

**How does it work?**

Faculty who teach in the WID program are assigned a Writing Fellow; the Fellow, or classroom-based peer tutor, works exclusively with the written component of the class. The Fellow’s main responsibility is to read and respond to student writing. As well, Fellows conduct one-on-one conferences with each student in the class as a way of providing helpful feedback. After working with a Fellow, students are more likely to make important and effective revisions to their written work, thus improving their understanding of course content and strengthening their approach to effective writing. Faculty benefit as well by receiving final papers that demonstrate more effective student learning.

**What courses participate in the WID Program?**

Courses that are part of the WID program are identified throughout the catalog with “WID.” As the program grows and builds momentum, more courses will be added yearly. Courses throughout the catalog that have a superscripted WID (WID) identify writing intensive courses.

SW 300; CHM 215, CHM 227; BIO 215, BIO 216, BIO 336; MUS 312; ENG 210; PSY 225; HIS 391; BA 236
Degrees Offered by Mars Hill University

**Bachelor of Arts**
with majors in the following:
- Art
- Art Therapy
- Elementary Education (K-6)
- English
- English as a Second Language
- History
- Integrated Education
- International Studies
- Middle Grades Education (6-9)
- Music
- Political Science
- Psychology
- Religion and Philosophy
- Sociology
- Spanish
- Special Education
- Theatre Arts

**Bachelor of Fine Arts**
with major in the following:
- Musical Theatre
- Visual Communications Design (Art)

**Bachelor of Music**
with majors in the following:
- Music Education
- Music Performance

**Bachelor of Science**
with majors in the following:
- Apparel and Interior Merchandising
- Athletic Training
- Biology
- Business Administration
- Business Management (Adult & Graduate Studies only)
- Chemistry
- Computer Science
- Criminal Justice
- Mathematics
- Physical Education
- Recreation & Sport Management
- Zoology

**Bachelor of Social Work**
with major in the following:
- Social Work

**Master of Education**
(see Adult & Graduate Studies catalog)
Academic Divisions and Departments

Academic departments are organized into three divisions with a dean.

Division of Fine Arts and Professional Programs

Dean

Elizabeth Vogler

Department of Art & Theatre Arts

Chair

Richard Cary

Majors: Art, Musical Theatre, Theatre Arts, Visual Communications Design
Minors: Art Studio, Art History, Theatre Arts

Department of Business Administration

Chair

Grainger Caudle

Majors: Apparel & Interiors Merchandising, Business Administration, Business Management (AGS only)
Minor: Business Administration

Department of Education

Chair

Deb Morris

Majors: Elementary Education (K–6), English as a Second Language, Integrated Education (Elementary & Special Ed), Middle Grades (6–9), Special Education (K–12)

Department of Music

Chair

Teresa Sumpter

Majors: Music, Music Education, Music Performance
Minor: Music

Department of Social Work

Chair

Elizabeth Vogler

Major: Social Work

Division of Humanities and Social Sciences

Dean

Phyllis Smith

Department of Language & Literature

Chair

Joanna T. Pierce

Majors: English, Spanish
Minors: English, Spanish, French

Department of History, Religion and Philosophy

Chair

Lucia Carter

Majors: History, Religion
Minors: History, Religion, Philosophy & Religion
Department of Social Sciences
Chair Ashby F. Walker
Majors: Art Therapy, Political Science, Psychology, Sociology, Criminal Justice
Minors: Political Science, Psychology, Sociology, Criminal Justice

Division of Mathematics and Natural Sciences
Dean Scott Pearson

Department of Health, Physical Education, Recreation
Chair Joy Clifton
Majors: Physical Education, Recreation & Sport Management
Minors: Physical Education, Coaching, Health & Wellness Promotion, Recreation & Leisure Management, Sport Management

Department of Mathematics and Computer Science
Chair Gordon Roberts
Majors: Computer Science, Mathematics
Minors: Computer Science, Computer Information Systems, Mathematics, Webmaster

Department of Natural Sciences
Chair Alan Smith
Majors: Athletic Training, Biology, Chemistry, Zoology
Minors: Biology, Biological Natural History, Chemistry, Pre-Professional Studies

Interdisciplinary Majors & Minors
International Studies Major Gordon Hinners
Environmental Studies Minor Alan Smith
Regional Studies Minor Carol Boggess
Women's Studies Minor Yael Baldwin
Foundations and Perspectives: 
General Studies at MHU

Mars Hill University, an academic community rooted in the Christian faith, challenges and equips students to pursue intellectual, spiritual and personal growth through an education that is:
• grounded in a rigorous study of the liberal arts;
• connected with the world of work; and
• committed to character development, service and responsible citizenship in the community, region, and the world.

“Grounded in a rigorous study of the liberal arts”… What does that mean?
For the ancient Greeks and Romans, the liberal arts were the skills that free peoples needed to govern themselves, e.g., how to think critically, how to speak clearly, and how to build civil relationships for civil society.
For the early European universities, the liberal arts meant gaining competence in the “trivium” (grammar, rhetoric, logic) and the “quadrivium” (arithmetic, geometry, music, and astronomy). Philosophy was seen as feeding and nurturing all of the seven liberal arts.
For liberal arts colleges and universities today, the liberal arts refer both to content areas (math, science, humanities, arts) and to skill areas (critical & creative thinking, speaking, reading, writing, and doing art & science). Liberally educated persons ask good questions, don’t stop at the first answer, and contribute responsibly to their world.

At Mars Hill University, the liberal arts curriculum has three parts:
• Foundations and Perspectives, providing fundamental knowledge and skill-development and allowing for exploration of the traditional academic disciplines;
• Majors and minors, providing depth in one or more fields of study; &
• Electives, providing breadth of study.

Mars Hill University offers students a well-rounded, total education, the essence of a liberal arts University. Through the general education program we help students acquire the abilities and knowledge needed to be responsible and successful in their lives and to continue the life-long learning that the twenty-first century will demand of them. In the general education program students explore many fields of study essential to a liberal arts education and that provide a sound foundation for a major. We recognize that work in the majors is also an essential part of a University education. We expect our students to acquire the level of knowledge and ability needed to enter a vocation related to their major and to pursue graduate studies.
The Place

Community is the term that best describes the learning environment at Mars Hill University. The environment in which Mars Hill students learn is warm, supportive, accepting, and caring - characteristics that have grown out of our Christian heritage.

Community, however, means more at Mars Hill than friendliness and caring. The term also implies expectations and responsible behavior of all the members of the community. Community is a reality only to the extent that all members are committed to maintaining high moral and academic standards, treating other members of the community with respect, serving one another unselfishly, and actively participating in University life.

The Honor Code, which was written and approved by the Student Government Association 1999-2000, is one example of a student initiative to build trust among members of the University community and to encourage a sense of responsibility and integrity.

The Purpose

At its core, the Foundations & Perspectives curriculum is about balance. As its name suggests, the curriculum offers a balance between the need to ensure that students have competence in the fundamental knowledge and skill areas necessary for success in college—the Foundations—and the need to introduce and expose students to the variety of disciplinary and interdisciplinary epistemologies that underpin the academy—the Perspectives. The model provides both a solid, structured base for further study and opportunities for exploration and choice.

The Curriculum

It is essential that all students pay careful attention to the specific academic requirements that pertain to them, for it is ultimately the responsibility of each student to meet the stated requirements. Sound, helpful counseling and advice are available through the faculty advisor, the registrar, the department and program chairs, the division deans, and other college personnel.

The university reserves the right not to offer any course for which there is insufficient enrollment, which may be considered when enrollment is fewer than 6 students.

General Education Curriculum Outline

There are two types of requirements in general education: FOUNDATIONS courses and PERSPECTIVES courses. The curriculum as a whole consists of 40-52 semester credit hours, with 12-15 Foundations credits and 28-37 Perspectives credits; the exact number taken depends upon academic placement, major program requirements, and choices made by students. No single course can satisfy more than one general education requirement.

All elements of the Foundations & Perspectives curriculum are tied to Mars Hill University’s institution-wide student learning outcomes, which in turn are based on the AAC&U’s LEAP (Liberal Education for America’s Promise) essential skills. These institution-wide learning outcomes provide students with the opportunity to:

- Identify and solve problems using appropriate methods of inquiry, analysis, critical thinking, and creativity. (Informed, Critical, & Creative Thinking)
- Cultivate intellectual discipline, physical and spiritual well-being, ethical engagement, and respect with diverse communities. (Personal Growth & Social Responsibility)
- Comprehend the nature and value of aesthetic experience and expression. (Aesthetic Awareness)
- Communicate effectively using a variety of methods and appropriate technologies. (Effective Communication)
- Apply knowledge acquired in their academic studies and co-curricular activities. (Knowledge)
General Education Curriculum Requirements

The Foundations (12-15 credits)

The three Foundations components of the general education curriculum are designed to ensure that all Mars Hill students demonstrate competence in key areas prior to pursuing advanced study in their major fields. With limited exceptions, all Mars Hill students take the same courses to satisfy their Foundations requirements.

First-Year Seminar (6 credits)

FYS 111 (First-Year Seminar I) is a theme-based course that introduces students to the college experience at Mars Hill, to concepts fundamental to a liberal arts education, to the skills necessary for success in college, and to disciplinary perspectives. All first-time first-year students must register for the course in their first semester at Mars Hill, as must freshman transfer students who do not already have satisfactory credit for the course. Transfer students with at least 28 credits, exclusive of dual-enrollment and early college credit, may be exempted from this requirement. Students who do not pass FYS 111 must repeat the course every Spring semester until the requirement is complete. 3 credits.

FYS 112 (First-Year Seminar II) introduces students to the foundations of ethics discourse and to the practical application of ethical decision-making. After earning credit for FYS 111, all students must take FYS 112 every semester until the requirement is complete. Prerequisite: FYS 111. 3 credits.

Communication/Composition (3-6 credits)

As a fundamental medium for academic discourse and a primary tool for assessing student learning, writing permeates the curriculum. It is therefore of paramount importance that students develop a solid foundation in written communication to ensure subsequent success. All sections in this Communication/Composition component are taught by English program faculty with training and experience in teaching first-year writing courses. A student who does not successfully complete any course in the component must retake that course in the subsequent semester. ENG 111 and 112 are sequenced and cannot be taken out of order, nor can they be taken concurrently.

ENG 111 (College Composition I: Introduction to Academic Writing) introduces students to the fundamental conventions and expectations of writing in college courses. Students with adequate scores on the Advance Placement (AP) or International Baccalaureate (IB) exam may earn credit for this course. Prerequisite: ENG 100, ENG 101, or placement. 3 credits.

ENG 112 (College Composition II: Writing Across the Curriculum) builds on the skills developed in ENG 111 and introduces students to the variety of discipline-specific conventions and expectations of college writing. Prerequisite: ENG 111. 3 credits.

Students who arrive with exceptional communication and composition skills may be placed into ENG 113, an accelerated 3-credit course that covers the purposes and learning outcomes of ENG 111 and ENG 112 in a single semester.

Health, Wellness, and Fitness (3 credits)

The innovations of Information Age have fundamentally altered our expectations of the speed and facility with which data can be accessed, and while this transformation of technologically focused (or arguably dependent) cultures has brought a host of benefits, it has also shifted our attention from our existences in physical space to our existences in virtual space. Players of video games outnumber players of organized sports. High-calorie, low-nutrition foods are inexpensive and omnipresent. Life expectancy numbers have begun to plateau while obesity rates continue to climb. It is imperative, therefore, that students learn fundamental knowledge, skills, and dispositions regarding their health, wellness, and personal fitness.

HEA 111 (Foundations of Health, Wellness, and Fitness) focuses on the benefits of a healthy, active lifestyle and requires students to analyze how they treat and use their bodies in order to understand how their choices affect their immediate and long-term wellness. 3 credits.
Curriculum: Perspectives (28-37 credits)

Whereas the courses that satisfy the Foundations components are prescribed, the courses in the seven Perspectives components allow for exploration and student choice, subject to disciplinary constraints established by major program faculty. In addition, the Perspectives element requires a discipline-based practicum capstone, the semester credit hours for which are counted as part of the major and not as part of general education curriculum. No single course can satisfy more than one Perspectives requirement.

Humanities Perspectives (6 credits)

Humanities Perspectives courses introduce students to knowledge, methodologies, and values in the humanities. Students explore the evolution of ideas over time, critically interpret texts and documents, and construct effective written arguments. A variety of courses in English, History, and Religion/Philosophy can meet the Humanities Perspectives requirement. Students must take two courses in two different disciplines. Requirements may be specified by the major. Refer to Catalog descriptions of major requirements for further details. Prerequisites: ED 101, ENG 101.

Aesthetic Perspectives (3-6 credits)

Aesthetic Perspective courses are designed to help students understand and apply the skills necessary to create an artistic product. Additionally, students are introduced to the aesthetic experience as creative problem-solving and as a key component of artistic expression and of a balanced life. Requirements may be specified by the major. Refer to Catalog descriptions of major requirements for further details.

Quantitative Reasoning (3-6 credits)

In Quantitative Reasoning courses, students learn to analyze problems, select appropriate mathematical strategies to solve them, and evaluate solutions for reasonableness and accuracy. The courses are also designed to help students analyze data, recognize patterns, create mathematical models, and use numerical concepts in problem solving. All students are required to complete at least one course with an MTH prefix. Requirements may be specified by the major. Refer to Catalog descriptions of major requirements for further details.

Natural Scientific Perspectives (4 credits)

Natural Scientific Perspectives courses include both lecture and lab experiences that help students understand science as a process of discovery based on investigation and evidence from the natural world. In these courses, students evaluate the credibility of information, differentiate scientific understanding from personal beliefs and opinions, and evaluate the relevance and application of natural science to societal challenges as well as in their everyday lives. Requirements may be specified by the major. Refer to Catalog descriptions of major requirements for further details.

Social Scientific Perspectives (3 credits)

Social Scientific Perspectives courses are designed to help students understand the major concepts associated with a social science discipline and apply those concepts to critical societal problems. All course options require students to articulate the complexity of socio-cultural diversity inherent to society, to analyze opposing viewpoints and the scientific literature associated with social issues, and to evaluate various approaches aimed at addressing them. Requirements may be specified by the major. Refer to Catalog descriptions of major requirements for further details.

Global Perspectives or Foreign Language Study (3-6 credits)

Depending upon requirements specified by the academic majors, students will (a) complete a Global Perspectives course or courses, or (b) complete a course of Foreign Language Study, or (c) choose from either track. Refer to Catalog descriptions of major requirements for further details.
Global Perspectives Courses are designed to help students develop and apply an understanding of cross-cultural and global issues, processes, trends, and systems.

Courses in Foreign Language Study include options from both ancient and modern foreign languages. Students acquire knowledge of four skills central to foreign language study: reading, writing, listening, and speaking. They also develop awareness of culture, literature and history of the world relevant to the foreign language being studied, and interpret utterances in a foreign language in light of this awareness.

**Ideas and Innovations: U.S. and World (6 credits)**

Ideas & Innovations are interdisciplinary courses that examine a significant theme or topic relevant to understanding and interpreting an aspect of human experience in the past, the present, or both. The courses are designed to help students analyze and synthesize knowledge of a theme or topic from multiple perspectives, using a variety of appropriate and rigorous methods. Each student is required to take two Ideas & Innovations courses, one with a primary focus on a theme or topic from the U.S. experience and one with a primary focus on a theme or topic from some aspect of the world. No student may take more than one Ideas & Innovations course with a prefix code from his or her major area of study. Requirements may be specified by the major. Refer to Catalog descriptions of major requirements for further details. Prerequisites: Junior or Senior status, FYS 111/112, ENG 111/112 or ENG 113.

**Practicum**

All Mars Hill students take a comprehensive practicum course in the major that weaves together the threads of their general education and disciplinary coursework. To fulfill the practicum requirement, students must (a) conduct independent research or creative production or performance relevant to their discipline; (b) evaluate, analyze and synthesize information from coursework, professional and scholarly sources, and personal experience; and (c) communicate as an incipient professional in the discipline in both written and oral forms. Specific courses that meet the practicum requirement are identified in the following display of Foundations & Perspectives requirements, as well as in the Catalog descriptions of major requirements.
General Education Requirements 2013-2014

There are two types of requirements in general education: FOUNDATIONS courses and PERSPECTIVES courses. The two-part structure below summarizes the requirements listed for each part. Please note that one course may not meet two general education requirements.

The Foundations

The three Foundations components of the general education curriculum are designed to ensure that all Mars Hill students demonstrate competence in key areas prior to pursuing advanced study in their major fields.

Basic Skills Courses (see Notes)

ED 101  College Reading
ENG 100  English as a Second Language
ENG 101  Basic Writing
MTH 101  Basic Mathematics

Notes

• All students must either achieve an acceptable score on the SAT or ACT or complete Education 101.
• All full-time students must take an English course every semester until the composition requirement is complete. Based on the results of ACT or SAT and/or high school records, students will be placed in English 101, 111 or 113. Students are not permitted to drop 100-level English courses. Students for whom English is a second language may be required to enroll in English 100 (ESL: English as a Second Language) as a prerequisite for English 111.
• Based on the results of ACT or SAT and the high school record, some students will be placed in Math 101 (Basic Math) before registering for other mathematics courses.
• No substitutions are permitted in meeting the physical education requirements in Health and Wellness except for those who have completed Basic Military Training; however, modifications will be made for those students with legitimate medical conditions. Each case will be evaluated by the Disabilities Services Coordinator and the department chairperson of Health, Physical Education, and Recreation. The student must make the initial request through the Wellness Center. The Disabilities Services Coordinator will determine the adaptation made in the student’s course.
Majors
Apparel & Interior Merchandising (Bachelor of Science)

Department of Business Administration, Division of Fine Arts and Professional Programs

Professors: 
Teresa Burkett
Grainger Caudle
Rebecca Cody

Assistant Professors: 
Ted Berzinski
Colleen May
Elizabeth Cessna
Ron Collins

The Apparel and Interior Merchandising Major provides a broad-based education in apparel and interiors with emphasis on fashion, business, technology and design. The curriculum promotes the importance of conceptual thinking, analytical problem solving and creative development. This program of study enables students to develop attributes, skills and abilities to become effective contributors to businesses and organizations.

Program Outcomes

- AIM majors demonstrate comprehensive knowledge in the core areas of apparel, interior, and textile merchandising.
- AIM majors propose and implement critical thinking strategies to address core issues in the discipline.
- AIM majors effectively communicate merchandising strategies.
- AIM majors demonstrate aesthetic understanding in environmental or apparel design.
- AIM majors apply aesthetic knowledge to solve merchandising problems.
- AIM majors explore ethical and social responsibility issues in merchandising.
- AIM majors demonstrate personal growth in academic and professional fields related to apparel and interior merchandising.
- AIM majors apply knowledge, skills, and values in professional field experience.

Additional Information

Field trips and out-of-class experiences where students connect to the world of work are an important component of the AIM major. Trips include those to wholesale markets in Atlanta, GA, and High Point, NC, as well as trips in the local area to businesses, mills, and galleries where there is a connection to fashion and interiors.

Small class sizes allow professors to connect with students and be sensitive to individual needs, both professional and personal.

Activities are structured to enhance academic and personal growth through a variety of classroom experiences including a student directed and produced fashion show, undergraduate research, internship experiences, and participation in campus-wide promotional events.

A variety of elective opportunities allows students to customize their curricular choices to meet personal interests and needs including:

- AIM 100, Fashion Study Tour, which introduces students to topics in the apparel and interior industry including design, market centers, manufacturing centers, wholesaling, retailing, historic design centers and cultural centers of current prominence.
• AIM 125, Decorative and Wearable Arts, which encourages students to express individual creativity as they apply design elements and principals to create wearable or decorative items.
• AIM 457, Directed Readings, and AIM 327, Special Topics, which allow students to identify areas of interest and design learning experiences for self-directed learning opportunities.
• AIM 460, Independent Study, actively engages students in undergraduate research and creating product. Students are encouraged to present and/or publish work on local, state, and national levels.

128 Hours

Students must complete requirements outlined in:
I. General Education Requirements
II. Major Requirements
III. Electives

II. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

Aesthetics Perspective  minimum hours from the options  3
Global Perspective  minimum hours from the options  3
Humanities Perspective  minimum hours from the options/two disciplines  6
Ideas & Innovations - US  minimum hours from the options  3
Natural Science Perspectives  minimum hours from the options  4
Quantitative Reasoning Perspective:  MTH 107 & 207 Finite Mathematics I & II or MTH 115 Calculus I  5-6
Social Science Perspective  ECO 221 Principles of Microeconomics  3

II. Major Requirements

AIM 111 Intro. to Apparel and Interiors  3
AIM 211 Fashion Designers  3
AIM 230 The Interior Environment  3
AIM 311 Apparel Analysis/Evaluation  3
AIM 322 Markets/Visual Merchandising  3
AIM 334 Textile Fundamentals  3
AIM 337 The Fashion Industry  4
AIM 340 Integrated History of Architecture and Interior Design  3
AIM 434 Textiles for Apparel/Interiors  4
AIM 459 Professional Seminar  3
AIM 463 Fashion/Inter Mdse Internship  6
AIM 470 Portfolio Development  3
BA 236 Principles of Management  3
BA 351 Principles of Marketing  3
BA 355 Marketing Research & Management  3
BA 366 Retailing and Sales Management  3
ECO 221 Principles of Microeconomics  
Choice of either:
  AIM 330 Environmental Design Applications  4
  AIM 332 Apparel Design Applications  4

IIII. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Art (Bachelor of Arts)

Department of Art & Theatre Arts, Division of Fine Arts and Professional Programs

Professor Richard Cary
Associate Professors Scott Lowrey, Jane Sibley Renfroe
Assistant Professor Kenneth Gregory

The Art Department’s purposes are:

- to provide art majors, teacher licensure students, and art minors with engaging educational experiences designed to prepare them for a variety of professional careers and continued learning in the arts;
- to provide learning experiences in art to all students for general education and elective credit that promote creativity, individual aesthetic awareness, and knowledge of the roles that art plays in our culture;
- to provide opportunities, through programs such as MHU’s Weizenblatt Art Gallery, for cultural enrichment and growth for all members of the university community by encouraging active participation in the art world as a meaningful way to embody the unique spiritual and human values inherent in the arts.

The Art Department offers the Bachelor of Arts Degree in Studio Art, Graphic Design, and Art Education. The Art Department also offers the Bachelor of Fine Arts Degree in Visual Communications Design, which combines coursework in Photography, Graphic Design, Web Design, and Animation to prepare students for diverse professional art careers that require skills in today's technology as well as artistic vision. The BFA is the professional degree in the visual arts. For details, contact the Dr. Rick Cary, Dean of Fine Arts and Professional Programs.

Please see also Visual Communications (BFA)

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

Students pursuing teacher licensure must complete the Professional Education Requirements in addition to major requirements

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective six hours from the options 6
- Global Perspective minimum hours from the options 3
- Humanities Perspective minimum hours from the options/two disciplines 6
- Ideas & Innovations - US minimum hours from the options 3
- Ideas & Innovations - World minimum hours from the options 3
- Natural Science Perspectives minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective minimum hours from the options 3
II. Major Requirements

ART 111 Fundamental 2-D Design  
ART 201 Drawing I, Visual Thinking  
ART 405 Art History I  
ART 406 Art History II  
ART 407 Art History III  

Complete requirements for one concentration:

A. Studio Art

ART 206 Sculpture I  
Three from:  
- ART 202 Painting I, Intro to Painting/Color  
- ART 203 Printmaking I  
- ART 205 Pottery I  
- ART 209 Graphic Design I  
- ART 226 Photography  
300-Level Studio  
300-Level Studio  
400-Level Studio  
ART 450 Senior Seminar  
ART 490 Senior Exhibition  

B. Graphic Design

ART 209 Graphic Design  
ART 226 Photography  
ART 309 Graphic Design Studio II  
ART 409 Graphic Design Studio III  
ART 410 Type & Typographic Design  
ART 326 or 426 Photography II or III  
One from:  
- ART 202 Painting I  
- ART 302 Painting II  
- ART 203 Printmaking I  
- ART 303 Printmaking II  
- ART 403 Printmaking III  
- ART 301 Drawing II  
- ART 401 Drawing III  
- ART 426 Photography III  
ART 450 Senior Seminar  
ART 461 Internship (Optional)  

C. Art Education

ED 205 Intro to Education  
PSY 313 Child Psychology or  
ED 314 Adolescent Learner
ED 401 Psychological Foundations of Education 3
ED 410 Reading in the Content Area (6-12) or
   ED 441 Comp Strategies for Tching Content Based Literacy (K-6) 3
ED 402 Hist/Phil/Soc Foundation of Education 3
ART 324 Art Methods for Elementary Schools 3
ART 424 Art Methods for Middle and Secondary Schools 3
ED 470 Diversity in American Schools 3
ED 490 Observ/Directed Teaching 9
ART 202 Painting I 3
ART 205 Pottery I or
   ART 206 Sculpture/Ceramics I 3
ART 209 Graphic Design I or
   ART 226 Photography I 3
One 300-level studio arts course 3
One 400-level studio arts course 3
PSY 111 General Psychology 3

III. Electives

Students may choose to meet the elective hours required by completing a second major, minor, or selected courses of personal interest.
Art Therapy (Bachelor of Arts)

Department of Social Sciences; Division of Humanities and Social Sciences

Associate Professor: Yael Baldwin, Ph.D.
Assistant Professor: Laura Adams, Ph.D.
Assistant Professor: Jonna Kwiatkowski, PhD.

The art therapy program introduces students to the use of the visual arts as an expressive therapy. An undergraduate degree in art therapy is meant to prepare students for work in an art therapy setting and for graduate work in art therapy leading to licensure. Students will develop their artistic skills through visual arts courses in drawing, painting, and sculpture. Psychology coursework will focus on the skills and populations students are likely to encounter in art therapy settings. Visual arts and psychology coursework will be integrated into an art therapy context through two art therapy courses, and through an internship and senior thesis project specifically focused on art therapy topics. As part of the internship and senior thesis, students learn first-hand how art therapists work with individuals or groups to facilitate improved well-being through creative expression.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: at least 1 course must be language 6
- Humanities Perspective: minimum hours from the options/two disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: minimum hours from the options 3

II. Major Requirements

- ART 111 Fundamental 2-D Design 4
- ART 201 Drawing I, Visual Thinking 3
- ART 202 Painting I, Intro to Painting & Color 3
- ART 205 Pottery I 3
- Choose one:
  - ART 203 Printmaking 3
  - ART 126 Digital Photography 3
ART 206 Sculpture I  
One 300-level studio ART course 3
PSY 111 General Psychology 3
PSY 121 Introduction to Art Therapy 3
PSY 321 Art Therapy in Groups 3
PSY 220 Behavioral Science Statistics 3
PSY 225 Research Methods in Psychology 3
PSY 313 Child Psychology 3
or PSY 314 Adolescent and Adult Development 3
PSY 421 Abnormal Psychology 3
PSY 422 Foundations of Counseling and Psychotherapy 3
PSY 461 Internship* 3
PSY 470 Senior Thesis* 3
*Topic for Internship and Senior Thesis are required to be Art Therapy-specific, and approved by the Art Therapy instructor.

III. Electives
Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest. It is recommended that students consider additional studio art classes, as this can only enhance the quality of their major.
Athletic Training (Bachelor of Science)

Department of Natural Sciences, Division of Mathematics and Natural Sciences

Professors: Scott Pearson
Alan Smith

Associate Professor: Meredith Newman

Instructors: Kellie Ottie

A student pursuing this undergraduate entry-level program must complete the athletic training major at Mars Hill University. Competitive admission to this program occurs during the freshman year. Transfers are handled on a case by case basis, but are required to apply to the Athletic Training Education Program. Any students interested in transferring into the Athletic Training Education Program need to contact the Program Director.

In order to apply to the Athletic Training Education Program (ATEP) all student applicants, including transfers, must demonstrate proof of physical examination and current immunizations (as required by MHU admissions standards), complete an application, and undergo a formal interview by committee members. Details on these processes, including GPA requirements and any required coursework, are available at the Athletic Training Education Program's website (www.athletictraining.mhu.edu). Contact the Program Director of the ATEP for clarification and current program details.

Completion of this major will allow a student to sit for the Board of Certification (BOC) examination. The Mars Hill University Athletic Training Education Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

128 Hours

Students must complete requirements outlined in:
I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: minimum hours from the options 3
- Humanities Perspective: minimum hours from the options/two disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: PSY 111 General Psychology 3

II. Major Requirements

- AT 222 Intro to Athletic Training 2
- BIO 122 Medical Terminology 3
- BIO 134 Human Anatomy & Physiology I 4
- BIO 135 Human Anatomy & Physiology II 4
BIO 226 Nutrition 3
AT 220 Safety and Supervision 2
PE 329 Kinesiology 4
PE 330 Physiology of Exercise 4
PE 333 Sport and Society 3
PE 338 Meas/Eval in Health and PE 3
AT 223 Gen Med Conditions/Pharm 3
AT 271 Athletic Training Practicum I 2
AT 272 Athletic Training Practicum II 2
AT 323 Eval/Treatment of Athletic Injuries I 3
AT 325 Eval/Treatment of Athletic Injuries II 3
AT 340 Therapeutic Modalities 3
AT 341 Therapeutic Exercise 3
AT 371 Athletic Training Practicum III 2
AT 372 Athletic Training Practicum IV 2
AT 415 Admin of Athletic Training 3
AT 427 Senior Seminar 2
AT 471 Athletic Training Practicum V 2
AT 472 Athletic Training Practicum VI 2

III. Electives

Athletic Training Education Program electives include:
AT 327 Special Topics I 2
AT 328 Special Topics II 2

The remainder of the student's electives hour requirements may be met by completing a second major, a minor, or selected courses of personal interest.

Students who plan to pursue a graduate or doctorate degree in Physical Therapy or other Healthcare Professional settings upon graduation from the MHU ATEP are advised to take the following courses as electives to meet pre-requisites for application to these programs. Completion of the following is understood to exceed the requirements for electives for the ATEP. These students may also be referred to the pre-professional minor.

AT 327 Special Topics I 2
AT 328 Special Topics II 2
Physics (minimum 8 hours)
Chemistry (minimum 8 hours)
MTH 115 Calculus 5
MTH 116 Elementary Probability and Statistics 4

Other courses available as electives within the ATEP:
AT 457, 458 Directed Readings (1-3)
AT 460 Independent Study (1-3)
Biology (Bachelor of Science)

Department of Natural Sciences, Division of Mathematics and Natural Sciences

Professors: Scott Pearson
            Alan Smith
Associate Professor: Meredith Newman
Assistant Professor: Matthew Milnes
Andrea Rockel
Instructors:  Kellie Ottie
                Jennifer Torgerson
Visiting Assistant Professor: Kathryn Gubista

Biology

The department prepares students for employment and for graduate and professional programs with direct applications in many fields, particularly the life sciences, chemistry, and in the health sciences through the athletic training program and in preprofessional studies.

The Pre-Professional Studies Minor is offered for students anticipating further study in health science fields. Specific requirements for students pursuing entry into medical, dental, pharmacy, physician assistant, chiropractic, and veterinary schools are available. In addition to the science courses required for the minor, communication, leadership, and additional science related courses are also required by some professional schools. Although no major course of study is specified, most students major in either biology or chemistry. The medical (MCAT), dental (DAT), pharmacy (PCAT), veterinary (VAT), and the graduate record exam (GRE) should be taken no later than the fall semester of the student’s senior year.

128 Hours

Departmental studies develop a functional understanding of basic biological principles. This major emphasizes the dynamic processes of life in development, growth, heredity, behavior, ecology, evolution, and other vital phenomena as observed in the natural outdoor world and laboratory.

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

### III. Electives
Business Administration (Bachelor of Science)

Department of Business Administration; Division of Fine Arts and Professional Programs

Professors: Teresa Burkett
Grainger Caudle

Associate Professor: Becky Cody

Assistant Professors: Ted Berzinski
Beth Cessna
Ron Collins
Colleen May

The mission of the Department of Business Administration is to prepare students for professional, managerial, and leadership positions in business, governmental, and non-profit organizations. Emphasis is placed on the development of communication, teamwork, technical, analytical, and critical thinking skills that are needed by successful organizations competing in a global economy. Above all else, we strive to instill in students a desire to be life-long learners who will promote socially responsible solutions to organizational problems and who will recognize the importance of ethical behavior and integrity in all aspects of their lives.

Program Outcomes:

- Business majors demonstrate broad-based business knowledge of the functions of accounting, finance, management, marketing, and the relationship of these functions to one another in an effective organization.
- Business majors apply economic concepts, statistical methods, business law, business ethics and social responsibility, and current technology to evaluate organizational problems.
- Business majors analyze business related information and develop entrepreneurial thinking skills.
- Business majors write well-organized and grammatically correct documents that conform to standard business format.
- Business majors produce well-organized and well-delivered oral presentations.
- Business majors demonstrate professional standards of team participation and leadership.

The Business Department offers a BS in Business Management through Adult & Graduate Studies designed for working adult’s pursuit of professional achievement.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:
Aesthetics Perspective  minimum hours from the options  3
Global Perspective  minimum hours from the options  3
Humanities Perspective  minimum hours from the options/two disciplines  6
Ideas & Innovations - US  minimum hours from the options  3
Ideas & Innovations - World  minimum hours from the options  3
Natural Science Perspectives  minimum hours from the options  4
Quantitative Reasoning  MTH 107 & 207 Finite Mathematics I & II or  MTH 115 Calculus I  5-6
Perspective:
Social Science Perspective  minimum hours from the options  3

II. Major Requirements

   ECO 221 Principles of Microeconomics  3
   (either one of the ECO courses will meet the Social Sci. Perspective)
   ECO 222 Principles of Macroeconomics  3
   BA 220 Behavioral Science Statistics  3
   BA 221 Principles of Accounting I  4
   BA 222 Principles of Accounting II  3
   BA 236 Principles of Management  3
   BA 330 Social and Organizational Ethics  3
   BA 344 Organizational Behavior  3
   BA 346 Principles of Finance  3
   BA 351 Principles of Marketing  3
   BA 437 Principles of Business Law  3
   BA 450 Senior Seminar  3

Complete requirements for one concentration:  15

A. Accounting

   BA 331 Intermediate Accounting I  3
   BA 332 Intermediate Accounting II  3
   BA 333 Budgeting & Cost Accounting  3
   BA 343 Intro. to Ind. Income Tax  3
   BA 444 Auditing  3

B. Finance and Economics

   BA 333 Budget and Cost Accounting  3
   BA 440 Investment and Wealth Mgmt.  3
   ECO 336 Managerial Economics  3
   ECO 362 International Economics  3

128 Hours

According to the American Chemical Society, “…chemistry is the science of matter. Anything that can be touched, tasted, smelled, seen or felt is made of chemicals.” A chemistry major develops a functional understanding of basic chemical principles as well as practical laboratory skills and prepares students for graduate studies and careers in a variety of fields such as the agricultural and food industry, forensic science, renewable and petroleum based energy, materials and polymer science, the pharmaceutical industry, and health professions.

Students must complete requirements outlined in:

MTH 115 Calculus I –
MTH 116 Elementary Probability and Statistics 4
MTH 120 Calculus II 5
PHY 223 General Physics I –
PHY 224 General Physics II 4

III. Electives (31-34 Hours)

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Computer Science (Bachelor of Science)

Department of Mathematics and Computer Science, Division of Mathematics and Natural Sciences

Professor: Donald Russell
Associate Professor: Gordon Roberts
Assistant Professors: Sarah Butrum, Marty Gilbert, Stefen Howard, Jennifer Rhinehart, Laura Steil, Phillip Carroll
Instructor: Kerri Jamerson

The goals of the Computer Science program:

• To prepare students for employment in computer science and information management.
• To offer an opportunity for non-majors to gain in-depth exposure in an area of computer science through the minor programs.
• To offer computer applications courses which provide basic technological skills for students in other majors.
• To prepare students for graduate study in computer science or information management.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Criminal Justice (Bachelor of Science)

Department of Social Sciences: Division of Humanities and Social Sciences

Professor: Barbara Sims
Assistant Professor: Taylor Brickley
Instructor: Craig Goforth

The major in criminal justice prepares students for a career in criminal justice or related occupations. The degree exposes students not only to the plethora of issues associated with the modern-day criminal justice system in the United States, it also is designed to prepare students for the world of work through deliberate attention to the many ethical dilemmas with which criminal justice professionals are often faced; understand the role that gender, race/ethnicity, and socio-economic status play in the production of crime and the social control of same; and understand the importance of the scientific inquiry for criminal justice policy making. Because of its emphasis on oral and written communication and higher order thinking, it also equips students with the skills needed to be successful in the pursuit of graduate education.

Criminal Justice Program Mission Statement

The Bachelor of Science Program in Criminal Justice is designed to provide students with the opportunity to acquire knowledge of the roles of policing, courts, laws, and corrections as they relate to both the adult and juvenile justice systems. The program also seeks to provide students with knowledge of the history, concepts, and critical issues related to the role of gender and race/ethnicity in the criminal justice system, victimology, and ethics in criminal justice. The curriculum further provides a theoretical foundation of the discipline, combined with a thorough understanding of the scientific method as it applies to criminal justice. This combination is expected to sharpen students’ talents of reasoning and judgment, qualities imperative to rational functioning in criminal justice and related human service professions. Through an interdisciplinary approach to the problems of crime and society, the program also equips students to pursue legal training and/or graduate study in criminal justice or related disciplines.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: minimum hours from the options 3
- Humanities Perspective: minimum hours from the options /two disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
Quantitative Reasoning Perspective: MTH 107 Finite Mathematics 3

Social Science Perspective minimum hours from the options 3

II. Major requirements (45)

Core courses (27 hours)
- CJ 111 Introduction to Criminal Justice 3
- CJ 112 Criminology 3
- CJ 113 Courts and Criminal Justice 3
- CJ 210 Policing in America 3
- CJ 230 Introduction to Corrections 3
- CJ 219 Research Methods for the Social and Behavioral Sciences 3
- CJ 220 Social and Behavioral Science Statistics 3
- CJ 300 Ethics in Criminal Justice 3
- CJ 470 Senior Seminar 3

Criminal Justice Options 12
- six hours of 400-level courses
- six additional CJ hours

Social Science Options 6
- three hours of 100-200 level courses from SOC, PSY, or PS
- three hours of 300-400 level courses from SOC, PSY or PS
(6 of which must be at the 400 level; and an additional 6 credits)

III. Electives

To be taken in consultation with advisor (allowing the student to concentrate in some second or third area of study). Students may choose to meet the elective hours required by completing a second major or minor or area of personal interest.

Admissions Policy:

No restrictions beyond those needed for acceptance to Mars Hill University.

Transfer Policy:

Criminal Justice courses may be transferred as course equivalents provided they were successfully completed at an accredited institution of higher learning and are approved for substitution by the Criminal Justice Coordinator.

No University Credit for Work or Life Experience Policy:

Without exception, university credit shall never be awarded for any prior work and/or life experience(s).
Elementary Education (Bachelor of Arts)

Department of Education, Division of Fine Arts and Professional Programs

Professors: Barbara Cary
Tom Destino

Associate Professors: Belinda Eggen
James M. Brown
Chris Cain
Deborah R. Morris

Assistant Professors: Susan Stigall
Jessica Van Cleave

The Elementary Education Program is designed to prepare students for teaching in grades K-6. The Elementary Education Program is planned to assist prospective elementary teachers in developing the knowledge, skills, and dispositions for becoming effective teacher professionals. All senior elementary education majors participate in a full semester student teaching experience while taking related advanced courses.

LICENSURE AREAS (see page 179):

Mars Hill University offers the following teacher education programs leading to North Carolina licensure.

Areas of Licensure and Program Coordinators:

Elementary Education (K-6) Belinda Eggen
Integrated Education (Elem Ed K-6/Special Ed K-12) Chris Cain
Middle Grades (6-9) James M. Brown
Secondary Education (9-12)
  English Adrienne Akins Warfield
  Mathematics Jennifer Rhinehart
  Science Vacant
  Social Studies Pauline Johnson
  Special Education (K-12) Susan Stigall
Special Subjects (K-12)
  Art Barbara Cary
  English as a Second Language Tom Destino
  Music Mike Robinson
  Health & Physical Education Joy Clifton
  Spanish - Second Language Greg Clemons

The Mars Hill University Teacher Education Program offers excellent preparation for students who plan to enter and succeed in the teaching profession. The aim is to produce able, confident teachers who are well-versed in their fields and who possess the knowledge, skills, and values essential to be teacher professionals.

Teacher as Progressive Leader

The university makes the Teacher Education Program available to working adults through the Adult and Graduate Studies program held at five sites throughout the region.
The university and its faculty are connected to area teachers by providing workshops and seminars covering a variety of topics such as using technology and primary resources in the K-12 classroom, gifted education, ESL education, Special Education, classroom management, arts in education, developmental reading and literacy.

The Teacher Education Program is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction making it possible for the Mars Hill University Teacher Education graduates to have reciprocity in licensure with forty-two other states in addition to the District of Columbia and Guam.

TEACHER EDUCATION PROGRAM:

Transition Points and Requirements

Candidates in the Teacher Education Program progress through a series of four transition points. At each point, candidates must demonstrate professional and academic knowledge, teaching potential and skills, and the values, ethics and dispositions appropriate to the Teacher Professional.

- Transition One – Admission to the Teacher Education Program
- Transition Two – Admission to Clinical Practice
- Transition Three – Completion of Clinical Practice
- Transition Four – Program Completion and Licensure Requirements

**Transition One – Admission to the Teacher Education Program**

Applications for admission to the Teacher Education Program are accepted from students at the end of the second semester of the sophomore year. Requirements for acceptance include:

- Completion of ED 205 (Introduction to Education)
- Submission of a completed application
- Passing scores on Praxis I, SAT, or ACT
- Minimum cumulative GPA (grade point average) of 2.50
- Recommendation from the major department
- Formal Teacher Education Interview
- Portfolio requirement: Admission to Teacher Education Portfolio
- Approval of the Teacher Education Council

**Transition Two – Admission to Clinical Practice**

In order to progress into clinical practice, a candidate must have been admitted to the Teacher Education Program at least one full semester prior to student teaching (admission interview must occur no later than early January for fall student teaching or early August for spring student teaching). Candidates must also meet the following requirements:

- Submission of a student teaching application.
- Minimum cumulative GPA of 2.50
- Completion of 90 semester hours, including education and methods courses.
- Interview and recommendation from the program coordinator.
- Portfolio requirement: continuation of the working electronic portfolio.
- Approval of the Teacher Education Council

**Transition Three – Completion of Clinical Practice**

To complete the clinical practice experience successfully, a candidate must meet the following requirements:

- Satisfactory student teaching evaluation completed by the cooperating teacher and the university supervisor. Exit Criteria evaluation form completed.
- Minimum cumulative GPA of 2.5.
Transition Four–Program Completion and Licensure Requirements

In order to graduate from Mars Hill University with a degree in Education or with a degree in another field which leads to teaching licensure, a candidate must meet all Mars Hill University graduation guidelines established for their particular degree program. A student may be eligible for graduation, but not meet requirements for recommendation for teaching licensure.

To be recommended to the North Carolina Department of Public Instruction for licensure, all candidates (degree-seeking and licensure-only) must meet all of the following requirements:

- Qualify for recommendation by completing all program requirements in the area of licensure.
- Maintain minimum cumulative GPA of 2.5.
- Receive passing scores on Praxis II, as required by North Carolina Department of Public Instruction.
- Submission of an electronic North Carolina Program Approval Portfolio as required by the North Carolina Department of Public Instruction.
- Receive the recommendation of the licensure officer in the Teacher Education Unit.

FIELD EXPERIENCES

FE-1 Any experience working with children/adults in an educational setting that has been documented prior to entering FE-2.

FE-2 200 Level Classes – (observations) No student/candidate interaction.

FE-3 300 Level Classes – (3-7 hours of field experience) Candidates will assess and develop lesson plans under very close supervision of classroom teacher and/or professor. In some classes candidates may teach students using the pre-approved lessons and/or cooperating teacher lesson plans.

FE-4 400 Level Classes – (7-10 hours internship) Candidates will assess a student, develop a plan of study/lessons based on the assessment outcomes, and development of formative assessment to determine rates of student improvement.

FE-5 Student Teaching – ED 490/ED 491

FE-6 Master’s Level Internships

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses in foreign language 6
- Humanities Perspective: HIS 223 US History to 1865 and 1 literature course 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: NS 111 Introduction to Biological Sciences 4
- Quantitative Reasoning Perspective: MTH 107 Finite Mathematics 3
- Social Science Perspective: PSY 111 General Psychology 3
II. Major Requirements

**ED 481 Student Teaching Practicum 2
**ED 491 Observ and Directed Teaching 7

* Requires formal admission to the Teacher Education Program
** Requires formal admission to Student Teaching

III. Electives

Elementary Education students must take a number of elective courses to meet the 128 minimum hours required for graduation.
The English major offers a program broad enough to provide a sound basis in literatures (British, American, and World), in writing (critical, professional, and creative), and in the history and structure of the English language. The curriculum is designed to develop a variety of skills: reading, writing, speaking, listening, viewing, computer use, and research. The goals are breadth and depth of learning, development of aesthetic awareness, and preparation for graduate study or for careers in teaching, writing, and the many other professions where communication skills are key: law, publishing, public relations, etc.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

Students pursuing teacher licensure must complete the education concentration requirements for a total of 78 hours in the major.

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses of same foreign language 6
- Humanities Perspective: minimum hours from the options/two disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: minimum hours from the options 3
II. Major Requirements

ENG 201 Survey of British Literature I  3
ENG 202 Survey of British Literature II  3
ENG 205 Survey of American Literature  3
ENG 210 Introduction to Literary Study  3
ENG 450 Senior Seminar  3
Six semester hours in American literature selected from the following:  6
   ENG 321 American Literature I, Origins to 1900
   ENG 322 American Literature II, 1900 to Present
   ENG 329 Diversity in American Literature
   ENG 340 Appalachian Literature
Six semester hours in British literature selected from the following:  6
   ENG 323 British Literature I, Origins to 1700
   ENG 324 British Literature II, 1700 to 1900
   ENG 325 British Literature III, 20th Century
   ENG 442 Shakespeare
Six semester hours in composition/language selected from the following:  6
   ENG 332 Structure and Usage of the English Language
   ENG 350 Professional Writing
   ENG 430 Fiction Writing
   ENG 431 Poetry Writing
   ENG 440 Composition Theory and Practice
Twelve semester hours of English electives  12
English electives may include any upper-level English course not already used to satisfy the above requirements, as well as no more than six semester hours selected from the following:
   COM 231 Introduction to Public Speaking
   ENG 203 World Literature
   ENG 230 Creative Writing
   ENG 261 Internship
   ENG 262 Peer Collaboration in Writing
   ENG 263 Peer Collaboration Across Disciplines
   ENG 312 Adolescent Literature
   ENG 327 or 328 Special Topics
   ENG 330 Women in Literature
   ENG 333 Grammar & Linguistics for ESL
   ENG 334 Second Language & Literacy Development
   ENG 335 Modern & Contemporary Literature
   ENG 354 Language & Popular Culture
   ENG 371 World Literature
   ENG 457, 458 Directed Readings
   ENG 460 Independent Study
   ENG 461 Internship
   TA 301, 302, or 303 Theatre History I, II, or III
   TA 413 Playwriting
No more than three semester hours of English electives may be taken below the 300- level.
III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.

* Requires admission to the Teacher Education Program
** Requires admission to Student Teaching
English as a Second Language (Bachelor of Arts)

Department of Education, Division of Fine Arts and Professional Programs

Professors:
- Barbara Cary
- Tom Destino

Associate Professors:
- Belinda Eggen
- James M. Brown
- Chris Cain
- Deborah R. Morris

Assistant Professors:
- Susan Stigall
- Jessica Van Cleave

The ESL Education major prepares teachers to work in grades K-12. The curriculum is interdisciplinary and prepares teachers with sociological, psychological, historical, linguistic, and political foundations for developing responsive teaching for students from diverse linguistic and cultural backgrounds. All students completing this major will participate in a full semester student teaching experience in a public school while taking related advanced courses.

LICENSURE AREAS (see page 179):

Mars Hill University offers the following teacher education programs leading to North Carolina licensure.

Areas of Licensure and Program Coordinators:

- Elementary Education (K-6): Belinda Eggen
- Integrated Education (Elem Ed K-6/Special Ed K-12): Chris Cain
- Middle Grades (6-9): James M. Brown
- Secondary Education (9-12):
  - English: Adrienne Akins Warfield
  - Mathematics: Jennifer Rhinehart
  - Science: Vacant
  - Social Studies: Pauline Johnson
  - Special Education (K-12): Susan Stigall
- Special Subjects (K-12):
  - Art: Barbara Cary
  - English as a Second Language: Tom Destino
  - Music: Mike Robinson
  - Physical Education: Joy Clifton
  - Spanish - Second Language: Greg Clemons

The Mars Hill University Teacher Education Program offers excellent preparation for students who plan to enter and succeed in the teaching profession. The aim is to produce able, confident teachers who are well-versed in their fields and who possess the knowledge, skills, and values essential to be teacher professionals.
Teacher as Progressive Leader

The university makes the Teacher Education Program available to working adults through the Adult and Graduate Studies Program held at five sites throughout the region.

The university and its faculty are connected to area teachers by providing workshops and seminars covering a variety of topics such as using technology and primary resources in the K-12 classroom, gifted education, ESL education, Special Education, classroom management, arts in education, developmental reading and literacy.

The Teacher Education Program is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction making it possible for the Mars Hill University Teacher Education graduates to have reciprocity in licensure with forty-two other states in addition to the District of Columbia and Guam.

TEACHER EDUCATION PROGRAM:

Transition Points and Requirements

Candidates in the Teacher Education Program progress through a series of four transition points. At each point, candidates must demonstrate professional and academic knowledge, teaching potential and skills, and the values, ethics and dispositions appropriate to the Teacher Professional.

- Transition One – Admission to the Teacher Education Program
- Transition Two – Admission to Clinical Practice
- Transition Three – Completion of Clinical Practice
- Transition Four – Program Completion and Licensure Requirements

Transition One–Admission to the Teacher Education Program

Applications for admission to the Teacher Education Program are accepted from students at the end of the second semester of the sophomore year. Requirements for acceptance include:

- Completion of ED 205 (Introduction to Education)
- Submission of a completed application
- Passing scores on Praxis I, SAT, or ACT
- Minimum cumulative GPA (grade point average) of 2.50
- Recommendation from the major department
- Formal Teacher Education Interview
- Portfolio requirement: Admission to Teacher Education Portfolio
- Approval of the Teacher Education Council

Transition Two–Admission to Clinical Practice

In order to progress into clinical practice, a candidate must have been admitted to the Teacher Education Program at least one full semester prior to student teaching (admission interview must occur no later than early January for fall student teaching or early August for spring student teaching). Candidates must also meet the following requirements:

- Submission of a student teaching application. Minimum cumulative GPA of 2.50.
- Completion of 90 semester hours, including education and methods courses. Interview and recommendation from the program coordinator.
- Portfolio requirement: continuation of the working electronic portfolio. Approval of the Teacher Education Council.

Transition Three–Completion of Clinical Practice

To complete the clinical practice experience successfully, a candidate must meet the following requirements:
Satisfactory student teaching evaluation completed by the cooperating teacher and the university supervisor. Exit Criteria evaluation form completed.

- Minimum cumulative GPA of 2.5.
- Completion and submission of the North Carolina Program Approval Portfolio.
- Exit electronic survey.
- Transition Four–Program Completion and Licensure Requirements

In order to graduate from Mars Hill University with a degree in Education or with a degree in another field which leads to teaching licensure, a candidate must meet all Mars Hill University graduation guidelines established for their particular degree program. A student may be eligible for graduation, but not meet requirements for recommendation for teaching licensure.

To be recommended to the North Carolina Department of Public Instruction for licensure, all candidates (degree-seeking and licensure-only) must meet all of the following requirements:

- Qualify for recommendation by completing all program requirements in the area of licensure. Maintain minimum cumulative GPA of 2.5.
- Receive passing scores on Praxis II, as required by North Carolina Department of Public Instruction.
- Submission of an electronic North Carolina Program Approval Portfolio as required by the North Carolina Department of Public Instruction.
- Receive the recommendation of the licensure officer in the Teacher Education Unit.

FIELD EXPERIENCES

FE-1 Any experience working with children/adults in an educational setting that has been documented prior to entering the FE-2.

FE-2 200 Level Classes – (observations) No student/candidate interaction.

FE-3 300 Level Classes – (3-7 hours of field experience) Candidates will assess and develop lesson plans under very close supervision of classroom teacher and/or professor. In some classes candidates may teach students using the pre-approved lessons and/or cooperating teacher lesson plans.

FE-4 400 Level Classes – (7-10 hours internship) Candidates will assess a student, develop a plan of study/lessons based on the assessment outcomes, and development of formative assessment to determine rates of student improvement.

FE-5 Student Teaching – ED 490/ED 491

FE-6 Master’s Level Internships

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective minimum hours from the options 3
- Global Perspective two courses of same foreign language 6
- Humanities Perspective minimum hours from the options/two disciplines 6
- Ideas & Innovations - US minimum hours from the options 3
- Ideas & Innovations - World minimum hours from the options 3

* Requires formal admission to the Teacher Education Program  
** Requires formal admission to Student Teaching  

III. Electives  

ESL Education students must take a number of elective courses to meet the 128 minimum hours required for graduation.
Health & Physical Education (Bachelor of Science)

Department of Health, Physical Education, Recreation; Division of Mathematics and Natural Sciences

Assistant Professors: Jeff Andersen
                      William Hamilton
                      Anthony Smith

Instructor: Joy Clifton
           Mary LaBianca

The Health, Physical Education and Recreation Department offers degrees in Physical Education or Recreation and Sport Management. The Physical Education major offers concentrations in Teacher Education, Coaching and Health and Wellness Promotion. The Recreation and Sport Management major offers concentrations in Sport Management, Recreation and Leisure Services Management, Aquatic Management and Outdoor Recreation Management.

The Physical Education curriculum offers academic preparation for a variety of careers in the physical education area. Courses focus on sports skills development; historical, philosophical, psychological, sociological, kinesiological and physiological foundations of the discipline; working with atypical individuals, research and statistical foundations; and teaching methodology.

Students in the Teacher Education major will complete a student teaching internship which provides practical experiences and learning opportunities in a public school environment. Students who successfully complete the program in Physical Education Teacher Education will be eligible for licensure by the N.C. Department of Public Instruction.

The Coaching concentration and minor is designed to prepare the student for the field of coaching at the youth league, elementary, middle, and high school levels. Class instruction will include skill analysis, motivation techniques, teaching progressions, the development of a coaching philosophy, coaching skills, practice management, game management, statistics, team organization and more. Program participants will be placed with sports teams during internships to implement skills learned in the classroom.

The Health & Wellness Promotion concentration and minor is designed to prepare the student to work in the field of Fitness and Wellness promotion in multiple ways. The student will become versed in the principles of physical education, fitness and wellness assessment, implementation and promotion. Class instruction will include health education, personal trainer training, exercise & nutrition prescription development, behavior modification and introduction to business and marketing. Those students participating in this concentration or minor have the opportunity to test for a national certification in personal training.

Students majoring in Physical Education, Recreation and Sport Management will complete internships in student teaching or appropriate professional settings. Students completing a degree in recreation and sport management may be eligible for certification by such organizations as the National Recreation and Park Association (NRPA) and the North Carolina Recreation and Park Society (NCRPS) depending upon the concentration of the major.

128-136 Hours

Students must complete requirements outlined in:
   I. General Education Requirements
   II. Major Requirements
   III. Electives
Students pursuing teacher licensure must complete the Professional Education Requirements. Enrollment by non-majors in major courses may be allowed at the discretion of the instructor.

### I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

**III. Electives**

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
History (Bachelor of Arts)

Department of History, Religion and Philosophy; Division of Humanities and Social Sciences

Professor: Phyllis Smith
Associate Professors: Kathryn Newfont, Lucia Carter, John Gripentrog

The Department seeks to prepare its students for active roles in society, to train them for graduate study, and to develop and refine skills that will be useful in a variety of professions. Special importance is given to training secondary social studies teachers and to the subject-matter concentration for middle school social studies teachers. The history curriculum is based on the principle that students should learn the critical thinking and analytical skills of the historical method as well as the mastery of historical information. In addition to its major, its minor, and its teacher licensure programs, the department invites students to take its courses as electives and to satisfy general education requirements.

128-135 Hours

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

Students pursuing teacher licensure in social studies must complete the Professional Education Requirements in addition to the major requirements.

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses from same foreign language 6
- Humanities Perspective: HIS 223 US History to 1865 or HIS 224 US History since 1865 and 1 course from another discipline 6
- Ideas & Innovations - US: minimum hours from the options not including upper level history course 3
- Ideas & Innovations - World: minimum hours from the options not including upper level history course 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: minimum hours from the options 3

II. Major Requirements

- HIS 223 U.S. to 1865
- HIS 224 U.S. since 1865 3
- HIS 292 World History to 1500 3
- HIS 293 World History since 1500 3
MAJORS

HIS 391 Junior Seminar 3
HIS 491 Senior Seminar 3
Three U.S. History from: 9
  HIS 317 The United States, Since 1945
  HIS 330 Women in the American Experience
  HIS 349 Appalachian Oral History
  HIS 350 African-American History
  HIS 418 American Politics and Society, 1900–1945
  HIS 430 U.S. Environmental History

Five World History from: 15
  HIS 301 Modern Latin America
  HIS 303 Latin American Women
  HIS 320 The Ancient World
  HIS 338 Early Modern Europe
  HIS 340 Twentieth-Century Europe
  HIS 402 History of Mexico
  HIS 404 Pre-Hispanic & Colonial Latin America
  HIS 429: U.S. in the World since 1900
  HIS 437 Renaissance and Reformation
  HIS 441 Europe Since 1789
  HIS 452 History of Modern Japan

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor or selected courses of personal interest.

Professional Education Requirements for Social Studies 9–12 Licensure

HIS 202 North Carolina History and Government 3
PS 111 American National Government+ 3
GEO 221 World Geography 3

+Meets general education social science requirement
* Requires admission to the Teacher Education Program
** Requires admission to Student Teaching
Optional Concentration in Public History:

Public History provides a career path for undergraduate students who love history, but do not want to teach in K-12 or higher education. Employment opportunities in public history include: historical museums, archives, libraries, as well as local, state and national government agencies.

Concentration Requirements

- HIS 250 Introduction to Public History 3
- HIS 251 Public History Internship (on-campus) 3
- HIS 300 Advanced Topics in Public History 3
- HIS 451 Public History Internship (external) 3
- HIS 349 Appalachian Oral History 3
Integrated Education (Special Ed K-12/Elementary Ed K-6) (Bachelor of Arts)

Department of Education, Division of Fine Arts and Professional Programs

Professors: Barbara Cary
Tom Destino

Associate Professors: Belinda Eggen
James M. Brown
Chris Cain
Deborah R. Morris

Assistant Professors: Susan Stigall
Jessica Van Cleave

The integrated licensure program is designed to provide students who complete this program eligibility for licensure in Elementary Education (K-6) and Special Education: General Curriculum (K-12). This major will provide students with skills and understanding from each field, allowing a single teacher to deliver an appropriate education to all students in an inclusive classroom.

Licensure Areas (see page 179):

Mars Hill University offers the following teacher education programs leading to North Carolina licensure.

Areas of Licensure and Program Coordinators:

Elementary Education (K-6) Belinda Eggen
Integrated Education (Elem Ed K-6/Special Ed K-12) Chris Cain
Middle Grades (6-9) James M. Brown
Secondary Education (9-12)
    English Adrienne Akins Warfield
    Mathematics Jennifer Rhinehart
    Science Vacant
    Social Studies Pauline Johnson
    Special Education (K-12) Susan Stigall
Special Subjects (K-12)
    Art Barbara Cary
    English as a Second Language Tom Destino
    Music Mike Robinson
    Physical Education Joy Clifton
    Spanish - Second Language Greg Clemons

The Mars Hill University Teacher Education Program offers excellent preparation for students who plan to enter and succeed in the teaching profession. The aim is to produce able, confident teachers who are well-versed in their fields and who possess the knowledge, skills, and values essential to be teacher professionals.

Teacher as Progressive Leader

The university makes the Teacher Education Program available to working adults through the Adult and Graduate Studies program held at five sites throughout the region.
The University and its faculty are connected to area teachers by providing workshops and seminars covering a variety of topics such as using technology and primary resources in the K-12 classroom, gifted education, ESL education, Special Education, classroom management, arts in education, developmental reading and literacy.

The Teacher Education Program is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction making it possible for the Mars Hill University Teacher Education graduates to have reciprocity in licensure with forty-two other states in addition to the District of Columbia and Guam.

**TEACHER EDUCATION PROGRAM:**

**Transition Points and Requirements**

Candidates in the Teacher Education Program progress through a series of four transition points. At each point, candidates must demonstrate professional and academic knowledge, teaching potential and skills, and the values, ethics and dispositions appropriate to the Teacher Professional.

Transition One – Admission to the Teacher Education Program

Transition Two – Admission to Clinical Practice

Transition Three – Completion of Clinical Practice

Transition Four – Program Completion and Licensure Requirements

**Transition One–Admission to the Teacher Education Program**

Applications for admission to the Teacher Education Program are accepted from students at the end of the second semester of the sophomore year. Requirements for acceptance include:

- Completion of ED 205 (Introduction to Education)
- Submission of a completed application
- Passing scores on Praxis I, SAT, or ACT
- Minimum cumulative GPA (grade point average) of 2.50
- Recommendation from the major department
- Formal Teacher Education Interview
- Portfolio requirement: Admission to Teacher Education Portfolio
- Approval of the Teacher Education Council

**Transition Two–Admission to Clinical Practice**

In order to progress into clinical practice, a candidate must have been admitted to the Teacher Education Program at least one full semester prior to student teaching (admission interview must occur no later than early January for fall student teaching or early August for spring student teaching). Candidates must also meet the following requirements:

- Submission of a student teaching application. Minimum cumulative GPA of 2.50.
- Completion of 90 semester hours, including education and methods courses.
- Interview and recommendation from the program coordinator.
- Portfolio requirement: continuation of the working electronic portfolio. Approval of the Teacher Education Council.

**Transition Three–Completion of Clinical Practice**

To complete the clinical practice experience successfully, a candidate must meet the following requirements:

- Satisfactory student teaching evaluation completed by the cooperating teacher and the university supervisor.
- Exit Criteria evaluation form completed.
- Minimum cumulative GPA of 2.5.
Completion and submission of the North Carolina Program Approval Portfolio.
Exit electronic survey.

**Transition Four–Program Completion and Licensure Requirements**

In order to graduate from Mars Hill University with a degree in Education or with a degree in another field which leads to teaching licensure, a candidate must meet all Mars Hill University graduation guidelines established for their particular degree program. A student may be eligible for graduation, but not meet requirements for recommendation for teaching licensure.

To be recommended to the North Carolina Department of Public Instruction for licensure, all candidates (degree-seeking and licensure-only) must meet all of the following requirements:
- Qualify for recommendation by completing all program requirements in the area of licensure.
- Maintain minimum cumulative GPA of 2.5.
- Receive passing scores on Praxis II, as required by North Carolina Department of Public Instruction.
- Submission of an electronic North Carolina Program Approval Portfolio as required by the North Carolina.
- Receive the recommendation of the licensure officer in the Teacher Education Unit.

**FIELD EXPERIENCES**

FE-1 Any experience working with children/adults in an educational setting that has been documented prior to entering the FE-2.
FE-2 200 Level Classes – (observations) No student/candidate interaction.
FE-3 300 Level Classes – (3-7 hours of field experience) Candidates will assess and develop lesson plans under very close supervision of classroom teacher and/or professor. In some classes candidates may teach students using the pre-approved lessons and/or cooperating teacher lesson plans.
FE-4 400 Level Classes – (7-10 hours internship) Candidates will assess a student, develop a plan of study/lessons based on the assessment outcomes, and development of formative assessment to determine rates of student improvement.
FE-5 Student Teaching – ED 490/ED 491
FE-6 Master’s Level Internship

**Students must complete requirements outlined in:**
- I. General Education Requirements
- II. Major Requirements
- III. Electives

### III. Electives

Integrated Education students must take a number of elective courses to meet the 128 minimum hours required for graduation.
International Studies (Bachelor of Arts)

Interdisciplinary

Through an in-depth study of Political Science, Business and Economics, History, Foreign Language, and Social Sciences, students majoring in International Studies recognize and analyze global issues in an interdisciplinary nature. To best comprehend the interdisciplinary nature of these issues and complexity of world cultures and systems, it is highly recommended that the students in the major spend at least one term studying or working in a foreign country.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses in French or Spanish 6
- Humanities Perspective: HIS 224 US History Since 1865 and ENG 203 World Literature 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: PS 121 Intro to Global Politics 3

II. Major Requirements

- HIS 224 US History Since 1865
- ENG 203 World Literature
- PS 121 Intro to Global Politics
- ECO 221 Principles of Microeconomics 3
- ECO 222 Principles of Macroeconomics 3
- ECO 362 International Economic 3
- INS 450 International Studies Senior Seminar 3
- HIS 293 World History since 1500 3
- GEO 221 World Geography 3
- PS 230 Advanced Global Politics 3
- Foreign Language:
  - 2 courses at 200 level or above 6
- History Options: Choose 2 courses from the following list: 6
  - HIS 340 Twentieth Century Europe
  - HIS 401 Modern Latin America
HIS 429 US in the World since 1900
HIS 452 History of Modern Japan
Politcal Science Options: Choose 2 from the following list: 6
PS 320 Global Politics and Conflict
PS 321 Global Politics and Cooperation
PS 322 Global Politics and Development
Mid-Upper Choice: One from the following list: 3
BA 236 Principles of Management
REL 240 Islam
REL 241 Hinduism, Buddhism
REL 242 Confucianism, Taoism, and Zen
SPA 330 Intro to Peninsular Spanish Literature
SPA 340 Topics in Peninsular Spanish Literature
SPA 350 Intro to Latin American Literature
SPA 360 Topics in Latin American Literature

III. Electives
Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Mathematics (Bachelor of Science)

Department of Mathematics and Computer Science; Division of Mathematics and Natural Sciences

Professor: Donald Russell
Associate Professor: Gordon Roberts
Assistant Professors: Sarah Butrum, Marty Gilbert, Stefen Howard, Jennifer Rhinehart, Laura Steil, Phillip Carroll
Instructor: Kerri Jamerson

The goals of the Mathematics program:

• To provide a major in mathematics designed to develop mathematical knowledge and skills that may be applied in a variety of professions.
• To prepare students for graduate studies in mathematics and related fields of study.
• To provide a minor in mathematics supporting other majors.
• To provide service courses supporting other majors.
• To prepare students for secondary teacher licensure in mathematics.
• To prepare students for teacher licensure with a concentration in mathematics at the middle-school level.
• To provide courses that develop the mathematical understanding and skills necessary for individual growth, successful careers, and responsible, informed citizenship as part of the program of general studies.
• To prepare those students whose mathematical knowledge and skills are insufficient for college-level work.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Middle Grades Education (Bachelor of Arts)

Department of Education, Division of Fine Arts and Professional Programs

Professors: Barbara Cary
            Tom Destino

Associate Professors: Belinda Eggen
                     James M. Brown
                     Chris Cain
                     Deborah R. Morris

Assistant Professors: Susan Stigall
                     Jessica Van Cleave

The major in Middle Grades Education is designed to prepare teacher education candidates for teacher licensure with two content area concentrations.

LICENSURE AREAS (see page 179):

Mars Hill University offers the following teacher education programs leading to North Carolina licensure.

Areas of Licensure and Program Coordinators:

Elementary Education (K-6) Belinda Eggen
Integrated Education (Elem Ed K-6/Special Ed K-12) Chris Cain
Middle Grades (6-9) James M. Brown
Secondary Education (9-12)
  English Adrienne Akins Warfield
  Mathematics Jennifer Rhinehart
  Science Vacant
  Social Studies Pauline Johnson
  Special Education (K-12) Susan Stigall
Special Subjects (K-12)
  Art Barbara Cary
  English as a Second Language Tom Destino
  Music Mike Robinson
  Health & Physical Education Joy Clifton
  Spanish - Second Language Greg Clemons

The Mars Hill University Teacher Education Program offers excellent preparation for students who plan to enter and succeed in the teaching profession. The aim is to produce able, confident teachers who are well-versed in their fields and who possess the knowledge, skills, and values essential to be teacher professionals.

Teacher as Progressive Leader

The university makes the Teacher Education Program available to working adults through the Adult and Graduate Studies Program held at five sites throughout the region.
The University and its faculty are connected to area teachers by providing workshops and seminars covering a variety of topics such as using technology and primary resources in the K-12 classroom, gifted education, ESL education, Special Education, classroom management, arts in education, developmental reading and literacy.

The Teacher Education Program is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction making it possible for the Mars Hill University Teacher Education graduates to have reciprocity in licensure with forty-two other states in addition to the District of Columbia and Guam.

**TEACHER EDUCATION PROGRAM:**

**Transition Points and Requirements**

Candidates in the Teacher Education Program progress through a series of four transition points. At each point, candidates must demonstrate professional and academic knowledge, teaching potential and skills, and the values, ethics and dispositions appropriate to the Teacher Professional.

- Transition One – Admission to the Teacher Education Program
- Transition Two – Admission to Clinical Practice
- Transition Three – Completion of Clinical Practice
- Transition Four – Program Completion and Licensure Requirements

**Transition One – Admission to the Teacher Education Program**

Applications for admission to the Teacher Education Program are accepted from students at the end of the second semester of the sophomore year. Requirements for acceptance include:

- Completion of ED 205 (Introduction to Education)
- Submission of a completed application
- Passing scores on Praxis I, SAT, or ACT
- Minimum cumulative GPA (grade point average) of 2.50
- Recommendation from the major department
- Formal Teacher Education Interview
- Portfolio requirement: Admission to Teacher Education Portfolio
- Approval of the Teacher Education Council

**Transition Two – Admission to Clinical Practice**

In order to progress into clinical practice, a candidate must have been admitted to the Teacher Education Program at least one full semester prior to student teaching (admission interview must occur no later than early January for fall student teaching or early August for spring student teaching). Candidates must also meet the following requirements:

- Submission of a student teaching application. Minimum cumulative GPA of 2.50.
- Completion of 90 semester hours, including education and methods courses.
- Interview and recommendation from the program coordinator.
- Portfolio requirement: continuation of the working electronic portfolio.
- Approval of the Teacher Education Council.

**Transition Three – Completion of Clinical Practice**

To complete the clinical practice experience successfully, a candidate must meet the following requirements:

- Satisfactory student teaching evaluation completed by the cooperating teacher and the university supervisor. Exit Criteria evaluation form completed.
Minimum cumulative GPA of 2.5.
Completion and submission of the North Carolina Program Approval Portfolio.
Exit electronic survey.

Transition Four–Program Completion and Licensure Requirements

In order to graduate from Mars Hill University with a degree in Education or with a degree in another field which leads to teaching licensure, a candidate must meet all Mars Hill University graduation guidelines established for their particular degree program. A student may be eligible for graduation, but not meet requirements for recommendation for teaching licensure.

To be recommended to the North Carolina Department of Public Instruction for licensure, all candidates (degree-seeking and licensure-only) must meet all of the following requirements:
Qualify for recommendation by completing all program requirements in the area of licensure. Maintain minimum cumulative GPA of 2.5.
Receive passing scores on Praxis II, as required by North Carolina Department of Public Instruction.
Submission of an electronic North Carolina Program Approval Portfolio as required by the North Carolina Department of Public Instruction.
Receive the recommendation of the licensure officer in the Teacher Education Unit.

FIELD EXPERIENCES

FE-1 Any experience working with children/adults in an educational setting that has been documented prior to entering the FE-2.
FE-2 200 Level Classes – (observations) No student/candidate interaction.
FE-3 300 Level Classes – (3-7 hours of field experience) Candidates will assess and develop lesson plans under very close supervision of classroom teacher and/or professor. In some classes candidates may teach students using the pre-approved lessons and/or cooperating teacher lesson plans.
FE-4 400 Level Classes – (7-10 hours internship) Candidates will assess a student, develop a plan of study/lessons based on the assessment outcomes, and development of formative assessment to determine rates of student improvement.
FE-5 Student Teaching – ED 490/ED 491
FE-6 Master’s Level Internship

Students must complete requirements outlined in:
I. General Education Requirements
II. Major Requirements
III. Concentration (Language Arts, Social Studies, Mathematics, Science)
IV. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective minimum hours from the options 3
- Global Perspective minimum hours from the options 3
- Humanities Perspective minimum hours from the options /two disciplines 6
- Ideas & Innovations - US minimum hours from the options 3
- Ideas & Innovations - World minimum hours from the options 3
- Natural Science Perspectives minimum hours from the options 4
Quantitative Reasoning Perspective:  
MTH 107 Finite Mathematics  
3
Social Science Perspective  
PSY 111 General Psychology  
3

II. Major Requirements

ED 205 Introduction to Education  
3
ED 251 Introduction to Special Education  
3
ED 314 Adolescent Learner  
3
ED 340 Middle Grades Curriculum  
3
*ED 341 The Middle Grades Classroom

3
**ED 470 Diversity in American Schools  
3
**ED 475 Middle Grades Practicum  
3
**ED 491 Observation/Directed Teaching  
7

* Requires formal admission to the Teacher Education Program
** Requires formal admission to Student Teaching

III. Concentration:

A. Language Arts

ENG 203 World Literature  
3
ENG 201 Survey of British Literature  
3
ENG 205 Survey of American Literature  
3
ENG 312 Adolescent Literature  
3
ENG 329 Diversity in American Literature  
3
ENG 332 Structure and Useage of the English Language  
3
ENG 334 Second Language & Literacy  
3
ED 412 The Teaching of English in the MG/Sec Programs  
3

B. Social Studies

SOC 111 Introduction to Sociology  
3
HIS 202 NC History and Government  
3
HIS 223 US History to 1865  
3
HIS 224 US History from 1865 to Present  
3
HIS 292 World History I  
3
HIS 293 World History II  
3
GEO 221 World Geography  
3
One from Economics (ECON 220, 221, or 222)  
3
ED 415 The Teaching of Social Studies in the MG/Sec Program  
3

C. Mathematics

MTH 107 Finite Mathematics  
3
MTH 115 Calculus I  
5
MTH 116 Elem Probability & Statistics 4
MTH 203 Elementary Geometry 3
MTH 204 Number Systems 3
MTH 207 Finite Mathematics II 3
ED 418 Teaching Math in Med/Sec Sch 3

D. Science
CHM 113 General Chemistry 4
NS 111 Introduction to Biology 4
NS 112 Environmental Science 4
NS 113 Physical Science 4
NS 114 Meteorology and Weather 4
PHY 223 General Physics 4
ED 421 The Teaching of Science in the MG/Sec Programs 3

IV. Electives
Middle Grades majors must take a number of elective courses to meet the 128 hours required for graduation. Middle Grades majors may elect to take courses in a second academic concentration area or may elect to take other courses. If a candidate takes less than 24 hours in an academic concentration, the candidate must take the Praxis II or other state licensing examinations in order to be “Highly Qualified” under the NCLB Act.

For licensure-only students, a major in Mathematics, History, English or Biology will satisfy the concentration requirements.
Music (Bachelor of Arts)

Department of Music; Division of Fine Arts and Professional Programs

Professors: Julie Fortney
            Joel Reed
Associate Professor: Cathy Adkins
            James Sparrow
Assistant Professors: Teresa Sumpter
            Alan Theisen
            Brian Tinkel
Instructors: Michael Robinson

General Information

The Department of Music provides an environment in which professional and non-professional musicians may continue to develop the skills, knowledge, concepts and sensitivities essential in recognizing and cultivating quality musical experiences. This development takes place within a liberal arts academic community that:

- enables the pursuit of undergraduate degrees in music
- enhances the breadth of non-music degrees
- emphasizes the artistic and personal maturity of the individual
- encourages personal enrichment through diverse musical experiences
- embraces professional values, responsibilities and relationships
- values highly-qualified, professionally-active faculty who continue the tradition of excellence in music degrees

The Bachelor of Music degree is offered with majors in Music Education (Choral, Instrumental, or Elementary emphasis) and Performance. The Bachelor of Arts degree is offered for students who desire a broad liberal arts education or who wish to combine a major in music with a minor or concentration in other areas of study. The Bachelor of Fine Arts degree in Musical Theatre is offered through the Department of Theatre.

Within any of the degree programs, a student chooses a principal applied instrument from among the following: organ, piano, or voice; or brass, percussion, or woodwind instruments. The Music Education degree prepares a student for North Carolina Class A Certification K-12.

Accreditation

The Department of Music holds full membership in the National Association of Schools of Music. The Music Education degree is part of the Teacher Education Program, which is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction.

Admission as a Music Major

Students who wish to major in music should indicate that on their admission application. The Applied Music Coordinator will contact prospective students with the specific information on procedures to follow for scheduling an audition on the principal applied instrument. The prospective music major or minor is formally admitted to the Department of Music only after he or she has passed an entrance audition.

The prospective student should plan to audition in the fall or spring semester before his or her entrance the following academic year. Entering students should audition in person, although in cases where a visit to the campus poses a personal hardship on the student, a video tape recording may be sent. Complete information on auditions is available from the Department of Music (828-689-1209) or on the Web site www.mhu.edu/music.
Examinations for Transfer Students

Students wishing to transfer credits to Mars Hill University in applied music, conducting, or music theory must take examinations in each of these areas before the credits will be counted toward a music degree. If the examinations reveal weaknesses, the student may be required to complete additional work. Further information on these examinations may be obtained by contacting the Department of Music.

Departmental Performance Labs:

One hour per week is set aside for students to gain experience in various performance venues.

Faculty and Guest Recitals and Concerts

The university Visiting Artists and Lecturers Series brings artists and musical groups to campus for performances. Also, the Department of Music sponsors recitals by its faculty members and guest artists. The proximity of Asheville enables students to attend performances by the Asheville Symphony Orchestra, the Asheville Lyric Opera, and other area ensembles.

Recital Attendance Requirements:

Each semester, students pursuing a major or minor in music are required to attend Department of Music sponsored concerts or events. Refer to the Department of Music Handbook for specific requirement.

128 Hours

The Bachelor of Arts in Music degree is a liberal arts degree designed for students who wish to major in music as part of a broad general education, rather than primarily for specialization at the undergraduate level. This program also is appropriate for students who seek a music degree as the foundation for additional study in more specialized areas such as church music, pedagogy, accompanying, music theory, and music history. The limited number of hours in music required in this program provides more flexibility than do the professional degree programs in music.

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options
- Global Perspective: two courses in Spanish or French
- Humanities Perspective: minimum hours from the options /two disciplines
- Ideas & Innovations - US: minimum hours from the options
- Ideas & Innovations - World: minimum hours from the options
- Natural Science Perspectives: minimum hours from the options
- Quantitative Reasoning Perspective: minimum hours from the options
- Social Science Perspective: minimum hours from the options

Recital Attendance Requirements:

Each semester, students pursuing a major or minor in music are required to attend Department of Music sponsored concerts or events. Refer to the Department of Music Handbook for specific requirement.

137-147 Hours

The Music Education degree program is designed to prepare students to teach general music, choral music or instrumental music in the public schools. The program is broad, requiring professional music education courses as well as vocal and instrumental technique courses of all majors. Successful completion of the program qualifies the student for Music K-12 teacher licensure (“A”) in North Carolina. The program also seeks to provide preparation for graduate study in Music Education. Performance majors are encouraged to complete this certification program as preparation for the teaching profession.

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

Students pursuing teacher licensure must complete the Professional Education Requirements.

General Information

The Department of Music provides an environment in which professional and non-professional musicians may continue to develop the skills, knowledge, concepts and sensitivities essential in recognizing and cultivating quality musical experiences. This development takes place within a liberal arts academic community that:

- enables the pursuit of undergraduate degrees in music
- enhances the breadth of non-music degrees
- emphasizes the artistic and personal maturity of the individual
- encourages personal enrichment through diverse musical experiences
- embraces professional values, responsibilities and relationships
- values highly-qualified, professionally-active faculty who continue the tradition of excellence in music degrees

The Bachelor of Music degree is offered with majors in Music Education (Choral, Instrumental, or Elementary emphasis) and Performance. The Bachelor of Arts degree is offered for students who desire a broad liberal arts education or who wish to combine a major in music with a minor or concentration in other areas of study. The Bachelor of Fine Arts degree in Musical Theatre is offered through the Department of Theatre.

Within any of the degree programs, a student chooses a principal applied instrument from among the following: organ, piano, or voice; or brass, percussion, or woodwind instruments. The Music Education degree prepares a student for North Carolina Class A Certification K-12.

Accreditation

The Department of Music holds full membership in the National Association of Schools of Music. The Music Education degree is part of the Teacher Education Program, which is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction.

Admission as a Music Major

Students who wish to major in music should indicate that on their admission application. The Applied Music Coordinator will contact prospective students with the specific information on procedures to follow for scheduling an audition on the principal applied instrument. The prospective music major or minor is formally admitted to the Department of Music only after he or she has passed an entrance audition.

The prospective student should plan to audition in the fall or spring semester before his or her entrance the following academic year. Entering students should audition in person, although in cases where a visit to the campus poses a personal hardship on the student, a video tape recording may be sent. Complete information on auditions is available from the Department of Music (828-689-1209) or on the Web site www.mhu.edu/music.
Examinations for Transfer Students

Students wishing to transfer credits to Mars Hill University in applied music, conducting, or music theory must take examinations in each of these areas before the credits will be counted toward a music degree. If the examinations reveal weaknesses, the student may be required to complete additional work. Further information on these examinations may be obtained by contacting the Department of Music.

Departmental Performance Labs:

One hour per week is set aside for students to gain experience in various performance venues.

Faculty and Guest Recitals and Concerts

The university Visiting Artists and Lecturers Series brings artists and musical groups to campus for performances. Also, the Department of Music sponsors recitals by its faculty members and guest artists. The proximity of Asheville enables students to attend performances by the Asheville Symphony Orchestra, the Asheville Lyric Opera, and other area ensembles.

Recital Attendance Requirements:

Each semester, students pursuing a major or minor in music are required to attend Department of Music sponsored concerts or events. Refer to the *Department of Music Handbook* for specific requirement.

130–138 Hours

The performance degree program is designed for those students who possess exceptional performing ability and who wish to pursue a career as a performer or performer/teacher at the university level. Entrance into the degree program is highly selective and dependent upon successful completion of a qualifying examination that occurs at the end of a student’s freshman year.

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

(Organ Majors only)
MPED 08A Pedagogy of the Applied Instrument - Piano 2
MPED 08B Pedagogy of the Applied Instrument - Piano 2
MLIT I Literature in Applied Instrument I 2
MLIT II Literature in Applied Instrument II 2
MUS 390 Junior Recital 1
MUS 490 Senior Recital 1
14 semester hours of Applied lessons 14
(must complete Level 492)
8 semester hours of MUS 140 8
6 semester hours of Performing Arts Electives* 6
8 semester hours of MUS 100, MUS 101 or MUS 102 8
7 semester hours of Music Electives 7

B. Instrumental Majors

MUS 177 Class Piano I 1
MUS 273 Class Piano II 1
MPED Pedagogy in Applied Instrument 2
MLIT I Literature in Applied Instrument I 2
MLIT II Literature in Applied Instrument II 2
MUS 390 Junior Recital 1
MUS 490 Senior Recital 1
14 semester hours of Applied lessons 14
(must complete Level 492)
C. Voice Majors

MUS 131 English/Italian Lyric Diction 1
MUS 133 German/French Lyric Diction 1
MUS 135-138 Singer-on-Stage I, II, III, IV 4
MUS 177 Class Piano I 1
MUS 273 Class Piano II 1
MUS 374 Class Piano III 1
MUS 384 Class Piano IV 1
MUS 214 Aural Skills IV 1
MPED 15A Pedagogy of the Applied Instrument - Voice 1
MPED 15B Pedagogy of the Applied Instrument - Voice 1
MLIT I Literature in Applied Instrument I 2
MLIT II Literature in Applied Instrument II 2
MUS 390 Junior Recital 1
MUS 490 Senior Recital 1
14 semester hours of Applied lessons (must complete Level 492) 14
6 semester hrs of Performing Arts Electives (refer to Music Department Handbook) 6
8 semester hours of MUS 100 or MUS 101 8
7 semester hours of Music Electives 7

*Students may satisfy the language requirement with transfer credit in German or Italian.

III. Performing Arts Electives 6 hours

*Performing Arts Electives include (a) secondary ensembles that do not meet other degree requirements, (b) applied lessons that do not meet other degree requirements, (c) PE 209, MUS 469, TA 100, TA 102, TA 130, TA 131, TA 201, TA 202, TA 203, TA 204, TA 432. Additional courses may be substituted, with approval of the major advisor and Department Chair.
Musical Theatre (Bachelor of Fine Arts)

Department of Arts & Theatre Arts; Division of Fine Arts and Professional Programs

Professor and Director of Musical Theatre: Neil St. Clair
Associate Professor: William Gregg, Chair
Assistant Professor: Richard Seagle
Assistant Professor: Jessica West

It is the intent of this department to offer a major program that will prepare students to pursue careers in the broad spectrum of the theatre arts (academic and professional), as well as in theatre-related fields. To reach this end the department offers two majors. The BA in Theatre Arts and the BFA in Musical Theatre are accredited by the National Association of Schools of Theatre.

Purposes of the departmental programs are:

1. To prepare students for careers in the field. (Graduate School, Educational Theatre, and Professional Theatre).
2. To provide opportunities for the non-major to participate in theatre activities, fulfilling in part the function of a liberal arts university.
3. To provide cultural experiences for the campus and community.
4. To complement and supplement the work of other departments in the university.

131 Hours

The Bachelor of Fine Arts in Musical Theatre is a degree designed for students who wish to prepare for careers as performers in musical theatre.

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: six hours from the options
- Global Perspective: one course of Spanish or French
- Humanities Perspective: minimum hours from the options /two disciplines
- Ideas & Innovations - US: minimum hours from the options
- Ideas & Innovations - World: minimum hours from the options
- Natural Science Perspectives: minimum hours from the options
- Quantitative Reasoning Perspective: minimum hours from the options
- Social Science Perspective: minimum hours from the options

II. Major Requirements

AMU Applied Music (8 semesters)
Ensembles (4 semesters) 4
MUS 111 Music Theory I 3
MUS 112 Music Theory II 3
MUS 113 Aural Skills I 1
MUS 114 Aural Skills II 1
MUS 139 Musical Theatre Scenes (6 semesters) 6
MUS 273 Professional Keyboard Skills 1
TA 111 Theatre Lab (7 semesters) 7
TA 112 Voice for Actor I 1
TA 117 Intro to Theatre 3
TA 121 Intro to Technical Theatre 3
TA 131 Acting Fundamentals 3
TA 231 Stage Movement and Pantomime 3
TA 304 History of Musical Theatre 3
TA 306 Musical Theatre Repertory I 1
TA 307 Musical Theatre Repertory II 1
TA 323 Theory/Practice Make-up Design 3
TA 331 Acting II: Character Analysis 3
TA 401 Choreography Practicum 1
TA 406 Musical Theatre Repertory III 1
TA 407 Musical Theatre Repertory IV 1
TA 411 Senior Seminar 1
TA 412 Musical Theatre in Performance 3
TA 431 Acting 111; Styles 3
TA 432 Opera Workshop 3
TA 461 Theatre Internship 4
TA 201 Ballet Dance 2
TA 202 Jazz Dance 2
TA 203 Modern Dance 2
TA 204 Tap Dance 2
TA 308 Advanced Theatre Dance 2

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.

Admission to BFA Program

Musical Theatre jury examinations are held by the voice faculty of the Department of Music and the acting/musical theatre faculty of the Department of Theatre. A musical theatre jury is given for each musical theatre student receiving credit in AMU applied music. A student wishing to enter the musical theatre program must audition successfully for the Theatre Arts faculty prior to taking classes in Musical Theatre as a Freshman.

Formal admission to the BFA program in Musical Theatre is gained at the conclusion of the sophomore year by way of a junior qualifying audition. The student must pass this performance examination in voice and musical theatre. Its purpose is to determine if the student has the practical skills and discipline necessary to complete the BFA degree.
To be eligible to apply for admission to the BFA program, the student must have earned a grade of D or higher in all courses required for the major and have a minimum GPA of 2.75 in major courses. A minimum overall GPA of 2.75 must have been earned each semester prior to application to the degree program. Additionally, retention in the program is dependent upon the student receiving grades of D or higher in all classes required for the major and maintaining an overall GPA of 2.75. Any student whose average falls below 2.75 in a semester following formal admission to the BFA program will be on probation and granted one semester to raise it to the minimum GPA. Failing that, the student may continue in the BA degree program.

Musical Theatre students are required to pay for their accompanist each semester. This fee is not part of regular tuition and fees but is included in university charges. Applied Music fees are also assessed for all AMU classes.
Political Science (Bachelor of Arts)

Department of Social Sciences; Division of Humanities and Social Sciences

Professor: R. Barry Sharpe
Assistant Professor: Heather Hawn

The Political Science program reflects Mars Hill's commitment to the integration of the liberal arts with the development of responsible citizenship. The program is designed to help students develop skills crucial for leading self-examined lives so that they may be better citizens (both locally and globally) and become active members of their communities. Specifically, we strive to make students more conscious of the many and complex ways in which political forces – both domestic and global – shape their lives, for better or worse, and help them create pathways to make their world a better place.

The program encourages the intellectual formation of students by encouraging them to think, read and write clearly, cogently, and critically about issues that matter and prepares them for their future responsibilities as citizens and leaders. Students of political science are prepared for careers in law, business, academics, and public service, including governmental and non-profit organizations.

128 hours

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses in French or Spanish 6
- Humanities Perspective: minimum hours from the options /two disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: PS 111 or PS 121 3

II. Major Requirements

- PS 111 – Introduction to American Government and Politics -
- PS 121 – Introduction to Global Politics 3
- PS 230 – Advanced Global Politics 3
- PS 341 – Ethics, Politics, and Policy 3
- PS 461 – Internship or 460 – Independent Study 3
- PS 470 – Senior Seminar 3
Two courses from:  
  PS 335 – Congress and the Presidency  
  PS 336 – Citizenship and Political Participation  
  PS 337 – American Constitutionalism  

Two courses from:  
  PS 320 - Global Politics and Conflict  
  PS 321 - Global Politics and Cooperation  
  PS 322 - Global Politics and Development  
  PS 323 - Global Politics and Human/National Security  

Electives (Special Topics, Cross-listed classes, or INS 300)  

Total Credit Hours (36)  

III. ELECTIVES

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Psychology (Bachelor of Arts)

Department of Social Sciences; Division of Humanities and Social Sciences

Associate Professor: Yael Baldwin
Assistant Professors: Laura Adams Jonna M. Kwiatkowski

The psychology program’s curriculum is designed to encourage faculty and students to explore how mind and behavior are best understood from various research methods and multiple interacting levels of analysis, including physiological mechanisms, individual psychological processes, and socio-cultural influences. Our faculty and students investigate how the brain works; the interactions of brain, mind, and behavior; the person in social context; the development of the person in various life stages from prenatal through death; the nature of cognition and language; variations of psychological suffering, and the myriad methods of treating that suffering. The goals are breadth and depth of learning, and preparation for graduate study and/or careers in psychology and a variety of other professions.

128 Hours

Students must complete requirements outlined in:
   I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: at least 3 hours must be language 6
- Humanities Perspective: minimum hours from the options /two disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: minimum hours from the options 3

II. Major Requirements

Four required courses 12

- PSY 111 General Psychology
- PSY 220 Behavioral Science Statistics
- PSY 225 Research Methods in Psychology
- PSY 470 Senior Thesis
One course from each group of the following 12

Group A: Clinical Psychology
  PSY 311 Personality Theory
  PSY 421 Abnormal Psychology
  PSY 422 Foundations of Counseling and Psychotherapy

Group B: Socio-cultural Psychology
  PSY 308 Social Psychology
  PSY 316 Language, Culture, and Psychology
  PSY 317 Psychology of Gender and Sexuality

Group C: Developmental Psychology
  PSY 313 Child Psychology
  PSY 314 Adolescent and Adult Development

Group D: Cognitive/Physiological Psychology
  PSY 221 Cognition
  PSY 222 Physiological Psychology

Three additional courses 9
  These additional courses can either be from groups A-D, PSY 121 Introduction to Art Therapy, PSY 312 History and Systems of Psychology, PSY 327 a Special Topics course, PSY 400 Research Activity, PSY 457 Directed Reading, or PSY 461 Internship.

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.

Note On Prerequisites:

Three psychology required courses have prerequisites in other disciplines. Prerequisite to Psychology 222 is NS 111 or BIO 113. Prerequisite to PSY 220 is the general education math requirement and PSY 111. All psychology courses except Psychology 111 have one or more prerequisites in psychology (see course listings).

Note On Credit Limits:

A total of six semester hours of the following psychology courses may count toward the major and three toward the minor: Psychology 400, 457, 458, 460, and 461.
Recreation and Sport Management (Bachelor of Science)

Department of Health, Physical Education, Recreation; Division of Mathematics and Natural Sciences

Assistant Professors: Jeff Andersen, Coordinator
William Hamilton
Anthony Smith
Instructor: Joy Clifton

The Health, Physical Education and Recreation Department offers degrees in Physical Education or Recreation and Sport Management. The Physical Education major offers concentrations in Teacher Education, Coaching and Health and Wellness Promotion. The Recreation and Sport Management major offers concentrations in Sport Management, Recreation and Leisure Services Management, Aquatic Management and Outdoor Recreation Management.

The Recreation and Sport Management major offers a challenging academic environment which prepares the student for a career in the field of Recreation and Sport management. Courses focus on the philosophical foundation of the profession, the role and function of leisure services agencies in contemporary society, and the development of skills necessary for leadership, supervision, planning, and management of facilities, programs, and services. Students are connected to the world of work through the Field Work and Internship classes that provide firsthand experiences in various settings such as community parks and recreation department, youth service agencies, churches, camps, nature centers, federal and state agencies, military, hospitals, nursing homes, and other sponsors of recreation and leisure services.

The Recreation and Leisure Services Management concentration is designed for the student who has an interest in working in community recreation organizations and agencies and in the area of commercial recreation. This concentration provides opportunities for the development of knowledge and skills the student needs to enter into the profession.

The Aquatic Management concentration is designed for the student who has a desire to manage water parks or community, college, or health club swimming facilities. The student will obtain a foundation in the management of these facilities and gain three (3) experiential education experiences through field work and internship.

The Outdoor Recreation Management concentration is designed for the student who would like to utilize the out-of-doors to provide programs for individuals. This concentration will provide the foundational skills and experiences in many outdoor recreational activities and the management of these activities in various settings.

The Sport Management concentration is designed for the student who would like to enter the professional field of sports and team management. This concentration will give the student the foundations skills and knowledge in the area of business and sport management.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Concentration
IV. Electives
I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- **Aesthetics Perspective**: minimum hours from the options (3)
- **Global Perspective**: minimum hours from the options (3)
- **Humanities Perspective**: minimum hours from the options (6)
- **Ideas & Innovations - US**: minimum hours from the options (3)
- **Ideas & Innovations - World**: minimum hours from the options (3)
- **Natural Science Perspectives**: minimum hours from the options (4)
- **Quantitative Reasoning Perspective**: minimum hours from the options (3)
- **Social Science Perspective**: PSY 111 General Psychology (3)

Religion (Bachelor of Arts)

Department of Religion, History & Philosophy; Division of Humanities and Social Sciences

Professor: Katharine Meacham
Associate Professors: Matthew Baldwin, Program Coordinator
                      Marc Mullinax

Religious Studies and Philosophy are academic disciplines embracing diverse methods of critical study. Our students investigate religion as a centrally important phenomenon in human history and experience, and engage with philosophical investigations of such topics as truth, reality, knowledge, being, and meaning.

The Program in Religion and Philosophy at Mars Hill University is committed to the university’s mission to unite a vital Christian faith with rigorous study in the liberal arts.

Religion majors and minors develop valuable skills of critical thinking, analysis, research, writing, and public speaking. Our graduates have gone on to use these skills for providing service and leadership in a wide variety of exciting careers, in many different walks of life. The major in religion can provide a solid foundation for graduate programs in religion or philosophy, in seminaries, and in other fields.

The minor in religion or in religious/philosophical studies can support many different programs of study in the arts, sciences, and professions at Mars Hill University.

128 Hours

Students must complete requirements outlined in:
   I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

   Aesthetics Perspective           minimum hours from the options            3
   Global Perspective              2 consecutive courses of foreign language  6
   Humanities Perspective          minimum hours from the options/two disciplines 6
   Ideas & Innovations - US        minimum hours from the options             3
   Ideas & Innovations - World     minimum hours from the options             3
   Natural Science Perspectives    minimum hours from the options             4
   Quantitative Reasoning Perspective: minimum hours from the options     3
   Social Science Perspective      minimum hours from the options             3

II. Major Requirements (36 Hours)

Majors take the major “core” and complete requirements for one of three concentrations.

The Major Core

   REL 111 Bible: Hebrew Scriptures Introduction            3

142   Mars Hill University Academic Catalog 2013-14
REL 112 Bible: New Testament Introduction  3  
REL 115 Religion: Search for Meaning  3  
REL 350 Research, Theory, & Method in Religion & Philosophy  3  
REL 450 Senior Seminar  3  
One course from a non-Christian tradition:  3  
   REL 235 Judaism  
   REL 240 Islam  
   REL 241 Hinduism, Buddhism  
   REL 242 Confucianism, Taoism, and Zen  

The Concentrations

Students must choose one of the concentrations in order to complete the major.

A. Biblical Studies
   REL 312 Old Testament Studies  3  
   REL 322 New Testament Studies  3  
   At least one PHI course  3  
   At least three additional courses in REL, PHI, GRK or HEB  9  

B. Youth Leadership
   REL 315 Youth Ministry  3  
   PSY 111 General Psychology  3  
   PSY 314 Adolescent and Adult Development  3  
   REL 261 or REL 461 Internship  3  
   At least one PHI course  3  
   At least two additional courses in REL, PHI, GRK, or HEB  6  

C. Religious/Philosophical Studies
   PHI 215: Problems in Philosophy  3  
   At least three additional PHI courses  9  
   Any two additional courses in REL, PHI, GRK, or HEB  6  

III. Electives

Students majoring in Religion must also complete between 43 and 58 additional “elective” credit hours. Exactly how many depends upon how they meet their GE and Major requirements. These “elective” hours can be filled with any courses taken through any department or program at the university.
Social Work (Bachelor of Social Work)

Department of Social Work; Division of Fine Arts and Professional Programs

Professor: Elizabeth Vogler
Assistant Professor: Elizabeth B. Anderson

The department identifies its primary educational goals as the preparation of students for generalist social work practice and/or graduate studies in social work. Social work students become proficient in core competencies that lead to professional development and competence. The curriculum focuses on the knowledge, values, and skills requisite for generalist practice. Students learn to effectively assist various client systems (to include individual, family, group, community, and organizations). The social work program is fully accredited by the Council on Social Work Education.

Social Work Program Mission Statement

The Mars Hill University Social Work Program prepares culturally diverse traditional and nontraditional undergraduate students with knowledge and ethical decision making skills that are transferable across geographic and practice settings. The Program fulfills the social work profession’s purpose of promoting well-being across all levels of intervention. Our graduates are ready for competent entry-level generalist practice as well as graduate study.

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: minimum hours from the options 3
- Humanities Perspective: minimum hours from the options in 2 disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: NS 111 Introduction to Biological Sciences 4
- Quantitative Reasoning Perspective: MTH 107 Finite Mathematics or MTH 115 Calculus I 3
- Social Science Perspective: PSY 111 General Psychology 3

II. Major Requirements

- SOC 111 Intro to Sociology 3
- SW 215 Intro Soc Work Profession 3
- SW 300 Intro Human Behavior & Soc Envirn I 3
SW 400 Human Behavior & Soc Envirn II 3
SW 200 Research Activity 1 – 3
SW 219 Soc Research Methods 3
SW 332 Soc Welfare Policy: Analysis & Advocacy 3
SW 317 Social Work Practice I 3
SW 321 Social Work Practice II 3
SW 325 Social Work Practice III 3
SW 361 Junior Field Internship 3
SW 500 Senior Field Internship & Integrative Seminar 15

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.

Admissions Policy:

The social work program conducts its own formal admissions process. Guidelines and application are introduced in SW 215. Transfer students consult with program director for guidelines and application.

Transfer Policy:

Social work courses may be transferred as course equivalents provided they were successfully completed in a CSWE accredited BSW program.

No University Credit for Work or Life Experience Policy

Without exception, university credit shall never be awarded for any prior or current work and/or life experience(s). For example, an incoming BSW major may have documentation supporting a current or former employment assignment; while we recognize the value of this training, we cannot award BSW credit for this experience.
Sociology (Bachelor of Arts)

Department of Social Sciences; Division of Humanities and Social Sciences

Professor: Barbara Sims
Associate Professor: Ashby F. Walker
Assistant Professor: Brett Johnson
Instructor: Laurie Pedersen

Sociology is the scientific study of human social life, groups, and societies. The Sociology major offers a flexible sequence of courses that expose students to the core of the discipline including theory, research methods, and social stratification. In addition to preparing students for graduate school, the sociology curriculum allows students to gain skills relevant in many career trajectories including public health, applied research, and civic advocacy.

128 Hours

Students must complete requirements outlined in:
I. General Education Requirements
II. Major Requirements
III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses of foreign language 6
- Humanities Perspective: minimum hours from the options in 2 disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning Perspective: minimum hours from the options 3
- Social Science Perspective: minimum hours from the options 3

II. Major Requirements

- SOC 111 Introduction to Sociology 3
- SOC 200 Research Activity Seminar 1
- SOC 219 Research Methods 3
- SOC 220 Behavioral Science Statistics 3
- SOC 214 Class, Status & Power 3
- SOC 310 Social and Political Theory 3
- SOC 470 Senior Seminar 3
- Five additional Sociology courses at the 200-level or above, excluding SOC 300, 457-458, 461 15
- Two additional Sociology courses (6 hrs.) at the 200-level or above 6
(may include SOC 300, 457-458, 461) or two courses from related
disciplines with a Sociology faculty advisor's approval and written
notification to the Registrar

III. Electives

Students may choose to meet the elective hours required by completing a second major or minor, or courses of personal interest.
The maximum number of credit hours in Sociology that may be earned and counted toward the graduation requirement is 48.

Other Information

Because the major requires only 40 semester hours, students in the department are encouraged to participate in departmental programs which emphasize:

• practical field-based education through our network of contacts with local agencies and groups.
• research opportunities through the Center for Assessment and Research Alliances (CARA).
• computer skills through the use of MicroCase beginning in SOC 111 and, later, through SPSS.
• or to complete a double-major or minor(s) in cognate areas.

Recent graduates have entered graduate programs in sociology, criminal justice, law and seminary; also, criminal justice-related occupations such as corrections, probation and parole, NC Highway Patrol, DEA, and various police and sheriff's departments; and related occupations in rape crisis counseling, research assisting, banking, insurance and the furniture industry.
Spanish (Bachelor of Arts)

Department of Language & Literature; Division of Humanities and Social Sciences

Professor: Gregory A. Clemons, Program Coordinator
Associate Professor: Gordon Hinners
Assistant Professor: Maria Moreno

Mission of the Modern Foreign Languages program at Mars Hill University

The Modern Foreign Languages program plays an integral role in students' liberal arts education by:
- preparing life-long learners to live and work in multi-lingual societies;
- connecting students to the languages, cultures, and literatures of Spanish- and French-speaking communities;
- facilitating an appreciation of other ways of “thinking and doing” in the community, the region, and the world.

Description of the Modern Foreign Languages program at Mars Hill University

Students taking Modern Foreign Languages at Mars Hill University study second languages, literatures and cultures in an inviting setting. Foreign language classes at Mars Hill University are small and enable students to attain the linguistic skills that are increasingly necessary in our more globally connected world. Closely connected with a rigorous study of the Liberal Arts, students who major or minor in Spanish or minor in French at Mars Hill University develop life-long skills that allow them to appreciate and understand the many ways people of other cultures think, live, and communicate. In addition they attain the fundamental ability to contribute a multilingual perspective to their field of work upon graduation. Recent graduates have gone on to graduate schools in Language, Business, Pharmacy and Comparative Literature, among others. They have become teachers in public and private schools, traveled abroad after graduation to pursue employment or further their education in another country, and used their language skills as interpreters.

The faculty members in the Modern Foreign Language program study and teach the languages, cultures and literatures of the Spanish- and French-speaking countries of Europe, Africa and the Americas. Either native speakers or equipped with extensive and in-depth knowledge of their professional fields as a result of living, working, researching, and traveling abroad, the professors are passionate about teaching. With small class sizes, faculty work closely with students to help them successfully understand, interpret, and communicate the vital place of Spanish, Latin American, Central American, French and Francophone languages, literatures, and cultures in today’s world. They all have attained graduate degrees from top-rated universities and bring that knowledge to the students of Mars Hill University.

Many students who major or minor in Spanish or minor in French and combine a degree, for example, in Business, Social Work, Political Science, International Studies, or Biology have an excellent preparation for post-graduate work and/or jobs in medicine, international organizations, government, business or law. A foreign language minor in French or Spanish is seen as increasingly desirable for many employers in today’s job marketplace. Employers are often more likely to hire those with exposure to and experience in a second language, culture, and literature.

Studying abroad while a student at Mars Hill University is highly recommended for French and Spanish majors and minors. Mars Hill University provides many opportunities to study abroad in French and Spanish speaking countries. Faculty members and the study abroad office work closely with the students to find a program that suits their academic as well as financial needs. Recently, students have studied in countries such as Argentina, Chile, Costa Rica, Mexico, and Spain.
128 Hours

Students must complete requirements outlined in:
  I. General Education Requirements
  II. Major Requirements
  III. Electives

I. General Education Requirements
Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective: minimum hours from the options 3
- Global Perspective: two courses in foreign language 6
- Humanities Perspective: minimum hours from the options in 2 disciplines 6
- Ideas & Innovations - US: minimum hours from the options 3
- Ideas & Innovations - World: minimum hours from the options 3
- Natural Science Perspectives: minimum hours from the options 4
- Quantitative Reasoning: minimum hours from the options 3
- Social Science Perspective: minimum hours from the options 3

II. Major Requirements

- SPA 111 Basic Skills Spanish I 3
- SPA 112 Basic Skills Spanish II 3
- SPA 211 Intermediate Spanish I 3
- SPA 212 Intermediate Spanish II 3
- SPA 314 Hispanic Cultures in Spanish 3
- SPA 450 Senior Seminar 3

Two courses from:
  - SPA 311 Conversational Spanish 3
  - SPA 312 Intro to Spanish Phonetics and Phonology 3
  - SPA 313 Spanish Stylistics 3

Three courses from:
  - SPA 330 Intro to Peninsular Spanish Literature 3
  - SPA 340 Topics in Peninsular Spanish Literature 3
  - SPA 350 Intro to Latin American Literature 3
  - SPA 360 Topics in Latin American Literature 3

One other SPA course 200 level or above 3

Supportive Requirements
None

Concentration Requirements
None

Professional Education Requirements for Teacher Certification in Second Languages
Students pursuing teacher licensure must complete the Professional Education Requirements in addition to the Major and Supportive Requirements.

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Special Education (Bachelor of Arts)

Department of Education, Division of Fine Arts and Professional Programs

Professors: Barbara Cary  
Tom Destino

Associate Professors: Belinda Eggen  
James M. Brown  
Chris Cain  
Deborah R. Morris

Assistant Professors: Susan Stigall  
Jessica Van Cleave

The major in Special Education is designed to prepare teacher candidates for teaching in the exceptional needs classroom (K-12). The curriculum is structured so that prospective teachers acquire the knowledge, skills and dispositions to ensure success in the field of Special Education. Candidates in this program participate in practicum classes and field experiences as they learn to apply the specialized skills gained through their training. A full semester of student teaching in a public school is required for completion of the program.

LICENSURE AREAS (see page 179):

Mars Hill University offers the following teacher education programs leading to North Carolina licensure.

Areas of Licensure and Program Coordinators:

Elementary Education (K-6) Belinda Eggen
Integrated Education (Elem Ed K-6/Special Ed K-12) Chris Cain
Middle Grades (6-9) James M. Brown
Secondary Education (9-12)
   English Adrienne Akins Warfield
   Mathematics Jennifer Rhinehart
   Science Vacant
   Social Studies Pauline Johnson
Special Education (K-12) Susan Stigall
   Special Subjects (K-12)
   Art Barbara Cary
   English as a Second Language Tom Destino
   Music Mike Robinson
   Health & Physical Education Joy Clifton
   Spanish - Second Language Greg Clemons

The Mars Hill University Teacher Education Program offers excellent preparation for students who plan to enter and succeed in the teaching profession. The aim is to produce able, confident teachers who are well-versed in their fields and who possess the knowledge, skills, and values essential to be teacher professionals.
Teacher as Progressive Leader

The university makes the Teacher Education Program available to working adults through the Adult and Graduate Studies program held at five sites throughout the region.

The university and its faculty are connected to area teachers by providing workshops and seminars covering a variety of topics such as using technology and primary resources in the K-12 classroom, gifted education, ESL education, Special Education, classroom management, arts in education, developmental reading and literacy.

The Teacher Education Program is accredited by the National Council for the Accreditation of Teacher Education (NCATE) and by the North Carolina State Department of Public Instruction making it possible for the Mars Hill University Teacher Education graduates to have reciprocity in licensure with forty-two other states in addition to the District of Columbia and Guam.

TEACHER EDUCATION PROGRAM:

Transition Points and Requirements

Candidates in the Teacher Education Program progress through a series of four transition points. At each point, candidates must demonstrate professional and academic knowledge, teaching potential and skills, and the values, ethics and dispositions appropriate to the Teacher Professional.

Transition One – Admission to the Teacher Education Program

Transition Two – Admission to Clinical Practice

Transition Three – Completion of Clinical Practice

Transition Four – Program Completion and Licensure Requirements

Transition One – Admission to the Teacher Education Program

Applications for admission to the Teacher Education Program are accepted from students at the end of the second semester of the sophomore year. Requirements for acceptance include:

- Completion of ED 205 (Introduction to Education)
- Submission of a completed application
- Passing scores on Praxis I, SAT, or ACT
- Minimum cumulative GPA (grade point average) of 2.50
- Recommendation from the major department
- Formal Teacher Education Interview
- Portfolio requirement: Admission to Teacher Education Portfolio
- Approval of the Teacher Education Council

Transition Two – Admission to Clinical Practice

In order to progress into clinical practice, a candidate must have been admitted to the Teacher Education Program at least one full semester prior to student teaching (admission interview must occur no later than early January for fall student teaching or early August for spring student teaching). Candidates must also meet the following requirements:

- Submission of a student teaching application.
- Minimum cumulative GPA of 2.50.
- Completion of 90 semester hours, including education and methods courses.
- Interview and recommendation from the program coordinator.
Portfolio requirement: continuation of the working electronic portfolio. Approval of the Teacher Education Council.

**Transition Three–Completion of Clinical Practice**

To complete the clinical practice experience successfully, a candidate must meet the following requirements:
- Satisfactory student teaching evaluation completed by the cooperating teacher and the university supervisor. Exit Criteria evaluation form completed.
- Minimum cumulative GPA of 2.5.
- Completion and submission of the North Carolina Program Approval Portfolio.
- Exit electronic survey.

**Transition Four–Program Completion and Licensure Requirements**

In order to graduate from Mars Hill University with a degree in Education or with a degree in another field which leads to teaching licensure, a candidate must meet all Mars Hill University graduation guidelines established for their particular degree program. A student may be eligible for graduation, but not meet requirements for recommendation for teaching licensure.

To be recommended to the North Carolina Department of Public Instruction for licensure, all candidates (degree-seeking and licensure-only) must meet all of the following requirements:
- Qualify for recommendation by completing all program requirements in the area of licensure. Maintain minimum cumulative GPA of 2.5.
- Receive passing scores on Praxis II, as required by North Carolina Department of Public Instruction.
- Submission of an electronic North Carolina Program Approval Portfolio as required by the North Carolina Department of Public Instruction.
- Receive the recommendation of the licensure officer in the Teacher Education Unit.

**FIELD EXPERIENCES**

- **FE-1** Any experience working with children/adults in an educational setting that has been documented prior to entering the FE-2.
- **FE-2** 200 Level Classes – (observations) No student/candidate interaction.
- **FE-3** 300 Level Classes – (3-7 hours of field experience) Candidates will assess and develop lesson plans under very close supervision of classroom teacher and/or professor. In some classes candidates may teach students using pre-approved lessons and/or cooperating teacher lesson plans.
- **FE-4** 400 Level Classes – (7-10 hours internship) Candidates will assess a student, develop a plan of study/lessons based on the assessment outcomes, and development of formative assessment to determine rates of student improvement.
- **FE-5** Student Teaching – ED 490/ED 491
- **FE-6** Master’s Level Internships

**128 Hours**

**Students must complete requirements outlined in:**

I. General Education Requirements
II. Major Requirements
III. Electives
I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- **Aesthetics Perspective**: minimum hours from the options 3
- **Global Perspective**: two courses in foreign language 6
- **Humanities Perspective**: HIS 223 US History to 1865 & 1 literature course 6
- **Ideas & Innovations - US**: minimum hours from the options 3
- **Ideas & Innovations - World**: minimum hours from the options 3
- **Natural Science Perspectives**: NS 111 Introduction to Biological Sciences or NS 113 Intro to Physical Science 4
- **Quantitative Reasoning Perspective**: MTH 107 Finite Mathematics 3
- **Social Science Perspective**: PSY 111 General Psychology 3

II. Major Requirements

- ED 205 Introduction to Education 3
- ED 251 Introduction to Special Education 3
- ED 375 Creative Drama OR ART 324 Art in Elem Sch 3
- MTH 203 Geometry for Elementary Education 3
- MTH 204 Teaching Number Systems 3
- ED 329 Motor, Sensory, Communication Deficits 3
- ENG 334 Second Language and Literacy 3
- PSY 313 Child Psychology 3
- ED 348 Students w/ Learning Disabilities & Emotional Behavioral Disorders 3
- *ED 401 Psychological Foundations of Education 3
- *ED 402 Hist/Phil/Soc Foundations of Education 3
- *ED 404 Reading, Writing and the Language Arts in Elementary Education 3
- ED 432 Specialized Instruction and Collaboration 3
- ED 435 Assessment Methods, Uses, and Interpretations 3
- *ED 450 Advanced Methods for Teaching Mathematics 3
- *ED 451 Academic and Environmental Classroom Planning 3
- *ED 455 Students with Persistent Reading Problems 3
- **ED 470 Diversity in American Schools 3
- **ED 481 Student Teaching Practicum 2
- **ED 491 Observations/Directed Teaching 7

* Requires formal admission to the Teacher Education Program
** Requires formal admission to Student Teaching

III. Electives:

Special Education students must take a number of elective courses to meet the 128 minimum hours required for graduation. Students may choose to meet the elective hours with a second major, a minor or courses of personal interest.
Theatre Arts (Bachelor of Arts)

Department of Art & Theatre Arts; Division of Fine Arts and Professional Programs

Professor and Director of Musical Theatre: Neil St.Clair
Associate Professor: William Gregg, Chair
Assistant Professor: Richard Seagle
Assistant Professor: Jessica West

It is the intent of this department to offer a major program that will prepare students to pursue careers in the broad spectrum of the theatre arts (academic and professional), as well as in theatre-related fields. To reach this end the department offers two majors. The BA in Theatre Arts and the BFA in Musical Theatre are accredited by the National Association of Schools of Theatre.

Purposes of the departmental programs are:

1. To prepare students for careers in the field. (Graduate School, Educational Theatre, and Professional Theatre).
2. To provide opportunities for the non-major to participate in theatre activities, fulfilling in part the function of a liberal arts university.
3. To provide cultural experiences for the campus and community.
4. To complement and supplement the work of other departments in the university.

128 Hours

### III. Electives

Students may choose to meet the elective hours required by completing a minor or selected courses of personal interest outside the theatre department.

### Productions

Five productions are presented each school year. These include a major musical work, a musical revue, straight plays and one-act plays. It is the goal of the department to offer a balanced program of plays, representing various periods, genres, and styles.

### Southern Appalachian Repertory Theatre

The Department sponsors the Southern Appalachian Repertory Theatre (SART), a professional summer theatre established in 1975. SART’s mission is to provide quality theatre for the residents of the region by performing a variety of plays, including musicals; plays concerning Appalachia which portray the rich culture and heritage of its people; and to promote the development of new plays.

Mars Hill University students are given the opportunity to work and perform with the company and may receive credit toward any theatre arts degree through such work.
Visual Communications Design (Bachelor of Fine Arts)

Department of Art & Theatre Arts, Division of Fine Arts and Professional Programs

Professor: Richard Cary
Associate Professors: Scott Lowrey, Jane Sibley Renfroe
Assistant Professor: Kenneth Gregory

The Art Department’s purposes are:

• to provide art majors, teacher licensure students, and art minors with engaging educational experiences designed to prepare them for a variety of professional careers and continued learning in the arts;
• to provide learning experiences in art to all students for general education and elective credit that promote creativity, individual aesthetic awareness, and knowledge of the roles that art plays in our culture;
• to provide opportunities, through programs such as MHU’s Weizenblatt Art Gallery, for cultural enrichment and growth for all members of the university community by encouraging active participation in the art world as a meaningful way to embody the unique spiritual and human values inherent in the arts.

The Art Department offers the Art Major with Concentrations in Studio Art, Graphic Design, and Art Education. The Art Department also offers the Bachelor of Fine Arts Degree in Visual Communications Design, which combines coursework in Photography, Graphic Design, Web Design, and Animation to prepare students for diverse professional art careers that require skills in today’s technology as well as artistic vision. The BFA is the professional degree in the visual arts.

Please see also Art Major (BA)

128 Hours

Students must complete requirements outlined in:

I. General Education Requirements
II. Major Requirements
III. Electives

Students pursuing teacher licensure must complete the Professional Education Requirements in addition to major requirements.

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

- Aesthetics Perspective six hours from the options 6
- Global Perspective minimum hours from the options 3
- Humanities Perspective minimum hours from the options /two disciplines 6
- Ideas & Innovations - US minimum hours from the options 3
- Ideas & Innovations - World minimum hours from the options 3
- Natural Science Perspectives minimum hours from the options 4
Quantitative Reasoning Perspective: minimum hours from the options 3
Social Science Perspective minimum hours from the options 3

II. Major Requirements

ART 111 Fundamental 2-D Design 4
ART 201 Drawing I 3
ART 205 or 206 Pottery I or Sculpture I 3
ART 209 Graphic Design I 3
ART 226 Photography I 3
ART 309 Graphic Design II 3
ART 326 Photography II 3

CS 305 Programming for the World Wide Web 3
CS 317 Computer Modeling and Animation I 3
CS 318 Computer Modeling and Animation II 3
CS 450 Seminar OR
ART 450 Senior Seminar

III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.

Recommended electives: CS 220, CS 253, Selected Business courses, other Art courses.

Also recommended: MTH 115 Calculus I to meet general education mathematics requirement.

Admission to BFA Program

Admission to the BFA program will be by portfolio review and examination at the end of the sophomore year to determine if the student has sufficient technical skills, conceptual and intellectual abilities and preparation, aesthetic sensibilities, motivation, and focus. Admission criteria will also include a minimum GPA in freshman and sophomore art and CS courses of at least 3.00. BFA students will work with their faculty advisors to prepare for admissions to the program.
Zoology (Bachelor of Science)

Department of Natural Sciences; Division of Mathematics and Natural Sciences

Professors: Scott Pearson
             Alan Smith
Associate Professor: Meredith Newman
Assistant Professor: Matthew Milnes
             Andrea Rockel
Instructors: Kellie Ottie
            Jennifer Torgerson
Visiting Assistant Professor: Kathryn Gubista

128 Hours

An in-depth study of the natural sciences stressing the zoological world. Designed to prepare students for graduate and professional schools.

Students must complete requirements outlined in:
   I. General Education Requirements
   II. Major Requirements
   III. Electives

I. General Education Requirements

Students must complete the Foundations and Perspectives course requirements. General Education Perspectives specified by the major are:

   Aesthetics Perspective  minimum hours from the options  3
   Global Perspective      minimum hours from the options  3
   Humanities Perspective  minimum hours from the options /two disciplines  6
   Ideas & Innovations - US minimum hours from the options  3
   Ideas & Innovations - World minimum hours from the options  3
   Natural Science Perspectives PHY 223 General Physics I  4
   Quantitative Reasoning MTH 115 Calculus I  5
   Social Science Perspective minimum hours from the options  3

II. Major Requirements

   BIO 113 Intro to Organismal Biology  4
   BIO 114 Intro to Ecology and Evolution  4
   BIO 115 Intro to Cellular Biology and Genetics  4
   BIO 350 Biological Research Methods  2
   BIO 450 Senior Seminar Presentation  1

### III. Electives

Students may choose to meet the elective hours required by completing a second major, a minor, or selected courses of personal interest.
Minors
Art History

22 hours

ART 111 Fundamental 2-D Design 4
ART 201 Drawing I, Visual Thinking 3
ART 405 Art History I -Ancient 3
ART 406 Art History II-Renaissance 3
ART 407 Art History III-Modern 3
ART 457 Directed Reading in Art 3
ART 458 Directed Readings in Art 3

Art Studio

22 hours

ART 111 Fundamental 2-D Design 4
ART 201 Drawing I, Visual thinking 3
ART 406 Art History II-Renaissance 3
or ART 407 Art History III-Modern 3
Any three from the following: 9
ART 202 Painting I
ART 203 Printmaking I
ART 205 Pottery I
ART 206 Sculpture I
ART 209 Graphic Design I
ART 226 Photography I
Any 300 level studio art course 3
Biological Natural History

24 hours

BIO 113 Introduction to Organismal Biology 4
BIO 114 Introduction to Ecology and Evolution 4
BIO 346 Plant Taxonomy 4
BIO 347 Population and Community Ecology 4
BIO 348 Vertebrate Taxonomy and Natural History 4
One departmentally approved elective (200 level or above) 4

Biology

24 hours

BIO 113 Introduction to Organismal Biology 4
BIO 114 Introduction to Ecology and Evolution 4
BIO 115 Intro to Cellular Biology and Genetics 4
CHM 113 General Chemistry I 4
Two departmentally approved biology electives (200 level or above) 8
Business Administration

19 Hours

- BA 100 Introduction to Business 3
- BA 221 Principles of Accounting 4
- BA 236 Principles of Management 3
- ECO 221 Principles of Microeconomics 3
- Student’s choice of any 2 additional courses with a BA or ECO prefix 6

Chemistry

24 hours

A Chemistry minor helps prepare students for success in a variety of careers such as biology, health professions, and psychology. Students desiring to complete a minor in Chemistry must complete the following requirements:

- CHM 113 General Chemistry I 4
- CHM 114 General Chemistry II 4
- CHM 227 Analytical Chemistry 4
- CHM 335 Organic Chemistry I 4
- CHM 336 Organic Chemistry II 4
- MTH 115 Calculus I 5
- MTH 116 Elementary Probability and Statistics 4

One additional course from:

- CHM 215 Inorganic Chemistry 4
- CHM 235 Environmental Chemistry
- CHM 327 ST: Chemistry Special Topics
- CHM 438 Biochemistry
Coaching

20 Hours

HEA 221 First Aid, CPR/PR & Sports Injuries 3
PE 250 Biomechanics 3
PE 213 Theories of Coaching 3
RSM 310 Event Management 3
RSM 300 Field work 2
Two of:
  PE 214 Coaching of Football 3
  PE 215 Coaching of Soccer 3
  PE 216 Coaching of Basketball/Volleyball 3
  PE 217 Coaching of Softball/Baseball 3
  PE 218 Coaching of Track & Field 3
  PE 219 Coaching of Swimming 3

Computer Information Systems

18 Hours

CS 110 Computer Science Concepts 3
CS 111 Introduction to Computer Science I 3
CS 302 Systems Analysis and Design 3
CS 303 Systems Design /Implementation 3
CS 315 Database Management Systems 3
BA 202 Information Technology 3
MINORS

Criminal Justice

18 Hours

Students desiring a minor in criminal justice will complete at least 18 semester hours of coursework in criminal justice. The following courses must be completed by students wishing to minor in criminal justice:

- CJ 111 Introduction to Criminal Justice 3
- CJ 112 Criminology 3
- CJ 300 Ethics in Criminal Justice 3
- CJ Electives (must be at the 300 or 400 level) 9

Computer Science

18 Hours

- CS 111 Introduction to Computer Science I 3
- CS 112 Introduction to Computer Science II 3
- CS 220 Data Structures 3
- CS 221 Computer Organization 3
- CS 230 System Administration 3
- CS 330 Operating Systems 3
English

18 Hours

Students desiring a minor in English must complete 18 semester hours of coursework in literature and/or writing beyond the general education English composition sequence (ENG 111 and ENG 112, or ENG 113). Of these 18 semester hours in English, at least 12 semester hours must be completed at the 300-level or above.

Environmental Studies

19-22 hours

- NS 112 Introduction to Environmental Science 4
- ES 301 Environmental Studies Practicum 2–3
- HIS 430 Environmental History 3
- One from:
  - BIO 214 Natural History of the Southern Appalachians 4
  - BIO 346 Plant Taxonomy
  - BIO 348 Vertebrate Taxonomy
- Two from:
  - NS 114 Introduction to Meteorology 4
  - CHM 235 Environmental Chemistry 4
  - BIO 347 Population and Community Ecology 4
  - BIO 329 ST: Conservation Biology 4
  - BIO/CS/BA 250 Introduction to G.I.S. 4
  - PS 335 Congress and the Presidency or 3
    - PS 336 Citizenship and Political Participation, or
    - PS 341 Ethics, Politics, and Policy
French

24 hours

FRN 111 Basic Communication Skills in French I 3
FRN 112 Basic Communication Skills in French II 3
FRN 211 Intermediate French I 3
FRN 212 Intermediate French II 3
FRN 311 Conversational French 3
or FRN 314 Francophone Cultures in French 3
Three other courses from the 200 level or above 9

Health & Wellness Promotion

17 hours

HEA 221 First Aid, CPR/PR & Sports Injuries 3
PE 250 Biomechanics 3
HEA 240 Personal Trainer 3
HEA 241 Exercise & Nutrition Prescription & Promotion 3
RSM 300 Field Work 2
RSM 369 Risk Management 3
History

18 Hours

Students desiring to complete a minor in History must complete the following requirements.

- HIS 223 and 224: Survey of United States History  6
- HIS 293: World History Since 1500  3
- Three upper-level history courses  9
  (numbered 300 and above)

Mathematics

21 Hours

- MTH 115 Calculus I  5
- MTH 120 Calculus II  5
- MTH 218 Applied Linear Algebra  3
- MTH 220 Calculus III  5
- One 300-level Mathematics course  3
Music

27-33 hours

MUS 111 Music Theory I 3
MUS 112 Music Theory II 3
MUS 113 Aural Skills I 1
MUS 114 Aural Skills II 1
MUS 177 Class Piano (non keyboard minors) 1
MUS 273 Professional Keyboard Skills (non keyboard minors) 1
7 SH Applied Music Lessons or Ensembles (min. 3 SH applied lessons; min. 2 SH MUS 100, MUS 101 or MUS 102)

   MUS 381 Church Music Administration & Methods (Church Music emphasis only) 3

Philosophy/Religion

18 hours

REL 115 Religion: Search for Meaning 3
PHI 215 Problems in Philosophy 3
Any two additional PHI courses 6
Any two additional courses in REL, PHI, GRK, or HEB 6
Political Science

18 Hours

Students desiring to complete a minor in Political Science must complete the following requirements.

- PS 111 American Government 3
- PS 121 Introduction to Global Politics 3
- One Political Science course 300 level or higher 3
- Additional courses in Political Science 9

Physical Education

23-24 hours

- BIO 134 Human Anatomy and Physiology 4
- PE 221 History and Principles of Physical Education 3
- PE 329 Kinesiology 4
- PE 330 Exercise Physiology 4
- PE 333 Sports in Society 3

One of:

- PE 225 Team Sports Skill Lab 3
- PE 226 Team Sports Skill Lab 3

One of:

- PE 206 Racquet Games 2
- PE 208 Golf & Disc Golf 2
- PE 209 Dance as Art 3
- RSM 210 Outdoor Recreation & Games Leadership 3
- PE 210 Walking & Weight Training 2
- PE 211 Aquasize & Aerobics 2
- PE 212 Track & Field and Recreation Running 2
Pre-professional Studies

44 hours

BIO 113 Intro to Organismal Biology 4
BIO 115 Intro to Cellular Biology and Genetics 4
CHM 113 General Chemistry I 4
CHM 114 General Chemistry II 4
CHM 335 Organic Chemistry I 4
CHM 336 Organic Chemistry II 4
MTH 115 Calculus I 5
MTH 116 Elementary Probability and Statistics 4
PHY 223 General Physics I 4
PHY 224 General Physics II 4
PSY 111 General Psychology 3

Psychology

18 Hours

Students desiring to complete a minor in Psychology must complete the following requirements.

PSY 111 General Psychology 3
Five additional courses 15

(three of which must be from the required courses
or the different groups A-D on the Psychology Major page)

Note On Prerequisites:

Three psychology required courses have prerequisites in other disciplines. Prerequisite to Psychology 222 is NS 111 or BIO 113. Prerequisite to PSY 220 is the general education math requirement and PSY 111. All psychology courses except Psychology 111 have one or more prerequisites in psychology (see course listings).

Note On Credit Limits:

A total of six semester hours of the following psychology courses may count toward the major and three toward the minor: Psychology 400, 457, 458, 460, and 461.
Recreation and Leisure Management

18 Hours

Students desiring to complete a minor in Recreation and Leisure Services Management must complete the following:

- RSM 210 Outdoor Recreation and Games Leadership 3
- RSM 221 Introduction to Recreation & Sport Management 3
- RSM 309 Planning & Design of Recreation Areas and Facilities 3
- RSM 321 Program Planning in Recreation & Sport Management 3
- RSM 369 Risk Management 3
- RSM 441 Recreation and Sport Management 3
Regional Studies

18-23 Hours

For over 150 years, Mars Hill University has served the people of the Southern Blue Ridge. The regional studies program is designed to foster an understanding of the history, culture and environment of this region. This interdisciplinary program assists students in understanding their community, the region, and connections to the broader world. It employs the concepts and methodologies of several liberal arts disciplines including humanities, natural science, social sciences and fine arts and includes field experiences. While the minor focuses on the Southern Blue Ridge mountains, the knowledge and skills developed therein can be applied to any other region. The Regional Studies minor is recommended for all students and especially encouraged for any student who expects to have a career that depends on ties to the surrounding community such as education, business, politics, religion, or research in the natural or social sciences. Flexibility in course choices and field experiences can complement students’ majors.

A. Introductory Course

3

RS 211 Place: An Introduction to Regional Studies

B. Required Courses

9-10

BIO 214 Natural History of the Southern Appalachians
ENG 340 Appalachian Literature
HIS 349 Appalachian Oral History

C. Electives

3-4

Choose one or more of the following:

- BIO/BA/CS 250 Introduction to Geographic Info Systems
- BIO 346 Plant Taxonomy
- BIO 347 Population and Community Ecology
- BIO 348 Vertebrate Natural History and Taxonomy
- CHM 235 Environmental Chemistry
- GEO 221 World Regional Geography
- HIS 202 North Carolina History and Government
- HIS 430 U.S. Environmental History
- MUS 467 Instrumental Music of the Southern Mountains
- MUS 468 Ballads, Folksongs, & Christian Harmony Singing in Southern Mountains
- MUS 469 Appalachian Smooth and Clog Dance
- PE 188 Mountain Smooth and Clog Dance
- REL 343 Religion in Appalachia
- RS 327 Special Topics in Regional Studies
- RS 460 Independent Study in Regional Studies
- SOC 213 American and Appalachian Cultural Systems

Other courses may be adapted to satisfy this minor. Consult with the program coordinator for guidance.

D. Field Internship (3-6 hours)

3-6

RS 261 / RS 461 Internship in Regional Studies
Religion

18 hours

REL 115 Religion: Search for Meaning 3
Biblical Studies (One Course) 3
   REL 201 The Bible as Literature
   REL 111 Bible: Hebrew Scrip. Intro
   REL 112 Bible: New Testament Intro
Any PHI course 3
Any three other REL, PHI, GRK or HEB courses 9

Sociology

18 Hours

SOC 111 Introduction to Sociology 3
SOC 220 Behavioral Science Statistics or 3
   SOC 219 Research Methods
SOC 310 Social and Political Theory 3
3 Additional courses in sociology 9
Spanish

24 hours

- SPA 111 Basic Communication Skills Spanish I 3
- SPA 112 Basic Communication Skills Spanish II 3
- SPA 211 Intermediate Spanish I 3
- SPA 212 Intermediate Spanish II 3
- SPA 311 Conversational Spanish 3
  - or SPA 314 Hispanic Cultures in Spanish
- Three other courses from the 200 level or above 9

Sport Management

20 Hours

Students desiring to complete a minor in Sport Management must complete the following:

- RSM 221 Introduction to Recreation and Sport Management 3
- RSM 223 Sports Marketing 3
- RSM 300 Field Work 2
- PE 333 Sports in Society 3
- RSM 309 Facility Planning, Design and Maintenance 3
- RSM 310 Event Management 3
- RSM 369 Risk Management 3
Theatre Arts

21 Hours

- TA 111 Theatre Lab (3 semesters) 3
- TA 117 Introduction to Theatre 3
- TA 131 Acting I: Fundamentals 3
- 12 Hours of theatre classes approved by theatre arts faculty 12

Webmaster

18 hours

- CS 110 Computer Science Concepts 3
- CS 111 Introduction to Computer Science I 3
- CS 105 Web Page Design I 3
- CS 205 Web Page Design II 3
- CS 305 Web Programming 3
- ART 109 Introduction to Computer Graphics 3
Women’s Studies

Program Coordinator: Yael Baldwin
Committee Faculty Members: Virginia Bower, Lucia Carter, Kathy Meacham, Marc Mullinax, Laurie Pedersen, Joanna T. Pierce, Beverly Robertson, Phyllis Smith, Ashby Walker

Women’s Studies is an academic field of study that utilizes a particular framework through which to view critical issues. This interdisciplinary minor examines and analyzes the world from a variety of perspectives. Through the study of the arts, humanities, natural and social sciences, and physical education, the minor affirms the existence, integrity, and value of women’s diverse experiences. While students pursue their own intellectual, spiritual, and personal growth, Women’s Studies helps students analyze the experiences of women and men in various cultures. Committed to freedom of inquiry and to building bridges beyond academia, it seeks to improve communication and to prepare and equip women and men for service and leadership.

18 Hours

WS 200 Women in Society 3
Two from: 6
ENG 330 Women’s Literature
HIS 330 Women in the American Experience
HIS 403 Latin American Women
PSY 317 Psychology of Gender and Sexuality
REL 336 Women and Religion
SOC 226 Sociology of the Family
WS 457 Directed Readings
WS 461 Internship (adaptable)
Electives 9

Electives:

Electives may be chosen from among the above listed regular women’s studies courses, adaptable/crosslisted courses, and special topics courses. Students declaring a minor in Women’s Studies must consult the program coordinator for guidance.

Adaptable courses have included:

BIO 213 Human Biology
COM 301 Mass Communication and Society
ENG 325 British Literature 1900–Present
ENG 354 Language and Popular Culture
HIS 401 Modern Latin America
HIS 402 History of Mexico
HIS 452 Modern Japan
REL 237 Religions in America
REL 240 Islam
REL 241 Hinduism and Buddhism
REL 341 Christian Ethics
SOC 111 Introduction to Sociology
SOC 214 Class, Status, and Power
SOC 327 Health and Society
SOC 389 Sociology of Food and Eating
SW 331 Social Welfare Policy and Services I
PSY/SOC 308 Social Psychology
PHI Most Philosophy courses are WS adaptable
Education: Licensure

Secondary Education and Special Subject Areas

Students seeking secondary (9-12) or special subject area (K-12) licensure are required to complete a major in the area of which licensure is desired. Specific requirements for each major are listed in the appropriate department of this catalog (see listing below). Special course requirements in the major or additional courses required for students pursuing licensure are also noted in the appropriate major department in this catalog.

Secondary Education Licensure Area (Grades 9-12)

- English
- Mathematics
- Science
- Social Studies

Special Subjects (Grades K-12)

- Art
- English/Second Lang (ESL)
- Music
- Health & Physical Education
- Spanish – Second Language

All students pursuing teacher licensure are required to complete the following general education connector courses or supportive courses in their program:

- PSY 111 General Psychology 3

The following professional education courses are required of all persons seeking secondary (9-12) or special subject area (K-12) licensure:

- ED 205 Introduction to Education 3
- ED 314 The Adolescent Learner 3
- One Methods Course in the Major 3
- *ED 401 Psychological Found of Educ 3
- *ED 402 Hist/Phil/Social Found of Educ 3
- *ED 410 Reading in the Content Area 3
- **ED 470 Diversity in American Schools 3
- **Content Area Practicum - 3
  - ED 471 Science 3
  - ED 472 Math 3
  - ED 473 Social Studies 3
  - ED 474 English 3
  - ED 475 Middle Grades 3
- **ED 490 Observ/Dir Teaching - Music licensure only 9
- **ED 491 Observ/Dir Student Tching for all other areas 7

* Requires formal admission to the Teacher Education Program
** Requires formal admission to Student Teaching
Note: ED 205 must be taken prior to admission into the Teacher Education Program. The student should make formal application for admission into the Teacher Education Program no later than the first semester of the junior year.

**Licensure Add-On Programs (K-12)**

Candidates and graduates who have completed licensure requirement in any field may earn an additional teaching license in Special Education, English as a Second Language (ESL), Academically/Intellectually Gifted, and Reading Specialist. All candidates seeking ESL licensure must complete two semesters of the same foreign language. Passing of Praxis II is required for add-on programs in Special Education, ESL, and Reading Specialist.

**Academically/Intellectually Gifted**

- ED 252 Introduction to Gifted Education 3
- ED 320 Multi-Sensory Methods & Models of Gifted Ed 3
- ED 452 Curriculum Differentiation for the Gifted 3
- ED 436 Assessment and Trends in Gifted Education 3

**English as a Second Language**

- ED 360 Issues in TESL in Public Schools 3
- ED 365 Socio-cultural Foundations of TESL 3
- ED 419 Methods for Teaching ESL 3
- ENG 332 Structure/Usage of English Lang 3
- ENG 333 Grammar and Linguistics for ESL 3
- ENG 334 Second Language and Literacy Dev 3

**Reading Specialist**

- ENG 334 Second Language and Literacy Development 3
- ED 440 Advanced Strategies for Literacy Acquisition and Development 3
- ED 441 Comprehensive Strategies for Teaching Content Based Literacy 3
- ED 443 Conceptual and Historical Foundation of Reading 3
- ED 444 Reading Assessment and Intervention 3
- ED 455 Teaching Students with Persistent Reading Problems 3

**Special Education**

- ED 251 Intro to Special Education 3
- ED 329 Motor, Communication, and Sensory Deficit 3
- ED 348 Students w/ LD and Emotional/Behavioral Disorders 3
- ED 432 Specialized Instruction and Collaboration 3
- ED 435 Assessment Methods, Uses, and Interpretations 3
- ED 455 Teaching Students w/ Persistent Reading Problems 3
- ED 450 Advanced Methods for Teaching Mathematics 3
- ED 451 Academic and Environmental Classroom Planning 3
**Course Listings**

**Courses marked WID indicate Writing Intensive Courses in the Discipline**

### Apparel and Interior Merchandising

**AIM 100. Fashion Study Tour**

3
The Fashion Study Tour will introduce students to various aspects of the apparel and interior industry: topics include design, market centers, manufacturing centers, wholesaling, retailing, visual merchandising, textiles, interiors, historic design centers and cultural centers of current prominence; pre-trip and post-trip assignments include directed readings, special projects, and seminar evaluations.

**AIM 111. Introduction to Apparel and Interiors**

3
An introduction to the topical areas of the field, application of aesthetic concepts that are central to fashion, apparel, and interiors; development of an original research question in chosen topical area; use of appropriate electronic resources.

**AIM 125. Decorative and Wearable Arts**

3
Application of design principles and individual creativity in developing skills which are appropriate in the creation of decorative and wearable arts. Meets Arts Experience requirement in General Education.

**AIM 211. Fashion Designers**

3
A study of contemporary designers, haute couture, and the evolution of fashion; analysis of current fashion trends as influenced by historical designs.

**AIM 230. The Interior Environment**

3
Introduction to planning and organizing interior spaces; selection of materials and furnishings according to aesthetics, economics, and projected use; use of Auto CAD in the design process.

**AIM 261. Internship**

1–3
An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Department approval required.

**AIM 311. Apparel Analysis and Evaluation**

3
Application of experimental construction techniques; analysis of apparel in relation to fabric selection, cost, quality, and end use resulting in original qualitative research; extensive use of Illustrator software to add to fashion library for design applications. Prerequisite: AIM 111, 334 or permission of instructor.

**AIM 322. Markets and Visual Merchandising**

3
Introduction to resources and contacts in apparel and interior markets through visits to regional marts, showrooms, wholesale and retail outlets, and manufacturing facilities. Introduction to basic visual merchandising techniques and the creation of artistic displays. Presenting design concepts in three-dimensional forms, analysis of visual presentation techniques, and development of merchandise presentation skills.

**AIM 327. Special Topics**

2–4
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

**AIM 330. Environmental Design Applications**

4
Integration and expansion of concepts from introductory courses as applied to interior spaces; introduction to architectural drafting techniques; extensive use of Auto CAD in the design process. Prerequisite: AIM 230 or permission of instructor.

**AIM 332. Apparel Design Applications**

4
Integration and expansion of concepts from introductory courses as applied to apparel design; creative interpretation of design through the medium of flat pattern and computer techniques using Illustrator and Photoshop software. Prerequisite: AIM 311 or permission of instructor.

**AIM 334. Textile Fundamentals**

3
Textile fibers, yarns, and fabrication methods; finishing, dyeing, and printing techniques as related to end-use properties; fabric analysis with consideration of social and ethical issues surrounding textile production processes. Prerequisite: AIM 111 or permission of instructor.
AIM 337. The Fashion Industry
Theory and practices of fashion merchandising resulting in special projects and a major show production; fashion analysis, organizational structures and marketing techniques; a case study approach to business management practices. Introduction to Illustrator to begin developing merchandising portfolio. Prerequisites: AIM 111, BA 100.

AIM 340. Integrated History of Architecture and Interior Design
An exploration of the past through architecture and interior design from the ancient through the modern world; examination of the impact of social, cultural, religious, and political factors on the innovations of each design period; investigation of influential ideas of architects and designers in the modern world. Fulfills the general education perspectives requirement.

AIM 343. Textiles for Apparel and Interiors
Exploration of the relationship between textiles and the development of apparel and interior designs, marketing and merchandising; special projects resulting in quantitative research; fabric dyeing and manipulation techniques; extensive use of Illustrator software; field trips relevant to subject matter. Prerequisite: AIM 334.

AIM 457, 458. Directed Readings 1–4 Each
Independent readings directed by members of the department faculty. Offered each semester.

AIM 459. Professional Seminar
A course for juniors or seniors that provides a structure which enables students to assess and develop their readiness to make a living and make a life. Required semester prior to internship for AIM majors. Prerequisite: AIM 322. Fulfills a general education practicum requirement.

AIM 460. Independent Study 2–6
An upper-level student-selected and faculty-approved project. Includes independent investigation, readings, application, and/or research in a professional area of interest.

AIM 463. Fashion and Interior Merchandising Internship 6-12
A continuous experience in an approved business or service environment. Prerequisites: AIM 459.

AIM 470. Portfolio Development 3
The course will focus on branding strategies, targeting portfolios to maximize skill sets, and portfolio presentation. Students create a professional portfolio directed to the merchandising, marketing, and product development segments of the Fashion and Interiors industry. Prerequisites: AIM 463 or permission of instructor). Offered spring semester. (Meets the capstone requirement in General Education)

Art

ART 109. Introduction to Computer Graphics 3
An introductory course in computer graphics. Students will learn to use the computer to create art and graphic design. This course will also provide experiences in creative expression and the evaluation of visual communication products. There are no prerequisites for this class and it meets MHU general education perspectives requirement.

ART 110. Introduction to the Visual Arts 3
An introductory course in the area of visual arts designed to develop the student’s visual awareness and understanding of important concepts in art in both historical and practical terms. There are no prerequisites for this class and it meets MHU general education perspectives requirement.

ART 111. Fundamental 2-D Design 4
Two dimensional design theory and applications. Organization principles of the elements of 2-D design. This course is a prerequisite for all art majors and minors.

ART 126. Digital Photography 3
Students will learn to operate digital cameras; perform basic editing of digital image files; to articulate and apply principles of design and photographic composition; and to become more creative and visually literate. Students prepare and present a portfolio of their art works that will be exhibited on the college web sites and elsewhere as appropriate. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.
ART 201. Drawing I, Visual Thinking 3
An introduction to various drawing concepts, techniques, and media, this course provides students with a foundation for visually “seeing” and translating the world around them. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.

ART 202. Painting I, Introduction to Color 3
Acrylic painting techniques. Emphasis on color mixing and composition. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.

ART 203. Printmaking I 3
Application of two-dimensional design to a variety of printmaking procedures, including woodcut, intaglio, and collagraphy. The emphasis is on personal growth and expression through various printmaking processes. There are no prerequisites for this class and it meets MHU general education perspectives requirement.

ART 205. Pottery I 3
Three dimensional design and construction in clay. Forming, throwing, and glazing techniques are covered. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.

ART 206. Sculpture I 3
Exploration of the sculptural potential of the ceramics medium. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.

ART 209. Graphic Design I 3
An introduction to materials and processes involved in the production of advertising designs. Practices developing skills in composition and layout, computer-based layout, digital typesetting, packaging and portfolio examples. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.

ART 226. Photography I 3
A studio art course in which students learn to operate a 35 mm camera; to develop black-and-white film and enlargements; to apply principles of composition, visual literacy, and aesthetic criteria to photography; to create meaningful self-assignments; and to discuss the history of photography. There are no prerequisites for this class and it meets MHU general education aesthetics perspectives requirement.

ART 301. Drawing II, Intermediate 3
A course designed to enhance students’ understanding of formal and conceptual drawing concerns and techniques. Visualized images, developing a personal vision through historical and contemporary approaches to the drawing medium will be explored. Prerequisite: ART 111 and ART 201 or permission of instructor.

ART 302. Painting II, Intermediate 3
Development of specialized interests and skills in acrylic painting. Emphasis on development of personal imagery and techniques. Prerequisite: ART 202 or permission of instructor.

ART 303. Printmaking II, Intermediate 3
Emphasis on techniques and trends in contemporary printmaking and combinations of printmaking techniques. Prerequisites: ART 203 or permission of instructor.

ART 305. Pottery II, Intermediate 3
Further development of ceramics techniques in hand building and wheel throwing. Methods, history, aesthetics, and glaze formulations are covered. Pre-requisites: ART 205 or ART 206.

ART 306. Sculpture II 3
An intermediate studio art course in sculpture in which students experience the creative process of making individual projects in a variety of sculptural media. Through the study and application of formal, technical and conceptual considerations, students will discover and develop their own creative abilities. Students will acquire experience in critical and aesthetic assessments of art and knowledge of specific topics related to art history and technical developments. Prerequisite: ART 206.

ART 309. Graphic Design II, Intermediate Digital Design 3
Intermediate projects in graphic design and layout. Digital imaging, digital design, pre-press and production, with the emphasis on computer based design. Pre-requisites: ART 209 or permission of instructor.

ART 324. Art Methods for Elementary Schools 3
Design and delivery of instruction in art for growth. Program planning, philosophy, development of creative
expression, selection of art experiences, evaluation, materials, equipment, and visual aids. Prerequisites: Junior standing and ED 202 or 203.

**ART 326. Photography II**
Intermediate studio problems and learning experiences emphasizing development of the student’s individual creative style, technical abilities, conceptual knowledge, and aesthetic judgment in photography as a medium for artistic expression and visual communication. Pre-requisite: Art 226 or permission of the instructor.

**ART 327. Special Topics in Art**
Specific areas of study not covered in the standard department curricula. To be announced by the department.

**ART 401. Drawing III, Advanced**
Advanced studio problems and techniques. Exploration of various space making strategies, contextual issues of the narrative event, symbolism, the figure and abstraction. Prerequisite: ART 301 or permission of instructor.

**ART 402. Painting III, Advanced**
Development of specialized interests and skills in painting. Mixed media techniques and the development of personal imagery and thematic content are emphasized. Prerequisite: ART 202 and 302 or permission of instructor.

**ART 403. Printmaking III, Advanced**
Continued development of combined printmaking techniques. Personal imagery and thematic development are emphasized. Prerequisites: Art 303 or permission of instructor.

**ART 405. Art History I**
The first of a three course sequence covering the history of western art and architecture with historical developments in styles, art mediums, content, subjects, materials, and methods covered. Additional topics include aesthetics, art criticism, and the roles of the visual arts in society. Must be taken in sequence.

**ART 406. Art History II**
The second of a three course sequence covering the history of western art and architecture with historical developments in styles, art mediums, content, subjects, materials, and methods covered. Additional topics include aesthetics, art criticism, and the roles of the visual arts in society. Must be taken in sequence, or with permission of instructor.

**ART 407. Art History III**
The third of a three course sequence covering the history of western art and architecture with historical developments in styles, art mediums, content, subjects, materials, and methods covered. Additional topics include aesthetics, art criticism, and the roles of the visual arts in society. Must be taken in sequence. Fulfills a general education practicum requirement.

**ART 409. Graphic Design III**
Advanced topics and projects in graphic design and layout. Digital imaging, design, photo manipulation, and personal design aesthetic are emphasized. Prerequisites; ART 309 or permission of instructor.

**ART 410. Type and Typographic Design**
This course continues the learning process of the Graphic Design major, teaching the importance of Type and Typography as an essential part of visual communication in the production of Graphic Design, Web Design and Layout. Research and analysis of data will be a required element that emphasizes the process necessary for the success of design created by the designer. An articulation process of the supporting research is required. The language of the Web and writing code to develop working web sites is not included in the course.

**ART 424. Art Methods for Middle/Secondary Schools**
The profession, studio projects, curriculum, scheduling, evaluation, exhibits and school-community projects, art room equipment and supplies, and recommended books. Prerequisite: ART 324.

**ART 426. Photography III**
Advanced studio problems and learning experiences emphasizing continued development of the student’s individual creative style, technical abilities, conceptual knowledge, and aesthetic judgment in photography as a medium for artistic expression and visual communication. Pre-requisite: Art 226 or permission of the instructor.

**ART 427. Photography IV, Advanced Digital Photography**
A studio art course in advanced digital photography. The technical focus is on developing pre-professional level skills in digital camera operation (DSLR), image editing in Adobe Photoshop and related software, preparation of
digital images for a variety of uses, including publication on the web and printed book formats, and for gallery presentation. ART 427 also emphasizes the student's creativity and aesthetic vision.

ART 450. Senior Seminar 3
Senior level capstone course required of all Art majors and Teacher Certification majors in art. Development of a thematically cohesive exhibition in the student’s chosen media. Documentation, criticism, and presentation will be covered. Student must enroll in this course during the fall semester of their final year. Students with the Graphic Design concentration complete senior level Student Design Group project with a faculty mentor who serves as consultant and evaluator. Fulfills a general education practicum requirement.

ART 457, 458. Directed Readings 2 or 3
Independent readings directed by members of the department faculty.

ART 460. Independent Projects or Study 2 or 3
An upper level studio project (two semester hours credit) or research study (three semester hours credit) requested and defined by a student for which there is not a substitute course offered in the department. Advanced acceptance must be obtained from a staff member who consents to serve as consultant and evaluator.

ART 461, 462. Internship in Art 2 or 3
A field-learning experience originated by the student or the department and approved by a staff member who serves as consultant and evaluator.

ART 490. Senior Exhibition 3
Art 490 is the senior level capstone course for the studio art major. It is a continuation of the focused period of art production and critical evaluation and assessment begun in Art 450. Additionally student enrolled in this course will examine the professional standards and practices of exhibiting studio artists. Students will continue to work closely with their faculty advisor in thematic development of a body of work that represents the students accumulated learning experience at Mars Hill University. Students will learn the proper procedures of presentation, and all aspects of a successful exhibition.

Athletic Training

AT 220. Safety and Supervision 2
The study, practice, and application of the standards and accepted principles in the American National Red Cross standard first aid and CPR for professional rescuers. A unit on blood-borne pathogens will also be included in this course. (Students who have current certification in any of these areas may submit them for consideration toward meeting the requirements of this course.)

AT 222. Introduction to Athletic Training 2
Designed to provide the student with an introduction to the knowledge and skills of prevention, care, and treatment of common athletic injuries. Co-requisite: 271 Prerequisites: Admission to the program; BIO 122, 134. Fall

AT 223. General Medical Conditions/Pharmacology 3
Designed to enhance the student’s knowledge of general medical conditions such as skin disorders, internal medicine, common diseases, etc. The course will also discuss the basic principles of pharmacology as it relates to the profession of athletic training. Prerequisites: Admission to the program; HEA 220, AT 222, AT 271. Spring

AT 271. Athletic Training Practicum I 2
Designed to enhance the athletic training students knowledge of theory and practical application through sophomore level competencies and clinical hours. Co-requisite: AT 222. Prerequisites: Admission to the program; BIO 122, 134. Fall.

AT 272. Athletic Training Practicum II 2
Designed to further enhance the athletic training students knowledge of theory and practical application through sophomore level competencies and clinical hours. Co-requisite AT 325. Prerequisites: Admission to the program. AT 222, 271, HEA 220. Spring.

AT 323. Evaluation and Treatment of Athletic Injuries I 3
Designed to enhance the athletic training students knowledge of clinical evaluation and treatment of cranial,

**AT 325. Evaluation and Treatment of Athletic Injuries II** 3
Designed to enhance the athletic training students knowledge of clinical evaluation and treatment of thoracic, abdominal, lumbar spine, and lower extremity injuries associated with physical activity. Co-requisite: AT 272. Prerequisites: AT 222, 271. Spring.

**AT 327, 328. Special Topics** 1–3
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

**AT 340. Therapeutic Modalities** 3
Designed to enhance the athletic training students knowledge in the use of various modalities and their relationship to the treatment of athletic injuries associated with. Prerequisites: AT 222, 223, 271, 325, 272. Fall.

**AT 341. Therapeutic Exercise** 3
Designed to enhance the athletic training students knowledge in the use of various strategies and equipment and their relationship to the rehabilitation of athletic injuries associated with physical activity. Co-requisite AT 372. Prerequisites: AT 222, 223, 271, 272, 325, 323, 340, 371. Spring.

**AT 371. Athletic Training Practicum III** 2
Designed to enhance the athletic training students knowledge of theory and practical application through junior level competencies and clinical hours. Co-requisite: 323. Prerequisites: AT 222, 223, 325, 340, 271, 272. Fall.

**AT 372. Athletic Training Practicum IV** 2
Designed to further enhance the athletic training students knowledge of theory and practical application through junior level competencies and clinical hours. Co-requisite: 341. Prerequisites: AT 222, 223, 271, 272, 323, 325, 371. Spring.

**AT 415. Administration of Athletic Training** 3
Designed to aid the student in developing a knowledge of principles, organization, and administration of athletic training programs. Prepares the student for clinical experiences involving prevention, evaluation, care, and rehabilitation of injuries associated with physical activity. Co-requisite: AT 471. Prerequisites: AT 222, 223, 271, 272, 323, 325, 340, 341, 371, 372. Fall.

**AT 427. Senior Seminar** 2

**AT 457, 458. Directed Readings** 1–3
Independent readings directed by members of the athletic training faculty members. Materials may be obtained from the department chair or program director.

**AT 460. Independent Study** 1–3
An opportunity for the outstanding student to pursue professional interest areas in some degree of depth. Library research in the form of an undergraduate thesis will be required. Materials may be obtained from the department chair or program director.

**AT 471. Athletic Training Practicum V** 2
Designed to enhance the athletic training students knowledge of theory and practical application through senior level competencies and clinical hours. Co-requisite: 415 AT 415. Prerequisites: AT 222, 223, 271, 272, 323, 325, 340, 341, 371. Fall.

**AT 472. Athletic Training Practicum VI** 2

<thead>
<tr>
<th>COURSES</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>BIO 113. Introduction to Organismal Biology</strong> 4</td>
</tr>
<tr>
<td>Basic morphology, physiology, and diversity of living organisms. Laboratory. Prerequisite/co-requisite: MATH 113. Fall and Spring.</td>
</tr>
<tr>
<td><strong>BIO 114. Introduction to Ecology and Evolution</strong> 4</td>
</tr>
<tr>
<td>Basic ecology and evolution of populations, communities, and ecosystems. Laboratory. Prerequisite/co-requisite: MATH 113. Fall and Spring.</td>
</tr>
<tr>
<td><strong>BIO 115. Introduction to Cellular Biology and Genetics</strong> 4</td>
</tr>
<tr>
<td>An introduction to cellular structure and function including cell reproduction and basic genetics. Laboratory. No prerequisites, but an elementary knowledge of chemistry helpful. Prerequisite/co-requisite: MATH 113. Fall and Spring.</td>
</tr>
<tr>
<td><strong>BIO 122. Medical Terminology</strong> 3</td>
</tr>
<tr>
<td>Etymology of the words and terms used in medicine and in the biological sciences. Emphasizes objective test taking. Every semester.</td>
</tr>
<tr>
<td><strong>BIO 134, 135. Human Anatomy and Physiology</strong> 4, 4</td>
</tr>
<tr>
<td>An integrated study of the structure and function of the human body systems. Lecture and laboratory sessions. Spring and summer.</td>
</tr>
<tr>
<td><strong>BIO 213. Human Biology</strong> 4</td>
</tr>
<tr>
<td>Selected topics from cellular biology, genetics, microbiology, evolution, and ecology emphasizing the relationship between modern biology and the treatment of human disorders. Laboratory. Prerequisite: NS 111 or any one of BIO 113, BIO 114, or BIO 115.</td>
</tr>
<tr>
<td><strong>BIO 214. Natural History of the Southern Appalachians</strong> 4</td>
</tr>
<tr>
<td>The physical geography, climate, and biota of the Southern Highlands with emphasis on the distribution of living organisms in relationship to the environment. Laboratory.</td>
</tr>
<tr>
<td><strong>BIO 215</strong></td>
</tr>
<tr>
<td><strong>BIO 215w</strong>. Cellular and Molecular Biology 4</td>
</tr>
<tr>
<td>The study of the molecular aspects of cellular structure and function. Laboratory. Prerequisites: BIO 115; CHM 113, 114.</td>
</tr>
<tr>
<td><strong>BIO 216. Genetics</strong> 4</td>
</tr>
<tr>
<td>An integrated study of classical genetics and developments in molecular genetics. Laboratory. Prerequisites: BIO 115; CHM 113, 114.</td>
</tr>
<tr>
<td><strong>BIO 226. Nutrition</strong> 3</td>
</tr>
<tr>
<td>The biological principles of human nutrition. Prerequisite: CHM 113 or consent of instructor.</td>
</tr>
<tr>
<td><strong>BIO 231. Comparative Chordate Anatomy</strong> 4</td>
</tr>
<tr>
<td>A comparative study of the origin, relationships, and functional morphology of chordates. Laboratory. Prerequisite: BIO 113, 114.</td>
</tr>
<tr>
<td><strong>BIO 243. Biology of Non-vascular Plants</strong> 4</td>
</tr>
<tr>
<td>Comparative morphology, phylogeny, physiology, and biochemistry of algae, liverworts, and mosses. Laboratory. Prerequisite: BIO 113.</td>
</tr>
<tr>
<td><strong>BIO 244. Biology of Vascular Plants</strong> 4</td>
</tr>
<tr>
<td>Comparative anatomy and morphology, life histories, and economic contributions of the major groups of vascular plants. Laboratory. Prerequisite: BIO 113.</td>
</tr>
<tr>
<td><strong>BIO 250. Introduction to Geographic Information Systems</strong> 4</td>
</tr>
<tr>
<td>An introduction to the theory and practice of analysis of spatial information using the technology of geographic information systems (GIS). There is an emphasis on hands-on learning using GIS software, hard copy maps, and data from several disciplines. Laboratory. Prerequisites: MTH 113 or MTH 115, ED 200 or BA 202, or permission of instructor.</td>
</tr>
<tr>
<td><strong>BIO 261. Internship</strong> 1–4</td>
</tr>
<tr>
<td>An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Credit awarded upon successful completion of the internship as described in the departmentally approved proposal. May be repeated only in unusual circumstances. Every semester.</td>
</tr>
</tbody>
</table>
BIO 325. Biotechnology 4
Purification, cutting, splicing, transfer, and detection of DNA. Tissue culture of living material included. Laboratory. Prerequisites: BIO 111, 115; CHM 113, 114.

BIO 327-328-329. Special Topics 1–4
Options for students to study, according to their interests, a variety of topics not covered in regular courses. Previous topics have included cytogenetics, developmental biology, entomology, invertebrate zoology, mammalogy, ornithology, parasitology, vertebrate embryology. Future topics to be announced by the department. Prerequisites: BIO 113, 114.

BIO 334. Comparative Animal Behavior 3
The evolution, development, and ecology of animal behavior. Prerequisites: BIO 114 and PSY 111. Offered on demand.

BIO 336. Microbiology 4
The microscopic forms: viruses, rickettsias, bacteria, fungi, and protozoa, and their relationship to man. Laboratory emphasis on the isolation, cultivation, identification, physiology, and methods of bacteria control. Prerequisites: BIO 115; CHM 113, 114.

BIO 337. Immunology 4

BIO 339. Comparative Physiology 4
The comparative study of how living organisms function and respond to environmental challenges Laboratory. Prerequisites: BIO 113, 115.

BIO 341. Vertebrate Histology 4
Histological principles and microscopic characteristics of cells, tissues, organs, and systems. Laboratory. Prerequisites: BIO 113, 115.

BIO 346. Plant Taxonomy 4
The identification and classification of vascular plants. Laboratory. Prerequisites: BIO 113, 114.

BIO 347. Population and Community Ecology 4
Ecological principles and concepts; the dynamics of the interactions between organisms and their environment; and population, community, and ecosystem interrelationships. Laboratory. Prerequisites: BIO 113, 114; 200 or 300-level organismal course; MTH 116 or permission of instructor.

BIO 348. Vertebrate Taxonomy and Natural History 4
The life histories, behavior, distribution, ecology, and identification of vertebrates with field studies in local environments. Laboratory. Prerequisites: BIO 113, 114.

BIO 350. Research Methods in Biology 2
Overview of the process of scientific research and reporting. Prepares student for initiating an original research project for a senior thesis. Content includes exposure to primary literature, experimental design, approaches to data analysis, and reporting on findings. Career and graduate study options will be explored. Prerequisites: BIO 113, 114, 115; CHM 113, 114; MTH 115, 116. Spring. Fulfills a general education practicum requirement.

BIO 412. Evolution 4
History of the evolution concept, mechanisms of evolution, and the history of life. Laboratory. Prerequisites: BIO 113, 114, 115; MTH 116.

BIO 438. Biochemistry 4
The chemistry of the carbohydrates, lipids, and proteins; their role in metabolism. Laboratory. Prerequisites: BIO 215; CHM 113, 114, CHM 335, 336

BIO 450. Biology Senior Seminar 1
Required of biology program seniors. Preparing and delivering reports on scientific studies. Students will produce written and oral reports on findings of original research. Prerequisites: BIO 350. Spring. Fulfills a general education practicum requirement.

BIO 457. Directed Readings 1–4
Intensive reading in areas of special interest to the student or centered around a specific topic for advanced work
or research purposes. The student must have the approval of the instructor and the department chair. Application
must be made the semester before enrollment. Offered each semester.

**BIO 460. Independent Study** 1–4
A directed program of laboratory and/or field research. The student must have the approval of the instructor,
department chair, and appropriate college faculty committee. Application must be made the semester before
enrollment. Prerequisites: BIO 350; MTH 116. Offered each semester.

**BIO 461. Internship** 1–8
A student/agency-originated and departmentally approved learning experience which enables students to apply
previously attained knowledge and skills. May be repeated for a total of 8 semester hours of credit. Offered each
semester.

---

**Business Administration**

**BA 100. Introduction to Business Perspectives and Practices** 3
An introduction to fundamental concepts of business and the connection between different business disciplines
such as management, marketing, finance and accounting. This course is required for a business minor and is open
as an elective to non-business majors who want to gain a comprehensive exposure to business perspectives and
practices. (Offered fall and spring)

**BA 202. Information Technology** 3
An introduction to personal computers and associated hardware and software in the business setting. This
includes the MS Office suite, WebMail and the Internet.

**BA 220. Behavioral Science Statistics** 3
An introduction to statistical analysis, including descriptive statistics, probability distributions, sampling theory,
estistical inference, and regression and correlation analysis. Prerequisites: a Social Scientific Perspectives course
and MTH 107 or MTH 115. (Offered fall and spring)

**BA 221. Principles of Accounting** 4
An introduction to the fundamental concepts of financial accounting from a user's perspective. Topics studied
include the balance sheet, the income statement, the statement of cash flows and the accounts that appear
on each financial statement. Special emphasis is placed on the relationship of the financial statements to one
another and on the use of the information for economic decision making. This course includes an Excel lab.
(Offered fall)

**BA 222. Principles of Accounting II** 3
An introduction to the fundamental concepts of managerial accounting from a manager's perspective. Topics
studied include the classification of costs by behavior and function. These cost classification concepts are then
employed to analyze the outcomes of different operating decisions. Excel is incorporated throughout the course
as a valuable tool to assist management in decision making. Prerequisite: BA 221. (Offered spring)

**BA 236. Principles of Management** 3
An introduction to management competencies, organizational structures, and current issues in management. This
course is designed to build conceptual development within students as future managers and work team leaders
and members. Prerequisite: ENG 112. (Offered fall and spring)

**BA 240. Personal Financial Planning** 3
An introduction to personal financial planning. The course covers essential concepts in building wealth, including
the time value of money; bank accounts; sources and uses of credit; life, health and vehicle insurance; housing
and vehicle purchase options; and investing fundamentals. This course does not meet a major requirement.

**BA 250. Introduction to Geographic Information Systems** 4
An introduction to the theory and practice of spatial information using the technology of geographic information
systems (GIS). There is an emphasis on hands-on learning using GIS software, hard copy maps, and data from
several disciplines. Laboratory. Prerequisites: MTH 113 or MTH 115, ED 200 or BA 202, or permission of instructor.

**BA 261. Internship** 1-3
An initial outside the classroom experience enabling students to explore new areas or to supplement regular
courses. Departmental approval required. Graded on an S/U basis.
BA 300. New Venture Startup  
This course examines the critical factors involved in the conception, initiation and development of new ventures and the importance of entrepreneurial thinking in professional employment. Students will be led through the process of developing a business plan for a venture of their choice, involving market potential analysis, financial preparation, organization and operation. The course is open to non-majors who wish to explore the option of a venture startup in their field of interest.

BA 320. Conflict Management: Theory and Skills  
A theory and skill oriented exploration of effective responses to interpersonal and structural conflicts that surface within organizations and with customers and vendors. This course will help students become skilled listeners and communicators, skilled negotiators and mediators, creative designers of conflict resolution systems within organizations, and proactive agents of effective working relations within and between organizations.

BA 325. Operations Management  
This course focuses on the effective management of the resources and activities that produce or deliver the goods and services of any organization. The course will present theories and applications that managers employ to manage the people, materials, equipment, and information resources that an organization utilizes to add value to the process of the production and delivery of its goods and services. Prerequisite: BA 236. (Offered fall)

BA 327. Special Topics  
Courses offered by the department to explore topics or issues not covered in regular courses.

BA 330. Organizational Ethics  
This course is an exploration of the ways in which ethical theory from the western tradition can inform serious issues and problems in business and non-profit organizations. Conversely, the course will explore ways in which actual situations and contexts of case studies from business and non-profit organizations challenge and shape ethical theory. Prerequisite: Junior status.

BA 331. Intermediate Accounting I  
Intermediate Accounting is the study of financial accounting theory in relation to reporting practices. The emphasis of this course is on recording transactions and preparing financial statement in conformity with generally accepted accounting principles as promulgated by official accounting boards (i.e. FASB). Prerequisite: BA 221 (Offered fall)

BA 332. Intermediate Accounting II  
A continuation of Intermediate Accounting I. Prerequisite: BA 331 (Offered spring)

BA 333. Budgeting and Cost Accounting  
Principles of strategic and operational decision-making through analyzing the cost of activities, functions, segments, quality, products or services. Emphasis on principles of budgeting, and integration of strategy into performance measurement and scorecards. Prerequisite: BA 222.

BA 341. Human Resource Management  
An introduction to the principles of HR Management, covering duties and responsibilities of HR departments. The course includes job analysis, interviewing, candidate selection, as well as, training and development. Prerequisite: BA 236. (Offered spring)

BA 343. Introduction to Individual Income Taxation  
An introduction to the federal income tax system and its application to individual taxpayers. Topics covered include filing status, personal deductions, business deductions, capital gains and losses, tax credits, and the computation of personal tax liability. Prerequisite: BA 221. (Offered spring of even calendar years)

BA 344. Organizational Behavior  
An introduction to the study of individuals and their behavior within the context of the organization in a workplace setting. Organizational behavior is an interdisciplinary field that includes sociology, psychology, communication, and management. Prerequisite: BA 236. (Offered fall and spring)

BA 346. Principles of Finance  
This course is designed to ground students in the basic principles of finance and financial management, including: the analysis of financial statements to identify strengths and weaknesses; the valuation of future cash flows, stock and bonds; capital budgeting decision analysis; long-term financing and capital structure issues, and computation of return and assessment of risk for investments. Prerequisite: ECO 221, BA 221 and MTH 115 or MTH 207. (Offered fall and spring)
BA 351. Principles of Marketing  
An introduction to the processes by which organizations identify markets and manage product development, pricing, promotion and distribution in order to satisfy market demand. Prerequisites: ENG 112 and BA 236. (Offered fall and spring)

BA 355. Marketing Research  
The focus is on the role of research in marketing decision making. Defining research objectives, identifying research problems, survey design, primary and secondary information collection, and qualitative and quantitative research methods are discussed. Case studies are used to illustrate concepts. Prerequisite BA 220, 351

BA 362 International Business  
This course will provide an understanding of how external factors (governmental policies, programs, and laws; cultures and standards; and country specific business practices) and internal factors (firm’s resources and capabilities) affect decisions of businesses regarding operating in a global environment.

BA 366. Consumer Behavior  
Consumer behavior is the study of every phase of the consumption process: behavior before, during and after the purchase is analyzed. Consumer satisfaction and retention is emphasized. Understanding and predicting consumer behavior in the marketplace is the goal. Prerequisite BA 351

BA 401. Organization Development and Change Management  
Introduces the theoretical understanding of organizational behavior, with particular attention on the impact of change on individuals and the organization. Explores strategies for promoting development of the organization and capacities for responding to change.

BA 410. E-business Strategies  
An overview of the strategies, technologies, and resources used by companies to sell, market, and distribute goods and services over the Internet and private networks. Trends and developments in e-business are explored through online investigation, classroom discussion, team exercises, and case research and analysis. Prerequisite: BA 351 or RSM 223.

BA 420. Leadership Development  
A skill oriented exploration of current theory and processes used by managers and leaders to develop organizational vision and accomplish goals by applying effective leadership techniques. Students will learn how to successfully lead organizations while considering the far reaching impact their organizations will have on the economic, social, and ecological future. Prerequisite: BA 236.

BA 425. Decision Theory  
An introduction to the principles of the decision making process. The course focuses on how managers and organizational leaders assess decision contexts and make “smart” decisions. The course will examine decision making tools such as quantitative analysis, use of decision trees, and fishbone analysis. Prerequisite: BA 220

BA 437. Principles of Business Law  
Principles of business law, with an emphasis on the language, elementary principles, and methodology of the U.S. legal system. Pre requisites: BA 221, BA 236, BA 346, BA 351, and ECO 221, or instructor permission.

BA 440. Investment and Wealth Management  
An overview of the principles and strategies for financial investing and managing wealth is the focus of this course. Topics include risk-return objectives, asset valuation, and portfolio management. Prerequisite BA 346

BA 444. Auditing  
An introduction to the overall framework of auditing and assurance services including both conceptual and procedural matters. The course includes a discussion of ethical concepts of the accounting profession. Prerequisite: BA 332 or concurrent registration (Offered spring of odd calendar years)

BA 450. Senior Seminar  
An advanced course designed to integrate the functional concepts and techniques from the foundation courses in the business curriculum. This course provides the student with a thorough appreciation of the role of strategic management, with emphasis on strategy formulation and implementation for the organization. Prerequisites: Senior status + 3 concentration courses (Offered fall and spring). Fulfills a general education practicum requirement.
BA 457, 458. Directed Readings
Independent readings approved and directed by a member of the department.

BA 460. Independent Study
An individual program of reading and research directed by members of the department and approved by the chair of the department.

BA 461. Internship
A field-learning experience that enables the student to apply knowledge and skills and to attain certain specified learning goals in a work-related environment. Requires department approval. Graded on an S/U basis.

Chemistry

CHM 113. General Chemistry I
The first course in a two semester sequence that introduces the fundamental laws, theories, and methods of chemistry with correlated laboratory exercises. Prerequisite/co-requisite: MTH 113, concurrent enrollment in MTH 113, or APT ≥ 3.

CHM 114. General Chemistry II
The second course in a two semester sequence that introduces the fundamentals laws, theories, and methods of chemistry with correlated laboratory exercises. Prerequisite: CHM 113

CHM 215. Inorganic Chemistry
Basic principles of inorganic chemistry including atomic structure, bonding, symmetry, ionic solids, coordination chemistry, acid-base chemistry, and electrochemistry. Prerequisite: CHM 114

CHM 227. Analytical Chemistry
Theory and practice of chemical analyses including principles of equilibrium, and statistical, gravimetric, volumetric, electrochemical, spectroscopic and chromatographic methods. Prerequisite: CHM 114

CHM 235. Environmental Chemistry
The chemistry of the atmosphere, soil, and water, with emphasis on how pollution, toxic chemicals, and energy production affect the environment. Laboratory emphasis on environmental monitoring and testing techniques. Prerequisite: CHM 114.

CHM 261. Internship
An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Department approval required.

CHM 327. Special Topics
The opportunity to study contemporary topics or topics not typically covered in the Chemistry major curriculum. Offered at the discretion of the department to match student requests or interests. Prerequisites: CHM 113, CHM 114.

CHM 335, 336. Organic Chemistry
The structure, mechanism, synthesis, and reactions of organic compounds. Prerequisite: CHM 114. CHM 336 cannot be taken without credit for CHM 335.

CHM 350. Research Methods in Chemistry
This course is an overview of the process of scientific research and reporting. It prepares students for initiating an original research project. The course content includes exposure to peer-reviewed research literature, experimental design, approaches to data analysis, and reporting of findings. Students will write a research proposal and present the proposal orally. Career and graduate study options will be explored. Prerequisites: CHM 335; MTH 115, 116. Spring semester. Fulfills a general education practicum requirement.

CHM 438. Introductory Biochemistry
The chemistry of the carbohydrates, lipids, proteins, enzymes, and their role in metabolism. Prerequisite: CHM 335. This course may count as either chemistry or biology, but not both.

CHM 440. Laboratory Research Methods in Chemistry
Students will conduct laboratory based research projects including method development, instrumental
operation, practice with wet laboratory techniques, and practice with data analyses. Prerequisite: CHM 350. Fall semester. Fulfills a general education practicum requirement.

**CHM 441, 442. Physical Chemistry**
A mathematical approach to the laws and principles of chemistry. CHM 442 cannot be taken without credit for CHM 441. Prerequisites: CHM 215, 227, 336, PHY 224 and MTH 120.

**CHM 450. Senior Seminar Presentation**
This course involves preparing and delivering reports on scientific studies. Students will produce written and oral reports on findings of original research. Prerequisite: CHM 440. Spring semester. Fulfills a general education practicum requirement.

**CHM 457, 458. Directed Readings**
Selected readings directed by department faculty in the areas of analytical, biological, organic, and physical chemistry. Open to juniors and seniors.

**CHM 460. Independent Study**
Independent in-depth investigation, reading, and research in a professional area of interest. Department approval required. Open to junior or senior chemistry majors. Only one course of independent study may be counted toward the major.

**CHM 461. Internship**
A student/agency-originated and departmentally approved field-learning experience which enables students to apply previously attained knowledge and skills. A maximum of four semester hours may be used toward the major.

**Communications**

**COM 231. Introduction to Public Speaking**
A study of basic speech communication concepts as applied to public speaking for students wishing to enhance leadership potential in traditional public speaking situations. Course includes an analysis of and help in dealing with oral communication anxiety. Prerequisites: ENG 111. Spring only.

**Computer Science**

**CS 105. Web Page Design I**
This first programming class introduces the HTML language for creating home pages on the Internet. Students will also complete a project applying HTML. This class is designed for all majors.

**CS 110. Computer Science Concepts**
Designed for computer science majors and non-majors with little or no prior introduction to computing and programming, this course introduces the basics of programming and problem solving. Students will learn the fundamental concepts of a structured programming language and will learn to solve problems using logic and good program design. Other topics include alternative programming paradigms, compiler concepts, history of computing, number systems, and the Linux operating system.

**CS 111. Introduction to Computer Science I**
An introduction to programming and problem solving using a high-level programming language. Emphasis will be on program design, algorithm development and good programming habits and techniques. The characteristics and organization of modern digital computers are also studied. Prerequisite: CS 110 or instructor permission.

**CS 112. Introduction to Computer Science II**
A continuation of CS 111. Students will continue their study of the high-level language studied in CS 111. Continued emphasis on program design, algorithm development and good programming habits and techniques. Students will write programs that are more challenging and complex than those written in CS 111. Prerequisite CS 111.

**CS 205. Web Page Design II**
Further studies including site planning, page design for various browsers, image mapping and style sheets.
Advanced HTML for frames, graphics and animated GIFs are covered along with an introduction to Javascript. Prerequisite: CS 105.

**CS 220. Data Structures**  
Sorting, searching, linked lists, stacks, queues, and trees. Prerequisite: CS 111.

**CS 221. Computer Organization**  
Covers computer organization in a bottom-up fashion. Topics include number systems, binary arithmetic, Boolean algebra, digital logic design, combinational and sequential circuits, registers, processor components, program control, assembly language programming, microprogramming, and stored programs. Prerequisites: CS 112, MTH 217 or permission of instructor.

**CS 229. Computer Support**  
Computer hardware and LAN hardware are covered. Peripherals and hardware installation and help-desk support are also included. Students participate in a complete network installation and setup. Prerequisite/corequisite: BA 202 or permission of instructor.

**CS 230. System Administration**  
This course will provide the student with an overview of the Linux Operating System and the fundamentals to properly manage a UNIX-based environment. Topics of discussion include: history of UNIX and Linux, file systems, users, devices, hardware management, network functionality, and operating a secure system. This course will also cover basic scripting languages and show how they can be used to manage a UNIX-like system. Prerequisite: CS 111.

**CS 250. Introduction to Geographic Information Systems**  
An introduction to the theory and practice of analysis of spatial information using the technology of geographic information systems (GIS). There is an emphasis on hands-on learning using GIS software, hard copy maps, and data from several disciplines. Laboratory. Prerequisites: MTH 113 or MTH 115, ED 200 or BA 202, or permission of instructor.

**CS 253. Multimedia I**  
Multimedia applications which focus on the creation of presentations via desktop publishing and slide generating software. Computer graphic images and their manipulation are introduced.

**CS 261. Internship**  
An initial outside-the-classroom experience. Time will be spent in support of the campus technology infrastructure and support system. Prerequisite: CS 229 and Sophomore standing.

**CS 302. Systems Analysis and Design**  
An introduction to the systems development life cycle, analysis of business functions, utilization of project management tools for analysis and systems design, and strategies for systems design and implementation. Students participate in team projects, class interaction, and the design and creation of a simulated application. Prerequisite/Corequisite: CS 315, CS 253 or permission of instructor.

**CS 303. Systems Design and Implementation**  
A continuation of CS 302 with an emphasis on design and implementation. Students complete the team design project initiated in CS 302. Prerequisite: CS 302.

**CS 305. Programming for the World Wide Web**  
Topics include CGI interfaces, website creation, security, transaction processing, managing an intranet or internet presence for an organization, and content preparation tools. Prerequisites: CS 111, CS 205, and CS 253 or permission of instructor.

**CS 307. Data Communications**  
Data communications across all communications technology is included. Networks, both LAN and WAN, are covered along with EDI standards such as: ANSI, EDIFACT, and HL7. The OSI model is explored. Intranets and the Internet are also discussed. Prerequisite: CS 111.

**CS 315. Database Management Systems**  
The fundamental concepts of DBMS, DBMS organizations and their capabilities, general database theory and implementation techniques. Students will design and create a database using MS-ACCESS as a team project. Prerequisite: CS 111.
CS 317. Computer Modeling and Animation I  
The first course in a two-semester sequence on computer modeling and animation. This class will introduce the basics of computer modeling using sophisticated animation software. Topics covered will include mesh modeling techniques, UV mapping, modifiers, particles, Bezier curves, materials, lighting, armatures, and key framing. Emphasis will be on completing detailed models suitable for animation or as props in an animated scene. Prerequisite: Sophomore standing or higher

CS 318. Computer Modeling and Animation II  
The second course in a two-semester sequence on computer modeling and animation. This class will go beyond the basics of computer modeling using sophisticated animation software. Topics covered will include advanced techniques of those introduced in CS 317 such as mesh modeling techniques, UV mapping, modifiers, particles, Bezier curves, materials, lighting, armatures, and key framing. It will also introduce rigid body dynamics, soft bodies, and cloth simulations as well as an introduction to non-linear video editing. Emphasis will be on creating a complete short film by semester’s end. Prerequisite: CS 317

CS 321. Advanced Programming I  
An in-depth study of a modern, high-level, object-oriented programming language. Emphasis will be on practical application of concepts learned in CS 111, CS 112, and CS 220. There will be continued emphasis on good program design, algorithm development and good programming habits and techniques. Graphical user interfaces will also be introduced, as well as programming using an integrated developer environment. Prerequisite: CS 220.

CS 322. Advanced Programming II  
A continuation of the in-depth study of a modern, high-level, object-oriented programming language. Emphasis will be on practical application of concepts learned in CS 111, CS 112, CS 220, and CS 321. There will be continued emphasis on good program design, algorithm development and good programming habits and techniques. Graphical user interfaces will also be studied in greater depth. Prerequisite: CS 321.

CS 327, 328, 329. Special Topics  
Options for students to study, according to their interest, a variety of topics not covered in regular courses. To be announced by the department. Prerequisite: varies depending upon topic. Departmental approval required.

CS 330. Operating Systems  
This course provides an introduction to operating systems including their concepts, design, and implementation. Topics include process management, storage and memory management, I/O, distributed systems, and security. The class will also include some systems programming projects. Prerequisites: CS 220, CS 221.

CS 340. Theory of Computation  
This course presents the theoretical foundations of computing. Topics include finite automata, regular sets, push-down automata, context-free languages, Turing machines, and language hierarchy. Other topics may include an introduction to countability, diagonalization, and undecidability as time permits. Prerequisites: CS 220, CS 221, MTH 217.

CS 421. Software Design  
This course will build on the programming language taught in CS 321 and CS 322. Rather than a study of the language itself, these courses will focus on the design aspect of programming. In this course students will engage in the team development of several large software projects, learning common design methodologies, and using team design tools in the process. Prerequisites: CS 321, CS 322.

CS 450. Seminar  
Presentation of oral reports and discussion of topics in computer science. Departmental approval and Senior standing required. Fulfills a general education practicum requirement.

CS 457, 458. Directed Readings  
Independent readings directed by members of the department faculty. Departmental approval required.

CS 460. Independent Study  
Independent in-depth investigation, reading, and research in a professional area of interest. Departmental approval required.

CS 461. Professional Internship  
A student/agency-originated and departmentally approved field learning experience which enables the student to apply previously attained knowledge and skills. Senior standing required.
## Criminal Justice

### CJ 111. Introduction to Criminal Justice
3
Students are introduced to the structure, function and processes of the criminal justice system including law enforcement, the courts, and corrections as well as related elements. Strengths and weaknesses of the current system, proposals for change and ethical issues are broached. Throughout the course attention is given to requirements for and opportunities for employment and advanced education in various criminal justice-related professions. On-site visits and guest speakers are used. No prerequisite. Fall/Spring. Fulfills the general education perspectives requirement.

### CJ 112. Criminology
3
The study of the making of laws, the breaking of laws, and society’s reaction to law breaking; theoretical explanations for criminal behavior and the policy implications of those theories to the criminal justice field. Prerequisites: None. CJ 111 could be taken concurrently with this course. Fall/Spring. Fulfills the general education perspectives requirement.

### CJ 113. Courts and Criminal Justice
3
An overview of the courts system in the U.S. along with a basic introduction to the American legal system. Prerequisites: None. CJ 111 could be taken concurrently with this course. Annually.

### CJ 210. Policing in America
3
An introductory to policing in American society that explores the many functions of policing, how models of policing have evolved over time, the legal and ethical aspects of policing, the role of technology in modern-day policing, and the critical issues associated with policing a diverse society. Prerequisites: None. CJ 111 could be taken concurrently with this course. Annually.

### CJ 219. Social Research Methods
3
The methods and techniques used in social research: research design, data collection methods, basic analytic techniques and the theoretical orientations underlying them. Prerequisites: CJ 111 or SOC 111 or PS 111 and MTH 107 or equivalent. Fall/Spring.

### CJ 220. Behavioral Science Statistics
3
An introduction to statistical analysis, including descriptive statistics, probability distributions, sampling theory, statistical inference, and regression and correlation analysis. Prerequisite: MTH 107. Fall/Spring.

### CJ 230. Introduction to Corrections
3
An overview of the history of corrections in the United States with an emphasis on the underlying philosophy of punishment, the evolution of corrections through various punishment perspectives, issues related to living and working in prisons, and the movement toward community corrections. Prerequisites: CJ 111 or permission of program. Annually.

### CJ 300. Ethics in Criminal Justice
3
In-depth study of the American Criminal Justice System including current theory, research and practice. Special attention may be given to specific components of the system based on the needs of upper-level students preparing for field placements and current controversies in the field. Ethical and legal issues are highlighted. Prerequisite: CJ 111 or permission of program. Spring.

### CJ 312. Victimology
3
An examination of issues associated with crime victimization and how it is addressed within the U.S. criminal justice system, including the victims' rights movement, the social and psychological impact of crime victimization, the role of victims in the prosecution and conviction of offenders, and victim restitution. Prerequisites: CJ 111 or permission of program. Annually.

### CJ 320. Comparative Criminal Justice
3
A comparison of the U.S. system of justice with those from other countries around the world to illustrate varying approaches to the prosecution and punishment of criminal offenders.

### CJ 412. Juvenile Delinquency and Justice
3
Examines the history of delinquency, investigational techniques, and the major theories of delinquency, including strain theory, social learning theory, control theory, and subcultural deviance theory. Also studied are the risk factors for delinquency and efforts to control it, with attention to police, juvenile court, and correctional facilities efforts. Prerequisite: CJ 111 or permission of program. Annually.
CJ 457,458. Directed Readings
Supervised readings in criminal justice. Credit awarded upon satisfactory completion of examination at the end of the semester. Student should make arrangements with the supervising faculty early in the semester before the course is to begin. No more than three credits of directed reading work can be used to substitute for an upper-level criminal justice elective. Prerequisite: Three courses in Criminal Justice, one of which is at the 300/400 level.

CJ 460. Independent Study
Advanced study in an area of criminal justice selected by the student with general direction from faculty advisor. Credit is granted upon completion of original paper. Student should make arrangements with the supervising faculty early in the semester before the course is to begin. No more than three credits of independent study work can be used to substitute for an upper-level criminal justice elective. Prerequisite: Three courses in Criminal Justice, one of which is at the 300/400 level.

CJ 461. Internship
Advanced, off-campus supervised internship in an agency or community setting during which the student applies knowledge and skills learned in the classroom. The internship is linked to a seminar that provides the opportunity to reflect upon the field experience and evaluate student performance. A maximum of six credits will be given for the internship experience unless otherwise approved by the Criminal Justice Coordinator. Prerequisites: 90 credits of coursework completed toward the degree and the completion of CJ 111, 112, 113, 210, 219, 220 and 230, at least three credits of upper level criminal justice electives, and 46 credits completed for general education requirements.

CJ 470. Senior Seminar in Criminal Justice: The Role of Race/Ethnicity, Gender, and Socio-economic Status in the American Criminal Justice System
The capstone course for criminal justice that examines the role of race/ethnicity, gender, and social inequality in crime production and the social control of offenders. Prerequisites: All criminal justice core courses and at least 90 credits of coursework or by permission of the program. Fall/Spring. Fulfills a general education practicum requirement.

Economics

ECO 220. Principles of Economics
This course introduces the basic principles and tools used in economic analysis. Both micro- and macroeconomic principles are covered.

ECO 221. Principles of Microeconomics
The focus of the course is on the decision making of individual agents within an economy, and how the interactions of these agents within markets of varying degree of competition lead to the allocation of resources, production levels of goods and services, and the distribution of the generated output within the economy. Microeconomic theory is utilized to analyze causes of and potential solutions to market failure and issues raised by uncertainty and risk. (Offered fall). Fulfills the general education perspectives requirement.

ECO 222. Principles of Macroeconomics
This course studies the functioning of the aggregate economy, including growth and fluctuations in output, the associated problems of inflation and unemployment, and fiscal and monetary policy responses to these problems. The roles of financial markets, along with global interactions between economies and markets, are also topics. (Offered spring). Fulfills the general education perspectives requirement.

ECO 327. Special Topics
Courses offered by the department to explore topics or issues not covered in regular courses.

ECO 336. Managerial Economics
This course focuses on the use of microeconomic theory and analysis to better understand problems and issues faced by firms. Topics include consumer and demand theory, cost minimization, pricing decisions under differing levels of competition, and strategy development.

ECO 362. International Economics
This course introduces a theoretical approach to understanding international trade and global financial flows. Prerequisite: ECO 221
### ECO 445. Financial Markets
3
The U.S. financial system and its relationship to global financial markets, including the creation of money and credit, instruments and markets, and monetary policy and economic stabilization. Prerequisite: ECO 222 and BA 346.

### ECO 457, 458. Directed Readings
1-3
Independent readings approved and directed by a member of the department.

### ECO 460. Independent Study
1-3
An individual program of reading and research directed by members of the department and approved by the chair of the department.

### ECO 461. Internship
1-6
A field-learning experience that enables the student to apply knowledge and skills and to attain certain specified learning goals in a work-related environment. Requires department approval. S/U grading.

### Education

#### ED 101. College Reading
3
Individualized program for development of reading skills.

#### ED 205. Introduction to Education
3
This course is an introduction to the profession of teaching for elementary, middle, secondary, and specialty subject areas. Required field experiences in K-12 public schools. The content includes the framework for 21st Century Learning, North Carolina Professional Teaching Standards, Common Core and Essential Standards, Code of Ethics for Educators and Standards for Professional Conduct, digital literacy, and other issues and topics relevant to public school teachers and administrators. This course is a pre-requisite to all other professional education courses and is required for formal admission to the Teacher Education Program. Sophomore standing required.

#### ED 251. Introduction to Special Education
3
This course will build a foundation for understanding the diverse learning needs of students with disabilities and how schools can meet these needs in an inclusive setting. The course will include an overview of delivery models, instructional strategies and the role of the teacher in the inclusive classroom. Candidates will also gain knowledge of the procedural and legal issues that surround the field of Special Education.

#### ED 252. Introduction to Gifted Education
3
Build a foundation for understanding the diverse learning needs of students with gifted/talented exceptionalities and how schools can meet these needs in an inclusive setting. The course will include an in-depth study of the historical foundations of gifted education, current research regarding gifted education, as well as an overview of delivery models, instructional strategies, and the role of the teacher in the inclusive classroom as both instructor and advocate. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License.

#### ED 311. Children’s Literature
3
Principles of selection and evaluation of all genres of literature and the effective utilization of books in the curriculum.

#### ED 312. Adolescent Literature 6-12
3
Principles of selection, evaluation, and use of all media designed for curricular needs and enrichment in programs for adolescents. See English 312.

#### ED 314. The Adolescent Learner
3
This course outlines the developmental characteristics and turning points from childhood to young adulthood within the context of education. It critically examines the mismatch between school organizations and curriculum and the intellectual, social, physical, and emotional needs of adolescents. It addresses the diverse needs of adolescent learning, encompassing special needs and second language learners. This course contains a practicum component, allowing students to examine key theories within the context of classroom and school settings.

#### ED 318. Multi-Sensory Methods and Materials for Language Arts & Mathematics Instruction
3
In this course candidates will gain an understanding of the basic learning principles and the importance of multi-sensory instruction. This course will prepare candidates to assess individuals and design highly creative instructional methods and strategies tailored to individual needs, abilities, and learning styles. Students will
be introduced to methods of teaching reading, written expression, and mathematics through the multi-sensory processes including visual arts, theater, music, and creative movement. Using an integrated thematic approach to instruction, candidates will build a knowledge base for each of the content areas.

**ED 320. Multi-Sensory Methods & Models of Gifted Education**
3
In this course candidates will gain an understanding of the learning principles and the importance of multi-sensory instruction for learners who are gifted. This course will prepare candidates to assess individuals and design highly creative instructional methods and strategies tailored to individual needs, abilities, and learning styles. Candidates will be introduced to different methods for teaching the North Carolina Standard Course of Study through higher order thinking skills and the multi-sensory processes including visual arts, theater, music, and creative movement. Using an integrated thematic approach to instruction, candidates will build a knowledge base for each of the content areas. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License.

**ED 325. Social Studies Methods in the Elementary Education Program**
2
Instructional theories, methods, and materials appropriate to teaching social studies in the elementary K-6 program; extensive practical application in an appropriate school setting. Prerequisite: Admission to teacher education.

2
Instructional theories, methods, and materials appropriate to teaching science in the elementary K-6 program; extensive practical application in an appropriate school setting. Prerequisite: Admission to teacher education.

**ED 327. Special Topics**
1–4
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the division.

**ED 329. Motor, Communication, and Sensory Deficits of the Exceptional Child**
3
This course is designed to enhance candidates’ knowledge and understanding of the motor, communication, and sensory deficits of the exceptional child. Course work will focus on current assistive technology and various other methods of communication, including Signed Exact English. In this class, candidates will gain an understanding of the importance of providing students with access to the activities of daily life, recreation, and academics.

**ED 340. Middle Grades Curriculum**
3
This course outlines the developmental characteristics and turning points from childhood to young adulthood within the context of education. It critically examines the mismatch between school organizations and curriculum and the intellectual, social, physical, and emotional needs of adolescents. It addresses the diverse needs of adolescent learning, encompassing special needs and second language learners. This course contains a practicum component, allowing students to examine key theories within the context of classroom and school settings. Prerequisite: PSY 111

**ED 341. The Middle Grades Classroom**
3
Principles, methods, and materials for interdisciplinary teaching in the middle school classroom with special emphasis on instructional technology, assessment, and classroom management. Intensive field experience in grades 6-9 is required. Pre-requisite: Formal admission to Teacher Education Program and ED 340.

**ED 347: Socio-cultural Foundations of Teaching Students with Disabilities**
3
In this course candidates gain an understanding of the importance of cultural socio-economic and family dynamics. They apply this knowledge to help guide instructional and management planning. This course will prepare candidates to work with diverse individuals and design highly creative instructional methods and strategies tailored to individual needs, abilities, and learning styles.

**ED 348. Students with Learning Disabilities and Emotional/Behavioral Disorders**
3
This course is designed to consider the specific area of learning disabilities and behavior disorders in depth, including etiology, prevalence, and characteristics. This course will review and analyze current practice and research on issues relating to education of students with learning disabilities and behavior disorders. Historical and current aspects pertaining to the particular area of disability will be revealed as well. This course is designed to consider the specialized areas of behavior function and management. This course will teach research-validated instructional and behavior strategies to facilitate learning across the curriculum.
ED 360. Issues in Teaching English as a Second Language in Public Schools 3
Examines issues and policies relevant to the teaching and learning of English as a Second Language. Includes a practicum in the public schools.

ED 365. Sociocultural Foundations of TESL in Public Schools 3
Examines and applies theories and research related to the nature of culture and to the experiences of immigrant populations in communities and schools. Prerequisite: Admission to Teacher Education.

ED 375. Creative Drama 3
The use of improvised playmaking in stimulating learning and developing creative imagination, artistic sensibility, and desirable personal and social attitudes in young people. Although the principles may apply to all age groups, this course is designed for those working with young children and teenagers. Prerequisite: Sophomore standing.

ED 401. Psychological Foundations of Education 3
Theories, principles, and conditions involved in learning and teaching. Prerequisite: Admission to the teacher education program.

ED 402. Historical, Philosophical, Social Foundations of Education 3
Material appropriate to the historical, philosophical, and social foundations of education. Prerequisite: Admission to the Teacher Education Program.

ED 404. Reading, Writing, and the Language Arts in Elementary Education 3
Principles, methods, and materials for teaching all six of the language art strands (reading, writing, speaking, listening, viewing, and visual representation), with special emphasis on reading and writing. Field experience in grades K-5 required. Pre-requisite: Formal admission to Teacher Education Program.

ED 410. Reading in the Content Areas 3
Study of the reading process as it relates to all middle grades special subject area and secondary disciplines; includes use of audio visuals and equipment. Prerequisite: Admission to teacher education.

ED 412. The Teaching of English in the Middle Grades/Secondary Program 3
Understanding and application of materials and methods in English.

ED 413. The Teaching of Health and Physical Education in the Secondary Program 3
See PE 413.

ED 415. The Teaching of Social Studies in the Middle Grades/Secondary Program 3
Understanding and application of materials and methods in social studies.

ED 417. Teaching of a Second Language in K-12 Classrooms 3
Understanding and application of methods and materials in second language instruction.

ED 418. The Teaching of Mathematics in the Middle Grades/Secondary Program 3
Understanding and application of materials and methods in mathematics.

ED 419. Methods for Teaching ESL 3
Examines and applies various methods for teaching ESL populations in public schools.

ED 420. Teaching Literature for Adolescents in a Diverse Society 3
This course will explore and evaluate reading and writing instructional strategies for a global society through the study of fiction and non-fiction multicultural literature for adolescents and digital literacies.

ED 421. The Teaching of Science in the Middle Grades/Secondary Program 3
Understanding and application of materials and methods in science.

ED 424. Art Methods for Middle Grades/Secondary Schools 4
See Art 424.

ED 432. Specialized Instruction and Collaboration 3
Candidates will discuss ways to adapt materials and modify the curriculum in collaboration with other professionals, parents, and ancillary service providers in order to enable access for all students. Guidelines are presented to assist future teachers to develop collaboration and consultation skills necessary to learn from and lead professionals, parents, students, and others in positive ways. An emphasis will be placed on the utilization of assessment results and the documented research-validity that goes along with each instructional strategy.

ED 435. Assessment Methods, Use and Interpretation 3
This course will concentrate on the assessment and evaluation of students with special needs. Skills will include...
developing and administering a variety of instruments, interpreting and using assessment data (for screening, identifying, instructional planning, decision-making, and evaluating progress), and recognizing the limitations of test instruments, especially as related to cultural and linguistic issues. Current issues and trends in assessment will be explored.

**ED 436. Assessment and Trends in Gifted Education**  
This course is designed to help candidates acquire assessment skills needed to make sound instructional decisions, monitor progress, and to allow teacher to plan instruction based on assessment. Classroom-based methods of curriculum, learning, performance, and behavioral assessments will be presented; including data collection, designing and implementing interventions, making curricular adaptations, and using data to make instructional decisions. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License

**ED 440. Advanced Strategies for Literacy Acquisition and Development**  
This course is designed to prepare candidates for leadership roles in literacy development for students K-12. This will be achieved through a program of: (1) professional reading, (2) discussion and writing based on critical analyses, (3) instructional and curricular design and critique, and (4) intensive field observation, and (5) implementation of the clinical intervention process. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License

**ED 441. Comprehensive Strategies for Teaching Content Based Literacy**  
This course focuses on the skills readers require to understand and learn from content area texts. Various strategies for helping students gain fluency and comprehension are studied and analyzed. Candidates will design instruction in the content areas for learners with a variety of ability levels, special needs, cultural and language backgrounds, and interests. Field observation and instructional unit design are required. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License

**ED 443. Conceptual and Historical Foundations of Reading**  
This course is designed to identify and analyze historical and contemporary trends and issues related to the teaching of reading. Emphasis will be placed on the development of a broad knowledge regarding trends and issues related to critical literacy, American educational reform movements, and international influences, as well as research-based findings regarding how best to teach the process of reading. These trends and issues will be examined in light of their contemporary implications and current applications in the field of reading. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License

**ED 444. Reading Assessment and Intervention**  
This course is designed to prepare candidates to carry out all components of the reading assessment and intervention sequence. This includes (1) selecting assessments for different purposes and students; (2) conducting various assessment procedures; (3) linking assessment results to instructional planning; (4) tracking response to intervention and modifying plan content and pace accordingly; (5) documenting the procedures and outcomes of the assessment and intervention sequence; (6) communicating and collaborating with parents, colleagues, and other school personnel to achieve reading improvement goals. Candidates will achieve course outcomes through a variety of classroom activities and clinical experiences. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License

**ED 450. Advanced Methods for Teaching Mathematics**  
This course is designed to introduce candidates to the knowledge, skills and procedures needed to provide effective mathematics instruction to all students. The principles, techniques, methods, and strategies presented in this class are based on research-validated instructional strategies. In this course candidates must use assessment results to develop instruction that uses multi-sensory methods, continuing cycles of review, concrete to abstract instruction that builds mathematical connections. Candidates will also develop skills that will allow them to monitor students’ responsiveness to instruction (RTI). The entire course focuses on the overall development of mathematical skills and connections (including quantity/magnitude, form of a number, numeration, base ten, equality, algebraic and geometric application, and proportional reasoning). This type of instruction/monitoring will ensure a positive effect on the academic performance of students. Prerequisites: Admission to the Teacher Education Program, MTH 203 and MTH 204.

**ED 451. Academic and Environmental Classroom Planning**  
This course is designed to help candidates acquire skills needed to promote successful participation in the K-12 general education and special education curricula. This course will introduce candidates to the Response for
Intervention (RTI) approach and the tiered system. This course will allow students to design and apply classroom/behavior management plans, social learning, and interventions to manage individual and group behavior. This course investigates current practices, issues, research, instructional strategies, and materials in assessment in grades K-6 incorporating our Conceptual Framework’s creative pedagogy and knowledge of academic disciplines. Pre-requisite: Formal admission to Teacher Education Program.

**ED 452. Curriculum Differentiation for the Gifted**
This course is designed to help candidates acquire assessment skills needed to make sound instructional planning decisions including multiple instructional models and methods and sound assessment criteria. Candidates design an in-depth unit of study that incorporates components of the Renzulli Enrichment Triad, The Tree Stage Model, and other research-based instructional planning techniques. Prerequisite: Admission to Teacher Education Program or Valid North Carolina Teaching License.

**ED 455. Teaching Students with Persistent Reading Problems**
This course is designed to introduce candidates to the knowledge, skills, and procedures needed to provide a strong reading foundation for students with persistent reading difficulties. The principles, techniques, methods, and strategies presented in this class are based on research-validated instructional strategies. In this course candidates must use assessment results to plan a set of daily instructional lessons which include explicit instructional procedures, activities, and materials for teaching phonemic awareness, letter-sound associations, word identification, spelling, reading fluency, vocabulary, and reading comprehension. Candidates then develop an analysis that would track the student’s progress and recommend changes for the instructional plan. This type of instruction/monitoring will ensure a positive effect on the academic performance of students. Prerequisites: Admission to the Teacher Education Program and ED 404 for elementary education majors or ED 404 and ED 410 for special education majors; or valid North Carolina Teaching License.

**ED 456. Legal Issues/Procedures Focused On Exceptional Needs Children**
This course will build a foundation for understanding the Laws and Procedures surrounding diverse learners. Candidates will focus on the needs of students with disabilities and how schools can meet these needs through current legislation. The course will include an overview of the procedures for providing special education services, the important roles teachers, parents, and professionals share in this process, the continuum of services, and writing a quality IEP (Individualized Education Plan).

**ED 457. Directed Reading**
Independent readings directed by members of the division faculty.

**ED 460. Independent Study**
Independent in-depth investigation, reading, and research in a professional area of interest. Department approval required.

**ED 470. Diversity in American Schools**
This course provides an overview of diversity in schools in the United States. It explores linguistics, cultural, racial, and other forms of diversity represented in society and schools, including strategies teachers use to develop academic literacy among children learning English as a second language. The course also addresses strategies schools use to meet the needs of diverse learners. (Taken concurrently with ED 490.)

**ED 471. (Science), ED 472 (Math), ED 473 (Social Studies), ED 474 (English), ED 475 (Middle Grades) Content Area Practicum**
Requires candidates to apply knowledge gained in earlier courses to their student teaching experience while under the direct supervision of the instructor. Specifically, the course builds on the instructional unit plan prepared for the content-area methods course and the assessment and analysis project initiated in the classroom assessment course. (Pre-requisite: Content area methods. This course is taken concurrently with student teaching.)

**ED 481. Student Teaching Practicum (Elementary/Special Education/Integrated Education)**
The primary purpose of this practicum is to develop a well-informed and practiced-based philosophy of teaching within a cross-disciplinary approach. This practicum seeks to prepare/support pre-service candidates during student teaching. This course will address the professional and personal challenges of teaching in the public schools. Practicum candidates will gain an understanding of the challenges confronting teachers, students, and administration, as well as the resources available to deal with these challenges. The focus of the course is the practical application of knowledge and skills during student teaching, and the development of those skills. Through readings, structured classroom discussion, and written assignments, practicum candidates will have
opportunities to build on their current understanding of the teacher-learning process. Practicum candidates will develop an electronic portfolio within Task Stream of activities that address the state standards (North Carolina Professional Teaching Standards) which will enhance their teaching documents in their professional career and ensure a North Carolina teaching license. Pre-requisite: Formal admission to student teaching and approval of Teacher Education Council.

**ED 490. Observation and Directed Teaching – Music Education**
9
Student teaching experience. Pre-requisite: Formal admission to student teaching and approval of Teacher Education Council. Fulfills a general education practicum requirement.

**ED 491. Observation and Directed Teaching – All Areas Other than Music**
7
Student teaching experience. Pre-requisite: Formal admission to student teaching and approval of Teacher Education Council. Fulfills a general education practicum requirement.

**English**

**ENG 100. English as a Second Language**
3
Developmental reading, writing, and speaking. Open only to students whose native language is not English.

**ENG 101. Basic Writing**
3
Introductory course to aid students in gaining fundamental writing and editing skills required for college-level written work.

**ENG 111. College Composition I: Introduction to Academic Writing**
3
Introduces students to the fundamental conventions and expectations of writing in college courses. Prerequisite: ENG 100, ENG 101, or placement.

**ENG 112. College Composition II: Writing Across the Curriculum**
3
Builds on the skills developed in ENG 111 and introduces students to the variety of discipline-specific conventions and expectations of college writing. Prerequisite: Passing grade in ENG 111 or AP credit.

**ENG 113. Advanced College Composition**
3
Accelerated program in rhetoric, reasoning, research, and writing across the curriculum. Open only to advanced first-year students who are placed into the class. Combines both ENG 111 & 112 for advanced students. Fall only.

**ENG 190. Introduction to Literature**
3
A discussion-based course that provides a general introduction to literature through reading, analyzing, and responding to a variety of literary works from different cultures and times. No prerequisites. Meets Humanities Perspectives requirement.

**ENG 201. Survey of British Literature I**
3
A comprehensive survey of major movements and authors in British literature from the Old English period to the eighteenth century that provides a foundation for further study. No prerequisites. Fall only. Meets Humanities Perspectives requirement.

**ENG 202. Survey of British Literature II**
3
A comprehensive survey of major movements and authors in British literature from the Romantic period to the present day that provides a foundation for further study. No prerequisites. Spring only. Meets Humanities Perspectives requirement.

**ENG 203. World Literature**
3
A discussion-based course about selected masterpieces of world literature, reflecting a variety of cultural traditions. No prerequisites. Meets Humanities Perspectives requirement.

**ENG 205. Survey of American Literature**
3
A comprehensive survey of American literature from the Colonial period to the present that provides a foundation for further study. No prerequisites. Meets Humanities Perspectives requirement.

**ENG 210. Introduction to Literary Study**
3
Course provides foundations for further literary study, including literary theory, research methods and critical approaches to various genres and modes of literature. Course is for majors/minors only, and should be taken early on the course of study. Prerequisite: ENG 112 or ENG 113. Spring only.
ENG 230. Creative Writing  
A hands-on course in which students explore the basic principles of creative writing through reading other writers’ works and writing their own poetry and fiction. No prerequisites. Meets Aesthetic Perspectives requirement.

ENG 261. Internship  
An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Prerequisite: ENG 112 or ENG 113. Department approval required.

ENG 262. Peer Collaboration in Writing  
A one-hour course designed to prepare students to be effective peer collaborators and tutors, including but not limited to the work of writing tutors. ENG 262 includes a study of various theories of peer tutoring and writing pedagogy as well as a study of approaches to composition theory. Required for all MHU Writing Center Tutors.

ENG 263. Peer Collaboration Across Disciplines  
A one-hour course designed for in-depth study of peer collaboration, ENG 263 also includes a rigorous and engaged study of writing across various disciplines. Included in course focus is the writing process, discourse communities, and effective methods of working with students and professors across campus. Required for students training to be Writing Fellows in the college-wide writing program. Prerequisite: ENG 262.

ENG 312. Adolescent Literature 6-12  
Principles of selection, evaluation, and use of all media designed for curricular needs and enrichment in programs for adolescents. Prerequisite: ENG 112 or ENG 113. Fall, even-numbered years.

ENG 321. American Literature I, Origins to 1900  
An in-depth study of selected works of American literature from the Colonial period to the end of the nineteenth century focusing on a particular theme or genre. Prerequisite: ENG 112 or ENG 113. Fall, even-numbered years.

ENG 322. American Literature II, 1900 to Present  
An in-depth study of selected works of American literature from the beginning of the twentieth century to the present focusing on a particular theme or genre. Prerequisite: ENG 112 or ENG 113. Fall, odd-numbered years.

ENG 323. British Literature I, Origins to 1700  
An in-depth study of selected works of early Anglophone literature from the Old English period to the end of the seventeenth century focusing on a particular theme or genre. Prerequisite: ENG 112 or ENG 113. Fall, odd-numbered years.

ENG 324. British Literature II, 1700 to 1900  
An in-depth study of selected works of British literature from the beginning of the eighteenth century to the end of the Victorian period focusing on a particular theme or genre. Prerequisite: ENG 112 or ENG 113. Spring, even-numbered years.

ENG 325. British Literature III, 20th Century  
An in-depth study of selected works of British and/or Commonwealth literature from the beginning of the twentieth century to the present focusing on a particular theme or genre. Prerequisite: ENG 112 or ENG 113. Fall, even-numbered years.

ENG 327. Special Topics  
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department. Prerequisite: ENG 112 or ENG 113.

ENG 328. Special Topics  
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department. Prerequisite: ENG 112 or ENG 113.

ENG 329. Diversity in American Literature  
Selected literary works by American writers of a particular non-majority race, ethnicity, or cultural heritage that explore contributions to the forging of an American literary voice. Prerequisite: ENG 112 or ENG 113. Spring, odd-numbered years.

ENG 330. Women in Literature  
Selected works about women or by major women writers in English. Cross-listed with Women’s Studies. Prerequisite: ENG 112 or ENG 113. Fall, even-numbered years.
ENG 332. Structure and Usage of the English Language  
A study of the origins and developments of the English language. Prerequisite: ENG 112 or ENG 113. Fall, odd-numbered years.

ENG 333 Grammar and Linguistics  
Study of the phonetic, morphological and syntactic systems of the English language and the distinctive features of major world language groups as a basis for helping students acquire English as a Second Language. Prerequisite: ENG 112 or 113.

ENG 334. Second Language and Literacy Development  
Study of the ways in which children, adolescents, and adults learn a second or new language. Prerequisite: ENG 112 or ENG 113.

ENG 335. Modern and Contemporary Literature  
Selected works of modern and contemporary poetry and fiction. Prerequisite: ENG 112 or ENG 113. Spring, odd-numbered years.

ENG 340. Appalachian Literature  
Selected essays, fiction, folk tales, and poetry by representative Appalachian authors, past and present. Prerequisite: ENG 112 or ENG 113. Spring, even-numbered years.

ENG 350. Professional Writing  
Advanced exposition, business and technical writing, including composing for computer media. Prerequisite: ENG 112 or ENG 113. Spring only.

ENG 354. Language and Popular Culture  
Language and nonverbal symbols, especially in the mass media, as means of understanding values and popular culture in America. Prerequisite: ENG 112 or ENG 113. Fall, odd-numbered years. Meets Ideas & Innovations: U.S. requirement. Fulfills the general education perspectives requirement.

ENG 371. World Literature  
Selected works of world literature reflecting a variety of cultural traditions. Prerequisite: ENG 112 or ENG 113. Fall, odd-numbered years.

ENG 430. Fiction Writing  
A hands-on course in which students explore the principles of writing prose through extensive reading of other writers’ works and intensive writing of their own. Prerequisite: ENG 112 or ENG 113. Spring, even-numbered years.

ENG 431. Poetry Writing  
A hands-on course in which students explore the principles of writing verse through extensive reading of other writers’ works and intensive writing of their own. Prerequisite: ENG 112 or ENG 113. Spring, odd-numbered years.

ENG 440. Composition Theory and Practice  
A theoretical base and practical application in teaching basic writing skills and in learning advanced expository writing techniques. Required of teacher certification students. Prerequisite: ENG 112 or ENG 113. Spring, odd-numbered years.

ENG 442. Shakespeare  
Selected works of William Shakespeare. Prerequisite: ENG 112 or ENG 113. Spring, odd-numbered years.

ENG 450. Senior Seminar  
Advanced writing and research, group discussion, oral presentation skills, word processing skills. Culminates in a final seminar project to be presented to the college community. Prerequisite: ENG 112 or 113. Fall only. Fulfills a general education practicum requirement.

ENG 457, 458. Directed Readings  
Independent readings directed by a member of the English faculty and approved by the department. Department approval required.

ENG 460. Independent Study  
Independent reading and research directed by a member of the English faculty and approved by the department. Open only to juniors and seniors. Department approval required.
ENG 461. Internship  
A student/agency-originated and departmentally approved field-learning experience which enables students to apply previously attained knowledge and skills.

Environmental Studies

ES 301. Environmental Studies Practicum  
An individual project designed by the student in consultation with the Environmental Studies coordinator addressing a current environmental issue.

French

FRN 111. Basic Communication Skills in French I  
Introduction to French culture and beginning development of French oral, listening, reading and writing skills. Fulfills the general education perspectives requirement.

FRN 112. Basic Communication Skills in French II  
Continuation of skill development begun in French I. Fulfills the general education perspectives requirement.

FRN 211. Intermediate French I  
A continuation of skills learned in FRN 112 with an introduction of more advanced grammatical concepts. There will be an increased emphasis on student production skills. Fulfills the general education perspectives requirement.

FRN 212. Intermediate French II  
Intensive review of skills learned in FRN 111, 112, and 211 with an emphasis on conversation and an introduction to the study of French and Francophone literatures and cultures. FRN 212 is a prerequisite for FRN 260, 261, and all FRN courses at the 300 level and above. Prerequisite FRN 211 or placement exam. Fulfills the general education perspectives requirement.

FRN 260. Business French  
Business terms in French: letters, forms, bills, CVs, cover letters and similar business documents. A presentation of cultural differences between business practices in the United States and France, as well as an overview of the role of France in the European Union. Taught in French. Prerequisite: FRN 212 or permission of instructor.

FRN 261. Internship  
An initial program of field work enabling students to explore new areas or to supplement regular courses. Department approval required.

FRN 311. Conversational French  
Conversation within a cultural context. Development of critical thinking skills in spoken French about contemporary issues and concerns. Taught in French. Prerequisite: FRN 212 or permission of instructor. Fulfills the general education perspectives requirement.

FRN 312. Introduction to French Phonetics and Phonology  
Review of French. Structural and phonetic issues, with an emphasis on pronunciation, intonation and fluency, regional dialects and styles, and comparison to structure of the English language. Taught in French. Prerequisite: FRN 212 or permission of instructor. Fulfills the general education perspectives requirement.

FRN 313. French Stylistics  
Review of French grammatical structure, with an emphasis on written sentence structure and composition, and comparison of French writing styles with those of English. Taught in French. Prerequisite: FRN 212 or permission of instructor. Fulfills the general education perspectives requirement.

FRN 314. Francophone Culture in French  
Survey of the more important aspects of French culture, past and present. An attempt to integrate the historic culture of France with the international role of France today. Prerequisite: French 212 or placement through a proficiency test. This course fulfills the foreign culture requirement in general education. Taught in French. Prerequisite: FRN 212 or permission of instructor. Fulfills the general education perspectives requirement.
FRN 327. Special topics.  
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department. Taught in French. Prerequisite: FRN 212 or permission of instructor.

FRN 330. Intro to Literatures in French  
An introduction to genres, authors, and chronology of French-language literatures from the Renaissance through modern periods. Masterworks from Rabelais through Classicism, the Enlightenment and Romanticism to 20th and 21st centuries will be studied in a cultural and historical context. Taught in French. Prerequisite: FRN 212 or permission of instructor.

FRN 340 .Topics in French and Francophone Literatures  
An intensive, thematic study of representative literary works from specific genres and authors of the francophone world. Such themes as Autobiography in 20th and 21st Centuries, Women Writers of the Caribbean and West Africa or Francophone Detective Novels will be explored. Taught in French. Prerequisite: FRN 212 or permission of instructor.

FRN 440. Directed Readings in French  
Independent readings directed by members of the modern foreign languages faculty and approved by Department Chair. Taught in French. Prerequisite: FRN 212 or permission of instructor.

FRN 461. Internship.  
A student-agency-originated and departmentally approved field-learning experience which enables students to apply previously attained knowledge and skills and to attain certain specified new learning goals in a work-related environment. Taught in French. Prerequisite: FRN 212 or permission of instructor.

General Education

FYS 111. First-Year Seminar I  
A theme-based course that introduces students to the college experience at Mars Hill, to concepts fundamental to a liberal arts education, to the skills necessary for success in college, and to disciplinary perspectives. All first-time first-year students must register for the course in their first semester at Mars Hill, as must freshman transfer students who do not already have satisfactory credit for the course. Transfer students with at least 28 credits, exclusive of dual-enrollment and early college credit, may be exempted from this requirement. Students who do not pass FYS 111 must repeat the course every Spring semester until the requirement is complete.

FYS 112. First-Year Seminar II  
Introduces students to the foundations of ethics discourse and to the practical application of ethical decision-making. After earning credit for FYS 111, all students must take FYS 112 every semester until the requirement is complete. Prerequisite: FYS 111.

GE 211. American Culture in Film  
Issues and themes in American culture as presented by contemporary film. Meets American Diversity Connector requirement in the outgoing Liberal Arts in Action general education curriculum.

GE 261. Service Learning Internships  
An experience outside the traditional classroom in which the service aspect of service learning has priority.

GE 301. Introduction to Leadership  
Leadership as a process is an option for everyone. Topics include: leadership theories and models, followership, power and influence, ethical leadership, leading teams, ways women lead, critical thinking and decision-making, leadership development.

GE 320. Bioethics: Ethics, Science, & Technology  
Discussion of ethical issues involved in contemporary social and scientific problems, such as biotechnology, medical ethics, and the precarious state of the environment, provide the context for exploring (1) the impact of science and technology on human thinking and behavior and (2) the nature of ethical reasoning and the importance of public discussion of issues in science and technology. Prerequisites: Math 107, distribution courses in social/behavioral science, Junior or Senior status. Fulfills the general education perspectives requirement.

GE 327. Special Topics  
Options for students to study a variety of topics not covered in regular courses. Offered occasionally on interest basis.
Geography

GEO 221. World Regional Geography 3
A world-wide survey of the natural environment and the world global regions with emphases on cultures and their relation to physical features, resources, and economic activities. Fulfills the general education perspectives requirement.

GEO 261. Internship 3
An initial program of field work enabling students to explore new areas or supplement regular courses. Department approval required.

GEO 327. Special Topics 3
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

GEO 457, 458. Directed Readings 3, 3
Independent readings directed by members of the department faculty.

GEO 460. Independent Study 3
A directed program of reading and/or research open only to juniors and seniors with approval by the department faculty.

GEO 461. Internship 3
A student/agency-originated and departmentally approved field-learning experience which enables students to apply previously attained knowledge and skills.

Greek

GRK 111. Elementary Greek I 3
Basic introduction to Koine Greek, the language of the New Testament. Meets Global Awareness/Foreign Language Studies Perspectives requirements. Fall in odd numbered years. Fulfills the general education perspectives requirement.

GRK 112. Elementary Greek II 3
Continuing basic instruction in Koine Greek, the language of the New Testament. Global Awareness/Foreign Language Studies Perspectives requirements. Spring in even numbered years. Fulfills the general education perspectives requirement.

GRK 327. Special Topics 3
Options for students to study, according to their interests, a variety of topics not covered in regular courses, e.g. Greek New Testament. Offered on demand.

GRK 457, 458. Directed Readings 2–3
Independent readings directed by a member of the program faculty and approved by the program coordinator.

GRK 460. Independent Study 3
An individual program of reading and research directed by a member of the program faculty and approved by the program coordinator.

Health

HEA 111. Foundations of Health and Wellness 3
Focuses on development of a healthy and active lifestyle which will enable the student to analyze his/her current health and physical activity status and to become aware of adjustments and adaptations needed during the college experience and beyond. Special emphasis is given to nutrition, diet and weight control, stress management, physical fitness, lifestyle analysis, and total wellness concept. An exit paper is required.

HEA 221. First Aid, CPR/PR & Sports Injuries 3
This course is designed to provide the student with a basic background in the science and art of prevention, evaluation and treatment of basic sports injuries, and how to respond in certain emergency situations. Upon completion of the course the student will be certified by the American Red Cross in CPR/PR, AED, Basic First Aid.
and PDT. Fulfills one of the requirements for the physical education major. Class space priority is given to majors. Additional fee required for ARC certification.

**HEA 233. Health Education**  
3  
The study of current health issues and methods of teaching health education at the elementary, middle, and secondary school level. Designed specifically for teacher preparation and athletic training majors, it will include study of the consolidated School Health Program, health education programs and curriculum, Personnel and Community Health issues and methodology and materials for instruction. It will include guest speakers from the various CSHP components and/or 3-8 visits to various health agencies and schools. Sophomore status or above. Prerequisites: ED 205, PE 221. Spring, even years.

**HEA 240. Personal Trainer**  
3  
This course is designed to develop individuals into knowledgeable and competent practitioners in the fitness industry. Students will build an advanced level of knowledge and comprehension about health and fitness, and how to apply that knowledge in the fitness industry. Fall. National certification test required (additional fee).

**HEA 241. Exercise & Nutrition Prescription & Promotion**  
3  
This course is designed to educate the student in the design, implementation and promotion of a well rounded “fitness/wellness” program. The course includes but is not limited to the design and implementation of a cardiovascular program, muscular strength and endurance program, flexibility program, nutrition program and stress management program. Students will design the programs, design marketing promotions for the programs and implement the programs on a small scale. Prerequisite: HEA 240. Spring.

**HEA 242. Lifestyle Behavior Management**  
3  
This course provides students with an understanding of skills, principles and techniques used in a program for the attainment of behavior modification in relation to diet, physical activity, exercise and lifestyle management. Spring. Prerequisite: HEA 240, HEA 241, or permission of instructor.

**HEA 332. Adapted Physical Education**  
3  
Designed for instructing the handicapped individual and for providing the prospective teacher with leadership, competencies, and a diversified program of developmental activities, games, sports, gymnastics, and dance suited to the interests, capacities, and limitations of students with disabilities which may prevent their engaging in the activities of the general physical education program. Experiences include observations of and practical experiences with exceptional students. Visits to various programs/schools will be required. Prerequisites: ED 205, HEA 233, PE 221 or permission of instructor. Spring, odd years.

**Hebrew**

**HEB 115. Hebrew I**  
3  
Introduction to classical Biblical Hebrew. Meets Global Awareness/Foreign Language Studies Perspectives requirements. Fall in even numbered years. Fulfills the general education perspectives requirement.

**HEB 116. Hebrew II**  
3  
Continuation of HEB 115. Spring in alternate (odd numbered) years. Fulfills the general education perspectives requirement.

**HEB 327. Special Topics**  
3  
Options for students to study, according to their interests, a variety of topics not covered in regular courses. Offered on demand.

**History**

**HIS 202. North Carolina History and Government**  
3  
Examines the historical, economic, and political development of the state. Special emphasis is placed on the techniques, materials, resources, and strategies that may be employed in teaching similar subjects in elementary and secondary schools.

**HIS 223, 224. United States History to 1865, since 1865**  
3, 3  
The development of the United States as a democratic republic and a world power, from the time of settlement to
the present. Prerequisites: place in ENG 111 or passed ENG 101 and ED 101. This course meets general education perspectives requirement.

**HIS 250. Introduction to Public History**

This course will offer students an introduction to the field of public history, using as its model the “Best Practices” guidelines offered by the National Council for Public History. Students will learn about the history of the field, issues in interpretation, and career possibilities for public historians. The course will briefly introduce important subfields in public history, such as museum studies, archives management, digital history, and historic site interpretation. Where possible, the instructor will involve students directly in a real-life public history project, such as the “New Harmonies” exhibition on campus in 2011, and the “Slavery Interpretation at Vance Birthplace” project of 2013. The course will be geared especially to sophomores and juniors interested in exploring public history.

**HIS 251. Public History Internship (on-campus)**

This internship will introduce students to hands-on work in public history through on-campus collaboration with the Ramsey Center for Regional Studies and/or the Rural Life Museum. Students will gain experience working on concrete projects related to public history, such as exhibition research, design, or installation, or archival preservation, cataloguing, or public service. The course is designed to give students work experience in a closely managed on-campus setting before they move into off-campus public history work. PREREQUISITE: HIS 250

**HIS 261. Internship**

An initial program of field work enabling students to explore new areas or to supplement regular courses. Department approval required.

**HIS 292. World History to 1500**

Examines the chronological narrative of the development of the major classical core civilizations and the major nomadic societies of the world. In addition to the rise and fall of these societies, the course emphasizes the first “global” civilization of early Islam, and the preponderant role of the Mongol empire on neighboring societies.

**HIS 293. World History since 1500**

A survey of modern history from a world perspective with emphases on the interaction of Western Civilization with the rest of the world, including the commercial revolution, slavery, imperialism, and the revolution against colonialism.

**HIS 300. Advanced Topics in Public History**

This course will offer students an opportunity to spend a semester learning in greater depth about a particular field in public history, such as museum studies, historic preservation, digital history, or historic site management. The course will be taught by an experienced professional in the specific field. The course will introduce students to the history of the particular field, to current best practices in the field, and to contemporary debates, challenges, and opportunities in the field. PREREQUISITE: HIS 250

**HIS 301. Modern Latin America**

Examines the important political, economic and social issues and themes that have generally affected the history of twentieth-century Latin America.

**HIS 303. Latin American Women**

Examines the historical experiences of women in Latin America from pre-Hispanic times until the present through the theoretical lenses of race, class, and gender.

**HIS 317. The United States Since 1945**

Contemporary America, a period of social and economic reforms, of war and troubled peace.

**HIS 320. The Ancient World**

Students and the professor will conduct critical historical inquiries into the societies, religions, and cultures of the major civilizations of the Ancient Mesopotamian, Near Eastern, and Mediterranean worlds, beginning with ancient Sumer and continuing as far as the birth of Islamic civilization in Late Antiquity.

**HIS 327. Special Topics: U.S. History**

Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.
HIS 328. Special Topics: World History
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

HIS 329. Special Topics: World History
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

HIS 330. Women in the American Experience
This course will introduce students to the history of women by examining how the experiences, roles, and status of women have been shaped historically by race, class, geography, religion, and other social factors.

HIS 338. Early Modern Europe
A survey of Europe emphasizing the interaction of ideas and social forces. Absolutism and aristocracy will be examined as factors leading to the Revolution of 1789. Leading personalities from Louis XIV to Napoleon will receive special emphasis.

HIS 340. Twentieth-Century Europe
The decline and rise of Europe from World War I to the era of detente. Emphasis on social and intellectual changes that reformed European society after World War II. Examines the rise of totalitarianism and social democracy through Hitler, Churchill, Brandt and others.

HIS 349. Appalachian Oral History
Examining people and the history of the region with major emphasis on the culture of the area. (This course counts as one of the three required upper-level U.S. History courses).

HIS 350. African-American History
An introduction to the social, cultural, and political history of African-Americans from the colonies to the present.

HIS 391. Junior Seminar
The Junior Seminar examines the theory, historiography, and methodology of the history discipline. Students complete a research, writing, and presentation portfolio that demonstrates their abilities to develop and apply the necessary skills for advanced undergraduate research. Students must pass this course with a grade of C or higher. This course is a prerequisite for HIS 491 (Senior Seminar).

HIS 402. History of Mexico
Surveys Mexican history from pre-Hispanic period to the present by examining political, economic, and social issues.

HIS 404. Pre-Hispanic and Colonial Latin America
This course examines the social, economic, political, and cultural history of pre-Hispanic and colonial Latin America.

HIS 415. Early America
This course examines the beginnings of U.S. society from 1450 through 1800, focusing on the period between the coming together of cultures in North America after contact with Europeans and the founding of the United States and establishment of the U.S. Constitution.

HIS 418. American Politics and Society, 1900-1945
This course examines the political, social, cultural, and economic developments in American history during the first half of the twentieth century. The vast array of significant topics and events include the impact of industrialization and urbanization, the Progressive Era, the Suffrage Movement, World War I at home, the emergence of mass culture and a mass consumer society, the Great Depression, the New Deal, and the home front during World War II.

HIS 429. U.S. in the World Since 1900
A survey of American diplomatic relations in the twentieth century with emphases on American imperialism, isolationism, involvement in World Wars I and II, and the Cold War. The course will end with an examination of American policies in the post-Cold War era.

HIS 430. U.S. Environmental History
Examines the relationships between Americans and their environments in the five hundred years since European-American contact, emphasizing how environments have shaped human history and vice versa.
HIS 437. Renaissance and Reformation  3
The Renaissance, the Reformation, and the development of modern states under absolutism.

HIS 441. Europe Since 1789  3
This course will examine the origins of the French Revolution and its impact on the European continent. We will also investigate the Napoleonic Wars, the Industrial Revolution, and Imperialism.

HIS 451. Public History Internship (external)  3
For this internship students will be assigned an off-campus worksite and work supervisor. The internship will give students experience as practicing entry-level public historians working at partner sites such as the Vance Birthplace and the Thomas Wolfe Memorial. It will also aim, as much as possible, to serve the needs of the partner site. Students might learn to give site tours, to work the front desk, to host visiting school groups, to research a new exhibition, or to design or renovate a small display. PREREQUISITES: HIS 250, HIS 251

HIS 452. History of Modern Japan  3
History of Japan from 1800 to the present emphasizing the impact of Western imperialism on Japan’s traditional culture, the Meiji Restoration and modernization, the growth of militarism and World War II, and the emergence of Japan as an economic super power in the post-war era. The course also explores Japanese-American relations during the period.

HIS 457. Directed Readings in U.S. History  3
Independent readings directed by members of the history faculty and approved by the department.

HIS 458. Directed Readings in World History  3
Independent readings directed by members of the history faculty.

HIS 459. Directed Readings in World History  3
Independent readings directed by members of the history faculty.

HIS 460. Independent Study  3
A directed program of reading and research open only to juniors and seniors with approval of the history faculty.

HIS 461. Internship  3
A program of field work open to juniors and seniors with approval of the history faculty.

HIS 491. Senior Seminar  3
In the course, students will conduct original research employing appropriate primary and secondary sources leading to completion of a written senior thesis. Additionally, students will give a public presentation of their work. Fulfills a general education practicum requirement.

International Studies

INS 300. International Study/Foreign Country  1–12
Students register for INS 300 when they are participating in a credit granting Study Abroad program approved by the university.

INS 450. Seminar in International Studies  3
This is the capstone course for International Studies majors. There are four distinct goals for the seminar. Students in the class analyze the results of their term or year abroad, examine the character of cross-cultural communication, synthesize learning begun in other classes on major world regions, and develop an in-depth understanding of a critical contemporary issue by studying it through cross-disciplinary perspectives. Fulfills a general education practicum requirement.

Liberal Arts in Action

LAA 121. Character  3
This course explores the notion of character from a variety of liberal arts disciplines and in cross-cultural perspectives. Classic answers to the questions, “What is human nature?” and “What is a good person?” are examined and then tested against complex case studies involving issues such as war, race and gender. LAA 121 is part of the outgoing Liberal Arts in Action general education curriculum and will not be offered after the Fall 2013 semester.
LAA 221. Civic Life  
The course examines the fundamental idea of what is a good society from historical and cross-cultural perspectives. Fundamental issues of study are the rights and responsibilities of individuals, communities, and states. The case studies in the course focus on a particular society and explore and analyze it politically, sociologically, culturally, ecologically, and philosophically. Offered fall semester only. Sophomore level. Prerequisites: LAA 111 and LAA 121. LAA 221 is part of the outgoing Liberal Arts in Action general education curriculum and will not be offered after the 2013-2014 academic year.

LAA 231. Critique: Faith and Reason  
The goal of this course is to use a historical framework to explore the dynamics of faith and reason in the western tradition, beginning with the ancient Greeks and moving forward to today’s post-modern world. Aural, visual, and written material provide the conceptual framework for examining the forces that have shaped the course of western thought. Offered spring semester only. Sophomore level. Prerequisites: LAA 111, LAA 121, LAA 221. LAA 231 is part of the outgoing Liberal Arts in Action general education curriculum and will not be offered after the 2013-2014 academic year.

LAA 321. Creativity  
The course explores human creative activity and innovation in a historical and cultural context. Students study the external aspects of creativity—what is it, how is it represented, and how the liberal arts disciplines express creativity—and explore ways of nurturing and exploring their own creativity and imagination in their lives and work. Offered fall and spring semesters. Junior level. Prerequisites: LAA 111, LAA 121, LAA 221, LAA 231. LAA 321 is part of the outgoing Liberal Arts in Action general education curriculum and will not be offered after the Fall, 2014 semester.

LAA Capstone Requirement  
The goal of the requirement is to provide the opportunity for students to demonstrate advanced critical thinking, writing and oral communication skills. It can be met through a variety of means including the senior seminar in the major, an interdisciplinary capstone course, an internship, a significant service-learning project, international study and travel, or field and lab experience/research. The LAA Capstone is part of the outgoing Liberal Arts in Action general education curriculum. Students who are enrolled in the Foundations & Perspectives curriculum will complete the Practicum requirement.

Mathematics

MTH 101. Basic Mathematics  
Intermediate algebra and computation skills with applications in statistics, probability, geometry, trigonometry, and logic. Emphasis on problem-solving technique and extensive use of graphic calculators. Students already possessing these skills may demonstrate competence without taking this course. *Does NOT meet General Education requirement for mathematics.

MTH 107. Finite Mathematics  
Selected topics including an introduction to descriptive statistics, collecting and interpreting data, finite probability and logical reasoning. Prerequisite: MTH 101 or a rating of 2 on placement. Fulfills general education perspectives requirement.

MTH 113. Precalculus  
Fundamentals of algebraic and trigonometric functions and their applications. Intended to prepare students for Math 115, Calculus I. Prerequisite: Rating of 2 on placement. Does not meet general education requirement for mathematics.

MTH 115. Calculus I  
Fundamentals of calculus including limits, continuity, differentiation, and integration. Prerequisite: MTH 113 or a rating of 3 on placement. Fulfills general education perspectives requirement.

MTH 116. Elementary Probability and Statistics  
An introduction to the ideas and application of probability and statistics. This course is designed especially for students interested in natural science, social science, or business. Prerequisite: MTH 115.
MTH 120. Calculus II
A continuation of Math 115 with emphasis on techniques of integration, vector calculus, partial differentiation, and multiple integrals. Prerequisite: MTH 115.

MTH 203. Elementary Geometry
Geometric figures, measurement, transformations, and constructions. Prerequisite: MTH 107 or 115.

MTH 204. Teaching Number Systems
Patterns and reasoning in problem solving, the real number operations, elementary number theory, numeration systems, teaching methods, and consumer language. Prerequisite: MTH 107 or 115.

MTH 207. Finite Mathematics II
Mathematical applications that may include topics from algebra, consumer mathematics, an introduction to game theory, topics in management mathematics, and an introduction to mathematical analysis of voting systems. Prerequisite: MTH 107. Fulfills general education perspectives requirement.

MTH 217. Discrete Mathematics
Designed to introduce students to mathematical thinking using topics in discrete mathematics. Content includes sets, functions, logic and logic circuits, relations, combinatorics, and graph theory. Prerequisite: MTH 115.

MTH 218. Applied Linear Algebra
Matrices, determinants, vector spaces, linear transformations, eigenvalues, and eigenvectors. Prerequisite: MTH 115.

MTH 220. Calculus III
A rigorous development of calculus including limits, continuity, differentiation, integration, sequences, and series. Prerequisite: MTH 120.

MTH 261. Internship
An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Department approval required.

MTH 316. Statistical Methods II
Multiple regressions, analysis of variance, factorial experimentation. Prerequisite: MTH 116.

MTH 323. Advanced Calculus I
Topics include elementary topology, continuity, uniform continuity, differentiation and integration. Prerequisite: MTH 220.

MTH 324. Advanced Calculus II
Topics include series, uniform convergence, transformations, and vector calculus. Prerequisite: MTH 323.

MTH 325. Complex Variables
Topics include the algebra and topology of complex numbers, analytic functions, complex integration, and residue theory. Prerequisite: MTH 217.

MTH 327, MTH 328. Special Topics
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

MTH 329. Foundations of Geometry
Euclidean, spherical, and hyperbolic geometry with emphasis on the rigorous axiomatic development of geometry. Prerequisite: MTH 120.

MTH 331. Introduction to Abstract Algebra
An introduction to the theory of groups, rings, and fields and other algebraic structures. Prerequisite: MTH 217.

MTH 332. Abstract Algebra II
Continuation of Math 331, with special emphasis on linear algebra. Prerequisite: MTH 331.

MTH 335. Introduction to the Theory of Numbers
Topics usually include prime numbers, linear and quadratic congruencies, and diophantine equations. Prerequisite: MTH 217.

MTH 337. Differential Equations
Theory and applications of ordinary differential equations. Prerequisite: MTH 120.
MTH 341. Probability Theory 3
Topics include axiomatic development of probability, conditional probability, combinatorial theory, random variables, expectation, certain discrete and continuous distributions, functions of random variables, jointly distributed random variables, and limit theorems. Prerequisite: MTH 220.

MTH 342. Mathematical Statistics 3
Topics include estimation, hypothesis testing, linear models, the analysis of variance, analysis of enumerative data, and nonparametric statistics. Prerequisite: MTH 341.

MTH 450. Senior Seminar 3
The student will study an undergraduate level mathematical topic and produce a paper on this topic. The paper will include original examples, problem sets and will illustrate the concept development process in mathematics. An oral presentation of the paper will be required. Fulfills a general education practicum requirement.

MTH 457, 458. Directed Readings 3
Independent readings directed by members of the department faculty.

MTH 460. Independent Study 3
Independent in-depth investigation, reading, and research in a professional area of interest. Department approval required.

Music

MUS 098. Elements of Music I 3
A course designed for preparatory study leading to Music Theory 111. Fundamentals of pitch notation, rhythmic notation, simple meter, scales, and intervals. Offered on demand. Fall.

MUS 099. Elements of Music II 3
A course designed for preparatory study leading to Music Theory 111. Fundamentals of pitch notation, rhythmic notation, simple meter, scales, and intervals. Offered on demand. Spring.

MUS 111. Music Theory I 3
Fundamentals of tonal theory including pitch notation, scales, key signatures, triads, intervals, rhythmic notation, and four-part vocal writing with primary triads in root position. Prerequisite: Successful completion of departmental theory placement examination.

MUS 112. Music Theory II 3
Completion of studies of the diatonic vocabulary: triads, seventh chords, inversion, figured bass, and non-chord tones. Prerequisite: MUS 111.

MUS 113. Aural Skills Lab I 3
Basics of sightsinging and listening skills. Emphasis on intervals, rhythms, and melodic lines. Concentration upon rhythm reading, rhythm dictation, and rhythm notation. Fall. Prerequisite: Successful completion of departmental theory placement examination.

MUS 114. Aural Skills Lab II 3
Development of tonal sightsinging and dictation with emphasis on scalar and triadic materials. Prerequisite: MUS 113. Spring.

MUS 116. Percussion Montage 1
Performance styles and techniques of all percussion instruments. May be repeated for credit. Prerequisite: Permission of instructor.

MUS 131. English/Italian Lyric Diction 1
Introduction to the rules of English and Italian lyric diction including exercises in pronunciation, accentuation, and transcription using the International Phonetic Alphabet (IPA). Fall.

MUS 133. German/French Lyric Diction 1
Introduction to the rules of German and French diction including exercises in pronunciation, accentuation, and transcription using the International Phonetic Alphabet (IPA). Prerequisite: MUS 131. Spring.

MUS 135. Singer on Stage I 1
Applied course designed for the singer/actor to develop speech, sob/cry and belt voice qualities using Estill Voice
Craft system. Repertory drawn from musical theatre literature. Prerequisite: MUS 131, Fall. Must be taken in sequence.

**MUS 136. Singer on Stage II**
Must be taken in sequence. Continuing applied course designed for the singer/actor to develop nasal twang and oral twang voice qualities using Estill Voice Craft system. Repertory drawn from musical theatre literature. Prerequisites: MUS 131, MUS 135. Spring.

**MUS 137. Singer on Stage III**
Must be taken in sequence. Continuing applied course designed for the singer/actor to explore jazz as a vocal style using Estill Voice Craft system. Brief history of jazz singer, improvisational techniques including scat, and microphone technique. May be repeated. Prerequisites: MUS 131, MUS 135, MUS 136. Fall.

**MUS 138. Singer on Stage IV**
Must be taken in sequence. Continuing course designed for the singer/actor to prepare vocal literature for public performance using the Estill Voice Craft system. Repertory drawn from international song and operatic literature. May be repeated. Prerequisites: MUS 131, MUS 135, MUS 136, MUS 137. Spring.

**MUS 139. Musical Theatre Scenes**
Applied course for Musical Theatre majors that includes performance of scenes involving acting, singing, and dancing. Repertoire drawn from solo and ensemble literature. Prerequisites: TA 112, TA 117, TA 131. Fall, Spring. May be repeated.

**MUS 140. Piano Practicum**
1 hour weekly lab. This lab will include weekly performance opportunities in solo and ensemble literature. In addition to weekly performance, students will study topics such as pedagogy, accompanying, literature and history of piano. Required for all keyboard majors. May be repeated for credit. Prerequisite: Permission of instructor.

**MUS 175. Voice Class for Non-majors**
Introduction to basics of singing, techniques and repertoire. Prerequisite: Permission of instructor. Fall. May be repeated.

**MUS 177. Class Piano I**
Provides for student development in basic functional skills at the piano including beginning repertoire, sight-reading, harmonizing melodies with primary chords, transposing, and improvising. Required of all non-keyboard majors and minors until the student is prepared for MUS 273. May be repeated for credit. Fall.

**MUS 201. Accompanying**
Keyboard accompanying techniques and problems. Appropriate performance opportunities presented. Permission of instructor.

**MUS 211. Music Theory III**
Three lecture hours. Chromatic harmony and techniques of modulation. Prerequisite: MUS 112.

**MUS 213. Aural Skills Lab III**
Continuation of sight-singing and ear training, including dictation. Spring. Prerequisite: MUS 114.

**MUS 214. Aural Skills Lab IV**
Continuation of sight-singing and ear training, including four-part dictation. Required for choral, vocal, and keyboard majors. Prerequisite: MUS 213. Fall.

**MUS 217. Music Technology**
Designed to help music students acquire knowledge and skills which will equip them to use computing and music technology effectively. Topics include MIDI instruments and systems, MIDI sequencing notation, automatic accompaniment software, the use of the Internet as a resource for music education, constructing a simple web page, and digital recording and editing techniques. Music education majors will begin the process of creating the electronic portfolio as required for licensure. Prerequisite: MUS 112, MTH 107 or MTH 115, ENG 112.

**MUS 218. World Music**
World music is a hands-on, experiential course. Students will experience musical, cultural, and religious traditions through drumming circles, reading, and listening. Fulfills general education aesthetic perspectives requirement.
MUS 261. Internship 1–4
An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Department approval required.

MUS 273. Class Piano II 1
Provides for student development in functional skills at the piano including sight-reading, harmonizing major and minor melodies with primary and secondary chords, transposing, and improvising. Required of all non-keyboard majors and minors. May be repeated for credit. Prerequisite: MUS 177 or permission of instructor. Spring.

MUS 311, 312. Music History I, II 3, 3
Must be taken in sequence. Emphasis on chronological perspective from Gregorian chant through the Romantic period. Essentially an historical approach with considerable attention to listening analysis. Prerequisite: MUS 211.

MUS 313. Form and Analysis 3
Spring semester. Analytical techniques for music of the common practice period. Prerequisite: MUS 211.

MUS 315. Score Preparation 2
Topics include instrument transposition, ranges, and score layouts; the creation of musical scores for standard instrumental and choral ensembles through basic techniques of arranging and transcription. A method of score study for the prospective conductor of choral or instrumental ensembles is also presented.

MUS 318. Jazz Improvisation 2
Offered on demand. Prerequisite: MUS 111.

MUS 327. Special Topics 1–4
Options for students to study a variety of topics not covered in regular courses. To be announced.

MUS 335, 336. Service Playing 1, 1
Techniques and materials used in playing for church services. Offered on Demand. Organ majors only.

MUS 337. String Techniques 1
Playing techniques and teaching methods on stringed instruments and guitar. For all Music Education majors. Offered on Demand.

MUS 338. Instrumental Techniques 1
Designed for all music education majors. The course offers introductory levels of playing techniques and teaching methods for instrumental music in the public schools. Offered on Demand.

MUS 340. Advanced Brass Techniques 1
Playing techniques and teaching methods. For the Music Education major whose AMU concentration is wind, percussion, or strings. Prerequisite: MUS 338.

MUS 342. Advanced Woodwind Techniques 1
Playing techniques and teaching methods. For the Music Education major whose AMU concentration is wind, percussion, or strings. Prerequisite: MUS 338. Offered on Demand.

MUS 344. Advanced Percussion Techniques 1
Playing techniques and teaching methods. For the Music Education major whose AMU concentration is wind, percussion, or strings. Prerequisite: MUS 338. Offered on Demand.

MUS 345. Vocal Techniques 1
Basic singing techniques and teaching methods. For Music Education majors whose principal applied music instrument is other than voice. Offered on demand.

MUS 349. Organ Techniques 1
Introduction to techniques and characteristics of the organ. For students whose AMU Principal Instrument is other than organ. Offered on Demand. Prerequisite: Permission of instructor.

MUS 353. Choral Conducting 2
Conducting techniques and procedures for the choral director. Includes score reading, rehearsal preparation and techniques, programming, and application of vocal techniques to choral singing. Prerequisite: MUS 211, 214.

MUS 354. Advanced Choral Conducting 2
Continuation of MUS 353. Prerequisite: MUS 353.

MUS 355. Instrumental Conducting 2
Conducting techniques and procedures for the instrumental director. Includes score reading, rehearsal
preparation and techniques, programming, and application of instrumental techniques to ensemble playing. Prerequisites: MUS 211, 214.

**MUS 356. Advanced Instrumental Conducting**  
2  
Continuation of MUS 355. Prerequisite: MUS 355.

**MUS 360. Music for the Elementary Classroom Teacher**  
3  
Music fundamentals and methods for the elementary classroom teacher. Not open to music majors. Fall, Spring.

**MUS 374. Class Piano III**  
1  
Provides for student development in intermediate functional skills at the piano including accompanying, choral and instrumental score reading, instrumental transposing, harmonizing with primary, secondary, and borrowed chords, and improvising/composing. Fall. Prerequisite: MUS 273.

**MUS 375. Accompanying for the Elementary Music Class**  
1  
Development of accompanying skill on the guitar and piano sufficient to accompany songs for elementary children. Required of all Elementary Music Education majors. Prerequisite: MUS 273. On demand.

**MUS 376. Handbells**  
1  
Playing techniques and literature for the handbell choir. Offered on demand.

**MUS 380. Church Music History**  
2  
The history of music in the Christian church and its position as a functional part of the service. Offered on demand.

**MUS 381. Church Music Administration**  
3  
Overview of the principal areas of responsibility in managing a church music program. Offered on demand.

**MUS 384. Class Piano IV**  
1  
Provides for student development in advanced functional skills at the piano including intermediate-level repertoire, sight reading, harmonizing melodies, accompanying, transposing, reading open score—four or more parts of instrumental and choral scores, and improvising/composing pieces. Prerequisite: MUS 374. Spring.

**MUS 390. Junior Recital–Performance Majors**  
1  
Recital of 40-55 minutes on the major instrument. See Music Handbook.

**MUS 410. Contemporary Music**  
3  
A survey of music of the 20th and 21st centuries. The course explores forms, genres, style, theoretical principles, compositional materials and procedures within a historical context. Course content will include music of both western and non-western musical traditions. Prerequisites: MUS 211, 312. Fall. This course is required of all music majors and fulfills a general education practicum requirement.

**MUS 413. Counterpoint**  
2  
Survey of modal and tonal contrapuntal techniques and genres. Prerequisite: MUS 211. Offered on demand.

**MUS 415. Composition**  
2  
The devices and processes used in the composition of music. Prerequisite: MUS 211. Offered on demand.

**MUS 417. Using Computers in the Music Classroom**  
2  
A summer class which meets in a workshop setting: five consecutive days with six contact hours each day. The course serves as a source of certificate renewal credit. Topics include an introduction to the Musical Instrument Digital Interface, sequencing, recording, notation printing, computer specifications, electronic instruments, creating classroom tools with technology, and an introductory experience with music education resources on the Internet.

**MUS 441. Principles of Music Education**  
3  
Basic approaches, materials, and other resources for Elementary, Choral, and Instrumental Music Education. Required for all Music Education majors. Spring.

**MUS 443. Elementary Music Methods**  
2  

**MUS 445. Choral Music Methods**  
2  
Methods and materials for the choral performance in schools, grades 5-12. Required for all Choral Music Education majors. Elective for others. On demand. Prerequisite: MUS 353.
MUS 447. Instrumental Music Methods
Methods and materials for the instrumental performance group in schools, grades 5-12. Required for all Instrumental Music Education majors. Elective for others. Fall.

MUS 449. Marching Band Techniques
Marching band techniques and practices. Required for Instrumental Music Education majors. Fall.

MUS 457, 458. Directed Readings
Independent readings directed by members of the department faculty.

MUS 460. Independent Study
Independent in-depth investigation, reading, and research in a professional area of interest. Department approval required.

MUS 461. Internship
A student/agency-originated and departmentally-approved field-learning experience which enables students to apply previously attained knowledge and skills.

MUS 467. Instrumental Music of the Southern Mountains
Traditional string band styles and styles of fiddle, guitar, and banjo playing. Offered on demand for Regional Studies minor.

MUS 468. Ballads, Folksongs, and Christian Harmony Singing in the Southern Mountains
Elizabethan and traditional ballads and folksongs still present in the Southern mountains. Also, a study of the Christian Harmony and other shape-note traditions. Offered on demand.

MUS 469. Appalachian Smooth and Clog Dancing
Performance of traditional and choreographed square dances.

MUS 490. Senior Recital–Performance Majors
Recital of approximately 55 minutes on the principal instrument. See Music Handbook.

MLIT. Literature of the Applied Instrument I, II
Two consecutive semesters; required for the Performance major. Survey of the historical development and literature of the student’s applied instrument. Prerequisite: Junior or senior status in applied music. Offered on demand. Prerequisite: Permission of instructor.

MPED 08A. Pedagogy of the Applied Instrument - Piano
Provides students with a hands-on experience teaching group piano lessons to children. Survey of adult methods, technique collections, and standard teaching literature from the Baroque, Classical, Romantic, and Twentieth-Century periods will be explored. Required for the Piano Performance Major. Prerequisite: MPED 08A.

MPED 15A. Pedagogy of the Applied Instrument - Voice
A practical course in voice science designed to examine a wide range of topics related to vocal pedagogy. Study includes vocal anatomy and physiology, voice production, quality, classification, registration, and range. Prerequisite: MUS 131. Fall, alternate years. Must be taken in sequence.

MPED 15B. Pedagogy of the Applied Instrument - Voice
A course in vocal pedagogy designed to equip students to teach beginning vocal techniques to individuals and small ensembles. Students explore vocal exercises, common vocal problems, and age-appropriate repertoire for the beginning singer. Special emphasis is placed on developing appropriate listening and diagnostic skills for use in private studio and small ensemble settings. Prerequisite: MPED 15A. Spring, alternate years. Must be taken in sequence.

Ensembles

May be repeated for credit. Each student is required to participate each semester in the major ensemble appropriate for his/her applied area (MUS 101 Choir or MUS 102 Wind Symphony). Piano Performance majors may substitute one semester of piano ensemble for one semester of the major ensemble requirement, with approval of Department Chair.
MUS 100. Chapel Choir
Open to all students by permission of instructor. Required of Freshman choral emphasis majors with vocal or keyboard applied.

MUS 101. Choir
Open to all students by audition. Prerequisite: successful audition and theory placement exam, and permission of instructor. Fulfills general education Perspectives requirement.

MUS 102. Wind Symphony
Open to all students by audition. Prerequisite: Permission of instructor. Fulfills general education Perspectives requirement.

MUS 103. Piano Ensemble
Performance with other piano performance majors. Does not meet major ensemble requirement. Prerequisite: Permission of instructor.

MUS 104. Woodwind Ensemble
Open to all students. Prerequisite: Permission of instructor.

MUS 105. Percussion Ensemble
Open to all students. Prerequisite: Permission of instructor.

MUS 108. Jazz Ensemble
Open to all students. Prerequisite: Permission of instructor.

MUS 109. Brass Ensembles
Open to all students. Prerequisite: Permission of instructor.

MUS 115. Chamber Singers
Open by audition to members of the University Choir.

MUS 117. Concert Band
Open to all students. Prerequisite: Permission of instructor.

MUS 150. Marching Band
Open to all students with permission of instructor. Fall.

MUS 470. Appalachian String Band
Open to all students. Prerequisite: Permission of instructor.

Applied Music

Applied Music lessons are given in piano, organ, voice, guitar, woodwind, brass, and percussion instruments. Details of Applied Music requirements and policies can be found in the “Department of Music Handbook,” or obtained from Applied Music coordinators. Students are permitted to take Applied Music following an audition and with permission of the instructor.

Applied music fees of $625 per credit hour are assessed for all AMU and AMR (Applied Music Recital) classes. Voice students are required to pay for their accompanist each semester—this $320 fee is not part of regular tuition and fees but is included in the financial statement. Students enrolled in all other Applied Music courses will have accompanist fees which vary by individual needs.

All students enrolled in Applied Music courses will need to plan for expenses including purchasing music, instruments/accessories, and appropriate performance attire. These expenses vary by individual student. The Applied Music faculty will provide more specific information for each individual.

AMU Courses:

002 Clarinet
003 Flute
004 Horn
005 Oboe
006 Organ
007 Percussion
008 Piano
009 Saxophone
010 Trombone
011 Trumpet
015 Voice
016 Tuba
017 Euphonium
019 Banjo
020 Bassoon
022 Folk Guitar

Natural Science

**NS 111. Introduction to Biological Sciences**
Selected topics from the biological sciences emphasizing important factual information, methods, scientific principles, and their application. Laboratory. Fulfills the general education perspectives requirement.

**NS 112. Introduction to Environmental Science**
Principles of the environmental systems and human effects of the environment. Includes functioning of natural ecosystems as well as causes, consequences, and solutions to current environmental problems. Fulfills the general education perspectives requirement.

**NS 113. Introduction to Physical Sciences**
The fundamental principles of astronomy, chemistry, geology, and physics. Laboratory. Fulfills the general education perspectives requirement.

**NS 114. Introduction to Meteorology and Weather Forecasting**
Composition and structure of the atmosphere; jet streams, air masses, fronts, and precipitation; greenhouse effect and climate change; hurricanes, tornadoes, floods, and drought; numerical weather prediction. Students prepare and present weather forecasts using real-time weather data. Laboratory. Fulfills the general education perspectives requirement.

Philosophy

**PHI 215. Problems in Philosophy**
An introduction to Philosophy and Philosophical Studies. Students investigate the meaning of life, death, reality, knowledge, the self, gender, and other important philosophical topics, reading philosophers from around the world, male and female, who write in a variety of styles. Women’s Studies Adaptable. Meets Humanities Perspectives requirement. Offered every fall.

**PHI 216. American Philosophy**
This course explores American philosophy using primary source texts reflecting the history of ideas in the United States from the Puritan era to the early 20th century. Meets Humanities Perspectives Requirements. Spring in odd numbered years.

**PHI 261. Internship**
A student/agency originated and program approved field-learning experience.

**PHI 325. Ancient Philosophy**
In this course students read and investigate the philosophers of the ancient Greek and Roman worlds: Thales, Pythagoras, Socrates, Plato, Aristotle, and the Stoics, and others, discovering the roots of the western intellectual tradition.

**PHI 327. Special Topics in Philosophy**
Occasional or experimental courses offered due to particular student or faculty interest. To be announced by the program.
PHI 330. Social and Organizational Ethics  3
This course is an exploration of the ways in which ethical theory from the western tradition can inform serious issues and problems in business and non-profit organizations. Conversely, the course will explore ways in which actual situations and contexts of case studies from business and non-profit organizations challenge and shape ethical theory. Cross listed as BA 330.

PHI 332. Modern/Contemporary Philosophy  3
Covers selected topics and key philosophers from the 17th to 20th centuries, including Continental Rationalism (Descartes) and British Empiricism (Hobbes and Locke), Kant and 19th century responses (Kierkegaard and Nietzsche), and 20th century movements including existentialism and phenomenology; process and feminist philosophy; deconstruction and post-modernism; issues concerning language and science. Prerequisites: PHI 215 suggested.

PHI 344. Philosophy of Religion  3
This course presents the philosophical investigation of religion. Topics include: the nature of religious language; the existence of God; reason, revelation, and faith; the problems of evil, miracles and prayer, and immortality.

PHI 350. Research, Theory, and Methods in Religion and Philosophy  3
This is a Junior Level seminar on classic theoretical and methodological problems associated with the study of religion and philosophy. It is open to any MHU student, but is required of all Religion and Philosophy Majors. Students develop and apply their skills in advanced undergraduate level research. Pre-requisites: Junior standing, successful completion of ENG 112 or equivalent, and prior completion of at least 9 credit hours of courses in Religion, including both REL 115, and REL 111 or REL 112, or instructor permission. Cross listed as REL 350. Completion of REL/PHI 350 is a prerequisite for REL/PHI 450. Offered every spring.

PHI 450. Senior Seminar  3
Disciplinary capstone seminar focusing on original research and writing by students, with the focus on textual or biblical, historical, and philosophical or theological studies. Cross-listed as REL 450. Prerequisites: REL/PHI 350, and senior status. Fall. Fulfills a general education practicum requirement.

PHI 457, 458. Directed Readings  2–3
Independent readings directed by a member of the program faculty.

PHI 460. Independent Study  3
An individual program of reading and research directed by a member of the program faculty and approved by the Curriculum Committee of the college.

PHI 461: Internship  1–3
See PHI 261.

Physical Education

PE 115. Varsity Athletics  2
A student may receive elective credit only once for participation in a varsity sport. A student may receive only 2 semester hours of credit regardless of the number of sports played. Credit must be awarded in the semester in which the sport is in season. Evaluation will be on an S/U basis. Managers, trainers, and other non-participants are not eligible for this credit. Credit is awarded only for those sports offered by the Mars Hill University Athletic department.

PE 119. Canoeing  2
Learn the basic canoeing skills necessary to enjoy the sport of paddling. Learn paddling strokes, boating safety and elementary self-rescue techniques.

PE 122. Swimming  2
This course is designed to teach the beginner how to swim and those that already know how to swim more advanced aquatic skills including six strokes, diving skills and other technique and safety skills.

PE 123. Lifeguarding  2
American Red Cross Lifeguard Training course teaching lifeguarding skills and techniques. Certification as ARC Lifeguard upon successful completion of this course. Additional fee required for ARC certification.
PE 124. Water Safety Instructor  
American Red Cross Water Safety Instructors’ course. Teaches the student how to teach swimming lessons as well as safety in and around the water. Additional fee required for ARC certification.

PE 125. Scuba Diving  
Students learn basic diving skills and safety.

PE 126. Aquasize  
Learn to exercise using water for both resistance and support.

PE 140. Archery  
Learn basic archery skills and safety.

PE 142. Golf  
Fundamentals, rules, and regulations of golf.

PE 143. Disc Golf  
Students will learn the basic throws, rules and techniques of putting, approach shots, scramble shots and driving for distance.

PE 146. Badminton  
Fundamentals, rules and regulations of badminton.

PE 148. Racquetball  
Learn the skills, rules and strategies necessary to play this exciting lifetime sport. Participate in singles and doubles competition.

PE 149. Tennis  
Beginning tennis instruction.

PE 153. Basketball  
Fundamentals, rules, and regulations of basketball.

PE 154. Softball  
Fundamentals, rules, and regulations of softball.

PE 155. Volleyball  
Fundamentals, rules and regulations of volleyball.

PE 158. Soccer  
Fundamentals, rules and regulations of soccer.

PE 160. Ballet Dance  
Beginning level ballet dance technique. Includes barre work, basic steps and ballet choreography.

PE 161. Folk/Square Dance  
Beginning level study of international folk dance, traditional square dance, big circle square dance and running-set style square dance.

PE 162. Liturgical Dance  
Beginning level study of liturgical dance, including history, purpose and practical uses of dance in worship services. Participation in at least one class performance is required.

PE 163. Jazz Dance  
Beginning level jazz dance technique, including warm up exercises, basic steps and jazz dance choreography.

PE 164. Modern Dance  
Beginning level modern dance technique, including a study of the styles of several contemporary modern dance choreographers.

PE 165. Gymnastics  
Fundamentals, rules and regulations of basic tumbling & floor exercise.

PE 169. Tap Dance  
Beginning level tap dance technique. Purchase of appropriate shoes is required.

PE 170. Fencing  
Learn proper technique and safe fencing skills.
PE 172. Personal Defense  
Learn basic methods of self defense.

PE 174. Yoga  
Beginning level hatha yoga (physical exercises). Emphasis placed on developing flexibility and reducing the effects of stress.

PE 177. Physical Conditioning & Aerobics  
Basic fundamentals of cardiorespiratory physical activity and resistance training.

PE 180. Downhill Skiing  
Learn to ski/snowboard or improve your skiing/boarding skills at area ski slopes.

PE 183. Horseback Riding  
Learn basic riding skills.

PE 185. Outdoor Leisure Skill  
Learn basic techniques in rock climbing, canoeing, hiking and camping.

PE 187. Rock Climbing  
Learn basic top-rope climbing skills, climbing knots, rappel technique.

PE 188. Mountain Smooth and Clog Dance  
Learn basic techniques of smooth and clog dancing.

PE 203. Dance Skill Lab  
Students will learn dances commonly used in physical education (PE), including folk dance, square dance, and social dances. Fulfills one of the requirements for the PE major. Class space priority is given to P.E. majors.

PE 204. Gymnastics Skill Lab  
Students will learn skills commonly used in physical education (PE), including gymnastics apparatus, tumbling, and balancing. Class space priority is given to P.E. majors.

PE 206. Racquet Games  
Skill lab for physical education majors. Students will develop and improve their skills and knowledge of the sports, and identify methods of teaching the skills. Offered to non-majors by permission of instructor. Class space priority is given to P.E. majors.

PE 208. Golf and Disc Golf  
This course is designed to introduce the student to the traditional game of golf and the game of disc golf. The student will learn the two games with regard to rules of play, course design, stroke technique, mental preparedness and terminology. Emphasis will be placed on learning and teaching both games as lifetime leisure skills to promote an active lifestyle. Class space priority is given to P.E. majors.

PE 209. Dance as Art  
Introduction to various dance forms including ballet, modern, jazz and other styles. Includes a study of dance history, choreography, and aesthetics. No prerequisites or dance experience. Fulfills the Aesthetic Perspectives requirement.

PE 210. Walking & Weight Lifting  
Designed to introduce the student to the activities of walking and weight lifting for leisure and fitness. The course will teach various types of walking for improved fitness and how to use weight lifting to modify body composition & form while improving muscular strength and endurance. Class space priority is given to P.E. majors.

PE 211. Aerobics & Aquasize  
This course is designed to introduce the student to both “land” and “water” aerobic activities that improve cardiorespiratory fitness and muscular strength and endurance.

PE 212. Track and Field and Recreational Running  
This course introduces the student to Track and Field and the development of recreational running. The student will learn these activities with regard to rules of play, activity development, event techniques, mental preparedness and skills needed for these activities. Class space priority is given to majors.

PE 213. Coaching Theory  
This course will include skill analysis, motivation techniques, teaching progression, responsibilities, qualities, coaching philosophies, coaching skills, practice management, psychology of coaching, game management,
coaching methods, statistics and team organization. Study of some of the great coaches, past and present, will be included.

**PE 214. Coaching of Football**  
Provides the student with a knowledge of coaching theory, methods, and strategies. Knowledge is applied to the sport of football at the elementary, middle, and secondary levels. Instruction includes fundamentals, offensive and defensive styles of play, coaching methods, teaching strategies and individual position technique. Prerequisite: PE 213 or permission of department chair.

**PE 215. Coaching of Soccer**  
Provides the student with a knowledge of coaching theory, methods, and strategies. Knowledge is applied to the sport of soccer at the elementary, middle, and secondary levels. Instruction includes fundamentals, offensive and defensive styles of play, coaching methods, teaching strategies and individual position technique. Prerequisite: PE 213 or permission of department chair.

**PE 216. Coaching of Basketball & Volleyball**  
Provides the student with a knowledge of coaching theory, methods, and strategies. Knowledge is applied to the sport of basketball and volleyball at the youth league, elementary, middle, and secondary levels. Instruction includes fundamentals, offensive and defensive styles of play, coaching methods, teaching strategies and individual position technique. Prerequisite: PE 213 or permission of department chair.

**PE 217. Coaching of Softball & Baseball**  
Provides the student with a knowledge of coaching theory, methods, and strategies. Knowledge is applied to the sport of softball and baseball at the youth league, elementary, middle, and secondary levels. Instruction includes fundamentals, offensive and defensive styles of play, coaching methods, teaching strategies and individual position technique. Prerequisite: PE 213 or permission of department chair.

**PE 218. Coaching of Track and Field**  
Provides the student with a knowledge of coaching theory, methods and strategies. This knowledge is applied to the sport of Track and Field at the elementary, middle, and secondary levels. Instruction includes individual and team event fundamentals, the coaching of individual and relay events, and teaching strategies. Prerequisite: PE 213 or permission of department chair.

**PE 219. Coaching of Swimming**  
Provides the student with a knowledge of coaching theory, methods, and strategies. This knowledge is applied to the sport of swimming at the youth through secondary levels. Instruction includes individual and team event fundamentals, the coaching of individual and relay events, and teaching strategies. Prerequisite: PE 213 or permission of department chair.

**PE 221. History and Principles**  
The historical foundations of physical education and their relationship and contribution to general education; the basic principles of physical education as they relate to biological, physiological, and sociological backgrounds of contemporary programs. Fall.

**PE 225. Team Sports Skill Lab**  
This course is designed to provide the student with an opportunity to develop/improve his/her skills and knowledge in selected team oriented sports activities. Team sports included but not limited to football, soccer and volleyball. In addition to the traditional form of each sport, the course will include lead-up games and variations of each, designed for a wide range of age-appropriate skills. The course is specifically designed for physical education majors but open to other students with permission of the instructor. Class space priority is given to majors. Fall.

**PE 226. Team Sports Skill Lab**  
This course is designed to provide the student with an opportunity to develop/improve his/her skills and knowledge in selected team oriented sports activities. Team sports included but not limited to basketball, softball/baseball and track & field. In addition to the traditional form of each sport, the course will include lead-up games and variations of each, designed for a wide range of age-appropriate skills. The course is specifically designed for physical education majors but open to other students with permission of the instructor. Class space priority is given to majors. Spring.

**PE 227. Practicum**  
An opportunity for interested students to work individually with physical education faculty members. A practicum
application form must be completed before assignment to a required general education class. The student will assist in all phases of the instructional process under the guidance and supervision of various department faculty. Prerequisites: Sophomore status, 2.0 GPA. Evaluation will be on an S/U basis. Materials may be obtained from the program coordinator. [PE teacher education students only or department chair permission.]

PE 250. Biomechanics 3
This course will provide an overview of musculoskeletal anatomy, the mechanical properties and structural behavior of biological tissues, and biodynamics.

PE 261. Internship 3
An initial exploratory experience outside the classroom designed to explore new areas or supplement regular courses in the attainment of various competencies. Credit awarded upon successful completion of the internship as described in the student-originated and departmentally approved proposal. May be repeated for a total of 6 semester hours of credit. Materials may be obtained from the program coordinator.

PE 327. Special Topics 1–3
Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.

PE 329. Kinesiology 4
The methods and procedures of analyzing human motion. Mechanical and anatomical principles of movement are taught and applied to fundamental human movements as they relate to participation in sports and physical activity. Laboratory activities will serve as a practical means of reinforcing the total learning situation. Prerequisite: BIO 134 and junior status or above.

PE 330. Physiology of Exercise 4
Application of basic physiological principles to exercise and movement as they relate to human motion. Laboratory activities will serve as a practical means of reinforcing the total learning situation. Prerequisite: BIO 134, PE 329, and junior status or above.

PE 333. Sports in Society 3
Sociological aspects covered may include sports in society, violence and sports, economics of sports, sports and the mass media, and sexism and racism in sports. Psychological aspects covered may include attention and arousal in sports, motivation, personality and sports, audience impact, team cohesion, and aggression. Junior status or above. Spring. Fulfills the general education perspectives requirement.

PE 335. Methods of Teaching Elementary School Physical Education for the Physical Education Specialist K-6 3
Basic theories concerning children, learning, and physical education. Consideration will be given to the significant role movement plays in the life of a child; trends in and goals of elementary education and physical education and their interrelationships; observing, analyzing, and recording the movement experiences appropriate for elementary school children. Observation, participation, and practical kinds of experiences will be arranged including 3-10 visits to local elementary schools. Prerequisites: ED 205, PE 221 or permission of instructor.

PE 336. Methods of Teaching Elementary School Health and Physical Education for the Classroom Teacher K-6 3
Designed for the Elementary Education Major, this course will include both health and physical education methodology and materials as well as teaching of low level games and activities as part of the general classroom curriculum. It will include 3–10 visits to local elementary schools. Prerequisites: ED 205, PE 221 or permission of instructor.

PE 338. Measurement and Evaluation in Health and Physical Education 3
Techniques used in measuring and evaluating performance in the psychomotor, cognitive, and affective domains. Elementary statistical procedures will be covered in order to analyze and interpret test scores. Appropriate methods for determining grades in health and physical education will be presented along with techniques for data collection and treatment for research. Prerequisite: junior status or above.

PE 400. Professional Foundations 1
This course is designed to help students bring together all the knowledge they have gained throughout their college experience, and understand how they will apply it during their internships. Students will develop goals for
their internships, and will make a presentation to peers and department faculty. Prerequisites: Completion of all other required courses for the concentration, and/or approval of the department.

**PE 413. The Teaching of Health and Physical Education in the Middle and Secondary Programs**  
Understanding and application of methods and materials in middle and secondary school health and physical education. Observation, participation, and practical kinds of experiences will be a part of this course including 3-10 visits to local high school programs. Prerequisites: ED 205, PE 221 or permission of instructor. Spring.

**PE 441. Organization and Administration of Health, Physical Education and Athletics**  
Procedures for organizing and administering the health and physical education and athletic programs including class organization, staff relations; budget and financing, facilities and equipment, and program of instruction. Prerequisites: PE 221, senior status. Fall.

**PE 450. Physical Education Internship**  
A professional field experience with an off campus agency specializing in wellness and coaching. Designed to enable the student to relate theory to practice. Prior to agency assignment the internship experience will be designed by the departmental faculty supervisor, in consultation with the student. Prerequisites: Senior status and permission of instructor. Fulfills a general education practicum requirement.

**PE 457,458. Directed Readings**  
Independent readings directed by members of the department faculty. Materials may be obtained from the department chairperson.

**PE 460. Independent Study**  
An opportunity for the outstanding student to pursue professional interest areas in some degree of depth. Laboratory equipment will be available for use in project developments. Library research in the form of an undergraduate thesis will be required. Elective credit only. Materials may be obtained from the department chairperson.

**Physics**

**PHY 223. General Physics I**  
Mechanics, heat and wave motion with laboratory work. Prerequisite: MTH 115 or permission of instructor. Fulfills the general education perspectives requirement.

**PHY 224. General Physics II**  
Electricity, magnetism, light and an introduction to modern physics with laboratory work. Prerequisite: PHY 223.

**Political Science**

**PS 111. Introduction to American Government and Politics**  
Basic concepts and analytical techniques. Political science applied to American federal government: power, institutions, socialization, communication, policy-making, and legitimacy. Fulfills the general education perspectives requirement.

**PS 120. Introduction to Politics**  
This course introduces students to the study of politics and political theories, attitudes, interactions, institutions, and systems such as economics, conflict and cooperation.

**PS 121. Introduction to Global Politics**  
This course focuses on introducing students to global politics, the governmental structure and political processes within states, and the interaction of those states with each other and non-state actors. Fulfills the general education perspectives requirement.

**PS 230. Advanced Global Politics**  
This course advances student understanding of the theories in international relations and provides a closer examination of questions of development, conflict, cooperation and security studies. Prerequisite: PS 121 (Intro to Global Politics).

**PS 320. Global Politics and Conflict**  
The purpose of this course is to critically examine causes of conflict in international relations, conflict within
states i.e. “civil-war,” international responses to conflict and the effects of conflict such as civilian displacement, genocide, and environmental degradation. Prerequisite: PS 230 (Advanced Global Politics).

PS 321. Global Politics and Cooperation  
This course introduces students to theories of collective action as well as “real world” cooperative organizations such as the United Nations, the European Union and other regional organizations. Students will learn how cooperation can be promoted in the global context. Prerequisite: PS 230 (Advanced Global Politics).

PS 322. Global Politics and Development  
The course examines, international political economy, a field of inquiry that involves tensions among a variety of state, market, and societal actors and institutions in an economic dimension (rather than a purely political dimension). Perspectives of neoliberalism, mercantilism and structuralism are used to explain abundance and scarcity of resources, economic interactions of international actors and how these influence power structures. Prerequisite: PS 230 (Advanced Global Politics).

PS 323. Global Politics and Human/National Security  
This course examines safeguarding people, territory, and a way of life from the American perspective of national defense and from the human security perspective which challenges the assumption that the state, rather than the individual, is the key unit of value. Prerequisite: PS 230 (Advanced Global Politics).

PS 335. Congress and the Presidency  
This course provides a survey of the key policy making bodies in American politics, the Congress and the Presidency. Special attention will be given to constitutional structure, institutional development, and the place of conflict and cooperation in executive-legislative relations. Prerequisite: PS 111 (American Government and Politics).

PS 336. Citizenship and Political Participation  
This course explores theories and practices of citizenship and participation in American politics. Emphasis will be placed on patterns of public involvement, explanations for participation, and changing models for understanding citizenship and political participation. Prerequisite: PS 111 (American Government and Politics).

PS 337. American Constitutionalism: Civil Rights and Liberties  
The purpose of this course is to provide students an overview of the interpretation and development of civil rights and liberties in American politics. By incorporating a developmental approach to American constitutional politics, the intent is to balance the traditional focus on Supreme Court doctrine with appropriate attention to the place of the courts within the American political system. Prerequisite: PS 111 (American Government and Politics).

PS 327. Special Topics  
Options for students to study, according to their interests, a variety of topics not covered in regular courses, e.g., regional planning issues and civil liberties. Prerequisite: PS 111 (American Government and Politics).

PS 341. Ethics, Politics, and Policy  
This course focuses on ethical issues and controversies surrounding the formulation and implementation of public policies. The emphasis will be on learning how to make and evaluate ethical arguments about politics and policy. Prerequisite: Junior standing.

PS 457, 458. Directed Readings  
Supervised readings in political science. Credit awarded upon satisfactory completion of an examination at the end of the semester. Student should make arrangement with the supervising faculty member early in the semester before the course is to begin. Prerequisite: PS 120 (Introduction to Politics) or PS 121 (Introduction to Global Politics).

PS 460. Independent Study  
Research open only to juniors and seniors with approval of department faculty. A student may elect a maximum of 6 semester hours.

PS 461. Internship  
The application, outside the classroom, of previously attained knowledge and skills, through study and through significant service to a group or organization. Credit awarded on a S/U basis.

PS 470. Senior Seminar  
Designed to summarize and synthesize student learning in the major field. The course includes investigation, discussion, and the presentation of a thesis involving an issue of importance to the student and to the discipline.
Psychology

PSY 111. General Psychology 3
A survey course designed to introduce students to the field of contemporary psychology, including the principles and perspectives of biological, behavioral, cognitive, socio-cultural, developmental, and clinical approaches. Topics include physiological and environmental interactions, human development, motivation and emotions, learning and forgetting, the influences of culture on the psyche, personality theories, psychopathology and treatment, and other topics appropriate to an introduction to psychology. Fall and Spring. Fulfills the general education practicum requirement.

PSY 121. Introduction to Art Therapy 3
This course is designed to give a working understanding of the principles of art therapy, including history, theory and practice, current trends, as well as exposure to different settings and populations. By the end of this course, each student should understand how art therapy is similar to and different from other types of psychological counseling. They should also have a working understanding of how to use their art skills within typical art therapy scenarios. Prerequisite: PSY 111. Spring, alternate years.

PSY 220. Behavioral Science Statistics 3
An introduction to statistical analysis, including descriptive statistics, probability, distributions, sampling theory, statistical inference, and regression and correlation analysis. Fall/Spring.

PSY 221. Cognition 3
This course is designed to introduce students to cognitive psychology with an emphasis on cognitive methods. Cognitive psychology examines internal mental processes such as attention, memory, language, and reasoning. By the end of this course, students should understand the historical and current theories of attention, memory, language, and reasoning by knowing 1) the relevant research, and 2) the methods used to measure these internal mental processes. Prerequisite: PSY 111. Fall.

PSY 222. Physiological Psychology 3
This course explores the biological structures and processes which underlie and produce human behavior. The focus is on motivation, emotion, perception, and cognition and how these events are affected by neural, metabolic, homeostatic, and evolutionary processes. Prerequisites: PSY 111 and NS 111 or BIO 113. Spring.

PSY 225. Research Methods in Psychology 3
This course is an applied introduction to the skills and methods used to conduct social science research. Students will learn the basic principles of research methodology including study design, data collection, statistical analysis, and report writing. As a result of this course, students will be able to critique existing research designs, propose alternatives to poor research designs, and create new research designs. They will gain those skills through homework assignments, quizzes, and research report writing. Class time will be devoted to discussion of assigned reading, homework, and individual and group project work. Prerequisite: PSY 220. Spring.

PSY 308. Social Psychology 3
An overview of social psychological theory and research, both classic and contemporary, and a focus on how our thoughts, feelings, and behaviors are influenced (positively and negatively), controlled, or limited by past or present social interactions with other people, social structures, and social institutions. This course focuses on the complex relationships between society and the individual, paying particular attention to how being a part of a group profoundly affects our thoughts and actions. Prerequisites: SOC 111 or PSY 111. Fall and/or Spring.

PSY 311. Personality Theory 3
An analysis of the major psychological theories of human nature including psychodynamic, interpersonal, behavioral, cognitive, humanistic, and trait theories. Pre-requisite: PSY 111 and a 200-level psychology course which may be taken concurrently with 311. Fall.

PSY 312. History, Philosophy, and Systems 3
The development of systematic psychological thought from its ancient philosophical and religious roots through
Renaissance conceptualizations and to those modern scientific and philosophical approaches which define today's boundaries of the discipline. Prerequisites: PSY 111, a 200-level psychology course, and LAA 211. Spring.

**PSY 313. Child Psychology**  
3 The development of behavior and mental processes as a result of learning and maturation. Emphasis is on infants and children. Prerequisite: PSY 111. Fall.

**PSY 314. Adolescent and Adult Development**  
3 The development of behavior and mental processes with emphasis on cognitive, emotional, social, and physical dimensions. Characteristic behavior patterns, problems, and issues in adolescence and adulthood are studied, including characteristics of exceptionality. Prerequisite: Psychology 111. Fall and Spring.

**PSY 316. Language, Culture, and Psychology**  
3 The study of language use in cultural contexts as an entryway into understanding human beings. Topics include language acquisition and development, connections between language, cognition and behavior, the relationship between the individual and culture, the power of language and the relationship between power and language, language prejudice and cultural diversity, and the role that language and culture play in human suffering and clinical treatment. Prerequisite: Psychology 111. Offered every other year.

**PSY 317. Psychology of Gender and Sexuality**  
3 This course introduces scholarly debates about gender identities and expression, and sexual identities. We examine how people experience gender - what it means to be a man or a woman - and sexuality in a variety of historical and cultural contexts. The course is a combination of discussions, debates, and research regarding gender and sexuality from physiological, psychological, and sociological perspectives. Prerequisite: PSY 111. Offered every other year.

**PSY 320. Fieldwork in Psychology**  
3 Students will complete a 90-hour field work placement with a community agency involved in social services (e.g. group homes, mental health centers, at-risk prevention programs, schools, hospitals). The course also involves discussion of field work, focus on current issues in the practice of psychology, and professional skills.

**PSY 321. Art Therapy in Groups**  
3 This course is designed to give a working understanding of the principles of art therapy as they are applied in group settings. This course exposes students to a basic understanding of group dynamics with an emphasis on the role of art making in a group setting. Topics covered will include group leadership, the developmental stages of groups, exposure to different theoretical orientations related to materials and processing the art. This course will also introduce students to multicultural issues in groups. Prerequisite: PSY 121. Spring, alternate years.

**PSY 327. Special Topics**  
3 Options for students to study a wider variety of topics than can be taught on a regular basis. The topic for a semester will be announced through the department. Prerequisite: PSY 111. Fall or Spring, according to demand.

**PSY 333. Forensic Psychology**  
3 An overview of the field of forensic psychology. The primary focus is on the interaction between the psychological and legal professions. Psychological issues underlying criminal behavior will be emphasized. The course will also address the use of psychology in civil and criminal court proceedings as well as in criminal investigations. Prerequisite: PSY 111 or SOC 111. Fall.

**PSY 334. Comparative Animal Behavior**  
3 The evolution, development, and ecology of animal behavior. Prerequisites: PSY 111 and BIO 101 or 111. Offered according to demand.

**PSY 400. Research Activity**  
3 Advanced participation in planning, design and conduct of research with faculty supervision. A written report or scholarly paper must be submitted to the department at the end of the project. Prerequisites: PSY 111, BSS 220, PSY 225, a written proposal copied to the department chair describing the research planned. Fall or Spring.

**PSY 421. Abnormal Behavior**  
3 An introduction to psychopathology with a focus on the clinical features of the major psychological disorders in the DSM classification system. Emphasis is on the causes, characteristics, prevention, and treatment of the major disorders. Prerequisite: PSY 111 or PSY 333. Fall or Spring.
PSY 422. Foundations in Counseling and Psychotherapy 3
An overview of the different theories and techniques of therapy and counseling that work towards the opening of psychic possibilities and the alleviation of human suffering. An examination of the different approaches’ models of personality development, etiology of psychopathology, and conceptions and tools of healing. The approaches include psychoanalytic, psychodynamic, existential-phenomenological, interpersonal-humanistic, cognitive, behavioral, cognitive-behavioral, eastern psychology, multicultural counseling, and group therapy including family therapy. Prerequisites: PSY 111, and either PSY 311 or PSY 421. Spring.

PSY 426. Social and Psychological Aspects of Religion 3
See SOC 426. Prerequisite: an upper-level course in the discipline or permission of the instructor. Offered according to demand.

PSY 457, 458. Directed Readings 3
Readings chosen by the professor in collaboration with the student. A reading and examination plan must be completed, approved and copied to the department chair prior to the registration day of the semester in which the course is undertaken. Prerequisite: PSY 111 plus six additional hours in psychology and permission of instructor. If the student makes reports on readings without taking exams, course will be graded S/U. Fall and Spring.

PSY 461. Internships 3
Field work off campus in applied psychology. This experience must be arranged and coordinated through the host agency involved and a supervising faculty member in psychology. Students should make arrangements well in advance of the semester in which the work is to be done. Graded S/U. Prerequisites: PSY 111, 12 additional hours in psychology, and a proposal copied to the department chair describing the work to be undertaken. Spring.

PSY 470. Senior Thesis and Seminar 3
Designed to summarize and synthesize students’ study in the field and to give them the opportunity to investigate, discuss and write a thesis on a key issue. Prerequisites: Senior standing or permission of instructor; PSY 111, 220, 225, and one course from each of the subgroups A-D. Fall. Fulfills a general education practicum requirement.

Recreation and Sport Management

RSM 210. Outdoor Recreation and Games Leadership 3
This course provides an introduction to outdoor recreation skills and games leadership. Students will learn the fundamental skills needed to perform the following recreational activities: rock climbing, canoeing, hiking/backpacking, and group games leadership. Students will be involved in experiential learning activities that provide the foundation to develop the skills needed for each of these activities. Field trips are a part of this course. Fall.

RSM 221. Introduction to Recreation & Sport Management 3
History and development of recreation in public, private and commercial settings; backgrounds and theories; objectives and principles; job opportunities and demands. Spring.

RSM 223. Sports Marketing 3
The application of the principles of promotion and marketing to the sport and fitness industry including the area of professional sports, corporate fitness, college/high school athletics, clubs and resorts.

RSM 224. Outdoor Recreation Leadership 2
This course consists of training outdoor leaders in skills and in decision making needed for group leadership. Required field experiences are designed to provide the student with technical and interpersonal skills and knowledge necessary in the area of outdoor leadership. Fall.

RSM 300. Recreation Field Work 2
An opportunity for the recreation major to receive experience in one or more types of recreational agencies. The student will observe recreation programs in operation and will organize and conduct activities under close supervision, which will be provided by both agency personnel and departmental faculty. Open only to recreation majors or minors with sophomore status or above. Prerequisite: RSM 221 or permission of instructor. Graded on a S/U basis.
RSM 309. Planning & Design of Recreation Areas and Facilities  
Planning principles and techniques for acquiring, developing, and providing areas and facilities for recreation, park, and leisure service agencies. Emphasis on site selection, design, environmental analysis, development of site plans and master plans, accessibility and barrier-free design for various types of areas and facilities. Prerequisite: RSM 221. Fall, even years.

RSM 310. Event Management  
This course will introduce the student to the process and techniques needed for successful special event planning. The course will focus on special events as defined and accepted by the national parks and recreation profession. The emphasis will be on creating, planning, and organizing the resources needed by an organization to deliver a special event. The emphasis will be on developing skills within the student that will allow for the successful delivery of a special event for the Mars Hill University community. Junior status or above. Spring.

RSM 312. Aquatic Facility Management  
The purpose of this course is to provide students with the managerial and supervisory skills and knowledge necessary to effectively manage an aquatic facility. This will include appropriate skills and knowledge needed to create an environment that will keep patrons, staff, and the aquatic facility safe Prerequisites: RSM 221, 300. Spring.

RSM 321. Program Planning in Recreation  
The principles and methods of program development including principles of planning programs, facilities, objectives, and activities; utilization of facilities and time-blocks; program evaluation. Prerequisites: RSM 221, 300. Spring.

RSM 324. Interpretation of Cultural and Natural Resources  
Study and practice in the techniques of interpretation of natural and cultural resources. Developing the skills of designing, producing, and presenting interpretative materials and programs to all segments of the population in a recreational setting. Spring.

RSM 326. Natural Resource Management  
Focus on the development of natural resource management as it relates to outdoor recreation with emphasis on management agencies, resource bases, management concepts, techniques and planning. Prerequisites: RSM 221, 300, 324. Spring.

RSM 327. Special Topics  
Workshop or specialized study experiences designed to provide concentrated study and/or participation in a specific area of interest in therapeutic, outdoor, church, or community recreation.

RSM 331. Camp Counseling and Outdoor Education  
An introduction to the various roles of a camp counselor in a residential camp environment. This course will focus on the skills, abilities, knowledge and motivation needed by a camp counselor in a summer residential camp setting. This class will provide the student with various training opportunities to sharpen their skills as a camp counselor and leading outdoor education programs and activities. This course will involve a weekend camping experience of the students.

RSM 369. Risk Management  
This course will discuss the law and liability as they relate to the Recreation and Sport management professional. It will provide the student with the knowledge and skills needed to reduce the risk of sport, leisure and recreation related injuries and the potential of negligence litigation. In developing this knowledge and skill base, the student will research and reflect on the ethical behavior in the delivery of services to participants. Students will be involved in research of current legal and ethical issues affecting the delivery of their service and programs. Junior status or above. Fall.

RSM 400. Professional Foundations  
This course is designed to help students bring together all the knowledge they have gained throughout their college experience, and understand how they will apply it during their internships. Students will develop goals for their internships, and will make a presentation to peers and department faculty. Prerequisites: Completion of all other required courses for the concentration, and/or approval of the department.

RSM 441. Recreation and Sport Management  
Organization, administration, and management of a leisure service delivery system including principles of organization and administration, budgeting and finance management, publicity and public relations, personnel
management, legislation, and coordination of community resources. Prerequisites: RSM 221, 300, 309, 310, 369; RSM major; senior status. Fall.

**RSM 450. Recreation Internship**

A professional field experience 12 weeks, 480 contact hours with a recreation/sports agency, designed to enable the RSM major to relate theory to practice. The internship will be designed by the departmental faculty supervisor, in consultation with the student prior to agency assignment, to emphasize the experiential needs of the student. Student supervision during this course will be provided by both agency personnel and departmental faculty. Prerequisites: Senior class status; overall 2.0 GPA. Graded on an S/U basis. Fulfills a general education practicum requirement.

**RSM 457, 458. Directed Readings**

Independent readings directed by members of the department faculty.

**RSM 460. Independent Study in Recreation**

An opportunity for independent investigation, readings, and/or research in a professional area of interest.

**Regional Studies**

**RS 211. Introduction to Regional Studies**

An introduction to the interdisciplinary study of place through its natural environment, society, and culture. Using the Blue Ridge region as a text, the course emphasizes experiential learning and comparison to other regions. Required for Regional Studies Minor. Fulfills the general education perspectives requirement.

**RS 261. Internship**

A field-learning experience based upon a proposal approved by the faculty advisor, project supervisor, and program coordinator.

**RS 327. Special Topics**

Options for students to study, according to their interests, a variety of topics not covered in regular courses.

**RS 460. Independent Study**

Independent reading and research based upon a proposal approved by the faculty director, and program coordinator. Prerequisites: RS 211 and RS 261.

**RS 461. Internship**

A field-learning experience based upon a proposal approved by the faculty advisor, project supervisor, and program coordinator. Proposed experience should enable students to apply previously attained knowledge and skills on an advanced level.

**Religion**

**REL 111. Bible: Introduction to Hebrew Scriptures**

Introduces academic Biblical studies focusing on the literary- and historical-critical study of the Hebrew Scriptures, otherwise known as the Old Testament and Jewish Apocrypha. Prerequisites: none. Required for majors. Meets Humanities Perspectives requirement. Offered every Fall.

**REL 112. Bible: Introduction to New Testament**

**REL 115. Religion: Search for Meaning**

Introduces the discipline of “Religious Studies,” also known as “The Study of Religion.” Students investigate the phenomenon of religion and the fundamental significance of the religious dimensions of human life that express the human experience of ultimate meaning. Prerequisites: none. Required for majors. Offered every Fall.

**REL 201. The Bible as Literature**

A literary-critical introduction to the sacred scriptures of Israel, Judaism and Christianity, focused on key narrative and literary complexes in the Bible. Students seek to understand the many genres of Biblical literature and to
consider how the narratives, images, and themes of Biblical literature have shaped the world. Meets Humanities Perspectives requirement. Offered every other Spring.

REL 203. Jesus  
A semester long study of Jesus of Nazareth, focusing on the significance of his life and teachings from the perspectives of historical, religious, theological, literary, and pop culture studies. Prerequisites: it is strongly suggested that students complete REL 112 before taking this course.

REL 235. Judaism  
This course introduces the distinctive history, literature, thought, beliefs and practices of Judaism. It presents the wide diversity of faithful Jewish expression, from earliest times depicted in the Old Testament, through the faith’s modern expressions. Meets Humanities Perspectives requirement.

REL 237. Religions in America  
This course traces themes and influences in American religion. In addition to investigating the variety of Christian movements in American history (from Puritans to contemporary denominations), the course examines other world religions (including Native American traditions) that are present on the American religious scene, and looks at the fuller pluralism that makes up “Religion in America” by using lenses of race, class, gender and other critical perspectives. Meets Humanities Perspectives requirement.

REL 240. Islam  
An introduction to the world of Islam, from its founding in Arabia in the 7th century C.E. to its present forms around the world. The course will include: the life of Mohammed; the early spread of Islam; the theologies and varieties of Islam (Sunnis, Shi’ites, Sufism); the teachings of the Qur’an, the Hadith and the Shar’iah; the relationships between religion and politics throughout Islamic history and cultures; contemporary Islamic movements; the practice of Islam; gender and culture in Islam; and relations and dialogue between Islam and other religious traditions. Meets Global Perspectives requirement.

REL 241. Hinduism and Buddhism  
An introduction to Hinduism and Buddhism, two “world religions” that were born in India. Focusing especially on the historical and geographical contexts of India, Nepal, and Thailand, we investigate philosophical, doctrinal and cultural issues in the history and present of these traditions. Meets Global Perspectives requirement.

REL 242. Confucianism, Taoism, and Zen  
This course introduces the historical, signature religions and philosophies of East Asia. Attention in the course will focus upon the historical, theological and cultural dimensions of each tradition, and how each tradition has not only shaped the countries where these religions have flourished, but how the traditions keep on influencing the larger world today. Meets Global Perspectives requirement.

REL 261. Internship  
A first-time student/agency-originated and departmentally approved field-learning experience which enables students to apply previously attained knowledge and skills and to attain certain specified new learning goals in a work-related environment.

REL 312. OT Studies  
An in-depth study of a special topic in the study of the Hebrew Scriptures, Apocrypha, or Pseudepigrapha. Prerequisite: REL 111.

REL 315. Youth Ministry  
An introduction to theories and practices of ministry with youth in the Christian tradition. Special consideration is given to: 1) philosophical and theological foundations for youth ministry; 2) psychological and social science research on the needs and challenges of adolescence; and 3) practical expressions of ministry with young people. Prerequisite: REL 115.

REL 320. The Ancient World  
Students and the professor will conduct critical historical inquiries into the societies, religions, and cultures of the major civilizations of the Ancient Mesopotamian, Near Eastern, and Mediterranean worlds, beginning with ancient Sumer and continuing as far as the birth of Islamic civilization in Late Antiquity. Cross-Listed as HIS 320. Offered every other Fall.

REL 322. NT Studies  
REL 327. Special Topics 1–3
Options for students to study, according to student and faculty interests. Courses will explore a variety of topics not covered in regular courses. Topic announced in advance by the department. Offered as announced by the department.

REL 331. Prodigal Sisters: Rabbinic Judaism & Early Christianity 3
This course examines the early history and origins of the “sister religions” Christianity and Rabbinic Judaism. We seek to understand how and why these once very closely related religions “parted ways,” and to explore the legacy of their mutual alienation. Prerequisites: REL 111 and REL 112, or permission of instructor.

REL 332. The Church from the Reformation to the Present 3
A survey of the Christian Church from the sixteenth century, tracing the main developments within the Roman Church and the emergence of the major Protestant denominations with emphasis on the free church tradition. Offered on demand.

REL 334. Contemporary Christian Thought 3
The roots of contemporary Christian thought, the basic theological issues today, and major theologians and their thoughts are studied. Prerequisite: REL 115.

REL 336. Women and Religion 3
This course explores autobiographical, critical, and creative work on the roles of women in the texts, histories, and theologies of the Christian tradition, and of the traditions of Judaism, Islam, and goddess religions. The tensions between traditions and women’s experience are examined, along with central issues such as religious language, conceptions of human and divine natures, diversity and sexuality. Meets Women’s Studies requirements. Meets Ideas and Innovations: World requirement.

REL 341. Christian Ethics 3
The basis for making ethical decisions is related to the different areas of life in which decisions are made.

REL 343. Religion in Appalachia 3
The nature, development, and practice of religion in its theological, ethical, and institutional dimensions within the context of Southern and Appalachian society and culture. Meets Regional Studies and Women’s Studies requirements. Meets Ideas and Innovations: US requirements.

REL 345. Answering Critics of Christianity 3
This course investigates historic challenges to the Christian religion—whether they be “rock throwers” or in a “lover’s quarrel” with the Christian faith—and explores theological responses to the most important critics of religion in general and of Christianity in particular. Prerequisite: REL 115.

REL 350. Research, Theory and Methods in Religion and Philosophy 3
This is a Junior Level seminar on classic theoretical and methodological problems associated with the study of religion and philosophy. It is open to any MHU student, but is required of all Religion Majors. Students develop and apply their skills in advanced undergraduate level research. Prerequisites: Junior standing, successful completion of ENG 112 or equivalent, and prior completion of at least 9 credit hours of courses in Religion, including both REL 115, and REL 111 or REL 112, or instructor permission. Cross listed as PHI 350. Completion of REL/PHI 350 is a prerequisite for REL/PHI 450. Offered every Spring.

REL 426. Social and Psychological Aspects of Religion 3
A seminar designed to review selected sociological and psychological theories of religion with attendant supporting data. Attention is given to the structure and function of religion at the individual, group, and societal levels with emphasis on the causes, patterns, and consequences of religious behavior for the individual and for society.

REL 437. Renaissance and Reformation 3
The Renaissance, the Reformation, and the development of modern states under absolution. Cross-listed as HIS 437.

REL 450. Religion Senior Seminar 3
Research and writing with the focus on textual or biblical, historical, and philosophical or theological studies. Cross listed as PHI 450. Prerequisites: REL/PHI 350 and Senior status. Offered Every Fall. Fulfills a general education practicum requirement.
REL 457, 458. Directed Readings
Independent readings directed by a member of the program faculty.

REL 460. Independent Study
An individual program of reading and research directed by a member of the program faculty and approved by the program coordinator and the college curriculum committee.

REL 461. Internship
Advanced internship possibilities. Work with LifeWorks Learning Partnership and with Religion/Philosophy Program.

Social Work

SW 200. Research Activity I
See SOC 200. Yearly.

SW 215. Introduction to Social Work Profession
An overview of the Generalist Practice Model, including social work as a profession, historical development of social welfare, value base of social work, and social welfare service delivery. Pre-professional course. Spring

SW 219. Social Research Methods

SW 300. Human Behavior and the Social Environment I
Integrates an ecological perspective with a general systems framework for analysis of the forces that affect individuals, families, groups, organizations, and communities. Focuses on developmental processes (biological, psychological, spiritual, and social) of the period from infancy through adolescence. Students learn to critically understand theories related to human development and behavior, and the course emphasizes the interdependence between people and the environment. Prerequisite: PSY 111, SW 215, SOC 111, or permission of instructor. Fall.

SW 317. Social Work Practice I
Builds on the Generalist Social Work practice model introduced in SW 215: Introduction to the Social Work Profession. Includes knowledge, values and skills associated with an empowering approach to generalist social work practice. Investigates phases and processes of this empowering approach with focus on application to diverse populations. Taken concurrently with SW 361. Prerequisite: Admission to program. Fall.

SW 321. Social Work Practice II
Investigates and applies the knowledge, skills and values relevant to ethical, research-informed social work practice with individuals, families and small groups. Uses an interactive ecosystems approach to the helping process including preliminary, beginning, work, and ending phases to develop skills in engagement, assessment, intervention and evaluation. Focuses on use of a strengths perspective and the resilience of diverse individuals, families and small groups within the context of their experiences with oppression and social injustice. Builds on the Generalist Social Work practice model introduced in SW 215: Introduction to Social Work and expanded in SW 317: Social Work Practice I. Prerequisite: SW 317. Spring.

SW 325. Social Work Practice III
Utilizes the Generalist Social Work practice model as a framework for social work practice with organizations and communities. Investigates and applies knowledge, skills and values relevant to effecting planned change within organizations and communities. Focus is on developing competence in engagement, assessment, planning, intervention and evaluation with macro systems. Prerequisite: SW 321. Fall.

SW 327. Special Topics
An opportunity for students to study, in depth, particular issues or programs in social work beyond the required courses. Topics such as case management and African-American families are periodically offered. Prerequisite: SW 215 or permission of instructor.

Explores social justice, social activism, and social change as fundamental concepts in the practice of social work within local and global contexts. Investigates knowledge, skills and values associated with advancing social justice through exploration of the work of historical and contemporary social justice champions with a particular
emphasize on women. Prepares students to act as informed, competent advocates to achieve social change. Spring. Fulfills the general education perspectives requirement.

**SW 332: Social Welfare Policy: Analysis and Advocacy**  
An advanced study of contemporary issues in American social welfare designed to develop independent skills in policy analysis. The effects of economic, political, and ideological pressures upon policies and issues in existing programs such as income maintenance, health, mental health and housing are examined with consideration of the role of the professional social worker. Prerequisite: SW 331 or permission of instructor. Fall.

**SW 335. Medical Social Work**  
The professional and institutional aspects of medical social work: roles, functions, and current practice issues in health care. Prerequisite: SW 215 or permission of instructor. As requested.

**SW 336. School Social Work**  
An elective course open to students interested in in-depth investigation of public school system and other models and multiple roles of social work practitioners working in this setting. Prerequisite: permission of instructor. Odd years.

**SW 340. Troubled Youth**  
Focus is on adolescent development and problems of transition within the family system. Basic concepts of family therapy are examined in relation to such problems as the adolescent runaway, juvenile delinquency, adolescents in stepfamilies, teenage pregnancy, eating disorders, and substance abuse. Prerequisite: Permission of instructor. As requested.

**SW 361. Junior Field Internship**  
Introductory social services placement to acquaint the student with the professional practice field of social work. Students take the internship concurrently with SW 317. Prerequisite: Cumulative GPA 2.20 or above and admission to the Social Work Program. Fall.

**SW 400W. Human Behavior and the Social Environment II**  
This course focuses on the stages of human growth and development (biological, psychological, spiritual, and social) of the human life span from adulthood through senescence. Students will learn to recognize and communicate their understanding of the importance of difference in shaping life experiences. Theoretical frameworks used by generalist social workers are infused throughout this course and provide understanding of persons in interaction with their social environment. Prerequisite: PSY 111, SW 215, SOC 111, or permission of instructor. Spring.

**SW 417. Death and Dying**  
See SOC 417. Even years.

**SW 457, 458. Directed Readings**  
Supervised readings in social work. Credit awarded upon satisfactory completion of an exit project. Students should submit a learning contract. Prerequisite: SW 215.

**SW 460. Independent Study**  
Advanced study in an area of social work chosen by the student with general direction and guidance from a faculty advisor. Credit awarded upon completing an original paper or report to be kept in the library. Student should make arrangements with the faculty advisor early in the semester before the independent study is to begin. Prerequisite: SW 215.

**SW 500. Senior Field Internship**  
A semester placement in a social service agency under supervision of approved agency personnel and college faculty members enabling the student to implement and integrate the knowledge, skills, and values of the classroom in a professional social work setting. Prerequisites: Completion of all required courses, a 2.20 overall grade point average, and approval of the field placement coordinator after consultation with the student’s faculty advisor. Fall and Spring. Fulfills a general education practicum requirement.

**Sociology**

**SOC 111. Introduction to Sociology**  
The sociological perspective is developed through understanding the basic concepts of culture and society, as well as introducing methods of sociological investigation and sociological theorists such as Marx, Durkheim,
Weber. This perspective is then used to explore global issues, social institutions, inequality, and social change. Fall/Spring. Fulfills the general education perspectives requirement.

**SOC 200. Research Activity I**  
Entry-level participation in ongoing research accompanied by regular seminars to discuss and analyze problems raised in the actual conduct of social scientific research. Prerequisite: Permission of instructor. Yearly.

**SOC 213. American and Appalachian Cultural Systems**  
The traditional rural culture of the Appalachian region examined in the context of social change and the dominant industrial American value system. On Demand.

**SOC 214. Class, Structure, and Power**  
Analysis of various patterns of social inequality with emphasis on theoretical and empirical investigations of class, race and gender in contemporary industrial societies. Prerequisite: SOC 111. Alternate years.

**SOC 216. Social Problems**  
Various social problems such as delinquency, drug addiction, and mental illness will be studied in the light of contemporary sociological perspectives on social problems. Prerequisite: SOC 111. Fall.

**SOC 219. Social Research Methods**  

**SOC 220. Behavioral Science Statistics**  
An introduction to statistical analysis, including descriptive statistics, probability distributions, sampling theory, statistical inference, and regression and correlation analysis. Prerequisite: a Social Science perspectives course.

**SOC 226. Sociology of the Family**  
The structure and function of the family in various types of society with emphasis on the family as a mediating structure between the individual and society. Prerequisite: SOC 111. Spring.

**SOC 261. Internship**  
An initial exploratory experience outside the classrooms. Designed to explore new ideas or supplement regular courses in the attainment of various competencies. Credit awarded upon successful completion of the internship as described in the student-originated and departmentally approved proposal. Prerequisite: Permission of internship advisor.

**SOC 300. Research Activity II**  
Mid-level participation in decision making in the design and conduct of ongoing research accompanied by regular seminars. Course may be repeated for up to a maximum of six semester hours credit. Prerequisites: SOC 200 and SOC 219 or PS 219 or BSS 220, or permission of instructor. Offered on demand.

**SOC 308. Social Psychology**  
See PSY 308. Spring.

**SOC 310. Social and Political Theory**  
Major trends in classical and contemporary theory with an emphasis on recurring fundamental concepts, problems and personalities. Prerequisite: SOC 111 or PS 111. Spring.

**SOC 319. Social Research Methods II**  
This course will extend and elaborate elements covered in Social Research Methods I with emphasis on skill development. Prerequisite: SOC 219 or equivalent. Offered on demand.

**SOC 327. Special Topics**  
Members of the faculty offer one or more special topic courses per year such as sociology of education, environmental sociology, attitudes, and demography. Further information may be obtained from the department office. Prerequisite: SOC 111. Not offered on a regular schedule.

**SOC 338. Sociology of Food & Eating**  
Explores ways in which food rituals connect individuals to their societies. Features of American food systems, trends of consumption (e.g., “McDonaldization”), and societal consequences are studied. The effects of social inequalities of class, gender, and race are examined, along with national and global political and economic issues connected with food. Prerequisite: SOC 111. Spring, odd numbered years.

**SOC 400. Research Activity**  
Advanced participation in planning, design and conduct of supervised research together with regular seminars to
discuss and analyze problems raised in the actual conduct of social scientific research. Student responsibility for leadership of task groups in the conduct of specified projects. Prerequisites: SOC 200 and SOC 219 or PS 219 or SOC 220, or permission of instructor.

**SOC 417. Death and Dying**  
3  
The phenomena of death and dying in the context of western culture. Issues of euthanasia, abortion, and suicide are examined as is the experience of the dying individual in relation to self, significant others, the family, and other care-providing institutions. The plight of widows and other survivors is also discussed. Prerequisite: SOC 111 or permission of instructor. Alternate years.

**SOC 457, 458. Directed Readings**  
3  
Supervised readings in sociology. Credit awarded upon satisfactory completion of examination at the end of the semester. Student should make arrangements with the supervising faculty early in the semester before the course is to begin. Prerequisite: Three courses in Sociology, one of which is a 300/400 level course.

**SOC 460. Independent Study**  
1–3  
Advanced study in an area of sociology selected by the student with general direction from a faculty advisor. Credit is awarded upon completion of an original paper. Student should make arrangements with the faculty advisor early in semester before independent study is to begin. Prerequisites: Three courses in sociology, one of which must be closely related to the area in which the independent study will be done.

**SOC 461. Internship**  
1–12  
Advanced, off-campus supervised internship in an agency or community setting during which the student applies knowledge and skills learned in the classroom. The internship is linked to a seminar that provides the opportunity to reflect upon the field experience and evaluate student performance. S/U credit is awarded upon the successful completion of the internship, as described in a student-generated proposal approved in advance of the internship by both the faculty internship supervisor and the participating agency or organization. Prerequisites: Completion of major courses in Sociology and senior standing. Yearly.

**SOC 470. Senior Seminar**  
3  
For general sociology students only, designed to summarize and synthesize their study in the field and give them an opportunity to conduct and present a research project in their area of interest. Prerequisites: Completion of the major courses in Sociology and senior standing. Fall. Fulfills a general education practicum requirement.

**Spanish**

**SPA 111. Basic Communication Skills in Spanish I**  
3  
Introduction to Hispanic culture and beginning development of Spanish oral, listening, reading and writing skills. Fulfills the general education perspectives requirement.

**SPA 112. Basic Communication Skills in Spanish II**  
3  
Continuation of skill development begun in Spanish I. Fulfills the general education perspectives requirement.

**SPA 211. Intermediate Spanish I**  
3  
A continuation of skills learned in SPA 112 with an introduction of more advanced grammatical concepts. There will be an increased emphasis on student production skills. Fulfills the general education perspectives requirement.

**SPA 212. Intermediate Spanish II**  
3  
Intensive review of skills in SPA 111, 112, and 211 with an introduction to the study of Hispanic literatures, cultures, and conversation in Spanish. SPA 212 is a prerequisite for SPA 260, 261, and all SPA courses at the 300 level and above. Prerequisite SPA 211 or placement exam. Fulfills the general education perspectives requirement.

**SPA 260. Business Spanish**  
3  
Business terms in Spanish: letters, memoranda, purchase orders, bills, and similar business documents. A presentation of cultural differences between business practices in the United States and Spain/Latin America with a particular focus on NAFTA, Mexico, and the United States. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

**SPA 261. Internship I**  
2–4  
See FRN 261.
SPA 311. Conversational Spanish  
Conversation within a cultural context. Development of critical thinking skills in spoken Spanish about contemporary issues and concerns. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor. Fulfills the general education perspectives requirement.

SPA 312. Intro to Spanish Phonetics and Phonology  
Review of Spanish structural and phonetic issues, with an emphasis on pronunciation, intonation and fluence, regional dialects and styles, and comparison to structure of the English language. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor. Fulfills the general education perspectives requirement.

SPA 313. Spanish Stylistics  
Review of Spanish grammatical structure, with an emphasis on written sentence structure and composition, and comparison of Spanish writing styles with those in English. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor. Fulfills the general education perspectives requirement.

SPA 314. Hispanic Cultures in Spanish  
Cultures of the Spanish-speaking world through readings, the use of “realia,” and class projects. Conducted in Spanish. Required for major and minor in Spanish. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor. Fulfills the general education perspectives requirement.

SPA 327. Special Topics  
See FRN 327.

SPA 330. Intro to Peninsular Spanish Literature:  
An introduction to genres, authors, and chronology of Spanish literature from the Medieval through modern periods. Masterworks from El Mio Cid through the Spanish Golden Age and the Age of Reason to 20th and 21st Centuries will be studied in a cultural and historical context. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 340. Topics in Peninsular Spanish Literature  
An intensive, thematic study of representative literary works from specific Spanish genres and authors. Such themes as Golden Age drama, Women Writers of Modern and Postmodern Spain, or From el Mio Cid to La Celestina will be explored. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 350. Intro to Latin American Literature  
An introduction to the genres, authors, and chronology of Latin American Literature from pre-Columbian literature through modern periods. Masterworks from Popol Vuh, through literature of the “encounter” and colonial periods to the 20th and 21st centuries will be studied in a cultural, regional, and historical context. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 360. Topics in Latin American Spanish  
An intensive, thematic study of representative literary work from specific Spanish genres and authors. Such themes as literature of the “Encuentro”, Latin American Colonial literature, Literature of the Romantic period, “Boom” literature, Women writers, and Modern and Postmodern Latin America will be explored. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 420. Directed Readings: Spain  
Potential topics in Spanish, include “Golden Age Drama,” “Cervantes and Don Quixote,” “Generation of ’98,” “Regional Literature of Spain,” “Post Civil War Spain,” “Readings on Religious Issues: From the Mystics to Liberation Theology,” “Women Writers of Spain.” Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 430. Directed Readings: Latin America  
Potential topics, in Spanish, include “Literature of the Encuentro,” “Boom Literature,” “Hispanic Literature and Culture in the US,” “20th Century Women Writers in Latin America,” “Indigenous Culture through Literature in Latin America,” “Literature of the ‘Other’.” Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 440. Directed Readings  
Independent readings directed by members of the modern foreign languages faculty and approved by Department Chair. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 450. Senior Seminar  
The Senior Seminar, a requirement for the Spanish major, is the capstone course and is designed to help the
student synthesize the various subjects studied throughout his/her career. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor. Fulfills a general education practicum requirement.

SPA 460. Independent Study
Independent in-depth investigation, reading and research about an approved topic. Department approval required. Taught in Spanish. Prerequisite: SPA 212 or permission of instructor.

SPA 470. Internship
See FRN 461

Theatre Arts

TA 100. Performance Ensemble
Options for students to participate, according to their interests, in a variety of theatre or musical theatre performing ensembles. Prerequisite: Audition or permission of the instructor.

TA 102. Performance Workshop
Options for students to participate in a Children’s Theatre production in a variety of roles: acting, design, production, or marketing. This course may be taken more than once.

TA 111. Theatre Laboratory
A laboratory course focusing each semester on different aspects of theatre production: sets, lights, costume, sound, properties, etc. Required of all theatre majors (including musical theatre majors) each semester in residence. May be repeated for up to 7 hours credit. This course will provide students the opportunity to meet minimum crew requirements as stated in the departmental handbook. See specific major/minor for requirements.

TA 112. Voice and Diction for the Actor I
Introduction to the rules of English diction including exercises in pronunciation, articulation, and transcription using the International Phonetic Alphabet (IPA). Two lab hours. Fall.

TA 113. Voice for the Actor II
Continued work on vocal production, resonance and pronunciation of consonants and vowels.

TA 117. Introduction to Theatre
A survey of theatre with an emphasis on dramatic forms, theatre history, a critical analysis of representative works, and the arts of production. Fulfills general education Perspectives requirement.

TA 121. Introduction to Technical Theatre
An introduction to the technical arts and skills of the theatre craftsman.

TA 130. Acting for Non-majors
An introduction to the art of acting designed specifically for the non-major. Fulfills general education Perspectives requirement.

TA 131. Acting I: Fundamentals
Fundamentals of acting with an emphasis on improvisation, theatre games, and stage movement.

TA 201. Dance for the Theatre – Ballet
A study of ballet preparing students for careers in theatre. Prerequisite: Permission of instructor.

TA 202. Dance for the Theatre – Jazz
A study of jazz preparing students for careers in theatre. Prerequisite: Permission of instructor.

TA 203. Dance for the Theatre – Modern
A study of modern dance preparing students for careers in theatre. Prerequisite: Permission of instructor.

TA 204. Dance for the Theatre – Tap
A study of tap dance preparing students for careers in theatre. Prerequisite: Permission of instructor.

TA 212. Voice for the Actor III
Using vocal production in the creation of character and the study of dialects.

**Description**: TA 221. Graphics for the Performing Arts: A study of the drawing and rendering techniques required for the theatre designer and technician, focusing on the development of skills in painting, drawing, and computer-aided design. Prerequisite: TA 121.

TA 231. Stage Movement and Pantomime: A study of a variety of stage movement techniques including basic tumbling, pantomime, stage combat and movement patterns and techniques associated with different styles of acting.

TA 261. Internship: An initial outside-the-classroom experience enabling students to explore new areas or to supplement regular courses. Department approval required.

TA 301. Theatre History and Literature I: A survey of theatre history and literature from early ritual to the Renaissance. Prerequisites: TA 117 and all general education communication skills requirements or permission of instructor.

TA 302. Theatre History and Literature II: A survey of theatre history and literature from the Renaissance to the modern period (Ibsen), including the origins and early development of Musical Theatre up to 1900. Prerequisites: TA 117 and all general education communication skills requirements or permission of instructor.

TA 303. Theatre History and Literature III: A survey of theatre history and literature of the modern period. Prerequisites: TA 117 and all general education communication skills requirements or permission of instructor.

TA 304. History of Musical Theatre: The development of Musical theatre from 1900 to the present. An analysis of forms and styles accompanies the study of representative works. Prerequisite: TA 117 and all general education communication skills requirements; permission of instructor.

TA 306. Musical Theatre Repertory I: Examination of musical theatre scores, accompanied by an analysis of audio and video recordings.

TA 307. Musical Theatre Repertory II: Continuation of material in 306.

TA 308. Advanced Theatre Dance: A continuation of study of the basic dance styles with emphasis on advanced steps and advanced choreography. Prerequisite: Successful completion of three of the following: TA 201, TA 202, TA 203, TA 204.

TA 310. Principles of Play Direction: An introduction to the principles of play direction. Prerequisite: Junior standing.

TA 321. Scene Design: Advanced work in the aesthetic elements and theories of scenic design with extensive laboratory experience in design renderings and scene painting. Prerequisites: TA 121, 221.

TA 322. Lighting Design: Advanced work in theories of lighting design with extensive implementation through use of lighting instruments and control systems. Prerequisites: TA 121, 221.

TA 323. Theory and Practice of Make-up Design: The design and implementation of corrective make-up, aging with paint, and non-realistic make-up. Prerequisites: TA 121, 221.

TA 324. Theory and Practice of Costume Design: An overview of the history of stage costumes, with an introduction to basic construction techniques. Prerequisites: TA 121.

TA 327. Special Topics: Options for students to study, according to their interests, a variety of topics not covered in regular courses. To be announced by the department.
TA 331. Acting II: Character Analysis and Development 3
A focus on creating and building a role primarily in realistic acting styles, including also the preparation of professional audition material. Prerequisites: TA 131; 212 or permission of instructor.

TA 401. Choreography Practicum 1
Practice in choreography by the designing of dances to be taught to beginning-level students.

TA 406. Musical Theatre Repertory III 1
A continuation of TA 306.

TA 407. Musical Theatre Repertory IV 1
A continuation of TA 307.

TA 410. Advanced Play Direction 3
A continuation of the study of the principles of play direction. Each student directs a fully-mounted production, usually a one-act play. Prerequisite: TA 310 and departmental approval.

TA 411. Senior Seminar 1
Required of all senior Theatre Arts, and Musical Theatre majors. The course will focus on the practical aspects of working in the theatre after graduation, including, but not limited to: application to graduate schools, resume development, photographs and job application. All students will complete competencies and crew assignments as outlined in the Theatre Arts Handbook. Fulfills a general education practicum requirement.

TA 412. Musical Theatre Performance: Putting It All Together 3
A study in specific areas of musical theatre performance, including topical revues, auditions, and musical scenes.

TA 413. Playwriting 3
Principles of structure and form in the building of a one-act play, culminating in the completion of a one-act script by each student.

TA 431. Acting III Styles 3
The study and performance of period acting styles, detailed character analysis, and preparation of professional audition material. Prerequisite: TA 131; 331; 212 or permission of instructor.

TA 432. Opera Workshop 3

TA 443. Summer Theatre Workshop or One High School Unit 3–6
A five-week workshop whose objective is to provide practical experience in theatre production to college students, elementary and secondary school teachers, and high school students. Workshop participants will observe and work with the Southern Appalachian Repertory Theatre on productions which are in progress.

TA 444. Summer Workshop for High School Teachers 3–6
A five-week workshop which meets daily. The work is organized according to the needs of the participants. Topics usually considered include problems involved in simplified production techniques with limited budget, directing principles and problems, basic principles of stage lighting, principles of stage make-up and problems of play selection and casting.

TA 457, 458. Directed Readings 1–3
Independent readings directed by members of the department faculty.

TA 460. Independent Study 3–6
A directed program of reading and research.

TA 461. Internship 3–12
A program of field work.

Women’s Studies

WS 200. Women in Society 3
An interdisciplinary course designed to introduce students to Women’s Studies as an academic discipline. As such, it analyzes cultural constructions of gender, race, class, and sexuality and explores the historical and
socio-cultural backgrounds for those constructions and their effects. Carries a significant writing component. Prerequisite: English 111. Fulfills the general education perspectives requirement.

**WS 457. Directed Readings**  
Independent readings directed by a member of the Women’s Studies faculty and approved by the program coordinator.

**WS 461. Internship**  
A student/agency-oriented field-learning experience that enables students to apply previously attained knowledge and skills. Must be approved by the program coordinator.
Mars Hill University Community

Board of Trustees

Management of the university is legally vested in the Board of Trustees, a self-perpetuating board elected by majority vote from nominees submitted by the Trusteeship Committee of the Board. The board delegates authority to the president of the university for the operation of the total college program in keeping with established procedures and policies, and the president is the official liaison between the university and the board.

The board approves all major policy decisions, adopts the official budgets of the university and passes on other major matters of college business. Much of the work is done through committees, but the full board has regularly scheduled meetings at least three times a year.

Board of Advisors

This board was established in 1967 by the Board of Trustees to assist the university in the achievement of long-range goals. By consulting with the president of the university and the trustees, advisors add variety, strength and experience to the administrative structure of the university. The board is comprised of interested persons — both alumni and friends of the university — of various Christian denominations and from several states. The board has been helpful in fund-raising, student recruitment, long-range planning, and general public relations. Its recommendations are channeled through the Board of Trustees, which remains the official policy-making body of the university.

Stefen O. Howard 1999
Assistant Professor of Computer Science
B.A., Guilford College, 1989; M.S., University of Tennessee at Knoxville, 1998; Clemson University, 2002-05.

Kerri Jamerson 2013
Instructor of Mathematics
B.S., Mars Hill College, 1998; M.S., Western Carolina University, 1999.

Brandon Johnson 2013
Instructor of English
B.A., Mars Hill College, 2010; M.A., Appalachian State University, 2012.

Brett Johnson 2012
Assistant Professor of Sociology
B.A., University of Northern Iowa, 1995; Ph.D., University of Colorado, 2004.

Danielle P. Jones 2008
Assistant Athletic Trainer, Clinical Education Coordinator
Amanda R. Knapp  
Assistant Professor of Chemistry  
B.S., Xavier University, 2006; Ph.D., The University of Akron, 2011.

Jonna M. Kwiatkowski  
Assistant Professor of Psychology  
B.A., Saint Mary’s College, 1994; Ph.D., University of Maine, 2002; Post-Doctorial Fellowship, Yale University, 2002-2004.

Scott T. Lowrey  
Associate Professor of Art  

Harold L. McDonald, Jr.  
Professor of English  

Colleen S. May  
Assistant Professor of Business  
B.S., Louisiana State University, 1974; M.E., University of South Alabama, 1979; Ed.D., University of Utah, 1988.

Katharine R. Meacham  
Professor of Philosophy  

Matthew R. Milnes  
Assistant Professor of Biology  
B.S., University of Florida, 1996; Ph.D., University of Florida, 2005.

Maria D. Moreno  
Assistant Professor of French  

Deborah R. Morris  
Associate Professor of Education  
B.S., Appalachian State University, 1975; M.A.Ed., University of North Carolina at Charlotte, 1976; Ed.S., Appalachian State University, 1988; Ph.D., University of South Carolina, 1997; M.T.S., Gordon-Conwell Theological Seminary, 2004; M.Ed, Sam Houston State University, 2008.

Marc S. Mullinax  
Associate Professor of Religion  

Philip B. Murray  
Associate Professor of Art  

Mark Neely  
Assistant Athletic Trainer and Instructor of Athletic Training  
B.S., Shenandoah University, 2001; M.S., Austin Peay State University, 2004.

Kathryn D. Newfont  
Associate Professor of History  

Meredith E. Newman  
Associate Professor of Chemistry  
B.S., Southern College of SDA, 1981; M.S., Clemson University, 1985; Ph.D., Clemson University, 1990.

Kellie E. Ottie  
Assistant Athletic Trainer and Athletic Training Education Program Director; Instructor of Athletic Training  

Scott Melton Pearson  
Dean of Mathematic and Natural Sciences Division; Professor of Biology  
B.S., Mars Hill College, 1984; M.S., University of Georgia, 1987; Ph.D., University of Georgia, 1991; Oak Ridge National Laboratory, 1991-93.

Laurie M. Pedersen  
Instructor of Sociology  

Joanna T. Pierce  
Associate Professor of English  
B.A., University of South Florida, 1993; M.A., University of Central Florida, 1997; Ph.D., University of South Carolina, 2000.

Joel Francis Reed  
Professor of Music  

Kimberly G. Reigle  
Assistant Professor of English  
B.S.N., Winston-Salem State University, 2000; M.A., Appalachian State University, 2005; Ph.D., University of North Carolina at Greensboro, 2010.

Jane Sibley Renfroe  
Associate Professor of Art  
Jennifer B. Rhinehart
Assistant Professor of Mathematics
B.S., Mars Hill College, 1997; M.S., North Carolina State University, 1999.

Gordon R. Roberts
Professor of Mathematics
Purdue University, 1982-84; M.S., Purdue University, 1984; Ph.D., Purdue University, 1988.

Michael L. Robinson
Director of Bands
B.M., Mars Hill College, 1977.

Andrea B. Rockel
Assistant Professor of Biology
B.S., Mars Hill College, 2002; Ph.D., Wake Forest University, 2008.

Donald Robert Russell
Professor of Mathematics
B.S., Clemson University, 1966; M.S., Clemson University, 1969; Ph.D., Clemson University, 1973; Memphis State University, 1981; Clemson University, 1982; James Madison University, 1983; Central Oklahoma State University, 1983, 1984.

H. Neil St. Clair
Professor of Theatre Arts

Richard C. Seagle, Jr.,
Assistant Professor of Theatre Arts

Robert Barry Sharpe
Associate Professor of Political Science
B.A., University of South Carolina, 1988; Ph.D., University of South Carolina, 1995; J.D., The University of Texas School of Law, 2002.
