The TEAS test is a national standardized test that provides assessment data regarding a student's overall academic preparedness for nursing related content. The TEAS was developed by Assessment Technologies Institute (ATI), and is a computerized test composed of multiple-choice questions organized into four sections, which measure reading ability, basic mathematics skills, science and English grammar.

There are a total of 170 multiple choice questions. The total test takes 209-minutes broken down into four assessment areas. The four areas are divided as follows:

Section Allowed	# of Questions
Reading	53 questions

6. How many times can I re-take the TEAS test?

The TEAS test can be taken up to three times in a calendar year. It is highly recommended that students wait at least 30 days before retaking the test for the second time. This gives students an opportunity to utilize the ATI resources for TEAS preparation.

7. When should I take the TEAS test?

Students are required to attend a nursing information session prior to taking the TEAS test. It is highly recommended that students take the TEAS test prior to applying to the Judge-McRae School of Nursing (JMSON).
